Dheekshith Shetty: 'The Girlfriend' is the best film of my career

National crush Rashmika Mandanna and talented actor Dheekshith Shetty are uniting for the emotional love story 'The Girlfriend,' directed by Rahul Ravindran and produced by Dheeraj Mogilineni and Vidya Koppineedi under Geetha Arts and Dheeraj Mogilineni Entertainment, with presentation by Allu Aravind. The film releases in Hindi and Telugu on November 7, followed by Tamil, Malayalam, and Kannada versions on November 14.

In an exclusive conversation, Dheekshith opened up about his journey, chemistry with Rashmika, and why 'The Girlfriend' holds a special place in his heart.

"After 'Dasara,' this was the next major opportunity that came my way," Dheekshith began. "Director Rahul

Ravindran approached me for 'The Girlfriend.' He told me Rashmika was playing the female lead and wanted me as the boyfriend. He had watched my Dasara interviews and felt I would fit perfectly. Once I read the script, I knew exactly why. Stories like 'The Girlfriend' are rare—that's why I had to do it."

Talking about his director's clarity, Dheekshith said, "Rahul had a very clear vision of how the character of Vikram should be—his behaviour, body language, even his tone. Because of that, it was easier to perform. Vikram has many layers. Some may think he's a toxic boyfriend after watching the trailer, but Rahul made sure he didn't come across as negative. Coming from a stage and film school background, I prepared deeply. For me, a film must connect personally through its story—that's what matters most."

Reflecting on the film's message, he added, "Usually, love stories are told in a certain way, but 'The Girlfriend' explores romance from a fresh perspective. It's not just entertainment—it lingers long after you leave the theater. Larger-than-life films are fun, but this one feels real.

Rashmika even said that if she had watched a film like this years ago, her outlook on life would have changed. I believe audiences between 18 and 25 will find something meaningful in it."

Praising his co-star, Dheekshith shared, "After watching Rashmika's performance, I genuinely felt no one else could have done justice to Bhuma's character. Even when 'Anima' became a blockbuster during our shoot, she stayed grounded and approachable. You won't see Rashmika—you'll see Bhuma."

On the film's appeal, he said, "This isn't just for youth—families will relate too. It explores emotions and forms of toxicity we don't usually talk about. Rahul Ravindran is a kind director who brings out the best in everyone."

'Krishna Leela': Story is the hero

Young actor Devan takes on a double responsibility as both hero and director in the upcoming supernatural love story 'Krishna Leela,' which carries the intriguing tagline 'Trigochina Kaalam.' Starring Dhanya Balakrishnan as the female lead, the film is produced by Jyotsna Ji under Mahasen Visuals and presented by Baby Vaishnavi. With story and dialogues by Anil Kiran Kumar Ji, 'Krishna Leela' is set for a grand release on November 7. The film's teaser and trailer have already received an enthusiastic response from audiences.

Recalling how the journey began, Devan shared, "I was working as a software engineer while trying to make my mark

in films and had already acted in two movies. When I was waiting for new opportunities, producer Jyotsna Ji and writer Anil narrated this story to me. After listening to it for a week, I made some changes to suit today's generation and gave it a unique screenplay. They instantly loved the idea."

When it came to choosing a director, Devan took everyone by surprise. "Though I had no prior experience in direction, I've always had a strong understanding of story and screenplay," he said. "With that confidence, I approached DOP Chota K Naidu garu. After listening to the story, he was very impressed and promised his full support. That's how 'Krishna Leela' came to life."

Explaining the film's concept, Devan said, "Krishna Leela' means Time Returned. Leela means play—it's about how Krishna plays a love story. Man cannot bring back time, but what if time itself returns with divine power? That's the

essence of our story, presented in an intriguing way." The actor-director added that the film carries deep philosophical undertones. "Every action has destiny. Everyone we meet in this life has a past connection with us. The Bhagavad Gita teaches us to love them without expectation. We've tried to depict that beautifully through this story," he explained. On incorporating Krishna's philosophy, Devan shared, "It's a vast subject. I often listened to Gangadhar Shastri's lectures and even consulted him during script development. He clarified my doubts and helped me bring depth to the story. What we visualized on paper has come alive with honesty and emotion."
