10 arrested in week-long cybercrime crackdown

HYDERABAD: The Cyberabad Cyber Crime Police detected seven cybercrime cases in a week between April 1 and 7, leading to the arrest of 10 individuals from various states.

The investigation exposed a widespread network of cybercrime activity across the country. The investigation revealed the pan-India spread of cybercriminal networks, with offenders from different states. According to Cybercrime, of the 10 arrested, four each were linked to trading frauds and part time jobs fraud, and one each in loan and digital arrest fraud. The important case of this week – the part-time job fraud in which a victim was cheated of Rs 33,44,000 by fraudsters through WhatsApp and a fraudulent online trading platform.

Police arrested four accused Konduru Venu, Parasanaboina Vamshi, A Hari Kumar, and Malagundla Naresh of Telangana and Andhra Pradesh for knowingly creating and providing bank accounts to cyber fraudsters for receiving and routing cheated money, in return for commission.

Moreover, the Cybercrime Police obtained 258 refund orders from the court in 46 cases, securing a total amount of Rs 78,28,744 to be returned to those affected.

Citizens have been advised to remain vigilant, particularly against online trading schemes promising high returns. The police urged the public to verify financial transactions, be cautious with personal information such as Aadhaar numbers, bank details, or OTPs, and avoid clicking suspicious links shared via messaging apps or emails. Cybercrime advised citizens that the suspicious calls and messages should be reported immediately by calling 1930 or visiting www.cybercrime.gov.in.

CM draws action plan for repairs of 3 barrages at Kaleshwaram

- Repairs of 3 barrage works of Kaleshwaram will start soon
- CM Revanth Reddy instructs officials take up works expeditiously

Hans News Service
Hyderabad

CHIEF Minister A Revanth Reddy directed Irrigation officials to carry out repairs on the three barrages of the Kaleshwaram project expeditiously and resume operations of the barrages at the earliest. The officials were ordered to take up repairs and complete them as per the guidelines prescribed by the National Dam Safety Authority (NDSA).

On Thursday, the CM accompanied by Irrigation Minister N Uttam Kumar Reddy held a review of status of 2 barrages - Medigadda, Annaram and Sundilla in Kaleshwaram project.

The Chief Minister instructed the authorities to formulate a specific action plan for the repairs and to ensure continuous monitoring of the work progress. All the agencies involved should also be alert, the Chief Minister made it clear that the tests and sample collection currently being conducted under the aegis of the Central Water and Power Research Station (CWPRS) must be completed before the onset of the monsoon season. A dedicated team comprising representatives from the Irrigation department, CWPRS, barrage construction agencies, and design consultants would also be created.

The members of the Central Water Commission (CWC) will be involved in every stage of the work.

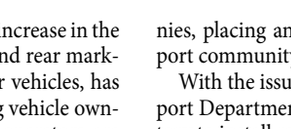
Engineers brought to the Chief Minister's attention the necessity of conducting a comprehensive study of the entire 1.6-kilometer barrage at Medigadda and not merely the specific piers which got damaged.

The Chief Minister directed officials to prepare a special action plan for drilling 500 bore wells near Medigadda and procure necessary machinery for this purpose. The designs for the required repairs should be prepared and a detailed schedule outlining the completion of the works till December should be prepared.

Revanth Reddy warned that delay in the execution of works will not be tolerated. The Chief Minister assured that required funds would be provided and suggested establishing a base camp at Medigadda. The CM would visit the site once the works commenced. Chief Secretary Ramakrishna Rao, Irrigation Secretary Sridhar, CM's Secretary Manik Raj, and other senior officials from the Irrigation Department were also present.

Government streamlines vehicle registration through VAHAN portal

Hans News Service
Hyderabad



MARKING a significant step towards digital governance and enhanced citizen convenience, the Transport Department has successfully operationalised the generation of non-transport temporary registrations through the VAHAN portal. To ensure smooth and efficient processing, over 1,000 dealers have been trained through physical and online modes. A senior officer at the transport department stated that 346 financial integrations have been completed and 671 dealers are now authorised and onboarded, enabling seamless and decentralised service delivery across the state. The system is being progressively strengthened in a phased, module-wise manner to ensure continuous improvements in efficiency and reliability.

As of now, as many as 33,000 temporary registration certificates have been generated through the portal. Furthermore, the generation of permanent registration certificates will commence from 11 April. Citizens will be able to download registration certificates and driving licences through the NextGen mParivahan App. Additional transactions will also be enabled on the application in a phased manner.

The implementation of VAHAN-based registration is a major step towards digital transformation in the department. It enhances transparency, reduces processing time, and ensures hassle-free services for citizens by removing traditional bureaucratic hurdles.

The department remains committed to leveraging technology to provide a more transparent and accessible interface for vehicle owners while maintaining high standards of data accuracy and operational security across the state network.

Transporters cry foul over 'costly' mandatory reflective tapes

HYDERABAD: THE sudden increase in the cost of retro-reflective tapes and rear markings, which are mandatory for vehicles, has led to serious concerns among vehicle owners in Hyderabad. Transport operators are arguing that the revised charges imposed by the government constitute an unfair financial burden. The vehicle owners claimed that reflective or radium tapes, originally priced between Rs 70 and Rs 80 per metre, are now being sold for Rs 150 per metre and more. This price hike occurred after licences were reportedly granted to private companies, placing an undue strain on the transport community.

With the issuance of GO 60 by the Transport Department, it has been made mandatory to install radium tape according to specific standards for all commercial vehicles, including trucks, buses, autos, and tractors. The fixing of these stickers is strictly linked to the renewal of vehicle fitness certificates. Government officials have made it clear that these tapes must comply with AIS-089 and AIS-090 standards to increase road safety and reduce accidents at night.

CHARITY EVENTS PLANNED FOR PEACE PROJECT
