### NASA Artemis II launch put off to March

WASHINGTON: NASA has pushed back the Artemis II mission launch from February to March following technical hurdles during a critical wet dress rehearsal (WDR) of its Space Launch System (SLS) rocket, Administrator Jared Isaacman announced on Tuesday. "With the conclusion of the wet dress rehearsal on Tuesday, we are moving off the February launch window and targeting March for the earliest possible launch of Artemis II," he posted on X. With the conclusion of the wet dress rehearsal today, we are moving off the February launch window and targeting March for the earliest possible launch of Artemis II. The test, conducted at Kennedy Space Center in Florida, successfully filled the core stage and interim cryogenic propulsion stage tanks with liquid hydrogen and oxygen. However, teams paused operations multiple times to address a liquid hydrogen leak at a core stage interface, requiring hardware warming and propellant flow adjustments.

## 'INDIA GOT BEST DEAL'

HANS NEWS SERVICE  
NEW DELHI

UNION Commerce Minister Piyush Goyal on Tuesday hailed the India-US trade agreement as a "tremendous opportunity" for the country, calling it "the best deal" New Delhi has secured compared to its neighbours.

Addressing a press conference a day after the agreement was announced, Goyal said, "This is the best deal India has received. It is a deal for all of us, bringing positive signals for the bright future of our citizens."

Goyal credited Prime Minister Narendra Modi's leadership and his rapport with US President Donald Trump saying, "We all know that the Prime Minister, leveraging his friendly relationship and close ties with President Trump, has finalised a trade deal with the United States of America that is the best deal India has received compared to all our neighbours, all the surrounding countries, and all the countries that compete with us."

The minister criticised LoP Rahul Gandhi over claims that PM Modi had accepted the India-US trade deal under pressure. "Rahul Gandhi wants to mislead the public, he does not care about India's progress," the minister said.

Union Commerce Minister Piyush Goyal addressing the media on the progress of the India-US trade deal in New Delhi on Tuesday

### ...in final stages: Goyal

#### Sheds few details on India-US pact amid unanswered questions

NEW DELHI: Union Commerce Minister Piyush Goyal appeared on TV on Tuesday evening, purportedly to share some details and clear the air around the India-US trade deal but mainly heaped praises on the agreement. And then he said the final bits are still being worked out. The

deal will be formally inked thereafter. "Today, 140 crore Indians are celebrating a trade deal which is under final stages of detailing between the negotiating teams of both countries," Goyal said, hailing the "friendship" between PM Modi and US President Trump. Continued on Page 7

### India-US trade deal is a big decision: PM

NEW DELHI: Prime Minister Narendra Modi on Tuesday said the India-US trade deal is a "big decision" that will benefit everyone in the country and asserted that his government always works in favour of the nation. The Prime Minister made these remarks at the meeting of the NDA Parliamentary Party, coalition MPs present at the meeting said. NDA coalition members congratulated Modi for the trade deals with the EU and the US. India and the US have agreed to a trade deal under which Washington will bring down the reciprocal tariff on Indian goods to 18 per cent from a total 50 per cent.

#### India pledged zero-tariff barriers in US deal: Trump

WASHINGTON: US President Donald Trump has announced the US-India trade deal, pledging to slash tariffs on Indian goods to 18 per cent from 25 per cent, bringing an end to months of uncertainty. Continued on Page 7

### Naidu calls US trade pact historic

#### HAILS PM MODI FOR VISIONARY APPROACH

HANS NEWS SERVICE

AMARAVATI: Chief Minister N Chandrababu Naidu on Tuesday described the trade agreement between India and the United States as a historic milestone for global economic stability and growth.

In a post on X, the Chief Minister congratulated Prime Minister Narendra Modi on signing the landmark agreement with the United States. He said the deal reflected India's growing stature in the global economic arena under Modi's leadership.

Naidu stated that the decision to reduce tariffs to 18 percent would further strengthen ties between the world's two largest democracies. He noted that the move would deepen economic co-operation and promote long-term mutual prosperity.

Calling the agreement a visionary step, the Chief Minister said it was aimed at ensuring sustained global growth and enhancing India's competitiveness in international markets.

### Turkey ready to host high-stakes US-Iran talks

ISTANBUL: Turkey is preparing to host high-level talks between the United States and Iran in Istanbul this Friday, marking a significant diplomatic effort to ease escalating tensions between the two powers. The discussions are expected to be led by the US special envoy Steve Witkoff and Iran's Foreign Minister Abbas Araghchi, with Turkey playing a central mediating role-Bloomberg reported. According to Turkish officials, the priority of the planned Istanbul meetings is to de-escalate tensions and avoid conflict, as relations between Washington and Tehran have deteriorated in recent months. Several nations, including Pakistan, Saudi Arabia, Qatar, Egypt, Oman, and the United Arab Emirates, have been invited to participate, possibly at the foreign minister level, underlining the broader regional effort to stabilise the situation.

### India-US trade deal being 'papered': Greer

WASHINGTON: Day after announcing a trade deal between India and the US, the Trump administration has stated that the exact details of the deal are still being "papered". In an interview on Tuesday, US Trade Representative Jamieson Greer said the details and specifics of the deal are in place but it still being finalised. "We'll finish papering it, but we know the specifics, we know the details," Greer said, adding that India is maintaining some protection around agricultural goods. He echoed Union Commerce Minister Piyush Goyal comments on the trade deal between India and the US in New Delhi. The minister stated that the deal is in its final stages.

## Eight Oppn MPs suspended from LS for 'unruly behaviour'

NEW DELHI

IN escalation of the tussle between the government and the Opposition, seven Congress members and one CPI-M MP were suspended from the Lok Sabha on Tuesday for 'unruly behaviour' after they tore papers and threw them at the Chair. Their suspension from the House for the remaining part of the Budget Session that concludes on April 2 will intensify the face-off with the government

over various issues, including Leader of Opposition Rahul Gandhi being denied an opportunity to cite an article based on excerpts from an unpublished 'memoir' of former Army Chief M M Naravane on India-China conflict of 2020. The Opposition has also raised concerns about American President Donald Trump announcing the India-US trade deal. As soon as the House met at 3 pm following multiple adjournments, Dilip Saikia,

who was in the Chair, named the eight Oppn members. Subsequently, Parliamentary Affairs Minister Kiren Rijiju read out a resolution seeking suspension of the eight members for the remaining period of the Budget Session. The suspended members are Gurjeet Singh Aujla, Hibi Eden, C Kiran Kumar Reddy, Amarinder Singh Raja Warring, Manickam Tagore, Prashant Padole and Dean Kuriakose (all Congress) and S Ventakesan (CPI-M).

## You can't play with right to privacy of this country: SC

### Tells WhatsApp, Meta to 'exit India if you can't abide by the rule of the land'

NEW DELHI

THE Supreme Court on Tuesday told WhatsApp's parent company Meta that it should leave India if it cannot follow the Constitution and protect users' data privacy.

The court was hearing Meta's plea against a Competition Commission of India (CCI) order that imposed a penalty of Rs 213.14 crore over WhatsApp's privacy policy. A Bench of Chief Justice of India Surya Kant and Justices Joymla

Bagchi and Vipul Pancholi made it clear that "not a single digit" of user data should be shared if it goes against the public interest.

According to a report by Bar and Bench, the top court also questioned the lack of a clear option for users to opt out of WhatsApp's privacy policy. "Where is the question of opting out? Show me on your mobile. This is a decent way of committing theft of private information! You know your commercial interest, and you also know how you have made

consumers addicted to the app," it said.

"Everybody uses it. If the users have a right to opt-out, how will the users know this right exists? Let us see

the option and the situation with the user. When it comes to opting out, the information is in a newspaper. How will a person know?" the Chief Justice asked the

Meta representative. CJI Kant said, "You can't play with the right of privacy of this country, in the name of data sharing. You are making a mockery of the constitutionalism of this country. How can you play with the right to privacy of people like this? People pay you for this. Consumer has no choice you have created a monopoly!"

The Bench suggested that WhatsApp file an affidavit explaining its privacy policy and how data sharing works under it. The court

adjourned the hearing till February 9 and added the Central government as a party to the case.

"For the purpose of issuing interim directions, post the matter for next Monday. On the joint request made by senior counsel, the Union of India is impleaded as a respondent. Union may also file its counter affidavit," the court said. In January 2021, WhatsApp announced updates to its terms of service and privacy policy, to be effective from February 8, 2021. Users were told they

must accept the new terms to continue using the app.

Earlier, WhatsApp's 2016 privacy policy allowed users to opt out of data sharing with Facebook. The 2021 update made data sharing with Meta mandatory.

The CCI investigated the matter and in November 2024 ruled that WhatsApp had abused its dominant position under the Competition Act, 2002. It ordered WhatsApp to stop sharing user data with Meta and its products for five years and imposed the fine.

# Five Eagle teams to curb drug menace in EG dist

- The teams have been provided with two-wheelers to ensure swift mobility and effective monitoring

- For the first time in the State, one Eagle team has been allotted to each sub-division

SP D Narasimha Kishore addressing newly formed teams in Rajamahendravaram on Tuesday

EAST Godavari district Superintendent of Police D Narasimha Kishore on Tuesday said that five special Eagle (Elite Anti-Ganja Law Enforcement) teams have been constituted in the district to intensify surveillance against narcotics. Each Eagle team comprises one in-charge officer and three staff members. For the first time in the State, one Eagle team has been allotted to each sub-division, making East Godavari the pioneer district in implementing the sub-division-wise model, the SP said.

Addressing a meeting held to brief the newly formed teams, Narasimha

Kishore said the Eagle personnel would move in plain clothes, mingling with the general public, while maintaining constant watch on drug trafficking, sale, and consumption. The teams have been provided with two-wheelers to ensure swift mobility and effective monitoring. Cautioning the youth, the SP said

that even a single case related to ganja or narcotics could have long-term consequences on one's life. He said that such cases could affect prospects of obtaining passports, visas, jobs and NOCs. The public was urged to share any information related to narcotics by contacting the local police station or by dialling 112 or 1972.

## Jagan to console Ambati's family today

HANS NEWS SERVICE  
GUNTUR

YSRCP chief YS Jagan Mohan Reddy will visit Guntur city on Wednesday to console the family members of former minister Ambati Ramababu, who is in judicial custody in Rajahmundry Central Jail in connection with a case for his derogatory remarks against Chief Minister N Chandrababu Naidu. TDP activists attacked his house and office at Navabharat Nagar and damaged his office furniture. YSRCP leaders condemned his arrest.

Jagan will console his family members and extend his support. He already enquired about Rambabu's arrest. YSRCP state general secretary Sajjala Rama Kishna Reddy, former MP Modugula Venugopala Reddy visited Rambabu's house and consoled his family members.

Meanwhile, the police registered the case against the TDP activists who attacked Rambabu's house and party office and burnt his car. Responding to the complaint lodged by Rambabu, the police registered the case. Following the orders of the AP High Court, the police set up pickets at his house to provide security to his family members.

## JSP alleges police failure in Ambati controversy

HANS NEWS SERVICE  
GUNTUR

ALLEGING that there was a clear failure of the police in the Ambati Rambabu controversy, JSP state general secretary Bonaboyina Srinivasa Yadav said that the police are bringing a bad name to the coalition government.

Speaking to the media here on Tuesday, he said due to the negligence of the Nallapadu CI, a tense situation prevailed at the Chillis Centre. He stated that Ambati should have been diverted through an alternative route from the Gorantla Venkateswara Swamy temple, and questioned why the Nallapadu CI failed

to do so. When so many people were gathering near Ambati's residence, he questioned what the Pattabhipuram CI was doing. He remarked that because of the mistakes committed by the police, others are being forced to face punishment.

He said that they had already gone around courts while in the opposition, and now even while in power, cases are being booked against them. He warned that a complaint will be lodged with higher officials over the negligence of the police. He also alleged that due to the Ambati Rambabu controversy, the real culprits in the adulterated ghee case have managed to escape.

# Union Budget reinforces infrastructure-led growth: CMA

- The Cement Manufacturers' Association (CMA) welcomes the Union Budget 2026-27

- Public capital expenditure has been increased from Rs 11.2 lakh crore in 2025-26 to Rs 12.2 lakh crore

HANS NEWS SERVICE  
VIJAYAWADA

THE Cement Manufacturers' Association (CMA) on Tuesday welcomed the Union Budget 2026-27, stating that it strongly reinforces infrastructure-led growth while balancing inclusivity and economic stability in line with the vision of Prime Minister Narendra Modi for a Viksit Bharat by 2047 and Atmanirbharta.

The Budget highlights India's steady economic progress over the last 12 years through fiscal discipline, sustained growth and moderate inflation, providing strong demand visibility for infrastructure-linked

sectors such as cement. Public capital expenditure has been increased from Rs 11.2 lakh crore in 2025-26 to Rs 12.2 lakh crore in 2026-27, reaffirming infrastructure as a key driver of economic expansion and offering long-term growth prospects for the cement industry.

The CMA said that the focus on Tier-2 and Tier-3 cities and the creation of city economic regions (CERs), with an allocation of Rs 5,000 crore per CER over five years, is expected to accelerate construction across housing, transport and urban services, thereby supporting broad-based cement consumption.

The Budget's logistics and connectivity initiatives—including new dedicated freight corridors, expansion of National Waterways, promotion of coastal cargo, and development of ship repair ecosystems—are expected to improve freight efficiency, reduce logistics costs and enhance the sector's carbon footprint. The announcement of seven high-

speed rail corridors is also likely to spur regional development and construction demand.

CMA president Parth Jindal said the Budget's emphasis on manufacturing competitiveness, urban development and infrastructure modernisation, supported by wide-ranging reforms, would strengthen the investment climate for capital-intensive sectors like cement.

He also highlighted the Rs 20,000 crore allocation for Carbon Capture, Utilisation and Storage (CCUS) as a transformative step for decarbonisation in emissions-intensive industries.

CMA Vice-president Dr Raghavpat Singhania said the sustained infrastructure push would support employment, regional development and inclusive growth, while reaffirming the industry's commitment to partnering with the government in building resilient and sustainable infrastructure for long-term national development.

# Ministers inspect Tenali hospital

HANS NEWS SERVICE  
GUNTUR

MINISTER for Medical and Health Y Satyakumar Yadav along with minister for Civil Supplies Dr Nandendla Manohar on Tuesday inspected the Tenali District Hospital on Tuesday. During the visit, they inspected various departments and laboratories of the hospital and reviewed the medical services being provided as well as the status of infrastructure facilities.

They interacted with patients undergoing treatment and enquired about the quality of medical

Ministers Y Satya Kumar Yadav and Dr Nandendla Manohar inspecting Tenali District Hospital on Tuesday

care, availability of facilities, and benefits received under government health schemes. Speaking on this occasion, they emphasised the need for continuous improvements to ensure better quality and people-friendly healthcare services.

Later, they inspected the site allotted for the newly sanctioned Trauma Care Centre and held discussions with officials regarding the proposed works. They stated that the Trauma Care Centre would play

a crucial role in providing timely and efficient emergency medical services to the people of the Tenali region, reiterating that public health protection is the government's top priority. They appreciated the midwifery staff for their dedicated support in promoting and conducting normal deliveries.

Medical and Health Department Secretary Saurabh Gaur, Guntur district collector A Theameen Ansariya, Tenali municipal commissioner J Rama Appala Naidu, district hospitals coordinator Dr Rangarao, and other officials were present during the visit.

# Pattadar passbooks distributed to landowners

• NTR district Special Officer and Chief Commissioner of Land Administration (CCLA) G Jayalakshmi takes part in Revenue Grama Sabha

• Pattadar passbooks were handed over to landowners in villages where the re-survey process has been completed

• “Farmers can now access land details on their mobile phones without having to visit government offices”

HANS NEWS SERVICE  
VIJAYAWADA

THE State government is re-shaping the land administration system to make it more transparent and farmer-friendly by leveraging modern technology, said NTR district Special Officer and Chief Commissioner of Land Administration (CCLA) G Jayalakshmi. She said land ownership documents and Pattadar passbooks are being issued with the State emblem to ensure authenticity and curb land-related disputes. She was speaking at a

CCLA and NTR district Special Officer G Jayalakshmi distributing QR-coded Pattadar passbooks to landowners at Gurrajupalam in the presence of District Collector Dr G Lakshmisha and officials on Tuesday

Revenue Grama Sabha held at Gurrajupalam village of G Konduru mandal within NTR district on Tuesday. She participated in the programme along with NTR District Collector Dr G Lakshmisha, Joint Collector S Ilakkiya, officials, and

local public representatives. As part of the distribution programme under the AP Re-survey Project, Pattadar passbooks were handed over to landowners in villages where the re-survey process has been completed. Addressing the gather-

ing, she said digitisation of land records and technological upgradation would put a check on land disputes while enabling faster and more efficient services for farmers. In line with the directions of the Chief Minister, new Pattadar passbooks embed-

ded with QR codes are being issued, she said. She added that steps have been taken to ensure speedy delivery of revenue services, including delegation of certain powers to Tahsildars and RDOs.

Jayalakshmi said farmers can now access land details using their mobile phones without having to visit government offices. To ensure quick resolution of land-related issues and grievances, Revenue Clinics are being organised every Monday at the district level, she added.

District collector Dr G Lakshmisha said villages are being made dispute-free through the issuance of new Pattadar passbooks with State emblem, integrated with satellite technology and geo-codes. These passbooks would help prevent land frauds, including boundary manipulations, and ensure accuracy even during natural calamities, he explained. He added that land data is securely stored in data centres, enabling farmers to avail revenue service swiftly and transparently, Vijayawada RDO Kavuri Chaitanya, other officials, local public representatives and villagers were present.

## MLA lays stone for works worth Rs 4.36 cr

- Government Whip and Gannavaram MLA Yarlagadda Venkata Rao lays the stone
- Merging the villages with VMC will ensure better civic amenities and sustained development

HANS NEWS SERVICE  
VIJAYAWADA

Government Whip and Gannavaram MLA Yarlagadda Venkata Rao laying the foundation stone at Nunna on Tuesday

GOVERNMENT Whip and Gannavaram MLA Yarlagadda Venkata Rao on Tuesday advocated the merger of Ramavarappadu, Prasadampadu, Enikepadu, Nidamanuru, Gudavalli, Nunna, Pathapadu, P Nainavaram, and Ambapuram in Vijayawada Rural mandal with the Vijayawada Municipal Corporation (VMC).

He launched development works worth Rs 4.36 crore at Nunna village in Vijayawada Rural mandal of NTR district on Tuesday. The works include Rs 2.36 crore for the development of the Nunna bypass road from Mango Market to Ramachandrapalem Crossroad and Rs 2 crore for road works from Power Grid to Ramachandrapalem Crossroad on the Vijayawada-Nuzvid road.

Speaking to the media, he expressed concern that adequate funds were available when these nine villages were part of the erstwhile Krishna

district, but after the formation of NTR district, fund shortages had stalled development. He said merging the villages with VMC would ensure better civic amenities and sustained development. He reiterated the need to merge the nine Vijayawada Rural villages into VMC and said he would bring the issue to the notice of Chief Minister N Chandrababu Naidu during the upcoming Assembly sessions.

Addressing fears that taxes would increase after the merger, Yarlagadda clarified that such apprehensions were unfounded, as uniform tax structures were already being implemented across the APCRD region. The MLA also said a request had been made to sanction another Rs

4.5 crore for the expansion of Nunna Centre and expressed confidence that the funds would be released soon. Yarlagadda said that the road width at Nunna Centre was currently only 30 to 35 feet, causing daily inconvenience to thousands of commuters, and said the goal was to widen it to 80 to 90 feet.

Nunna PACS President Kalakoti Srinivas Reddy, Director Gampa Srinivas Yadav, Nagarjuna Sagar Left Canal Project Nunna Distributary Committee Chairman Pamarthi Srinivasa Rao, TDP Vijayawada Rural President Gaddala China Rama Rao, Panchayat Secretary Kota Suresh Babu, R & B Executive Engineer R Satyanarayana, AEE Sashibhushan, and others were present.

## Man murdered in drunken brawl

HANS NEWS SERVICE  
VIJAYAWADA

A man was murdered in a drunken altercation at the Tarapet South Booking area of Vijayawada Railway Station on Tuesday. The deceased was identified as Sai, while the accused was named as Ram.

According to police sources, the confrontation erupted between the two friends over a dispute while under the influence of alcohol. Ram has been taken into police custody. The accused reportedly has a criminal record comprising 15 cases, including a decoy-related case registered at Krishna Lanka Police Station. The investigation into the incident is being led by GRP CI JV Ramana and RPF CI Fathe Ali Baig, who are examining the circumstances leading to the deadly altercation. Police have assured strict action and said the matter is being probed thoroughly to determine all aspects of the case.

## SRM-AP, JKSH sign MoU to drive green hydrogen innovation

- A Centre of Excellence in hydrogen technologies will be established at SRM-AP
- Govt has already launched AP Green Hydrogen Valley in that direction

HANS NEWS SERVICE  
AMARAVATI

JK Sirvatava Hynfra founder-chairman JK Srivastava and SRM University Registrar Dr R Prem Kumar exchanging MoU in Vijayawada on Tuesday

SRM University-AP signed a Memorandum of Understanding (MoU) with JK Srivastava Hynfra to strengthen green hydrogen research and innovation, aligned with AP's goal to become India's Green Hydrogen Hub by 2030. This initiative falls under the AP's 2030 goal of producing 1.5 MMTPA of green hydrogen.

Prof D Narayana Rao, Executive Director (Research) and Member Secretary of AP Green Hydrogen Valley,

presented a comprehensive overview of the envisioned objectives of the Green Hydrogen Valley-AP and the Centre of Excellence for Hydrogen Technologies. Highlighting the State Government's Integrated Clean Energy (ICE) policy, Dr Kamalakara Babu, VC and MD of NREDCAP, emphasised

that the Chief Minister is steering AP towards achieving net-zero emissions by 2047. JK Srivastava, founder-chairman of JK Srivastava Hynfra, said that SRM AP's Green Hydrogen Summit strongly aligned with AP's visionary leadership. Leveraging its vast coastline, the state targets exporting 500,000

tonnes of green ammonia to Europe by 2029.

It may be recalled that the JK Srivastava Group, in partnership with Hynfra, has made a landmark investment of Rs 35,000 crore to establish a green ammonia industry near Mulapeta, Srikakulam, operational by 2029. Against this backdrop, SRM-AP's collaboration with JK Srivastava Hynfra will catalyse cutting-edge research, and nurture future-ready talent in hydrogen technologies.

Pankaj Srivastava, Director, JK Srivastava Hynfra PSA Ltd, Dr R Prem Kumar, Registrar, SRM-AP, Prof Ranjit Thapa, Dean-Research, Prof GS Vinod Kumar, Associate Dean and Professor, and Dr Pardha Saradhi Maram, Convenor of Green Hydrogen Summit 2025 and Associate Professor, SRM University-AP, were also present.

## VMC officials told to work in coordination

VMC Commissioner Dhyanaachandra HM

HANS NEWS SERVICE  
VIJAYAWADA

VIJAYAWADA Municipal Corporation (VMC) Commissioner Dhyanaachandra HM directed all departments to work in close coordination to ensure effective civic administration and timely delivery of public services. He convened a teleconference with heads of various departments on Tuesday, during which he instructed officials not to show any laxity in sanitation management. He stressed the need to intensify anti-larval operations to prevent mosquito-borne diseases and ensure public health safety. He also directed officials to regularly remove silt from side drains, conduct daily drinking water quality tests at households, and promptly address public grievances. He emphasised that all departments should work in unison to resolve issues immediately and ensure that ongoing development works are completed within the stipulated time. He

further instructed officials to closely monitor field-level activities and ensure that

no inconvenience is caused to the public under any circumstances.

## Threat to democracy under coalition rule: YSRCP

HANS NEWS SERVICE  
RAJAMAHENDRAVARAM

YSR Congress Party leaders on Tuesday alleged that democracy was under threat in the state, accusing the ruling coalition of adopting authoritarian practices and indulging in political vendetta against opposition leaders.

Speaking to the media outside Rajamahendravaram Central Jail after meeting former minister Ambati

YSR Congress Party leaders Padmanabha Reddy, Venu Gopalakrishna, Jakkampudi Raja and others speaking to the media on Tuesday

Rambabu, who is under judicial remand, YSRCP

leaders claimed that former ministers Ambati Rambabu

and Jogi Ramesh were being treated as accused despite being victims. Former MLA Jakkampudi Raja, along with Ambati Rambabu's son-in-law Ushesh and party member Anil Reddy, met the jailed leader during Mulakat hours. Senior party figures, including Kapu movement leader Mudragada Padmanabha Reddy, East Godavari district YSRCP president Chelluboina Venu Gopalakrishna, YSRCP youth wing president

Jakkampudi Raja, former MLC Thota Trimurthulu and former State Housing Corporation chairperson Medapati Sharmila Reddy, were also present.

The YSRCP leaders demanded clarity on who first brought the 'Bhole Baba diary' into public discourse and why TTD official Anil Kumar Singhal was transferred. They said making unsubstantiated allegations was detrimental to democracy.

## 'Awareness a weapon to eliminate drugs'

HANS NEWS SERVICE  
VIJAYAWADA

"TODAY, Vijayawada is remembered not for rowdism, but for technology-driven policing," said NTR District Police Commissioner SV Rajasekhara Babu. He highlighted that the city's police have deployed 50 drones and around 12,000 surveillance cameras, creating a comprehensive community network that monitors citizens like a vigilant eye.

The statement came on Tuesday, during the eighth day of the ambitious 'Drugs Pai Dandayatra' cycle rally, held under the jurisdiction of Satyanarayanapuram

- 'Drugs Pai Dandayatra' cycle rally enters eighth day
- Around 400 participants performed Pranayama exercises and asanas

Police Station along BRTS Road.

The eighth day programme began with a unique 'No Drugs, Yes Yoga' initiative, conducted by BK Padmaja and BK Radha from Brahma Kumaris. Around 400 participants performed Pranayama exercises and yoga asanas under the guidance of trainer Niharika near the police station area.

Participants taking a pledge to stay drug-free during the eighth day of the cycle rally in Vijayawada on Tuesday

The day also saw around 3,000 participants, including retired police officers, Red Cross volunteers, NGO workers, auto union members, transgender activists, and students from Sarada College, Vijay Nursing College, Ravindra Bharati, and government schools, join the rally along BRTS Road.

Later, Commissioner Rajasekhara Babu convened a strategic meeting with Eagle IG AK Ravi Krishna, Government Whip and Vijayawada Central MLA Bonda Uma Maheshwar Rao, Admin DCP KGV Saritha, Dr Samaram, and other senior officials to chart the direction for the ongoing campaign.

# Decision on Nandi awards, theatre festival soon

- Cinematography minister Durgesh says a formal decision on reviving the Nandi Awards and Nandi Theatre Festival will be made soon
- Reiterates the govt's goal to develop Amara-vati as a major film hub on par with Hyderabad, with full support to cinema and creative industries
- At the AP Short Film Festival-2026 felicitation, 'Mahavriksham' won first prize among 203 entries, highlighting strong grassroots talent across the state

HANS NEWS SERVICE  
VIJAYAWADA

CINEMATOGRAPHY minister Kandula Durgesh on Tuesday said that the co-alition government is fully committed to the development of the Telugu film industry in Andhra Pradesh and would begin a structured action plan from April. He also announced that dis-

Cinematography minister Kandula Durgesh with the award winners of short films in Vijayawada on Tuesday

cussions are underway with Chief Minister N Chandrababu Naidu and Deputy Chief Minister Pawan Kalyan, and a formal announcement on the revival of the prestigious Nandi Awards and Nandi Theatre Festival would be made soon.

The minister was speaking after felicitating the winners of the Andhra Pradesh Short Film Festival-2026, organised under the banner of Maa-AP, at his chamber in the Secretariat's second block at Velagapudi. He presented mementos and cash

awards to the awardees and congratulated young directors, technicians and artists who created socially conscious short films.

Durgesh appreciated the efforts of the festival organiser, Maa-AP founder and film director Dilip Raja, for successfully conducting the state-level festival on January 11 at Tenali without charging any entry fee. He said such initiatives play a key role in nurturing grassroots talent and strengthening the film ecosystem in the State.

Addressing the gathering, the minister stated that the government aims to develop Amaravati into a major hub for the film industry on par with Hyderabad.

He reiterated that the state government would extend all necessary support for the growth of cinema and creative industries in Andhra Pradesh.

As many as 203 short films were received from across the state for the festival, with nearly 2,000 actors participating. The first prize was won by 'Mahavriksham'

directed by Chandrasekhar Sakunalas from Visakhapatnam, while 'Simhadri Appanna' by Srinivasa Rao from Srikakulam secured second place and 'Abaddam vs Nijam' by Naveen Kumar from Palakollu bagged the third prize. Cash awards of Rs 1 lakh were presented to the top three winners.

Special awards were also presented to Sujitha (Best Actress-Manam), Sai Prakash (Best Character Actress-Abaddam vs Nijam), Pawan Sarma (Mannu-Minnu), child artist Harshat-hunnisa, young talent Rithvik Reddy (Astra), debut director Trivikram, villain Meesala Bhaskar, and Telugu script reviewers Manjula Lakshmapathi Master and Jagadish, among others.

Speaking on the occasion, director Dilip Raja said government encouragement would enable Andhra Pradesh youth to achieve remarkable success and noted that the Short Film Festival had infused new confidence and determination among aspiring filmmakers.

# CPM demands immediate increase in RTC buses

- Party's two-day state committee meet flags overcrowding, commuter hardships after Stree Shakti scheme implementation

HANS NEWS SERVICE  
VIJAYAWADA

THE CPM state committee, which met on February 2 and 3 at MB Vignana Kendram in Vijayawada, demanded an immediate increase in RTC buses in view of the sharp rise in passenger traffic following the implementation of the Stree Shakti free bus travel scheme for women. The meeting was held under the chairmanship of party central committee member K Lokanatham and was attended by politburo members B Raghavulu and U Vasuki, along with state secretary V Srinivasa Rao. The committee unanimously adopted a resolution highlighting the severe inconvenience being faced by passengers due to overcrowding. Party state secretary Srinivasa Rao released the resolution to the media here on Tuesday. He said that RTC occupancy has increased dramatically from 67 per cent to 98 per cent after the launch of the Stree Shakti scheme. However, the government failed to deploy additional buses to meet the growing demand, he said. As a result, buses are running beyond capacity, skipping stops, and frequently breaking down due to poor maintenance and ageing fleets, he commented.

Further, he said the two-day state committee meeting expressed its concern over harassment faced by women passengers and the difficulties encountered by students who are unable to reach schools and colleges on time. The party also pointed out that RTC staff

Picture for representational purpose only

are under heavy pressure, with workload rising by over 30 per cent, leading to an increase in in-service deaths, he said. Despite the corporation seeking permission to recruit 11,000 staff, the government has not responded, he noted. Meanwhile, he said his party urged the government to ensure RTC services in villages still lacking bus connectivity, strictly regulate private buses, allow digital Aadhaar verification for women passengers, and immediately strengthen the public transport system to safeguard the Stree Shakti scheme and commuter safety.

# Nunna farmers seek development of road

HANS NEWS SERVICE  
VIJAYAWADA

FARMERS' leaders from Nunna — Avuthu Sivaa Reddy, Kurra Narasimha Reddy, Bonthula Srinivas Reddy, and Bhumula Balasekhar Reddy — along with Nunna Primary Agricultural Cooperative Society (PACS) President Kalakoti Srinivas Reddy, submitted a representation to Government Whip and Gannavaram MLA Yarlagaadda Venkata Rao, seeking immediate development of the Panchayat Raj road connecting the Vijayawada West Bypass with the Mustabad-Ramavarappadu Ring Road. The representation was submitted at Nunna near Vijayawada on Tuesday while the MLA was launching various development programmes.

The leaders explained

Farmers' leaders felicitating Government Whip and Gannavaram MLA Yarlagaadda Venkata Rao after submitting a representation seeking construction of a BT road linking the Vijayawada West Bypass with the Mustabad-Ramavarappadu Ring Road at Nunna near Vijayawada on Tuesday

that the road, passing over the Gollapudi Pumping Lift Irrigation Canal, connects Nunna village in Vijayawada Rural mandal with Mustabad village in Gannavaram mandal and serves as a crucial

link for farmers and residents. With the establishment of a wholesale vegetable market and several warehouses in the area, traffic movement on the road has increased significantly.

They pointed out that around 1.5 kms of the stretch remains a metal road, causing severe inconvenience during the rainy season. Farmers face difficulties transporting agricultural produce, while youth from Nunna, Patapadu, Madalavarigudem, Chanupallivarigudem, and nearby habitations depend on this route to reach Ramavarappadu Ring Road and Autonagar for employment.

The farmers thanked the MLA for securing nearly Rs 5 crore for the development of the Nunna Bypass Road and the Vijayawada - Nuzvid State Highway.

However, they urged him to take steps to upgrade the remaining Panchayat Raj road stretch into a BT road from Vijayawada West Bypass up to the Mustabad-Ramavarappadu Ring Road.

# Kidnapping of student union leaders condemned

HANS NEWS SERVICE  
MANGALAGIRI

FOUNDER national president of Girijana Praja Samakhya (GPS) and Girijana Vidyarthi Samakhya (GVS) Vadiitya Sankar Naik has strongly condemned the alleged attack and kidnapping of student union leaders at Mohan Babu University in Tirupati district and demanded immediate action against those responsible.

Sankar Naik said he met the chairman of the AP State Council of Higher Education (APSCHE) at his office here on Tuesday and submitted a detailed representation on what he described as an inhuman incident. He said

Founder national president of Girijana Praja Samakhya (GPS) and Girijana Vidyarthi Samakhya (GVS) Vadiitya Sankar Naik submitting a memorandum to the chairman of APSCHE at Mangalagiri on Tuesday

that APSCHE had earlier confirmed that the university management illegally collected about Rs 26 crore as excess fees from students and ordered the amount to be refunded. APSCHE had also imposed a penalty of Rs 16

lakh for withholding students' certificates. However, he alleged that the management continued its unlawful practices despite these directions. He said student organisations AISE, SFI and NSUI had called for a peaceful protest at

the Tirupati Collectorate demanding action against these irregularities. During the protest, around 40 bouncers and alleged associates of the university, arriving in several cars, reportedly attacked SFI District Secretary Akbar and district leader Vinod, pushed down their two-wheeler, assaulted them and forcibly abducted them in a car.

Calling the incident extremely heinous, Sankar Naik warned that attacks and kidnappings of those questioning violations in defence of students' rights pose a serious threat to the education system. He held the university management fully responsible for any harm to the student leaders.

## Sucharita demands president's rule in AP

HANS NEWS SERVICE  
GUNTUR

FORMER minister Mekathoti Sucharita said a regime of oppression is continuing in the state and demanded the Centre to impose President's rule in AP. Speaking to the media here on Tuesday, she said that for the first time, an attack was carried out on the house of former minister Ambati Rambabu. She wondered who appreciated or supported such intimidation. Rambabu's family has still not come out of fear and panic, she said. She said former chief minister YS Jagan Mohan Reddy will visit the residence of Rambabu on Wednesday. In view of Jagan's visit, the police tried to remove the burnt vehicles, she said.

## ‘DELAYED DIAGNOSIS REASON FOR CANCER DEATHS’

HANS NEWS SERVICE  
ONGOLE

DR RV Raghunandhan, senior consultant radiation oncologist at HCG MNR Cancer Centre here, has stressed that changing lifestyles and dietary habits are leading to a sharp rise in cancer cases among both men and women, with no age or gender distinction. He noted that globally, cancer cases among people below 50 years of age have increased by nearly 79 percent over the last three decades.

Explaining that cancer can affect any part of the body, Dr Raghunandhan said uncontrolled cell division leads to the formation of

Dr RV Raghunandhan

tumours, which can spread to other organs through blood and lymph, resulting in metastatic cancer. He attributed many cancer-related deaths to lack of awareness and delayed diagnosis.

He outlined major cancer types

including carcinoma, sarcoma, leukaemia, lymphoma, myeloma, and brain and spinal cord cancers, and said most cancers progress through four stages. Common warning signs include unexplained weight loss, persistent cough, abnormal bleeding, lumps, and difficulty swallowing.

Dr Raghunandhan said advanced treatments such as surgery, chemotherapy, radiation, immunotherapy, and targeted therapy are available, and early detection through tests can significantly reduce mortality. He emphasised that healthy lifestyles and timely screening are key to cancer prevention and control.

## MLC decries 'Red Book' rule

HANS NEWS SERVICE  
GUNTUR

MLC Lella Appireddy criticised that after the coalition government came to power in the state, Ambedkar's Constitution was not being implemented. Speaking to the media here on Tuesday, he said everywhere in the state, "Red Book governance" is continuing. He said, "AP is being made a permanent address for injustice."

Ambati Rambabu has served twice as an MLA and once as a minister. In the history of the state, many parties and many governments have been in power and in opposition. The coalition government will not remain in power permanently."

He said YSRCP leaders Ambati

Rambabu and Jogi Ramesh are not people who will be silenced. No matter how many false cases are filed or how many troubles are created, once they come out, they will work with double the strength. Coalition leaders have become arrogant with power.

He said, "No matter how much we are provoked, we will move forward only in a peaceful and democratic manner" and added that Ambati Rambabu's family is still living in fear.

The police should cooperate with Jagan's visit on Wednesday. He warned that until justice is done, "we will knock on the doors of the High Court and continue the legal fight. Rambabu did not speak secretly, he himself stated in front of all media that the way he spoke was wrong."

# Tiger movement triggers anxiety in EG villages

- The tiger was initially believed to have taken shelter in a banana plantation at Thorredu, which was declared the first shelter zone
- Around 30 forest personnel and 10 police personnel are currently engaged in search operations

HANS NEWS SERVICE  
RAJAMAHENDRAVARAM

FEAR continues to prevail among residents of several villages in Seethanagaram, Rajanagaram and Rajamahendravaram Rural mandals following the confirmed movement of a tiger in the region. Though forest officials have verified the animal's presence through pugmarks,

its exact location remains unknown, leaving both villagers and officials on edge.

The tiger was initially believed to have taken shelter in a banana plantation at Thorredu, which was declared the first shelter zone. However, officials were unable to determine when and how the animal moved out of the area. Despite deploying trap cameras and drone surveillance, forest staff are yet to ascertain the tiger's direction of movement or current hiding place.

Explaining the animal's behaviour, Forest Range Officer N David Raju said tigers are generally solitary and establish their own habitats, largely confining themselves to a defined territory. The tiger currently moving through the region is estimated to be

The forest staff inspecting tiger's pugmarks in Seethanagaram mandal

travelling more than 15 km a day. He said that the predominance of horticulture

plantations rather than dense forests in the area may be causing some disorientation

for the animal. According to officials, the tiger's movement is suspect-

ed to be towards Venkatanagaram, with the possibility of it crossing the Godavari river to the other side. Tigers, after reaching the age of two or three years, usually separate from their mothers and venture out to establish their own territory through marking, which can range between 2,000 and 5,000 hectares. They typically rest during the day and prefer to move during the night.

Forest officials said there was a strong possibility that the tiger may return on its own if left undisturbed. They advised people to remain alert in areas where the animal has been sighted but cautioned against creating panic or disturbances.

The tiger is believed to have moved from Chhattisgarh into the Koyyalagudem

area of Eluru district on January 20 and crossed the Godavari River near the Pattiseema project on January 30 to enter East Godavari district. Forest officials installed trap cameras and cages near Chinnakondepudi in Seethanagaram mandal to track it. From there, the animal reportedly travelled nearly 15 kms to reach Thorredu, with pugmarks later found up to Venkatanagaram. Beyond a canal in that area, its trail went cold.

Officials said that despite installing six trap cameras and deploying drones on Monday, no fresh clues were obtained. Around 30 forest personnel and 10 police personnel are currently engaged in search operations. Reports that the tiger had returned to Kolamuru and Gadala areas

on Tuesday were dismissed by officials as rumours.

Forest authorities have advised residents of Thorredu and Venkatanagaram and surrounding villages not to venture into fields during early morning and evening hours. They have also urged people to install bright lights around cattle sheds at night and avoid moving alone.

Meanwhile, District Forest Officer V Prabhakar Rao said on Tuesday that the tiger's movement was confirmed in the agricultural fields of Kondepudi village in Seethanagaram mandal. He said continuous patrolling was underway and that pugmarks had been verified. Officials believe the tiger may eventually move towards the Rampachodavaram forest region.

# US tariff cut brings cheer to aqua sector: Atchchanna

- Minister says tariff on Indian seafood exports to US reduced from 25% to 18%, easing burden on aquaculture sector.
- Export volumes expected to rebound by 10–15% with profit margins recovering to 7–8%
- Andhra Pradesh set to benefit with higher farmer incomes, employment and sectoral growth

HANS NEWS SERVICE  
VIJAYAWADA

THE reduction of the United States tariff on Indian seafood exports from 25 per cent to 18 per cent has come as a major relief to exporters and the aquaculture sector in Andhra Pradesh, said minister for agriculture, cooperation, marketing, animal husbandry, dairy development and fisheries K Atchannaidu said on Monday.

Welcoming the decision, taken under the India–US trade agreement, the minister said the tariff cut would significantly ease the burden on seafood exporters,

particularly those engaged in aquaculture. He recalled that earlier, Indian seafood exports to the US were subjected not only to a 25 per cent tariff but also additional punitive duties, pushing the total tariff burden to 50–58 per cent.

As a result, between April and November 2025, India's seafood exports to the US fell by about 15 per cent in volume to 2.01 lakh metric tonnes, while export value declined by 6.3 per cent to 1.72 billion dollars.

Frozen shrimp, India's principal seafood export to the US, was the worst hit during this period, the minister noted. With the

tariff now reduced to 18 per cent, the competitiveness of Indian seafood products in the US market has improved considerably. Stalled export orders are being revived, and favourable conditions have emerged for releasing consignments held up in bonded warehouses.

Atchannaidu said seafood exports to the US are expected to grow by 10–15 per cent in the coming months, with export volumes likely to

return to pre-tariff levels by the second half of 2025–26.

Profit margins in the seafood processing sector, which had shrunk to 5–5.5 per cent during the high-tariff phase, are also expected to recover to 7–8 per cent following the tariff reduction. Duty concessions on key inputs announced in the Union Budget 2026 would provide additional support to the sector, he added.

While the US market

shows signs of revival, exports to non-US markets such as the European Union, China, Vietnam, Russia and the United Kingdom have remained stable. In early 2025–26, non-US markets accounted for around 57 per cent of shrimp exports, reflecting effective market diversification.

For Andhra Pradesh, the country's leading seafood-producing state, the tariff cut is a boon, the minister said. The recovery in exports will enhance income stability for farmers and fishermen, create more employment opportunities, and improve gross value addition (GVA) in the fisheries and aquaculture sectors. Citing MPEDA estimates, he said India's total seafood exports are likely to reach 14–15 lakh metric tonnes in 2025–26, underlining the significance of the US tariff reduction for the sustainable growth of the sector.

## Dy CM warns liquor shops against overcharging

HANS NEWS SERVICE  
VIJAYAWADA

DEPUTY Chief Minister Pawan Kalyan on Tuesday directed the excise officials to maintain continuous surveillance on liquor shops and take action against those selling booze at inflated prices.

The Deputy Chief Minister received complaints that liquor is being sold at prices higher than the Maximum Retail Price (MRP) across the state. He asked liquor shops not to bring a bad name to the government by selling liquor at higher prices.

According to a statement from the Deputy Chief Minister, complaints are coming in from Kakinada district and other parts of the state. After examining the complaints, he stated that selling liquor at inflated prices is against the rules. It also brings a bad name to the government.

The Jana Sena leader said shopkeepers must strictly adhere to the regulations regarding liquor sales.

Opposition YSRCP has been targeting the coalition

- Orders strict surveillance and action against liquor outlets selling above MRP, citing complaints from Kakinada and elsewhere
- Says overpricing violates rules and tarnishes the government's image; directs shopkeepers to strictly follow excise norms
- Directions come amid YSRCP allegations of rampant illegal liquor sales, even as the Cabinet's recent Rs 10 per bottle hike aims to boost state revenue

government over illegal liquor sales. Its leaders alleged that the government is allowing rampant violations.

According to YSRCP leaders, the shopkeepers are selling liquor at inflated prices.

The state Cabinet in January decided to increase the maximum retail price of all sizes of India-Made Foreign Liquor (IMFL) brands and foreign liquor by Rs 10 per bottle, while withdrawing additional retail excise tax imposed on bars.

It was announced that the increase of Rs 10 per bottle will not be applicable to

cheaper liquor (180 ml bottle costing Rs 99), beer, wine and ready-to-drink (RTD) varieties.

The Cabinet also decided to increase the retailer margin by approximately 1 per cent of the MRP on IMFL and FL, including 180 ml IMFL bottles, beer, wine and RTDs. The price hike is expected to generate approximately Rs 1,391 crore in additional annual revenue for the state. At the same time, the withdrawal of additional retail excise tax will reduce the financial burden on bars by about Rs 340 crore a year.

## Home minister slams Jagan, stresses TDP's discipline

- Anitha says Naidu's governance is incomparable to Jagan's, highlighting restraint among TDP cadres
- Accuses YSRCP chief of inciting violence and abusive language, contrasting it with TDP's focus on development
- Warns of strict police action against YSRCP attempts to create unrest, promising a tough stance on political rowdies

HANS NEWS SERVICE  
VIJAYAWADA

HOME minister Vangalapati Anitha on Tuesday said there was no comparison between the governance of Chief Minister N Chandrababu Naidu and that of former chief minister Y S Jagan Mohan Reddy, asserting that people were closely watching recent developments in the state.

Speaking to the media during an informal interaction at the Secretariat, Anitha said the government had taken steps to ensure that party cadres exercised restraint and did not allow anger to spill over, keeping the state's development as the top priority. She said leaders were briefed on facts and reminded of development goals to prevent them from falling into what she termed the "YSRCP trap."

The home minister claimed that TDP cadres had been kept under control for the past 20 months, which helped maintain a positive atmosphere in the State. While acknowledging the frustration among party workers, she said Chief Minister Naidu had consistently

counselled them against unlawful actions and guided them at the right time.

Recalling past incidents, Anitha alleged that Jagan had provoked attacks on the TDP office by giving obscene meaning to 'bosadiki', and later justified the outrage among his supporters by citing their anger. She said that despite continued use of offensive language by YSRCP leaders, the TDP leadership was still advising restraint.

Accusing Jagan of promoting violence and vandalism to intimidate people, Anitha questioned whether he had ever reprimanded his leaders for abusive language or violent acts. She said people had understood the difference between what she described as "criminal thinking" and "visionary thinking."

Warning of strict action, the home minister said any attempt by the YSRCP to create unrest in the state would be dealt with firmly under the law.

She cautioned that the police would adopt a tough approach against political rowdies, adding that such deterrent action would ensure that even the thought of wrongdoing instilled fear.

## Mohan Babu, Vishnu booked for SFI leaders abduction

- Tension prevails after SFI leaders Akbar and Vinod were attacked and abducted while heading for a protest against Mohan Babu University
- Police rescue the two student leaders within an hour and take the accused and vehicles used into custody

PRADEEP VENNELAKANTI  
TIRUPATI

CPM leaders protesting before Tiruchanoor police station on Tuesday

SFI leaders Akbar and Vinod

TIRUPATI witnessed tension on Tuesday after two student leaders were allegedly attacked and abducted while they were on their way to the Collectorate to stage a protest against alleged irregularities at Mohan Babu University (MBU). About 30 persons reportedly attacked SFI district general secretary Akbar and SFI SV University leader Vinod and took them away in vehicles. The incident led to the filing of cases against Cine action Manchu Mohan Babu and Manchu Vishnu along with others.

The sudden incident shocked SFI students. CITU state vice president Kandarpu Murali immediately brought the matter to the notice of district SP L Subba Rayudu and ASP Ravi Manoharachari.

Murali warned that any threat to student leaders would lead to serious consequences and demanded strict action from the police and the state government. He questioned whether violence was the answer when students were only seeking correction of alleged wrongdoings.

Police acted swiftly and rescued the two SFI leaders

within an hour of the incident. The accused were taken into custody and the vehicles used for the abduction were seized. SP Subba Rayudu said criminal cases would be registered not only against those who carried out the abduction but also against those who planned it. He assured a comprehensive investigation and stated that no one would be spared for taking the law into their own hands.

Meanwhile, Tiruchanoor police have registered a case against those involved in the abduction of SFI student leaders Akbar and Vinod. The case has been booked as Crime No 23/2026 under Sections 191(2), 115(2), 140(1), 126(2), 351(2) R/w 190 and 61(2) of the Bharatiya Nyaya Sanhita (BNS) at Tiruchanoor police station.

The accused named in the case include A1 Satheesh, A2 Mohan Babu and A3 Manchu Vishnu Babu. In addition to them, cases have also been registered against around 20 other persons in connection with the incident.

Student organisations have been raising concerns for the past several months over alleged irregularities at Mohan Babu University, particularly regarding fee collections. They had submitted several representations to the state government seeking an inquiry and justice for students. Citing no response, SFI had called for a protest at the collectorate demanding immediate government action and criminal cases against the university management. CPM leaders alleged that the protest was deliberately foiled by a group of assailants allegedly employed by the university.

CPM state secretary V Srinivasa Rao demanded stringent punishment for those involved in the attack and abduction. He recalled that the higher education de-

partment had issued notices to the university earlier, but no effective action was taken. He condemned the alleged use of criminal elements to intimidate students and demanded that the university be blacklisted.

Congress Tirupati city president Gowdaperu Chittibabu condemned the abduction and said intimidating students to protect vested interests was unacceptable. CPI Tirupati city secretary J Viswanath also demanded immediate action and warned that protests against the alleged irregularities would continue.

AP Parents Association state president S Narahari condemned the attack and urged the Chief Minister to intervene. He demanded implementation of APHERMC inquiry committee recommendations, cancellation of university permissions, refund of Rs 26.17 crore allegedly collected illegally from students, enforcement of the Rs 15 lakh penalty, and withdrawal of false cases against parents and students.

## NTRUHS to launch India's first AI-based medical edu system

HANS NEWS SERVICE  
VIJAYAWADA

NTR University of Health Sciences (NTRUHS) will soon introduce India's first Artificial Intelligence (AI)-based Competency-Based Medical Education (CBME) system, marking a major step towards modernising medical education in Andhra Pradesh, vice-chancellor Dr P Chandrasekhar said on Tuesday.

Addressing a WebEx meeting with principals, vice-principals, professors and students from 38 medical colleges across the state, Chandrasekhar said the initiative would provide world-class, technology-enabled learning infrastructure for medical students.

He said the university, in collaboration with EdMedAI developed by Dr Chandrasekhar Bondugula, a US-based medical professional with over 25 years of experience, was working to implement structured competency tracking, continuous assessment and digital learning modules. These measures are in line with the Competency-Based Medical Education framework mandated by the National Medical Commission (NMC).

Chandrasekhar noted that the NMC has stressed the adoption of AI-driven and technology-enabled learning methods to enhance the qual-

- AI-enabled platform to strengthen competency-based medical training

ity and effectiveness of medical training in India.

Speaking during the webinar, Dr Chandrasekhar Bondugula, creator of EdMedAI and Chairman of the Graduate Medical Education Committee in the United States, said he was committed to contributing to India's medical education system. He said the AI-powered application was designed to prepare future-ready and highly competent doctors capable of meeting global healthcare standards.

Principal secretary for health department Saurabh Gaur said the State government was keen on promoting Artificial Intelligence in healthcare and education. He stated that AI-based services could significantly improve knowledge acquisition and precision in medical training and added that the government would soon frame comprehensive policies and guidelines in this regard.

NTRUHS registrar Dr Sai Sudheer, director (R&D) Dr Srilakshmi Suryaprabha, director (publications) Dr K Sudha, medical education advisor Dr Lokesh Idara and AI team members from SHC Technologies Private Limited.

## JSP's Bolisetty quits party role over environmental PIL

VASU POTNURU  
VISAKHAPATNAM

IN a move to ensure that political commitments should not come in the way of fighting for the people and society, general secretary (environment) of the Jana Sena Party (JSP) and national convener of Jal Biradari, Bolisetty Satyanarayana decided to step down from all party-affiliated responsibilities with immediate effect.

Citing ethical and legal considerations linked to ongoing environmental public interest litigation, the announcement was made in this regard.

In a letter addressed to the JSP high command,

- Steps down from all party responsibilities citing conflict of interest with ongoing pollution-related PIL in AP High Court
- Notes that Pawan Kalyan, now holding the environment portfolio, is a prime respondent in the case
- Says the move ensures impartiality in judicial proceedings and keeps the environmental cause free from political complexity

Satyanarayana said his decision was made following a meeting with key leaders of the party and thoughtful deliberation regarding his dual responsibilities as a senior party functionary and the petitioner in WP (PIL) No. 248/2020, which is currently before the Andhra Pradesh High Court.

Satyanarayana wrote to JSP chief Pawan Kalyan

that the PIL, filed in 2020, concerns critical pollution issues, including untreated sewage, pharmaceutical effluents and industrial contamination in north coastal Andhra Pradesh.

He noted that while the petition was initiated during the previous YSRCP's regime, the present political context has changed with the formation of the NDA

Jana Sena Party senior leader and national convener of Jal Biradari Bolisetty Satyanarayana

government and Jana Sena as a key alliance partner.

Satyanarayana pointed out that the state government and the ministry of environment are prime respondents in the case, and that the party president, Pawan Kalyan, now holds the environment portfolio.

Further, Satyanarayana stated that continuing in a high-ranking party position while pursuing litigation against the state government could lead to a perceived conflict of interest, potentially compromise the impartiality of judicial proceedings.

Being associated with the political party, he added that such circumstances could di-

vert attention from the core objective of environmental protection.

Emphasising his commitment towards political ethics, Satyanarayana said he had chosen to step aside from the political responsibilities to ensure that the 'cause of the environment' remained free from political complexity. However, he clarified that the move was temporarily intended to remain in force until the final judicial purpose of the PIL.

While extending his support to the ideology of JSP, Satyanarayana said that his responsibilities as a petitioner and as national convener of Jal Biradari required him to maintain a distance

from formal party roles to ensure that justice was served without prejudice. He expressed confidence in the present government and in Pawan Kalyan's leadership that it would deliver positive environmental outcomes.

Satyanarayana expressed gratitude to the party leadership's continued support for environmental causes and confirmed that the non-political initiative 'Mana Nudi Mana Nadi' would continue.

He added that his decision would enable him to engage with the public and the media on constitutional issues freely, including environmental degradation and human rights without political constraints.

# Reduction in US tariffs is big relief for Indian economy

Finally, the saga of Trump tariffs has ended on a happy note—at least from India’s perspective. With US President Donald Trump announcing an agreement with India that reduces tariffs on Indian goods from 50 per cent to 18 per cent, the long-standing bilateral trade tensions are likely to subside. He had imposed two tariffs on India: a 25 per cent reciprocal tariff, and later a 25 per cent import duty on account of India’s purchase of Russian crude oil. Trade had spilled over into the political and strategic arena, much to the detriment of the best interests of the world’s biggest democracies. Trump and his officials made remarks about India that they should not have. They got closer to Paki-

stan, which said last month that it had inked a pact with a firm connected to World Liberty Financial, the main crypto business of Trump’s family. The objective is to explore the use of World Liberty’s USD1 stable coin for cross-border payments. The Trump administration also pampered the de-facto ruler of Pakistan-Army chief, Field Marshal Asim Munir. He was allowed to indulge in loose talk from American soil, which was very hurtful to Prime Minister Narendra Modi. Trump repeatedly claimed that he had brokered peace between India and Pakistan during the four-day skirmish last May. Trump should not have said and done the things he did vis-à-vis In-

dia in his second term as President. But, they say, all is well that ends well. With Indian goods to pay an 18 per cent tariff, they suddenly become much more competitive in comparison with the merchandise from other countries. China faces a 37 per cent tariff, Brazil 50 per cent, South Africa 30 per cent, Myanmar 40 per cent, and Laos 40 per cent. We also fare slightly better compared to our neighbours, with Bangladesh and Vietnam facing 20 per cent tariff, and Malaysia, Cambodia, Thailand, and Pakistan paying 19 per cent. There is also a serendipitous result: India gave up its reluctance to augment trade with the world and went into overdrive to finalise free trade agreements, the

recent one being with the European Union. The India-EU agreement is not just another trade deal; it is a statement of intent. It signals that India is willing to engage seriously with large, demanding markets, accept high standards, and open its economy in a calibrated manner. The EU, with its vast consumer base and technological prowess, offers India access to high-value markets, advanced manufacturing ecosystems, and cutting-edge green technologies. In return, Europe gains a reliable partner in Asia at a time when geopolitical uncertainties are reshaping global supply chains. More importantly, the push towards FTAs reflects a growing realisation in New

Delhi that economic growth, job creation, and strategic influence are deeply intertwined. Trade is no longer viewed merely as an economic activity but as a tool of statecraft. By embedding itself in a dense network of trade agreements, India reduces its exposure to unilateral coercion, enhances its bargaining power, and anchors itself more firmly in the global economic order. If Delhi sustains this momentum—by concluding more FTAs, improving domestic competitiveness, and aligning regulations with global standards, the country could emerge stronger and more resilient from an episode that initially appeared deeply damaging. In India, it takes a crisis to force overdue reform.

# Prioritise rejuvenation of ‘Buckingham Canal’

DR D SREENIVASULU

THE rapidity of transformation of human civilization increased manifold ever since inventions were made in transportation modes. Even in India, beginning with the colonial period and after independence, continuous efforts are made to improve the transportation networks in the country connecting the length and breadth of the subcontinent.

Presently, governments are developing road networks, highways, bullet trains, national and international flights. Because of their ease and swiftness, the preceding modes of transport overpowered waterways, which used to play a key role in the economy by providing transportation to goods and services, and people across regions. An outcome of this transformation, coupled with rapid urbanisation, encroachment of water bodies and pollution is the neglect of the several water canals in India which became victims of modernisation. It is the responsibility of the government to promote the waterways through the revival of the canals. One such canal whose plight calls for immediate attention and action by the government is ‘Buckingham Canal’.

Designed by Western engineers, this 19th-century navigation canal passes parallel through the Coromandel coast and connects Andhra Pradesh and Tamil Nadu. Its construction was taken up in several phases. This is a private

waterway that was planned and executed based on the ‘design-build-operate’ project delivery system. This was the predecessor of the present day much-acclaimed Build-Own-Operate-Transfer Model).

The construction of the canal began in 1806. Initially, the 16.5 km stretch of the canal from Madras Port to Ennore was built by the Basil Cochrane company. In remembrance of this contribution, this canal was called the ‘Cochrane Canal’ in 1806. Later, the British government took interest in extending this canal by stretching it northwards to Madras.

By connecting Kakinada Port via Vijayawada, the canal enabled continuous activity between Madras and Kakinada port. For a while, it was also called Lord Clive’s canal. When the Great Famine hit this region during 1876-78, the British government provided relief for the people through the extension works of this canal. This canal was renamed as Buckingham Canal, after the Duke of Buckingham and Chandos, who was governor of Madras presidency at that time.

The 796-km long water navigation canal extending parallel to the Coromandel Coast, one kilometre from the coast, is extended till Villupuram in Tamil Nadu. It also connects with Pulicat Lake and at Chennai, it intersects through the city’s three major rivers- Kosasthalaiyar, Cooum and Adyar. All these aspects make this canal a marvellous engineering creation and multipurpose project.

This canal was initially used for transportation of commodities, people and later, for fishing. Settlements cropped up on the banks for this canal. Many communities formed their livelihood by depending on this canal.

In his work ‘History of the Buckingham Canal Project’ (1898), A S Russell writes that the construction of the canal

This historic canal, which used to be bustling with activity, is now ravaged with multiple problems like emitting untreated wastes by the industries and urban populates, encroachment of the canal land, siltation, and damage caused by natural disasters like floods. The mega prawn farms situated at the banks of this waterway dump their diseased and dead stock directly into the canal. Cyclones, against which this canal acted as a buffer zone, have damaged the canal and only a few attempts have been made towards the reconstruction and maintenance of the canal

has placed erstwhile Madras Presidency “in cheap and easy communication with no less than five districts, and with the large and important towns of Cocanada, Bezvada, Masulipatam, Ongole and Nellore”.

This canal earlier was “a dreary waste of sand, but much of this barren and arid country has been greatly developed and improved owing to the remarkably cheap means of communication afforded by the canal; cultivation has been brought into existence or extended, owing to the facilities given by the canal for the drainage of low-lying land; numerous casuarina and other plantations have been formed along its entire length; a great increase in the wealth and prosperity of the population has taken place”.

Beyond bringing prosperity for the people in the region, this canal has the potential to protect people against natural disasters like floods and tsunamis. The canal has mitigated the effects of the 2004 Tsunami by acting as a buffer zone for 310-km long coastal regions

from Pedaganjam in Prakasam district to Chennai, saving the lives of hundreds of fishermen and coastal villages.

Scientists believe the canal has the potential to act as a barrier to allow tidal waves to merge into the ocean in ten minutes.

This historic canal, which used to be bustling with activity, is now ravaged with multiple problems like emitting untreated wastes by the industries and urban populates, encroachment of the canal land, siltation, and damage caused by natural disasters like floods. The mega prawn farms situated at the banks of this waterway dump their diseased and dead stock directly into the canal. Cyclones, against which this canal acted as a buffer zone, have damaged the canal and only a few attempts have been made towards the reconstruction and maintenance of the canal. The advent of faster modes of transportation contributed to the deterioration of the canal. In some areas, the canal is filled with filth and debris, while at

some places, it completely disappears and will be visible after some distance. The need of the hour is the immediate restoration of this age-old canal. Whenever a huge hurricane or flood hits any region, the government releases millions of rupees in the form of relief. But if steps were taken to develop infrastructure to mitigate these disasters, loss of people and property could be easily mitigated. This canal offers an opportunity in that direction, and to provide for the livelihoods of many communities living across the canal. The restoration of the canal with medium- and long-term plans should be the priority of the governments of Andhra Pradesh and Tamil Nadu, along with the Union government.

It is a matter of great relief and hope that the Inland Waterways Authority of India (IWAI) has announced its intention for the revival of the Buckingham canal by declaring it as National Waterways 4 (NW-4). Established in 1986, IWAI aims at the development,

maintenance and restoration of Inland Water transportation on national waterways. Rejuvenation of Buckingham canal is placed under NW-4, which covers waterways from Kakinada to Kalapet in Pondicherry in three phases. But the rejuvenation plans under NW-4 are jeopardized due to the shifting of survey works in Phase-1 to Phase-2 and Phase-3. Despite the ambitious plan, the implementation works are going at a snail’s pace. Governments have a responsibility to change the order of priority and expedite the work on this national canal waterway in the first place. The role of the State Water Resources Department is crucial for this.

Reviving Buckingham canal requires a concrete and swift plan of action, which involves dredging, removal of numerous bridges that were built on the route of the canal, recovering the encroached lands, and reconstruction of the walls wherever required. It is also necessary to check on the pollutants and untreated wastes that are being released into the canal throughout its stretch. Rejuvenation of the multipurpose canal would ease the environment-friendly transportation of commodities and people between states, reduce traffic woes, irrigation, provide for the livelihood for millions of people, fishing, and boating. It can also open the opportunity for developing more cordial relationships between Andhra Pradesh and Tamil Nadu, which can share the benefits of this project by recognising dual responsibility for the states to protect this national heritage. A relentless resolve by the governments can ensure that the otherwise ‘forlorn’ Buckingham canal will start bustling with activity, like in the good old days.

(The writer is a retired IAS Officer)

## LETTERS

### Let us join hands to tackle cancer

World Cancer Day is observed every year on February 4 to raise awareness about the devastating impact of cancer and to encourage collective action against this deadly disease. According to the World Health Organisation (WHO), it accounts for nearly 10 million deaths annually. In many regions, including in India, lack of modern medical facilities, limited access to early detection and low public awareness worsen the situation. The World Cancer Day urges governments, health organisations and individuals to promote preventive measures, support patients and invest in healthcare infrastructure and research. This year’s theme, “United by Unique,” reminds us that while every patient’s cancer journey is different, our collective action—supporting patients, funding research, and advocating for affordable treatment—is essential. Early detection is our strongest tool. Let us stand united to ensure that no one faces the burden of cancer alone.

Jubel D’Cruz, Mumbai

### Quality health ensures longevity

Your editorial ‘Interesting insights emerge on human lifespan’ aptly calls for adding life to years and not the way round. Undoubtedly, life expectancy has risen due to advances in medical science and breakthroughs in disease management. Today’s challenge lies elsewhere—sedentary lifestyles, excessive junk food consumption, rising obesity, and lifestyle-related ailments affecting the heart and other vital organs. Emerging trends like cancer, dementia and Parkinsonism are perturbing trends. Longevity, therefore, must now be matched with quality health and responsible living.

K V Raghuram, Wayanad

### Need to focus on preventive health

THE “Interesting insights emerge on human lifespan” editorial (THI, Feb 3) rightly highlights how public health improvements have extended life expectancy in India. But as we cross 70 years on average, the focus must shift to quality of life in older age. Longevity without adequate geriatric care, social support, and financial security can strain families and systems. We need more investment in preventive health, age-friendly infrastructure, and pension coverage, especially in rural areas. Genetic research is valuable, but practical steps—clean water, nutrition, and accessible clinics—still make the biggest difference.

S M Jeeva, Chennai-32

### Protect all vulnerable groups

THIS refers to the editorial “Interesting insights emerge on human lifespan”. It reminds us that longevity is shaped not just by genes but by living conditions that often hide genetic potential. For India, this has practical implications. While genetic research deserves support, policy attention must stay firmly on basics that still vary widely across regions. Clean air, safe roads, infection control, and early-life nutrition can reduce avoidable deaths that distort lifespan outcomes. Adding years to life is meaningful only if public systems ensure those years are healthier and more productive, especially for vulnerable groups.

M Barathi, Bengaluru-560076

### Healthy longevity: Onus on govt

Apropos “Interesting insights emerge on human lifespan” (THI, February 3). The editorial highlights an important global study showing that genetics may account for over 50 per cent of human lifespan once extrinsic factors like accidents and infections are properly accounted for. The findings underscore the need to focus on controllable extrinsic risks. While genes play a larger role than thought, public health measures—improved sanitation, vaccination drives, road safety, and access to timely medical care—can still add meaningful years, especially in rural and lower-income groups. Policymakers should continue investing in these areas alongside emerging genetic research to maximise healthy longevity.

A Myilsami, Coimbatore-402

### Old-age homes and eroding humane values

THIS pertains to “Interesting insights emerge on human lifespan” (THI Feb3). Paradoxically, even as human longevity improves, new and unfamiliar diseases continue to haunt and claim lives. Added years of life carry meaning only if accompanied by empathy, compassion, and a fellow feeling. Mushrooming of old-age homes and neglected parents is a sobering reminder that longevity without humane values reduces life to self-centred existence, marked by unfulfilled desires rather than shared fulfilment.

## BENGALURU ONLINE

### Paperless property registration through Kaveri 2.0 now...

BENGALURU: Property buyers in Karnataka will no longer need to stand in long queues at sub-registrar offices for registration work. The Department of Registration and Stamps has launched a major reform by introducing a fully paperless property registration system. With the upgraded Kaveri 2.0 software platform, all registration procedures will now be carried out digitally, eliminating the need for physical documents.

Kaveri 2.0 is an advanced online property registration platform developed by the Karnataka government. It is an improved version of the earlier Kaveri software and is integrated with multiple government portals such as Bhoomi, E-Swathu, Khajane-2 and Sakala. The system enables citizens to complete the entire registration process within 10 minutes in a transparent and hassle-free manner without the involvement of middlemen. While digital e-stamping was already in use, the entire registration process has now been converted into a digital format. After successful registration, citizens will no longer receive physical documents. Instead, they will be provided with a login ID and password through which all property-related records can be accessed securely online.

# The two faces of equity: Navigating the UGC Regulation 2026

DR BHASKAR NATH BISWAL

THE Indian higher education landscape is currently witnessing a tectonic shift with the notification of the University Grants Commission (Promotion of Equity in Higher Education Institutions) Regulations, 2026. This landmark framework, notified last month, replaces the 2012 guidelines, marking a transition from advisory norms to a strictly enforceable legal mandate. The genesis of these regulations lies in a painful history of systemic failure and tragedy.

Following the heart-wrenching suicides of scholars like Rohith Vemula and Payal Tadi, their mothers petitioned the Supreme Court, seeking a robust mechanism to end the pervasive culture of caste-based exclusion. In response and under judicial pressure to address a staggering 118 per cent rise in discrimination complaints over the last five years, the UGC has introduced a framework designed to hold institutional leadership directly accountable for the social climate of their campuses.

At its core, the 2026 Regulation aims to institutionalise empathy through structural reform. One of its most significant merits is the expansion of the protective umbrella to explicitly include Other Backward Classes (OBCs), alongside Scheduled Castes (SCs) and Scheduled Tribes (STs). By

mandating the establishment of Equal Opportunity Centres (EOCs) in every university and college, the UGC is attempting to create a ‘standard operating procedure’ for social justice. These centres are not merely symbolic; they are backed by Equity Committees and ‘equity squads’ proactive units tasked with monitoring ‘vulnerable spots’ on campus to prevent discrimination in real-time. Furthermore, the regulation introduces a revolutionary time-bound grievance redressal system.

The requirement for an Equity Committee to meet within 24 hours of a complaint and submit a full report within 15 days is a direct attempt to combat the ‘delay and deny’ tactics that have historically silenced victims. For the first time, institutional heads are liable and non-compliance carries the heavy threat of losing UGC funding or even derecognition.

However, the very stringency that makes the regulation promising has also exposed significant demerits that threaten to undermine its legitimacy. The most contentious issue is the ‘unidirectional’ definition of victimhood. Regulation 3(c) defines caste-based discrimination exclusively as acts committed against members of SC, ST, and OBC categories. Critics argue that this phrasing creates a legal vacuum where students from the ‘General Category’ are effectively deemed incapable of being victims of bias. This

perceived exclusion has turned a tool for social harmony into a lightning rod for division.

Additionally, the broad and somewhat vague definition of ‘indirect discrimination’ has raised concerns among faculty that routine academic evaluations or disciplinary actions could be misconstrued as bias, potentially leading to a ‘race to the bottom’ where merit is sacrificed to avoid litigation. The removal of a previous draft’s clause that penalised ‘false or malicious complaints’ is another glaring demerit, as it leaves the system vulnerable to weaponization for settling personal scores or campus politics.

This perceived lack of balance has sparked widespread resistance, particularly among student groups from

unreserved categories. The pushback, often coalescing under digital movements like #UGCRollback, is rooted in the fear of ‘reverse discrimination’. Students argue that the current structure of Equity Committees, which mandates representation from reserved categories but remains silent on the inclusion of general category members, lacks the appearance of neutrality required for natural justice.

There is a palpable anxiety that campuses are being transformed into zones of surveillance. The deployment of ‘equity squads’ is seen by many as an intrusive overreach that could chill everyday social interactions, replacing organic peer bonding with a culture of suspicion. Resistance is not necessarily against the principle of equity but against a design that many

feel presumes guilt based on identity rather than evidence.

As we look toward the future of Higher Education Institutions (HEIs), it is clear that the UGC Regulation 2026 is a necessary but imperfect instrument. The intent to purge campuses of the ancient poison of casteism is noble and constitutionally mandated.

However, for any regulation to be effective, it must be perceived as fair by all stakeholders it governs. To ensure the long-term success of these guidelines, the UGC should consider critical amendments. Reintroducing a safeguard against demonstrably false and malicious complaints would go a long way in building trust. Furthermore, the definition of discrimination should be made ‘caste-neutral’ in its language, ensuring that any student, regardless of their background, has a pathway to redressal if they face identity-based harassment. Equity should be a bridge that connects the campus community, not a wall that segregates it into silos of permanent grievance and fortified privilege. Only by balancing accountability with due process can we create a truly inclusive academic environment that honors both social justice and individual merit.

# CM targets natural farming expansion in state by 2031

- Aims to bring 40 lakh farmers under natural farming
- Launches Digi Rythu Bazaar, APAIMS, Kisan Drone apps
- Directs officials to counter El Niño impact

HAN NEWS SERVICE  
VIJAYAWADA

CHIEF Minister N Chandrababu Naidu on Tuesday directed officials to launch a comprehensive programme to make Andhra Pradesh the country's largest natural farming State. He said 1.8 million farmers were currently practicing natural farming on two million acres and set a target of covering four million farmers and five million acres by 2030-31.

Reviewing agriculture and allied sectors at the Secretariat, Naidu stressed the need to reduce the use of chemical fertilisers to cut cultivation costs and improve farmers' incomes. He called for certi-

Chief Minister N Chandrababu Naidu launches apps related to agriculture at a review on agriculture and allied sectors at the Secretariat on Tuesday

fication and traceability systems to ensure product quality and market credibility.

He directed officials to implement these facilities by April and complete them statewide by June. He also suggested encouraging agriculture students to take up natural farming and said training programmes would be conducted with Subhash Palekar.

The Chief Minister emphasised that Andhra Pradesh's farm products must secure a strong presence in national and international markets. He instruct-

ed officials to take proactive steps to prevent losses due to the impact of El Niño and prepare alternative crop plans in drought-prone areas. He also directed the use of AI-based advisory services such as 'Bharat Vistar'.

Naidu said water scarcity in Rayalaseema had been addressed through efficient management and that major reservoirs were full, ensuring sufficient irrigation. Officials informed him that trade agreements with the US and EU had opened new export opportunities for shrimp, dried chillies, mangoes, rice,

and processed foods. He stressed strict adherence to quality standards.

The Chief Minister directed the establishment of a Cocoa City over 500 acres in Eluru district with international standards. He encouraged intercropping in mango, cocoa, cashew, and coconut plantations and called for increased focus on banana exports. He also approved saffron cultivation in Lambasingi under the PPP model with tribal participation.

He made registration of aquaculture farming mandatory and directed that egg

supply contracts for schools and Anganwadis be given to farmers. He said State policies should align with those of the Centre.

Naidu proposed organising crop-based festivals in different regions to promote tourism and stressed the need to reduce logistics costs. He suggested discussions with the Centre for special railway wagons to transport farm produce.

He directed the establishment and modernisation of Rythu Bazaars and approved a flower market in Vijayawada under the PPP model.

During the review, he launched the Digi Rythu Bazaar, APAIMS, and Kisan Drone apps, enabling farmers to book machinery and drones. About 9,512 machines have been made available. He instructed officials to educate farmers on crop registration and promptly resolve their doubts. Agriculture minister K Atchannaidu and senior officials attended.

# CM happy over turnaround of Vizag steel plant

Chief Minister N Chandrababu Naidu holds a review on Visakhapatnam steel plant at the Secretariat on Tuesday

HANS NEWS SERVICE  
VIJAYAWADA

CHIEF Minister N Chandrababu Naidu on Tuesday reviewed the progress of the Visakhapatnam Steel Plant (RINL) at the Secretariat and expressed satisfaction over the remarkable turnaround achieved by the public sector unit within a short span. The review meeting was attended by Union Steel Secretary Sandeep Poundrik, Visakhapatnam Steel Plant CMD Manish Raj Gupta, Chief Secretary K. Vijayanand, and senior officials from the Centre and the State.

Officials informed the Chief Minister that with co-ordinated support from the Central and State governments, the steel plant has

achieved unprecedented progress in the last one-and-a-half years, moving from heavy losses to a profitable path. Hot metal production has risen sharply to 19,401 tonnes per day, compared to just 9,215 tonnes per day during the second quarter of 2024-25. The significant increase in output was attributed to the operation of all three blast furnaces.

The capacity utilisation of the plant has reached a record 94 percent, a sharp rise from about 45 per cent during the second quarter of 2024-25.

Financially, RINL has staged a strong recovery, turning around from a loss of Rs 486 crore in September 2024 to a profit of Rs 54 crore in January 2026. Officials also noted that the Rs 11,000 crore

assistance extended by the Central government played a crucial role in stabilising the plant, and that RINL's credit rating has improved.

The Chief Minister advised the management to introduce new policies across all departments to further strengthen the plant. He emphasised the efficient utilisation of workers and employees to achieve better results and said that management, workforce and governments must work together to take Visakhapatnam Steel to greater heights. Recalling the reforms implemented in Singareni during the united State, he expressed confidence that similar cooperation would ensure sustained success. He assured full support from the State government to Visakhapatnam Steel.

## Cabinet nod for panel to probe TTD laddu issue

Continued from P1

Hence, the government ordered an independent inquiry and would direct the Commission to submit its report at the earliest.

Ministers discussed changes in tender norms for the procurement of ghee and questioned why former TTD Executive Officer Anil Kumar Singhal did not object to these relaxations. The Cabinet reviewed the 2022 Central Food Technological Research Institute (CFTRI) report indicating adulteration, which was allegedly ignored by officials Balaji and Subrahmanyam. It was also noted that the National Dairy Development Board (NDDB) report confirmed the presence of animal fat in the ghee.

Several ministers questioned the alleged use of fake documents to secure tenders and the sidelining of cooperative dairies in favour of private and bogus suppliers. The Cabinet directed the Commission to examine these aspects in detail.

Deputy Chief Minister K Pawan Kalyan sought clarification on whether former chairman YV Subba Reddy's role was mentioned in the SIT report and whether animal fat was cited in the charge sheet.

Officials said Page 35 of the charge sheet clearly referred to it. Ministers stressed that identifying the main conspirators was essential and said the SIT failed to expose the real masterminds. Chief Minister N Chandrababu Naidu said the inquiry was ordered to bring the truth before the public and ensure strict action. He assured that further action would be taken immediately after receiving the commission's report.

Addressing the media, Finance Minister Payyavula Keshav said the SIT had submitted a charge-sheet and a confidential 11-page report recommending action against erring committee members and senior TTD officials. He said the charge-sheet was filed in court and formal cognizance was awaited.

Keshav said the Cabinet found serious irregularities in tender relaxations, quality control failures, and dilution of safeguards. He said tender conditions were relaxed without proper technical evaluation or field assessment. Citing the SIT, he said action was recommended against Balaji, Dharma Reddy, and Singhal for deliberate omissions. He revealed that suppliers allegedly purchased palm oil and

mixed chemicals and flavouring agents to manipulate laboratory results and submitted fake documents to qualify for tenders.

He further said that the government decided to constitute a short-term administrative committee to examine procedural lapses and ensure natural justice. Officials facing allegations will be given an opportunity to explain before disciplinary action. Keshav said the government was following due process and not acting out of political vendetta.

He said the SIT probe was nearing completion and that only extracts had been received so far. Conclusions could be drawn only after examining the full charge sheet. He clarified that the inquiry was not targeted at individuals but aimed at restoring the integrity of the TTD system. He also warned against politicizing Tirumala.

On whether the government still believed animal fat was present in the ghee, he said decisions were based solely on evidence, particularly the NDDB CALF report, and not on assumptions. Ministers Kolusu Parthasarathi, Nadendla Manohar, and Y Satyakumar Yadav also spoke.

## NAIDU CALLS US TRADE PACT HISTORIC

Continued from P1

He observed that the pact would significantly boost Indian exports and open new avenues for trade and investment. "Under the leadership of PM Modi, India is steadily consolidating its position as a global economic powerhouse," Naidu said in his tweet.

He also highlighted that the agreement would generate immense opportunities for the country's youth and farmers, including those in Andhra Pradesh. According to him, improved market access and stronger trade relations would help create jobs, encourage entrepreneurship, and strengthen the agricultural sector.

The Chief Minister expressed confidence that the India-US trade partnership would play a key role in driving economic development and strengthening bilateral relations in the coming years.

# CII-Yi dialogue spotlights AP-Oz ties, youth and women-led innovation

- CII-AP and Yi Amaravati hold an interactive session with Australian Consul General Silai Zaki, following Minister Nara Lokesh's Australia visit that boosted bilateral engagement
- Talks focus on creating pathways for women entrepreneurs and young leaders in sectors like healthcare, green energy, clean tech, education, tourism, and sustainability
- Emphasis was laid on promoting AP's artisans, arts, crafts, and handlooms through cultural showcases, diaspora platforms in Australia, and global partnerships

HANS NEWS SERVICE  
VIJAYAWADA

THE Confederation of Indian Industry (CII)-Andhra Pradesh, in association with the Young Indians (Yi) Amaravati Chapter, organised an interactive session with Silai Zaki, Consul General of Australia in Chennai, here on Tuesday.

The interaction gained added significance in the backdrop of the recent visit of Minister Nara Lokesh to Australia, which has given fresh momentum to strengthening bilateral ties between the State and Australia.

Discussions focused on building pathways for women entrepreneurs and young leaders from AP to engage with Australian institutions and innovation ecosystems. Key sectors such as healthcare, green energy, clean technologies, education, tourism, and sustainability were deliberated upon. In the tourism and cultural space, participants examined ways to empower local artisans of AP by enabling their participation in national and international platforms, particularly within Indian Diaspora communities in Australia. Cultural showcases, curated ex-

An interactive session of Confederation of Indian Industry (CII)-Andhra Pradesh, in association with the Young Indians (Yi) Amaravati Chapter, with Silai Zaki, Consul General of Australia, Chennai in Vijayawada on Tuesday

hibitions, and tourism-linked events were highlighted as avenues to enhance global visibility for the State's arts, crafts, handlooms, and creative industries.

Welcoming the gathering, Yi-Amaravati Chapter chairman Balakrishna Chittineni said the interaction encouraged youth and women leaders to think globally and explore international entrepreneurial opportunities. Addressing the session, Silai Zaki emphasised Australia's strong interest in deepening people-to-people and business connections with AP, noting immense scope for collaboration

in innovation, sustainability, education, and cultural exchange.

CII-AP vice-chairman S Narendra Kumar and CII Vijayawada Zone chairperson Dr V Nagalakshmi underlined the complementary strengths of Australia and Andhra Pradesh, particularly in sustainability and education, and reaffirmed CII's commitment to facilitating global partnerships. Yi leaders concluded the session by reiterating their resolve to strengthen international linkages that nurture talent, creativity, and entrepreneurship in Andhra Pradesh.

## ...in final stages: Goyal

Continued from P1

"We will be shortly issuing a joint statement by both countries along with the details, which we will be shortly inking between the United States of America and India. And as soon as the final understanding of the deal is inked, and the joint statement is finalised, technical processes are completed, full details will be shared" he added. "But I can assure every Indian that the details of this deal will make every Indian proud," he further said. He did not share a timeline, but a government source said the joint statement is expected within this week.

## NEW BAGGAGE RULES COME INTO EFFECT

Continued from P1

Also, the government has raised the limit for passengers bringing duty-free imported goods into India from Rs 50,000 to Rs 75,000. Under the new rules, a resident or a tourist of Indian origin arriving in India other than by land, shall be allowed clearance free of duty articles, up to Rs 75,000, if such articles are carried on the person or in the bona fide accompanied baggage of the passenger. A tourist of foreign origin, not being an infant, arriving in India, shall be allowed duty-free clearance of articles up to the value of Rs 25,000.

## INDIA PLEDGED ZERO-TARIFF BARRIERS IN US DEAL: TRUMP

Continued from P1

A lot remains unclear about the terms of the deal, but Trump said New Delhi has agreed to several measures, including stopping Russian oil trade, reducing tariffs and non-tariff barriers to "zero", and buying over \$500 billion of US goods, including energy, technology, agricultural products, and coal. Tariff barriers are taxes levied on imported goods, making them more expensive to protect local industries. Non-tariff barriers, meanwhile, are indirect restrictions like quotas, subsidies, licensing, standards, and labelling rules that limit trade without direct taxes, often through complex regulations, costs, or delays, affect-

ing quantity, price, or market access.

Both aim to support domestic economies, but tariffs are explicit taxes, whereas non-tariff barriers use policy and procedures, making them more subtle and complex. Trump's claim that India has agreed to "reduce tariffs and non-tariff barriers against the United States, to ZERO", has not been confirmed by New Delhi. Moreover, both parties have not explained on which lines the barriers would be reduced, if at all, to zero. Largely, Trump's language signifies an in-principle commitment to lower or phase out duties on selected US products rather than an immediate elimination of all import duties.

## ‘India got best deal’

Continued from P1

"Rahul Gandhi ko kya mirchi lagti hai? (What is Rahul Gandhi's problem)". The Leader of the Opposition in Lok Sabha "will have to answer to the people about what he wants to achieve with his negative mentality," Goyal said. "I saw some Opposition leaders asking, 'Why did Donald Trump announce the deal?' The US imposed reciprocal tariffs on India, so it should have announced the removal," he added.

"Friends, we all know, and the entire country knows, how the Prime Minister consistently cares for the welfare of our farmers, our brothers and sisters involved in animal husbandry, and the dairy sector. He protects their interests at every step," he told the media. Describing the broader impact of the agreement, Goyal said the agreement unlocks unprecedented opportunities for farmers, MSMEs, entrepreneurs, and skilled workers to Make in India for the world, Design in India for the world, and Innovate in India for the world," he said, adding that it would also help India access advanced technology from the US.

"It is not just a trade deal - it is a historic turning point that will reshape India-US relations and accelerate our journey towards Viksit Bharat 2047," he added. The minister also took a swipe at the Congress, recalling

ing India's decision to stay out of the Regional Comprehensive Economic Partnership (RCEP). "We also remember the large-scale trade deal, the Regional Comprehensive Economic Partnership (RCEP), which Congress had pushed India into in 2011.

The Congress committed a grave mistake in negotiating an FTA with China, but PM Modi protected the country by refusing to join the RCEP. That decision brought relief across the nation," he said.

Goyal said the government had intended to make a statement in Parliament on the deal but was unable to do so due to disruptions. "Normally, we would have wanted to speak about this in Parliament, but we all witnessed that disgraceful scene," he said, strongly criticising the Opposition's conduct and adding that it forced the government to brief the media instead.

The India-US agreement comes a week after New Delhi signed a landmark trade pact with the European Union. PM Modi on Monday confirmed the breakthrough after speaking with Trump.

"Wonderful to speak with my dear friend President Trump. Delighted that Made in India products will now have a reduced tariff of 18%," Modi said in a post on X, thanking Trump "on behalf of the 1.4 billion people of India."

## Oppn stages walkout demanding debate on deal

Continued from P1

As Opposition members started protesting in the House, Leader of the House J P Nadda said the US President was informed about the reduction in tariffs on Indian goods through a post on social media and also spoke to Prime Minister Narendra Modi.

Nadda alleged that the Opposition's frustration was coming out, and it had started seeing bad even in good things. "I want to assure the house that the government is ready to discuss the Indo-US trade deal and provide all minute details of the deal. The government will come

out with a suo motu statement on the trade deal.

As the Opposition members continued raising slogans alleging that the interests of the country were being bartered, Chairman C P Radhakrishnan said, when the government is making a statement, and they should listen. He said the government is ready to discuss, but the opposition members are creating an uproar. Opposition members were on their feet, raising slogans against the government, as they moved towards the front row. Nadda said the government will come out with a suo motu statement today itself.

## PM buckled under pressure to sell out farmers' blood: Rahul

Continued from P1

Addressing reporters in the Parliament House complex after he was not allowed to speak in the Lok Sabha, Gandhi also said that it is for the first time in history that the Leader of Opposition has not been allowed to speak on the President's address. In a post on X, Gandhi said, "PM Modi is Compromised. PM is too afraid to let me speak in Parliament about Naravane, Epstein Files and how he has surrendered on Tariffs." Gandhi said the issue is not Naravane's statement, "that is a side show", but the main thing is that "our Prime Minister has been compromised".

## ‘Father of all deals’

NEW DELHI

FORMER Ambassador of India to Poland Dr Deepak Vohra on Tuesday described the India-US trade deal as a significant diplomatic achievement, highlighting India's patience, strategic restraint and firm protection of key domestic sectors during negotiations and termed it the "father of all deals".

Speaking on the agreement, Dr Vohra said there were a few key takeaways from the development. He claimed that the American establishment had been strongly critical of India in recent years, but New Delhi

maintained restraint.

"The first takeaway is that despite repeated criticism from the American establishment since 2023 and 2024, India has not reacted. We have been very patient and very resilient," he said.

Explaining India's diplomatic approach, Dr Vohra referred to what he described as "duck diplomacy". He said the concept reflects calmness on the surface while intense efforts continue behind the scenes.

"If you look at a duck on the surface, everything appears calm and quiet, but beneath the surface its feet are paddling furiously. That is how India has handled

the negotiations," he said.

Drawing a historical comparison, Dr Vohra likened US President Donald Trump's leadership style to that of Roman Emperor Caligula, quoting the Latin phrase "Oderint dum metant (Let them hate, so long as they fear)." According to him, President Trump prioritises respect and popularity over being loved. He said India responded to this leadership style with restraint and strategic engagement.

Dr Vohra added that India has largely achieved its core objectives in the trade agreement without compromising sensitive sectors.

Today is World Cancer Day 2026

# A simple vaccine, lifesaving impact

World Cancer Day highlights the urgent need for prevention as much as treatment, especially against cancers caused by the Human Papillomavirus (HPV). Often silent and symptomless, HPV is linked to cervical, throat, and anal cancers that can turn deadly if detected late. Health experts say timely vaccination and regular screening could prevent up to 90% of these cases, making awareness the first line of defense

D VAISHNAVI

World Cancer Day serves as a powerful reminder that many life-threatening diseases can be prevented with timely awareness and action. Among them is Human Papillomavirus (HPV), a silent but widespread infection linked to several cancers that often go unnoticed until it is too late. On February 4, radiologist-oncologist Dr. Sandeep Kumar Tula is urging families to take prevention seriously, calling vaccination and early screening the strongest weapons against HPV-related cancers.

Drawing from over four years of frontline cancer care, Dr. Tula says the biggest danger with HPV is how quietly it spreads. "People think of it as just another infection, but HPV is actually responsible for multiple cancers. High-risk strains like 16 and 18 alone cause nearly 70% of cervical cancers worldwide. These viruses silently integrate into cells and trigger mutations that lead to cervical, vaginal, vulvar, penile, anal, and throat cancers."

He explains that transmission is easier than most people assume. "Sexual contact is the primary route, and even a single exposure can transmit the virus. Smoking, weak immunity, poor diet, alcohol use, and obesity further increase the risk because the body struggles to fight the infection."

What makes the disease especially dangerous, he adds, is the absence of early warning signs. "Most HPV infections don't show symptoms initially. That's why it's so deceptive. By the time patients notice abnormal bleeding, unusual discharge, throat hoarseness, difficulty swallowing, or anal discomfort, the disease may already be advancing."

Dr. Tula highlights the dramatic difference early detection can make. "If we catch cancer at Stage 1, survival can be close to 90%. But by Stage 4, it drops sharply to around 15–20%. That's why screening is critical."

He recommends regular Pap smears and HPV DNA tests for women, especially after the age of 30, along with routine health check-ups for everyone. "Follow the screening guidelines every three to five years. Detect it early, and we can treat it effectively with surgery, radiation, or chemotherapy before it spreads."

For him, however, the most powerful tool remains prevention through vaccination. "The HPV vaccine is essentially a shield. It produces antibodies that neutralize the virus before it can infect you."

Explaining the options available in India, he says, "Gardasil protects against four strains and costs around Rs 3,800 per dose, while Gardasil 9 covers more strains at about Rs 10,300 per dose. Government programs are increasingly offering it free, though availability differs by region."

Vaccination at the right age, he stresses, offers maximum protection. "Children between 9 and 14 need just two doses. After 14, three doses are required. And it's not just for girls — boys must take it too because it prevents anal and throat cancers and reduces transmission. There's no strict upper age limit, but earlier vaccination works best."

Beyond medical advice, Dr. Tula has also been leading community outreach efforts to spread awareness. Since Republic Day this year, he and his volunteers have conducted campaigns

at public spaces, traffic signals, villages, and colleges to educate families and students about HPV risks. "We want awareness to reach people who may never walk into a hospital for preventive care. Education at the grassroots level can save thousands of lives," he says. As World Cancer Day spotlights prevention, Dr. Tula leaves people with a straightforward message: "Quit smoking, practice safe habits, eat healthy, screen regularly, and vaccinate early. HPV-related cancers are up to 90% preventable. We have the tools — we just need to use them."

## Mental well-being tips for people living with breast cancer

World Cancer Day reminds us that healing from cancer isn't only physical — it's deeply emotional too. For women facing early breast cancer, fear, uncertainty, and stress often accompany treatment decisions. Prioritising mental well-being can be just as important as medical care in navigating the journey

ASKARI JAFFER

World Cancer Day is a reminder that cancer care goes beyond treating the body — it also means nurturing the mind. For women diagnosed with early breast cancer, one of the most common cancers in India, the journey often brings emotional uncertainty alongside medical decisions, including fears about recurrence and quality of life. While advances in early detection and treatment have significantly improved survival rates, many patients continue to face anxiety, stress, and emotional vulnerability throughout treatment and recovery. Supporting mental well-being is therefore essential to helping women regain confidence, control, and resilience.

Meera, a 47-year-old

homemaker, remembers feeling overwhelmed after her diagnosis. Balancing family responsibilities with frequent hospital visits left her exhausted and anxious about the future. Gradually, she began prioritising her mental health along with medical care.

She joined a patient support group, practiced simple mindfulness exercises daily, and spoke openly with her doctors about her concerns and treatment choices. These steps helped her feel more grounded and better equipped to cope with uncertainty, restoring a sense of

calm during a difficult phase of life. Studies show that nearly four in ten people living with breast cancer experience significant anxiety or depressive symptoms at some point. Emotional strain is often compounded by treatment side effects, lifestyle disruptions, and fear of recurrence. More than half of patients report some level of anxiety by the end of chemotherapy, highlighting the need for holistic care that addresses both physical and emotional health.

Dr. M Vamshi Krishna, Director and Head of Depart-

ment, Medical Oncology and Hematology at AIG Hospitals, Hyderabad, says, "Breast cancer treatments can take a heavy physical and emotional toll. Visible changes, frequent hospital visits, and uncertainty often intensify anxiety. Advanced therapies, along with counseling, support groups, and mindfulness practices, can ease these burdens and help patients focus on their overall well-being."

Five ways to support mental well-being during early breast cancer:

- **Choose the right treatment:** Discuss options and side effects with your doctor to reduce emotional stress and improve quality of life.
- **Address fear of recurrence:** Stay informed and proactive about therapies that may lower risk.
- **Seek professional help:** Therapists can provide coping tools and emotional guidance.
- **Join support groups:** Sharing experiences reduces isolation and builds strength.
- **Practice mindfulness:** Meditation, yoga, or breathing exercises can calm anxiety and restore focus.

Living with early breast cancer is challenging, but caring for your mental health can make the journey more manageable and empower you to move forward with hope.

### CELEBRATING STRENGTH, INSPIRING SURVIVORS

Manisha Koirala with Dr Vijay Anand Reddy, Founder, Cure Foundation, Hyderabad; with young cancer survivors, at the World Cancer Day Celebration- Light the Night & the 23rd Anniversary Celebrations of CURE Foundation; hosted by Cure Foundation; at Boulder Hills Golf & Country Club, Gachibowli

## Payal Rajput: I may fail, but I won't give up!

Well known actress Payal Rajput, who has made a name for herself with her impressive performances in films like 'RX100',

'RDX Love' and 'Mangalavaram', has now revealed that there were people who wanted her to quit but that she was not going to give up.

"Taking to her X timeline to pen a post, Payal Rajput said, "They want me to quit, and I find myself questioning whether I should. But then I think about the hard work I've put in over the last 12 years. So I tell myself no. I may fail, but I won't give up. #justthinking."

It may be recalled that last year, the actress had penned a post, expressing concerns about favoritism and nepotism overshadowing talent in the film industry.

Taking to her timeline on the social media platform X, Payal Rajput had then said, "Being an actor is one of the toughest careers out there. Each day starts with the weight of uncertainty, as I step into a world where nepotism and favoritism often overshadow talent."

The actress went on to admit that there were times when she wondered if her hard work and dedication would even get noticed in a world that was dominated by those with privilege.

She wrote, "There are moments of doubt when I question whether my hard work and dedication can truly shine through in a landscape dominated by privilege. I watch as opportunities slip away to those with famous last names or a powerful agent, wondering if my talent is enough to break through."

The actress had also added the hashtag #Struggleisreal to make it clear that the problem indeed existed in the film industry.

Currently, Payal is working on a number of films including the Telugu film titled 'VenkataLachimi', which is being directed by Muni and which the makers intend to release in three languages – Telugu, Tamil and Hindi.

Payal also plays the lead opposite Legend Saravanan in his second Tamil film that is

being directed by well known director R S Durai Senthilkumar.

While Payal Rajput stars opposite Legend Saravanan, the Tamil film will also feature actors Shaam and Andrea in pivotal roles.

The yet-to-be-titled film is a grand-budget venture directed by R S Durai Senthilkumar, known for his blockbusters like 'Kakki Sattai', 'Kodi', and the recent success 'Garudan'.

The first phase of shooting was completed in Chennai, while the second phase was in and around Panikka Nadar Kudiyruppu in Thoothukudi, which happens to be Legend Saravanan's hometown.

Sources say the new film promises to deliver a thrilling action-packed experience based on real events, set against the backdrop of Thoothukudi.

Music for the film will be composed by Gibran, with cinematography by S. Venkatesh and editing by Pradeep. The art direction is managed by Durairaj, while Ambikapathi is the executive producer.

# YOU CAN'T BUILD VIKSIT BHARAT WITHOUT INNOVATION: IIT HYD DIRECTOR

ARTI ADKE

At a time when AI is rapidly reshaping careers and Indian students remain caught in a relentless cycle of grades, rankings, Prof. B. S. Murty, Director of IIT Hyderabad, is quietly steering one of the country's boldest experiments in higher education. From fractal academics and artists-in-residence to deep-tech startups and AI-powered engineering programmes, his vision challenges long-held assumptions about how engineers should be trained—and what success truly means.

"If somebody comes to me and tells me they have never failed in life," Prof. Murty says, "I tell them they have probably never learned anything—or never experimented enough."

That belief underpins the transformation unfolding at Indian Institute of Technology (IIT Hyderabad). In an education system often criticised for rigidity, exam obsession and placement-centric thinking, the institute has emerged as a striking outlier—prioritising freedom, creativity and skills over conformity and fear. Here, students are encouraged to explore across disciplines, build products, create enterprises and think beyond conventional career paths.

In a wide-ranging conversation, Prof. Murty tells *The Hans India* about the future of jobs in the age of AI, why India must evolve from a service economy into a product nation, and how nurturing skills, innovation and purpose is central to building a truly Viksit Bharat.

## EXCERPTS:

**Q: You have often described Indian education as rigid. What do you believe is fundamentally wrong with it?**

Education in India has been quite straitjacketed for decades. Students are told what to study, how to study and often what they should become in life. But the current generation does not want to fit into such a structure. They want freedom. They want flexibility. If you look at older IITs and engineering colleges, the curriculum is very straight. Even electives are often not real electives. Many times, only one elective runs. That means the student is forced to take it—it becomes a core course in disguise. There is no real choice.

When I studied B.Tech, we faced the same issue. That experience stayed with me. We felt it was time to break away from this model and create an environment where students can genuinely explore different interests.

**Q: You repeatedly stress the need for deep-tech innovation. Why is this so critical for India?**

India is currently known more as a service economy. We provide services to the world. But no country has ever become developed by being only a service economy.

Every developed nation—big or small—is known for its products. India must also be known for its products. Software and apps are important, I do not deny that, but deep-tech innovation is essential.

For me, Viksit Bharat is the day I go to a place like Tokyo or Melbourne and buy a product labelled "Made in India"—because it is high quality, globally competitive and reasonably priced.

**Q: Will degrees lose relevance in the coming years?**

I am sure that in the years to come, people will not care much about your degree. They will care about your skills. What matters is what you can do, what problems you can solve. Institutions must create environments where skills and ideas are nurtured. The success of our startups already shows that this shift has begun.

**Q: You frequently speak about Viksit Bharat. What does that term mean to you personally?**

For me, Viksit Bharat is not a slogan—it is a practical vision. A developed nation is one that is known for its products, technology and innovation. Today, India is largely known as a service economy. We provide services to the world, which is good—but it is not enough.

No country in the world has become developed by being only a service provider. Every developed nation—whether it is Germany, Japan, South Korea or the United States—is known for what it makes. For India to become Viksit Bharat, we must become a product nation.

**Q: How do student startups fit into the Viksit Bharat narrative?**

Startups are not just about valuation—they are about value creation. When a 19-year-old student tells me he has paid salaries to five employees, that is nation-building in action. That is economic activity, confidence and leadership. In six years, IIT Hyderabad students have created 330 startups with ₹1,500 crore in revenue. These are not just numbers—they represent ideas

becoming reality. If every IIT produces job creators instead of only job seekers, India's transformation will accelerate.

We introduced something called Fractal Academics, which is a very unique system in India. Typically, a full semester course is a three-credit course—about 42 hours of teaching spread over 14 weeks. We divided the semester into six segments. This allows us to offer courses worth 0.5 credits, one credit, 1.5 credits, two credits and, of course, three credits. A 0.5-credit course is about seven hours of teaching. A one-credit course is around 14 hours. In the first year especially, we encourage students to explore many such short courses. I compare it to tasting food at a restaurant—you sample different dishes before deciding what you like. Once students discover a subject they enjoy, they can take full three-credit courses and go deeper. This kind of academic freedom—we are the first in the country to offer it at this scale.

**Q: IIT Hyderabad has made liberal arts and creative courses mandatory for engineers. Why was that mandatory?**

If India has to become Viksit Bharat, innovation is essential. And for innovation, intuition is just as important as intelligence. Engineers are trained to calculate everything. Out-of-the-box thinking does not come easily. Artists, on the other hand, think intuitively. That is why we decided that about 10% of a B.Tech student's total credits—out of roughly 130—must come from liberal arts and creative arts. These include anthropology, psychology, philosophy, music, dance, painting and even martial arts. We are now introducing sports as credit-based courses—cricket, tennis, hockey—where students study, practise and are evaluated. When students balance left-brain logic with right-brain creativity, you get far better innovation.

**Q: You strongly advocate student choice. Why does this matter?**

At 17 years of age, we allow citizens to decide who becomes the Prime Minister of India. Then why can't they decide what they want to become?

I want IIT Hyderabad to be remembered as a place where innovation flourished

Prof B S Murty, Director, IIT Hyderabad

Why should someone be told, "You must become a mechanical engineer"? Many students later realise this is not what they wanted in life. Education should expand freedom, not curtail it.

When parents ask me, "What kind of job will my child get?", I ask them—why should every B.Tech graduate get a job? Let them create jobs. India needs job creators, not just

job seekers. We need leaders.

Parents often measure success only through salary packages. How do you respond to that mindset?

I understand parental anxiety. It comes from concern for their children's future. But salary should not be the sole measure of success.

A student who builds a startup, creates employment, files patents or works on deep-tech innovation may

not earn the highest salary in the first year—but they contribute far more to the nation in the long run. At IIT Hyderabad, we have students who chose not to sit for placements because they are building companies, pursuing research or working on socially relevant technologies. That is also success.

We must broaden our definition of achievement beyond the first job or first salary slip.

## Recent and upcoming academic and institutional launches

### New academic programmes with AI integration

This year, the institute is set to launch a new M.Tech programme in Artificial Intelligence and Machine Learning in Chemical Engineering. IIT Hyderabad already offers an M.Tech in Integrated Computational Materials Engineering (ICME), where AI and ML are applied to the design of advanced materials such as new-generation steels, alloys, and functional materials with enhanced properties. These programmes reflect the institute's academic approach of integrating AI across core engineering disciplines, rather than limiting it to computer science alone.

### Digital transformation initiatives

As part of its move towards deeper digital integration, IIT Hyderabad has created the position of Dean of Digital Transformation. In the coming months, the institute plans to roll out a ChatGPT-based digital system designed to provide quick access to information related to research activities, faculty expertise, patents, startups, and technology transfers. The system is expected to help students, faculty, and industry

stakeholders gain a clearer understanding of the institute's work in areas such as quantum technologies, materials science, artificial intelligence, and clean energy within a short time.

### Integration of arts and humanities

The institute is also preparing to announce the association of Padma Vibhushan and Padma Bhushan award-winning performing artists as distinguished professors. In addition, an Artists-in-Residence programme is being introduced, under which eminent artists will spend one to two weeks on campus interacting with students. The initiative aims to expose students to creative disciplines alongside technical education, encouraging broader perspectives and sensitivity beyond conventional engineering training.

### Student-led innovation through BUILD projects

IIT Hyderabad has implemented BUILD projects—Bold and Unique Ideas Leading to Development—to encourage student innovation. Under this initiative, students submit brief proposals, sometimes as short

as half a page, which are evaluated by a committee for support. Over the past six years, students have launched around 330 startups, collectively generating approximately Rs 1,500 crore in revenue. A significant number of these ventures were founded while the students were still enrolled at the institute.

### BHARATI programme for engineering excellence

The institute has also introduced the BHARATI programme—Bold-Hearted Aspirants Raising to Transform India. The programme seeks to reinforce the importance of engineering excellence and product development, encouraging students to focus on building and creating solutions rather than viewing education solely through the lens of placement outcomes.

The initiative aligns with broader national goals of strengthening India's technological and manufacturing capabilities.

Together, these initiatives highlight IIT Hyderabad's focus on interdisciplinary learning, innovation, digital access, and the development of well-rounded professionals.

Today is Global School Play Day

## Encouraging creativity with screen-free childhood experiences

The idea behind learning through play is to give children the freedom to explore, imagine, and discover at their own pace. When children are placed in unstructured and spontaneous environments, they naturally develop creativity, problem-solving abilities, and social skills. Free play allows learning to happen organically, without pressure, rules, or predetermined outcomes.

Unstructured play encourages children to think independently and make their own choices. As they build, pretend, explore, or invent games, they learn to experiment, take risks, and solve problems in real time. These experiences strengthen cognitive development while fostering curiosity, confidence, and resilience. Without constant adult direction or digital distractions, children gain a deeper sense of ownership over their learning.

Social interaction is another key benefit of free play. When children play together, they learn essential life skills such as sharing, cooperation, communication, and conflict resolution. These interactions help build emotional intelligence, empathy, and teamwork—skills that are just as important as academic

knowledge in later life.

Promoting screen-free play is especially important in early childhood. Excessive screen exposure can limit physical activity, imagination, and attention span. In contrast, play-based learning supports movement, sensory exploration, and hands-on experiences that contribute to healthy physical and emotional development.

Ensuring access to pre-school education through play for every child is vital for inclusive growth. Play-based learn-

ing environments create equal opportunities for children from all backgrounds to explore, express themselves, and build foundational skills. They also help children develop a positive relationship with learning, making the transition to formal schooling smoother and more meaningful.

By encouraging unstructured, screen-free play, we nurture confident, creative, and socially aware individuals—laying the foundation for lifelong learning and well-rounded development.

## How startups are adapting to GenZ workforce trends

A conclave Neev 2026 Chapter 2 examined how startups are responding to changing expectations of Gen Z and Gen Alpha, focusing on talent, workplace culture, and the future of work

The Indian Institute of Management Kashipur hosted Neev 2026 | Chapter 2 – The Startup Conclave, a discussion-driven event that examined how startups and emerging organisations are adapting to changes in workforce expectations, particularly among Gen Z and Gen Alpha. The conclave focused on themes of startup talent, workplace evolution, and the future of work in fast-growing environments.

Industry leaders, startup founders, and human resource professionals discussed how younger professionals are reshaping organisational cultures. Speakers noted that today's

youth place greater emphasis on purpose-driven work, flexibility, continuous learning, and meaningful engagement, rather than viewing compensation as the sole measure of career success.

Harsh Kumar Sarohi, Senior Vice President – Technology at TradeIndia, highlighted the growing demand among young professionals for clarity of purpose and structured mentorship. He spoke about the role of organisational values and leadership in career development, while underlining the importance of soft skills

such as communication, negotiation, and conflict management in professional growth. Startup founder Mukil Vannan, Founder of Kplor, observed that while Gen Z professionals are comfortable with artificial intelligence and emerging technologies, foundational skills remain essential. He stressed the importance of communication, creativity, and problem-solving, advising students to focus on building core capabilities rather than being driven by job titles. Shilpa Arora, Co-founder and COO of

Insurance Samadhan, spoke about changing attitudes toward work-life balance and flexibility. She noted that younger professionals tend to be more intentional in career planning and place value on meaningful work, customer engagement, and long-term relevance.

From an HR perspective, Sumedh Singh, AVP and Head of Human Resources at ePack Durable Limited, highlighted the analytical strengths of the new generation while pointing to the need for flexible work models, transparent communication, recognition, and continuous skill development.

The session was moderated by Gokul Ramanan Radhakrishnan, Manager – Business Strategy at Medinious. Faculty members and students attended the conclave, which reflected ongoing discussions around preparing youth for evolving workplace realities.

**BIZ BRIEFS**

**Skoda clocks sales milestone**

Skoda Auto India, has announced that the Kylaq has emerged as a strong pillar of Skoda Auto's growth story in India. The Kylaq has been a major contributor to Skoda Auto India's best-ever sales performance, in the brand's 25th year in the country. Ashish Gupta, Brand Director, Skoda Auto India, said: "The Kylaq is a strong testament to our long-term commitment to India and saw us enter the market's most competitive segment."

**Amazon's RD sales grew 2.5X**

Amazon India reported strong customer participation and robust demand for the company's first big shopping event - the Great Republic Day Sale 2026. Same-day delivery orders by Prime customers increased 2.5x compared to last year. Saurabh Srivastava, VP, Amazon India, said: "The Amazon Great Republic Day Sale reinforced several key trends, including a strong participation from first-time customers - particularly those from tier 2 and 3 cities. We also continue to see a clear shift towards premiumization."

**EPAM at Agentathon**

EPAM Systems, Inc., a leading global digital and AI transformation company, played a pivotal role in enabling Agentathon, the world's largest agentic AI hackathon, hosted by Google Developer Groups (GDG) Hyderabad. As a strategic technology sponsor and enabler, EPAM supported the developer community with engineering rigor and enterprise-grade AI product thinking, helping teams strengthen their architectures and consider the scalability, reliability and real-world applicability of agentic AI systems.

**CareEdge's new report**

According to CareEdge Ratings, the Union Budget 2026-27 reflects a steady policy hand at a time when India's economy is transitioning from recovery-led growth to a phase of consolidation and medium-term planning. Mehul Pandya, MD, CareEdge, said: "The Union Budget for 2026-27 comes at a time when India's economy is undergoing a period of consolidation and planning. What stands out this year is not just the scale of announcements but the steady hand guiding them."

**KMAMC's new scheme**

Kotak Mahindra Asset Management Company Ltd. (KMAMC) announced the launch of the Kotak Services Fund, an open-ended equity scheme designed to tap into India's fast-expanding services sector, which contributes about 55 per cent to the country's Gross Value Added (GVA) and employs nearly one-third of the workforce. The New Fund Offer (NFO) is open for subscription through February 4 and 18, it follows a services-led investment theme and seeks to benefit from structural growth.

**Rupee skyrockets 122ps to close at 90.27/\$**

**The local unit rose to the highest levels in two and a half weeks and rallied by around 1.5% on the trade deal between India and the US**

MUMBAI: The Indian rupee emerged as the best-performing Asian currency on Tuesday, registering a gain of 122 paise or 1.33 per cent in a single trading session to settle at 90.27 (provisional) against the US dollar, after India and the US agreed to a trade deal. Forex traders said the Indian rupee rose to the highest levels in two and a half weeks and rallied by around 1.5 pc on the trade deal between India and the US. Domestic indices also surged by around 2.75 per cent, boosting domestic market sentiments. Further, weakness in crude oil prices and expected foreign inflows also favoured investor sentiment.

India and the US agreed on a trade deal under which Washington will bring down the reciprocal tariff on Indian goods to 18 per cent, lower than that for countries like China, Bangladesh and Vietnam. At the interbank foreign exchange market, the rupee opened at 90.30 against the US dollar, then gained some ground to touch an intraday high of 90.05 and a low of 90.52 against the greenback. At the end of the trading session on Tuesday, the rupee was quoted at 90.27 (provisional) against the greenback, registering a gain of 122 paise from its previous close. The rupee gained 44 paise to close at 91.49 against the US dollar on Monday, a day after the Union Budget 2026-27 was presented. Prime Minister Narendra Modi on Tuesday said the India-US trade deal is a "big decision" that will benefit everyone in the country and asserted

that his government always works in favour of the nation. Forex traders said the India-US trade deal will reopen the door for FII participation, and if capital flows recover in CY26, it would ease some pressure on the rupee. "With the "reciprocal" tariffs on India's exports to the US now lowered, we estimate the current account deficit to narrow by around 0.25 per cent of GDP in CY26 to 0.8 per cent of GDP. In addition, if capital flows recover in CY26 on the conclusion of the India-US trade deal, which would ease some pressure on the INR, and result in downside risk to our current USD/INR 12-month forecast of 94," Goldman Sachs said in a research note.

However, things may not be completely smooth sailing for the INR, some experts believe. "There could be hiccups along the way with this trade agreement" for example, it may not be easy for India to divert its Russian oil purchases quickly. The rupee was quoted at 90.27 (provisional) against the greenback, registering a gain of 122 paise from its previous close. The rupee gained 44 paise to close at 91.49 against the US dollar on Monday, a day after the Union Budget 2026-27 was presented. Prime Minister Narendra Modi on Tuesday said the India-US trade deal is a "big decision" that will benefit everyone in the country and asserted

that his government always works in favour of the nation. Forex traders said the India-US trade deal will reopen the door for FII participation, and if capital flows recover in CY26, it would ease some pressure on the rupee. "With the "reciprocal" tariffs on India's exports to the US now lowered, we estimate the current account deficit to narrow by around 0.25 per cent of GDP in CY26 to 0.8 per cent of GDP. In addition, if capital flows recover in CY26 on the conclusion of the India-US trade deal, which would ease some pressure on the INR, and result in downside risk to our current USD/INR 12-month forecast of 94," Goldman Sachs said in a research note.

However, things may not be completely smooth sailing for the INR, some experts believe. **AI-powered innovation blueprint: Arundhati**

HANS BUSINESS HYDERABAD

BUDGET 2026 represented India's transformation from technology consumption to AI-powered innovation—a blueprint for a \$7 trillion economy built on intelligence, not just scale, said Arundhati Bhattacharya, President & CEO, Salesforce South Asia. According to her, the strategic architecture is balanced and long-term. The tax holiday until 2047 for cloud services is a masterstroke in data sovereignty, attracting an estimated \$50 billion in data center investments by 2030 while positioning India as the cloud hub for emerging markets. MSME reforms demonstrate sophisticated thinking. The Rs10,000 crore SME Growth Fund, combined with the TReDS platform mandate and expanded safe harbor thresholds, creates force multipliers enabling India's 63 million MSMEs to scale from survivors to global champions, she said. The High-Powered Committee on Education to Employment targets capturing 10 per cent of global services trade by 2047—ambitious but achievable given our demographic advantage: 65 per cent under 35, digital infrastructure like UPI and Aadhaar, she added. "AI integration is refreshingly pragmatic.

**STT hike effect on markets to subside soon**

MUMBAI: Markets are used to tweak in taxation and the adverse impact of the steep hike in securities transaction tax (STT) will not last long, leading bourses said. NSE, the largest stock exchange, feels that the move to curb volumes will not have any impact on its upcoming initial public offering (IPO) plans, its Managing Director and Chief Executive Ashish Kumar Chauhan said.

"What has been raised is the STT has been increased in a minor way. Broadly, markets are used to having STT on options and this time it has also been increased on futures but broadly, I do not see any large impact on the IPO of NSE or otherwise asset valuations in the stock market going forward," Chauhan told.

Rival BSE's Managing Director and Chief Executive S Ramamurthy said markets react in a "bit adverse" way whenever any such changes are proposed by the government and exuded confidence that gradually things will settle down. "This is not the first time that STT is increased. When any such move is announced, the market reaction is a bit adverse to start with and then it stabilises," he said. The proposal to increase the STT on futures and options will also encourage long-term equity investments, he said, adding that it may also lead to a shift of money from the arbitrage funds to banks' fixed deposits as the returns one stands to make get on par.

The moves to hike the STT on the F&O segment was attributed as one of the key reasons that led to a sharp correction in the equity markets after the Budget speech by Union Finance Minister Nirmala Sitharaman.

It can be noted that as per studies by Sebi, over 90% of retail investors' trades in the F&O segment led to losses, and the capital markets regulator has also taken steps to reduce the volumes in the past.

**India-US trade deal to boost country's manufacturing: FM**

India and the US have agreed to a trade deal under which Washington will bring down the reciprocal tariff

NEW DELHI

FINANCE Minister Nirmala Sitharaman on Tuesday welcomed the reduction in United States' tariffs on Indian goods, describing the development as a major boost for the 'Made in India' initiative. Taking to social media platform X, the finance minister said that Indian products would now face a reduced reciprocal tariff of 18 per cent. "Good news for #MadeInIndia products. They will now face reduced tariff of 18%. Thanking the leadership of PM @narendramodi and @POTUS for this development. People of our two large democracies stand to benefit," she said in a post on X.

India and the US have agreed to a trade deal under which Washington will bring down the reciprocal tariff on Indian goods to 18 per cent from the current 25 per cent. The breakthrough follows a high-level telephonic conversation between Prime Minister Narendra Modi and US

President Donald Trump. In a reciprocal move, India has committed to reducing trade barriers for American goods and significantly increasing imports across sectors, including energy, technology, and agriculture.

Meanwhile, top finance ministry officials stated that the announcement of the Indo-US bilateral trade pact has ended the atmosphere of uncertainty and will have positive implications for the Indian economy amid global problems.

"Today Indian Economy continues to demonstrate strong macroeconomic resilience. Despite a global

environment which has uncertainties, a great deal of uncertainty dropped today morning..." Economic Affairs Secretary Anuradha Thakur said in her address to the industry chamber FICCI here. She further said India stands out as a macroeconomically strong country in the world today. The government is further awaiting the details of the trade deal to gauge if India's economic growth will exceed the estimate of 6.8-7.2 per cent in 2026-27, she said. The government prepared its Budget for the next financial year based on the then India-US dynamic that entailed steep tariffs, Thakur said, adding that her ministry is confident of transparently achieving all fiscal commitments laid out in the Budget.

There is also a possibility that India's strong economic momentum may help the government exceed its projections for receipts as well as divestment in FY27, she added.

**TO BOOST FDI, FII INFLOWS: EAC-PM CHIEF**

NEW DELHI: The Indo-US trade deal will boost FDI as well as portfolio investments in the country, having a positive impact on the value of rupee, Chairman of Economic Advisory Council to the Prime Minister (EAC-PM) S Mahendra Dev said on Tuesday. India and the US agreed on a trade deal under which Washington will bring down the reciprocal tariff on Indian goods to 18 per cent, lower than that for countries like China, Bangladesh and Vietnam. US President Donald Trump made an announcement regarding the trade deal on Monday after a phone conversation with Prime Minister Narendra Modi.

**India hasn't said it will stop oil imports: Russia**

MOSCOW

Russia has not heard any statements from India about stopping Russian oil purchases, Kremlin spokesman Dmitry Peskov said on Tuesday. His comments came a day after US President Donald Trump claimed that Prime Minister Narendra Modi has "agreed to stop buying Russian Oil, and to buy much more from the United States and, potentially, Venezuela." "We haven't heard any statements from New Delhi on this matter yet," Peskov said.

The Kremlin spokesman also said that Russia intends to continue to develop its relations with India in every possible way, according to Russian media reports. Sources in Russia's energy ministry said they have not received any notice from Indian refiners to cancel contracts.

In a post on Truth Social, Trump, who spoke with PM Modi on Monday, announced that India and the US agreed to a trade deal un-

der which Washington will charge a reduced reciprocal tariff on Delhi, lowering it from 25 per cent to 18 per cent. Trump last year imposed 50 per cent tariffs on India, among the highest in the world, including 25 per cent levies for its purchases of Russian energy. India buys about 88 per cent of its crude oil, which is converted into fuels like petrol and diesel, from overseas.

Russian oil made up hardly 0.2 per cent of all crude oil that India imported till 2021. India, the world's third-largest oil importer, became the largest buyer of discounted Russian crude after Western countries shunned Moscow

following its February 2022 invasion of Ukraine. India's import of Russian crude oil dropped to around 1.1 million barrels per day in the first three weeks of January, from an average of 1.21 million bpd in the previous month and over 2 million bpd imports in mid-2025, according to data from real-time analytics company Kpler. Iraq is now supplying almost the same volumes as Russia, up from an average of 9,04,000 bpd in December 2025, according to Kpler. Volumes from Saudi Arabia too have risen to 9,24,000 bpd in January, from 7,10,000 bpd in December and lows of 5,39,000 bpd in April 2025.

**Over 70% recruiters turning to AI to tap hidden talent: Report**

About 80 per cent of recruiters reported that AI makes gaining insight into a candidate's skills easier

**Finding Talent via AI**

- AI use for pre-screening interviews
- Scope for better recruiter-candidate conversations
- Now struggle to find qualified candidates

NEW DELHI

EVEN as finding the right talent is getting harder, 71 per cent of recruiters in India said that artificial intelligence (AI) has helped them uncover candidates with skills they would have previously missed, according to a new report on Tuesday.

The report by professional networking website LinkedIn, based on a survey of 6,554 global HR professionals, noted that recruiters are using AI to spot the right skills and hire faster.

About 80 per cent of recruiters reported that AI

makes gaining insight into a candidate's skills easier. More than three-quarters (76 per cent) believe AI is already speeding up hiring.

Around eight in 10 Indian recruiters said they plan to expand their use of AI to support hiring goals, evaluate applicants, and source top talent.

A majority also plan to increase AI use for pre-screening interviews in 2026, believing it will lead to more valuable recruiter-candidate conversations (83 per cent), faster hiring experience (83 per cent), and better candidate insights (82 per cent). "We're seeing a structural

shift in hiring from pedigree and past titles to demonstrate skills and capability. This shift is hard to execute at scale without AI. Used responsibly, AI helps recruiters detect the right skills earlier, reduce screening friction, and create a more consistent and fair evaluation process," said Ruchee Anand, APAC VP, LinkedIn Talent Solutions. The research showed that 74 per cent of recruiters now struggle to find qualified candidates, even as hiring activity runs 40 per cent above pre-pandemic levels in India.

This is because recruiters are facing a volume-quality mismatch. Among recruiters

who say hiring has become more difficult, over half point to a surge in AI-generated applications (53 per cent), while many cite continued shortages in in-demand skills (47 per cent).

Further, as AI becomes more embedded in hiring, expectations from candidates are rising, too. Professionals increasingly want visibility into how hiring decisions are made, signalling a clear demand for transparency.

Half of recruiters (50 per cent) in India now say they are under pressure to explain how AI is being used in their processes and hiring flow, particularly when it comes to screening and shortlisting candidates.

"Our priority at LinkedIn is to build AI tools like Hiring Assistant that serve as a decision-support layer in hiring, so recruiters can find the right talent more quickly and confidently without compromising on quality or candidate experience," Anand said.

## Rebel Star Prabhas praises the 'Couple Friendly' trailer, shares it on Instagram

THE trailer of 'Couple Friendly', starring Santosh Soban and Manasa Varanasi in the lead roles, was released recently. Rebel Star Prabhas appreciated the trailer, calling it well-made, and shared it on his Instagram account. He described it as a love story told straight from the heart.

The 'Couple Friendly' team has expressed their happiness over receiving praise from Prabhas for the trailer. This recognition is a huge boost for the entire team and has raised the buzz surrounding the film.

Presented by the renowned production house UV Creations, the film is being grandly produced by UV Concepts in both Telugu and Tamil. Ajay Kumar Raju P. serves as the co-producer, and the film is directed by Ashwin Chandrasekhar. Made as a musical romantic love

story, 'Couple Friendly' is set to release on February 14, on the occasion of Valentine's Day, in both languages. The

film will be distributed in Andhra Pradesh and Telangana by passionate producer and distributor Dheeraj Mogilineni.

## Kayadu Lohar returns to Malayalam; New poster of 'Pallichattambi' released

A new poster of 'Pallichattambi', directed by Dijo Jose Antony and starring Tovino Thomas in the lead role, has been released. The latest reveal is a single-character poster featuring the film's heroine, Kayadu Lohar. The poster also confirms the film's release date. Posters have been unveiled in five languages, including Malayalam. 'Pallichattambi' is set for a worldwide theatrical release on April 9. Kayadu Lohar's announcement video as the female lead in 'Pallichattambi' had earlier drawn significant attention. She became a favorite among South Indian cinema audiences following her performance as the heroine in the Tamil superhit film 'Dragon'.

In 'Pallichattambi', Tovino Thomas will be seen in a never-seen-before look. The film is produced by Noufal and Brijeeesh under the banner of Worldwide Films, along with Chanukya, Chaitanya, and Charan under C Qube Bros Entertainments. It will be released in five languages, including Malayalam. The screenplay has been written by S. Suresh Babu.

Apart from Kayadu Lohar in the female lead, 'Pallichattambi' also features an ensemble cast that includes Vijay Raghavan, Sudheer

Karamana, Baburaj, Vinod Kedamangalam, Prashanth Alex, and several other prominent actors. The film is set in the 1950s-60s period.

The cinematography is handled by Tijo Tomy, while the music is composed by Mollywood's music sensation Jakes Bejoy. Megha Shyam and Thanseer serve as co-producers. Costumes are designed by Manjusha Radhakrishnan, and makeup is by Rasheed Ahmed. Alex E. Kurien is the line producer, Anil Amballur the finance controller, and Rajesh Menon the production controller. Renith Raj and Kiran Raphael are the chief associate directors. Sound design is by Sync Cinema, and art direction is by Rajesh Menon. Casting is handled by Binoy Nambala. Digital marketing is managed by Akhil Vishnu V.S., with PR by Akshay Prakash. Stills photography is by Rishlal Unnikrishnan, and the poster design is by Yellow-tooths.

## Ravi Teja cheers Team 'Sumathi Sathakam'

PRODUCED under the Vision Movie Makers banner by Sai Sudhakar Kommalapati and directed by M.M. Naidu, 'Sumathi Sathakam' is a wholesome family entertainer gearing up for a worldwide theatrical release on February 6. The film stars Amardeep Chowdhary and Sayli Chaudhary in the lead roles. Renowned production house Mythri Movie Makers will release the film across the Telugu states.

The first look, teaser, songs, and promotional content of 'Sumathi Sathakam' have already received an encouraging response from audiences. Amardeep Chowdhary's energetic dance moves in the songs have been widely appreciated, while Subhash Anand's music adds strong emotional and entertainment value to the film.

As part of the promotions, the film's team conducted an extensive tour across the Rayalaseema region, receiving an overwhelming response. The trailer launch event held at a college in Tirupati turned out to be a grand success, with students enthusiastically responding to the film's hook steps and youthful content.

Popular actor and Mass Maharaja Ravi Teja, who is widely known as Amardeep Chowdhary's inspiration, watched the teaser, trailer, and other promotional content and shared his appreciation. He said, "I have watched the teaser, trailer, and content of Amardeep's film 'Sumathi Sathakam'. I really liked it. I wish the film great success and hope Amardeep has a bright future ahead."

During the college

promotions, the film's catchy hook steps strongly connected with students, and both the teaser and trailer received a positive response from the youth across Andhra Pradesh and Telangana. The title 'Sumathi Sathakam' has also created strong recall among audiences.

Adding to its high-lights, 'Sumathi Sathakam' received a U/A certificate with zero cuts, which is considered rare. The Censor Board members appreciated the film, stating that it is a feel-good entertainer that audiences will enjoy after a long time.

The film will be released in the Telugu states by Mythri Movie Makers, while overseas distribution in North America will be handled by Vibrant Cinemas, with releases in Dallas managed by Ravi Kollipara and Jai Pakala.

## Ashwath Marimuthu: Title of my film with Simbu will start with 'I'

WISHING actor Silambarasan a happy birthday on Tuesday, director Ashwath Marimuthu has now disclosed that the title of his film with Simbu will begin with the letter 'I'.

Ashwath Marimuthu, who will be directing Simbu's next film after the actor completes director Vetrimaran's 'Arasan', took to his X timeline to pen a birthday wish to the actor. He wrote, "Happy birthday ST(A)R. This year is going to be magnificent for you sir. Cannot wait to start our film post 'Arasan'. To all his fans, 'konjam poruthukonga'. An entertaining film specially for the fans is loading! Title will start with 'I'."

It may be recalled that Ashwath Marimuthu, who delivered a blockbuster called 'Dragon' last year, had said last year that his next film, featuring actor Simbu in the lead, would definitely release next year (in 2026), irrespective of when they began shooting.

Ashwath, had in March last

year, disclosed that the script for the film had already been completed. "It is a script that has already been finished. Only screenplay and dialogues have to be written. Overall treatment is all over," he had said then.

When asked what kind of film his film with Silambarasan would be, Ashwath had replied, "What all you liked in my films 'Dragon' and 'Oh My Kaduvule', you will find in this film. At the same time, this film will also have all that you admired in him. Basically, it will be a vintage STR in my kind of films."

The film is being produced by AGS, the same production house that produced 'Dragon'.

It may be recalled that director Ashwath Marimuthu has already picked a team of assistant directors for his directorial team for his upcoming films #STR51 and

#AGS27. The director had made it clear that all nine members he had picked in his team didn't have any personal connection with him or with anyone he knew and that he had kept the process very clean.

The director, last year, had taken to his X timeline to list all those who had been picked to be his assistant directors. Putting out a poster on his timeline that read, "Team Ashwath Marimuthu. Welcome onboard assistant directors!" he named Srikanth, Mohammed Asif, Arun Kumar, Nithish S. Dhina, Nithish B. Krish, Srinath, Aniruth as his team members. Along with the poster, he wrote, "To all the talented people who applied but couldn't make it, wish you a great future and am sure you will find a better place to work."

## Sharwanand's 'Biker' to hit screens worldwide on April 3

THE makers of director Abhilash Kankara's eagerly awaited sports action film, 'Biker', featuring actor Sharwanand in the lead, on Tuesday announced that their film would now hit screens worldwide on April 3 this year.

Taking to its X timeline, UV Creations, the production house producing the film, said, "The engine's revved up. The track is ready. Now, THERE IS NO STOPPING HIM. #BIKER grand release worldwide on April 3rd, 2026. #BIKERMov #GoAllTheWay #BikerOnApril3rd." It may be recalled that the film was originally scheduled to hit screens on December 6 last year. However, in November, the makers issued a statement saying they were postponing the release of the film as they wanted to give audiences not just a film but an "experience like never before."

Taking to its X timeline, UV Creations had, in November last year, said, "Biker stands postponed! A new release date

will be announced soon. A bigger, better experience is being crafted with care and being assembled with passion. #Biker will be releasing in 3D, 4DX, and many more formats."

In its statement, the production house called the film "An experience beyond the screens!" and said that to ready this "beast," the cast and crew had worked hard and were continuing to work hard on countless nights.

"Trust us, this film is much more than the little laps we

showed, and it is bigger than what Telugu Cinema has seen until now! To this kind of an experience, to this kind of a scale," it said, and further added, "We want to give you a product that races in your hearts, pumps up your adrenaline, and makes you breathless! Biker stands postponed, not just to give you a film but an experience like never before. BIKER is coming to theatres in 3D, 4DX and many more formats. Tighten your helmets. You are in for a ride of a lifetime." For the unaware, actor Sharwanand plays a bike racer in this upcoming film, which was initially being referred to as #Sharwa36'. Sources close to the unit of the film say that Sharwanand will be seen as a skilled motorcycle racer in the film.

A source had, in September last year, said that the shooting of the film was going on in Hyderabad and that key scenes related to the race on Sharwanand and the team had been shot. "These scenes are

going to be the highlight of the film," the source had said then. "He (Sharwanand) is going to impress audiences with stunts that will give viewers an adrenaline rush like never before."

Malavika Nair plays the female lead in this film, which will also feature well-known character artistes Brahmaji and Atul Kulkarni in pivotal roles. Produced by Vamsi and Pramod, this high-energy film is set against the backdrop of motocross racing. Sources say it is a thrilling story of a family that is spread over three generations and set against the exciting motocross backdrop of the 90s and early 2000s. Cinematography for the film is by well-known cameraman J Yuvraj. Music for the film has been scored by famed Tamil music director Ghibran. Anil Kumar P is the editor of the film, which has N Sandeep as its executive producer. Rajeevan is the production designer, and A Pannerselvam is the art director.

## Sai Pallavi thanks #D55 director Rajkumar Periasamy for his welcome; discloses she is 'nervously excited'

A day after the makers of director Rajkumar Periasamy's upcoming film, featuring actor Dhanush in the lead, welcomed her on board the unit of the film, actress Sai Pallavi on Tuesday thanked the film's director Rajkumar Periasamy and disclosed that she was "nervously excited."

Taking to her Instagram stories to thank Rajkumar Periasamy, the director of Dhanush's upcoming film 'D55', for his post in which he had accorded her a warm welcome to the unit, Sai Pallavi wrote, "Thank you so much sir. Nervous excitement!"

It may be recalled that Wunderbar Films, the production house of actor Dhanush and one of the production houses producing the film, had taken to its X timeline to welcome actress Sai Pallavi on Monday. It wrote, "She's about grace and strength - all at once. Welcoming everybody's favourite @Sai\_Pallavi92 on board 'D55'. The hit combo returns to the big screen."

This will be the second time that Sai Pallavi will be working with Dhanush. She had earlier worked with him in director Balaji Mohan's 'Maari 2'.

It may also be recalled that the makers of the film, being tentatively referred to as 'D55', had already welcomed actress Sreeleela on board the unit on January 30 this year. The production house had welcomed Sreeleela, saying, "You didn't see this coming. Welcoming the dazzling damsel @sreeleela14 on board 'D55'."

The makers had also welcomed young music sensation Sai Abhyankkar on board the unit.

Taking to its X timeline to make the announcement, Wunderbar Films had said, "Time's up. The SA1-lence breaks. Excited to have the sensational @SaiAbhyankkar as the music composer for 'D55'. 'D55' - A #SaiAbhyankkar Musical. A brand new collaboration loading."

Sai Abhyankkar responded to the post of the production house, saying, "Super excited and pumped working with @dhanushkraj sir on 'D55'! My dream collaboration @Rajkumar\_KP, dear sir thank you so much!! This is gonna be a very special cooking and thank you dear @theSreyas anna. @wunderbarfilms @RTakeStudios GIG"

Director Rajkumar Periasamy also welcomed the young music sensation on board the unit of the film, tentatively referred to as 'D55'. Taking to his X timeline, he wrote, "You are a Wonder-kid Sai! Excited to have you on board for 'D55' as the music composer my brother. God bless you dear @SaiAbhyankkar. Thank you dear @DhanushKRaja sir. 'D55' - A #SaiAbhyankkar Musical. @theSreyas @wunderbarfilms @RTakeStudios @Shra2309 @azy905 @sandy\_sashr @vishurams." The film has triggered huge excitement, as the makers have already disclosed that this film will be a magnum opus. It may be recalled that only a week ago, another production house called R Take Studios had announced that it was joining hands with Wunderbar Films to produce this film.
