VIJAYAWADA

THE state government approved the establishment of a Private Mega Industrial Park by JSW Aluminium Ltd (now renamed JSW Industrial Park Ltd.) in Vizianagaram district, with an investment of Rs 531.36 crore and an employment potential of 45,000 persons.

The industries and commerce department issued orders on Tuesday, granting JSW permission to change

its line of activity from an aluminium refinery complex to a multi-sector MSME and industrial park on the already allocated 985.7 acre land. The total project will now cover 1,166.43 acre across Musidipalli, Cheedipalem, Chinakhandeapalli, MB Vara, and Kiltampalem villages of Shrugngavarapukota Mandal in Vizianagaram district.

The government has also approved the change of name from JSW Aluminium Ltd. to JSW Industrial Park

Ltd., and extended eligibility for incentives under the Industrial Development Policy (IDP) 2023-27.

JSW Industrial Park Ltd sought facilities under the AP Private Parks Policy (4.0), 2024-29, including

road and water connectivity, two 25 MW substations, removal of 273.74 acres from Section 22A for land allotment, royalty exemptions on site materials, water at Rs 25 per KL for 25 years, 50 per cent CAPEX reimbursement

for CETP and STP, and subsidies for green energy and rainwater harvesting systems.

These proposals were reviewed by the State Investment Promotion Committee (SIPC) on October 7, 2025, and subsequently approved by the State Investment Promotion Board (SIPB) at its meeting on October 8, 2025.

The government approved a Rs 3 lakh per acre capital subsidy for JSW Industrial Park, along with full exemptions on land conversion and related fees.

APIIC will manage infrastructure, water allocation, and project publicity, while GVMC provides interim water and the revenue department clears 273.74 acres for allotment.

The project is expected to boost industrialization in North Andhra, attracting MSMEs and large units to Vizianagaram.

Palle Panduga 2.0 to change rural landscape: Pawan

- Deputy CM urges officials to design Palle Panduga 2.0 to build on the success of its earlier phase and transform the state's rural landscape
- The review meet emphasised comprehensive plans for urban-level infrastructure in villages, focusing on roads, cattle shelters, and improved sanitation through magic drains

HANS NEWS SERVICE
MANGALAGIRI

DEPUTY Chief Minister Pawan Kalyan said that Palle Panduga 2.0 should be designed to sustain and build upon the success of the earlier phase of Palle Panduga, ensuring a complete transformation of the state's rural landscape.

Chairing a review meet-

ing with senior officials of the panchayat raj and rural development at his camp office on Tuesday, the Deputy CM reviewed preparations for the soon-to-be-launched Palle Panduga 2.0 initiative.

He directed officials to prepare comprehensive plans aimed at promoting urban-level infrastructure and facilities in villages. The review covered key focus areas such

as road development, new road construction, repair works, establishment of cattle shelters (Goshalas), and the creation of magic drains for improved sanitation. Senior officials including special chief secretary of Panchayati Raj and Rural Development, Shashi Bhushan Kumar, Commissioner Krishnateja, OSD Venkatakrishna, chief engineer (panchayat raj) Balu Nayak, and other senior officials participated in the review meeting. Deputy CM reiterated that Palle Panduga 2.0 should serve as a catalyst for a vibrant and self-reliant rural Andhra Pradesh, setting a benchmark for holistic rural development.

190 new 108 ambulances to replace old ones

Ambulance colours changed as per National Ambulance Code

HANS NEWS SERVICE
GUNTUR

THE state government is set to roll out 190 new 108 emergency ambulances across the state. This initiative will ensure that victims of road accidents and other emergencies are shifted to hospitals much faster than before.

According to the tender guidelines issued by the government, the new ambulances have been fully prepared and will soon be flagged off by Chief Minister N Chandrababu Naidu and health minister Y Satya Kumar Yadav.

The old, poorly maintained ambulances which frequently broke down and required repeated repairs will be replaced with these new vehicles. As a result, patients will receive medical attention within the crucial 'Golden Hour', Satya Kumar Yadav said in an official statement. Unlike in the past, the new ambulances have been painted in colors specified under the 'National Ambulance Code'. During the previous YSRCP regime, the maintenance of 108 emergency ambulances deteriorated severely.

After the coalition gov-

ernment assumed power, it awarded the 108 ambulance maintenance contract in April this year to Bhavya Health Services Pvt. Ltd., selected through a transparent tender process.

As per government regulations, the company spent about Rs.27 lakh per ambulance. The new fleet includes 56 advanced life support and 134 basic life support ambulances. The ALS ambulances are equipped with two ventilators and other critical medical devices, enabling the treatment of severely injured patients during transit.

The system is designed to ensure that emergency calls lead to hospital transfers within an hour, known as the 'Golden Hour'.

At present, 650 ambulances are operating across A.P. With the addition of new vehicles and the removal of outdated ones, the total operational fleet will now reach 731 ambulances.

Following the Central government's national ambulance code, the new fleet adopts a white and red colour scheme, which is now mandatory for all 108 emergency ambulances across the country.

Govt to re-register 2,180 acres under Kakinada SEZ to farmers

HANS NEWS SERVICE
VIJAYAWADA

THE state government has decided to re-register 2,180 acre land under the Kakinada Special Economic Zone (SEZ) without charging stamp and registration duties, benefiting over 1,550 farmers in the Tondangi and Uppada Kothapalli mandals along the Kakinada coast.

Deputy Chief Minister K Pawan Kalyan, who had promised during the last election to return the SEZ lands to farmers, took the

initiative to resolve this long-standing issue. He held discussions with Chief Minister N Chandrababu Naidu, following which the government approved the waiver of registration fees and stamp duty. "This move ensures that farmers regain their lands without any financial burden, fulfilling the promises made during the election," officials said.

The re-registration process will formalize land ownership, giving legal clarity and long-term security to the affected farmers.

Parakamani theft case back under scanner as CID steps in

CID officials seize crucial records in delayed probe following High Court rebuke

PRADEEP VENNELAKANTI
TIRUMALA

THE Crime Investigation Department (CID) has reopened the high-profile Parakamani theft case at the Srivari temple in Tirumala, following stern criticism from the AP High Court over the prolonged inaction on its earlier directives.

A special CID team headed by director general Ravi Shankar Ayyanar visited the temple's Parakamani (the counting centre for devotees' offerings) on Tuesday and began a fresh round of evidence collection. Investigators seized crucial documents, including files from the Tirumala I Town police station, Lok Adalat records, and resolutions passed by the Tirumala Tirupati Devasthanams (TTD) board concerning the theft.

Briefing the media, Ayyanar said the CID was acting strictly in accordance with the High Court's orders. "We have taken custody of all related documents, CCTV footage, and TTD board resolutions. The collected material will be presented to the High Court in a sealed cover," he stated.

The intensified inquiry comes after the court, led by Justice Gannamaneni Ramakrishna Prasad, expressed dissatisfaction with the delay in implementing its Sep-

CID DGP Ravi Shankar Ayyanar speaking to the media at a police guest house in Tirumala on Tuesday

tember 16 order. The bench questioned why the CID had waited until October 8 to seek a modification of the directive instead of acting promptly.

The case first surfaced in March 2023 when an employee of Jeeyar Mutt, C Ravi Kumar, was caught stealing about \$ 920 from the Parakamani. However, later CCTV footage uncovered that the theft was much larger, allegedly involving foreign currency worth over 11,300 dollars hidden in his clothing during a separate incident in April 2023.

Initially, the case was closed following a Lok Adalat settlement in September 2023, under which Ravi Kumar reportedly agreed to surrender seven of his properties, valued at approximately Rs 40 crore, to the TTD.

The board accepted the settlement and dropped the case, but a public petitioner challenged this move in the High Court, alleging that the compromise was irregular and

that a full investigation had been bypassed.

Responding to the court's directions, the CID has now seized all case-related materials, including those from the Lok Adalat. The agency had earlier also requested permission for a senior officer to oversee the seizure process, citing the absence of an Inspector General in the department. Meanwhile, TTD Trust Board member and BJP leader G Bhanu Prakash Reddy met Ayyanar on Tuesday and submitted documents and CCTV clips that he said could shed more light on the theft. He urged the CID to carry out an impartial investigation and ensure accountability at all levels.

"We have faith in the police and the judicial system. Those involved in looting Lord Venkateswara's wealth, whether they planned it or benefited from it, will soon face justice. This will be a victory for the devotees, Bhanu Prakash said.

TTD board members allege that Ravi Kumar may have misappropriated foreign currency over a prolonged period, amassing properties worth more than Rs 100 crore. The CID has taken charge of all pertinent evidence and is expected to present a comprehensive report to the High Court soon.

Excise minister inspects wine shop, verifies brands

- Ravindra verifies liquor authenticity and later holds a video conference with excise officials
- Accuses YSRCP leaders of spreading false propaganda, citing past incidents of fake liquor deaths under their rule, and highlights the NDA govt's transparent liquor policy reforms
- Warns against unauthorised belt shops, urges consumers to report suspicious activity, and vowed strict action against violators and those politicizing liquor-related issues

HANS NEWS SERVICE
VIJAYAWADA

PROHIBITION and excise minister Kollu Ravindra conducted a surprise inspection at a wine shop located on Sambamurthy Road here on Tuesday. He was accompanied by excise commissioner Ch Sridhar. During the visit, the minister verified liquor brands using the AP Excise

Suraksha app, which enables consumers to check whether a liquor brand is genuine or spurious. After completing the inspection, he held a review meeting with all excise officials and staff through video conference.

Speaking to the media later, Ravindra accused YSRCP leaders of attempting to defame the government by spreading false propaganda. He alleged that during the

Excise minister Kollu Ravindra verifying a liquor brand using the AP Excise Suraksha app at a wine shop in Vijayawada on Tuesday

previous YSRCP regime, several people had lost their lives due to the circulation of fake liquor. To prevent such incidents, the NDA coalition government introduced a new Liquor Policy and allotted wine shops in a transparent

manner, he said.

The minister said that one of the accused in the fake liquor scam, Janardhana Rao, had exposed the conspiracy behind the racket. Ravindra further criticised YSRCP leaders for linking unrelated

deaths to liquor cases, citing an example where a man who died of dehydration in Nellore was falsely associated with liquor consumption.

He assured that the government would probe every case thoroughly and take stern action against those involved, irrespective of their political or social background. Ravindra also warned wine shop owners against running unauthorized belt shops, cautioning that strict action would be taken against violators.

He urged consumers to buy liquor only from authorized outlets and to report any suspicious activity to excise officials. The Minister made it clear that those trying to politicize the fake liquor issue would not be spared.

Streamline urea distribution in rabi top priority: Agri director

- Manazir Jeelani Samoon, newly appointed director of agriculture, calls for smooth and transparent urea distribution for the upcoming rabi season
- Directs officials to enhance real-time monitoring of fertiliser stocks via the IFMS system and ensure RSKs are fully operational with verified access and biometric devices
- The director stresses adopting digital agriculture tools, precision farming, drone-based nano-fertiliser spraying, and strengthening FPOs to support farmers and improve data accuracy

HANS NEWS SERVICE

STREAMLINING the distribution of urea for the upcoming rabi season will be the top priority for the agriculture department, said newly-appointed director of agriculture, Dr Manazir Jeelani Samoon, after taking charge at the directorate of agriculture office in Mangalagiri on Tuesday.

Soon after taking charge, Dr Samoon held a comprehensive review meeting with additional directors, joint directors, and section heads to assess crop conditions, input availability — especially urea — and the status of ongoing Central and state agricultural schemes. He directed officials to prepare an action plan to ensure smooth and transparent urea distribution, prevent-

Director of agriculture Dr Manazir Jeelani Samoon addressing a meeting of additional directors, joint directors, and section heads at his office in Mangalagiri on Tuesday

ing the bottlenecks experienced during the previous season.

Dr Samoon reviewed the software system for urea distribution and instructed that real-time monitoring of fertilizer stocks through the IFMS system be strictly implemented. He emphasised

that Rythu Seva Kendras (RSKs) would play a key role in fertilizer supply, directing officials to verify login access, biometric devices, and operational readiness well before the Rabi season.

The meeting also discussed the Digital Agriculture Platform and the

implementation of applications like D-Krishi, e-Panta, AGILE, AP-AIMS 2.0, and APPS.

Dr Samoon stressed the need to adopt precision farming and drone-based spraying of nano-fertilizers and pesticides in selected pilot areas.

He underscored the importance of accurate crop area and yield data, directing that crop-cutting experiments under the Crop Insurance Scheme be conducted as per schedule. He also called for proactive measures to strengthen Farmer Producer Organizations (FPOs) and ensure that farmers face no inconvenience during procurement operations.

Officers from various wings of the department congratulated Dr. Samoon on assuming charge.

Google hub will generate ₹10,000 cr for AP: Pemmasani

NEW DELHI

THE upcoming 1-GW hyperscale Google Data Centre in Visakhapatnam is expected to generate approximately Rs 10,000 crore in revenue for Andhra Pradesh, Union minister of state for communications Pemmasani Chandrasekar said on Tuesday.

Describing the project as a defining milestone in Swarandhra Pradesh's journey of progress and self-reliance, the Union minister said that the investment of approximately 15 billion US dollars over five years

(2026-2030) will create 5,000-6,000 direct jobs and 20,000-30,000 total jobs in the state, while bringing essential manpower, infrastructure, power, and cooling facilities to Visakhapatnam, generating a significant multiplier effect on the state's economy.

The minister was interacting with the media after the announcement about setting up the artificial intelligence (AI) hub in Visakhapatnam, during the Bharat AI Shakti event held in New Delhi. The project will include India's first gigawatt-scale data centre and Google's first AI hub in India.
