Home minister Vangalapati Anitha addresses a press conference along with officials at the Secretariat on Tuesday

HOME minister Vangalapati Anitha on Tuesday said the NDA coalition government has achieved significant improvements in law and order, women's safety, cybercrime prevention and anti-drug enforcement during its first two years in office, with the state's overall crime rate declining by 14.1 per cent.

Addressing a press conference at the Secretariat, Anitha said the government has strengthened policing through the use of CCTV surveillance, drones, artificial intelligence-based analytics and digital monitoring systems, enabling faster crime detection and investigation.

Highlighting women's safety initiatives, the minister said over 11.15 lakh SOS alerts have been received through the Shakti app, with authorities responding promptly to emergency calls. She said dedicated women's protection mechanisms and technology-based safety systems have been established across the state.

Under Operation Muskaan, police traced and reunited 8,396 missing persons, including children, women and elderly citizens, with their families. The government has also intensified action against crimes involving children, with 2,293 victims receiving

counselling and rehabilitation support.

Anitha said the state has launched an aggressive crackdown on narcotics and ganja cultivation through the EAGLE enforcement unit. According to the minister, authorities registered 56,674 ganja-related cases, initiated legal action against 2,366 individuals and seized assets worth more than Rs 4 crore.

In the cybercrime sector, she said coordinated efforts involving cyber war rooms, banks, telecom operators and the 1930 cyber helpline helped prevent losses of nearly Re 247 crore

to online fraudsters.

The minister said emergency response services have been significantly strengthened, reducing average response time from 30 minutes in 2024 to less than 10 minutes, while achieving a response efficiency rate of 97.47 per cent.

On police welfare, Anitha said the government recruited more than 6,000 police personnel, promoted 505 gazetted officers and increased the stipend for constable trainees from Rs 4,000 to Rs 7,500 per month.

She also said the government is modernising forensic infrastructure, with forensic examinations completed in 7,793 cases between January and May this year and strengthening prosecution systems to improve conviction rates.

According to the minister, courts delivered judgments in 279 major criminal cases, resulting in eight death sentences, three life imprisonment terms, 42 convictions carrying sentences of more than 20 years and 14 convictions carrying 14 year prison terms.

Anitha said the government's focus remains on technology-driven policing, public safety, police welfare and ensuring effective delivery of justice across the state.

MSME, SERP and NRI empowerment minister Kondapalli Srinivas, along with senior officials of the departments, speaks to the media at the Secretariat on Tuesday

MSME sector got ₹1.9 L-cr in two years: Srinivas

- ▶ MSME, SERP and NRI affairs minister says MSME parks, private industrial parks and revival policy have driven investment and job creation
- ▶ Women SHGs provided Rs 63,000 cr bank linkage; 5 lakh new women entrepreneurs is target
- ▶ Informs that APNRTS resolved 1,376 NRI grievances
- ▶ Social security pensions cross Rs 33,000 cr annually

HANS NEWS SERVICE
VIJAYAWADA

THE state government extended more than Rs 1.9 lakh crore in bank credit to the micro, small and medium enterprises (MSME) sector over the past two years while implementing a range of industrial reforms and entrepreneurship programmes aimed at boosting economic growth and employment, MSME, SERP and NRI empowerment minister Kondapalli Srinivas said on Tuesday.

Addressing a press confer-

ence on achievements of NDA coalition government in the past two years at the Secretariat, Srinivas said the government has identified MSMEs as a key driver of industrial expansion, investment attraction and job creation. Andhra Pradesh currently has around 55,000 micro enterprises, 8,000 small enterprises and over 1,000 medium enterprises. The sector comprises 49 per cent services, 28 per cent trade and 23 per cent manufacturing.

To strengthen industrial growth, the government has introduced more than 20 sector-specific policies covering textiles, food processing, electric mobility, clean energy, electronics, defence and aerospace, logistics, pharmaceuticals and medical devices. MSME parks are being developed across the state, and land has already been allotted to 792 industries, which are expected to generate more than 1.03 lakh jobs.

Srinivas said the Private Industrial Park Policy is expected to attract investments of over Rs 1,900 crore and create 16,500 jobs. A dedicated MSME revival policy has also been launched to support stressed units through restructuring and investment mobi-

lisation. In the past two years, MSMEs received more than Rs 22,448 crore in collateral-free loans under the CGTMSE scheme and over Rs 40,000 crore under the PM MUDRA programme.

The government has also established a Rs 100-crore Collateral-Free Loan Guarantee Fund and launched the Rs 300-crore Chief Minister Entrepreneurship Advancement Programme (CMAP), which is expected to generate more than 17,600 jobs.

The minister spoke of the government's focus on women's empowerment, noting that self-help groups received bank linkage support exceeding Rs 63,000 crore and over Rs 9,300 crore through the Sreenidhi credit system. The government created one lakh women entrepreneurs last year and aims to create another five lakh this year. The newly launched 'Swayam AP' brand will market products manufactured by women's self-help groups across the state.

Srinivas also said the state government continues to provide extensive welfare support through social security pensions and NRI assistance programmes, while advancing the NRT Icon Towers project in Amaravati.

SIR: ECI enables online submission of forms

- ▶ The Election Commission has enabled online filling and submission of enumeration forms under the Special Intensive Revision of electoral rolls.
- ▶ Voters can complete the process online without waiting for a Booth Level Officer visit, provided their mobile number is linked to their voter ID and details match Aadhaar records

HANS NEWS SERVICE
VIJAYAWADA

CHIEF electoral officer (CEO) Vivek Yadav on Tuesday said that the Election Commission of India (ECI) has enabled the facility to fill and submit enumeration forms online as part of the SIR. The ECI kicked off the enumeration period of the Special Intensive Revision of the electoral roll in the southern state on June 15, which will continue for a month until July 14. "ECI has enabled the facility for filling and submission of enumeration form online. Filing this form online allows to match elector record with the historical base roll without

Picture for representational purpose only

waiting for a Booth Level Officer (BLO) home visit," Yadav said in a press release. Before availing online submission of EF via eSign, Yadav said an elector must meet the prerequisites of mobile linkage and name matching. Under mobile linkage, he said an elector's mobile number must be linked to his Electoral Photo Identity Card (EPIC or voter ID card). Likewise, he said the spelling of the elector's name on EPIC must match exactly with his Aadhaar card. If there is a mismatch, the digital eSign will fail, and the elector will need to submit a physical form through his/her BLO, Yadav added.

Merely two years after the general elections in the state, which witnessed the simultaneous Parliamentary and Assembly polls, the ECI is undertaking the SIR with July 1, 2026 as the qualifying date. The exercise will cover nearly 4.16 crore electors across 28 districts and 175 Assembly Constituencies in Andhra Pradesh.

Gandikota project gains pace, phase-II tenders invited

- ▶ Rs 5,250-cr drinking water project being implemented in two phases

PRADEEP VENNELAKANTI
TIRUPATI

ONE of the largest rural drinking water projects in Rayalaseema is gathering momentum. The state government is pushing ahead with a Rs 5,250-crore scheme to transport and treat water from the Gandikota reservoir for supply to drought-prone areas of Annamaya and Chittoor districts.

The 'Drinking Water Supply Scheme for Western Chittoor Region' aims to provide a permanent solution to the chronic drinking water shortage faced by the western parts of the erstwhile Chittoor district. The project will draw water from the Gandikota reservoir in YSR Kadapa district and supply it to seven Assembly constituencies spread across Annamaya and Chittoor districts.

The scheme is being implemented in two phases at a total estimated cost of over Rs 5,250 crore. While works under Phase-I are already in progress, the government has invited tenders for Phase-II, marking a significant step in the execution of the long-pending project.

Under Phase-I, the government sanctioned Rs 2,370 crore and commenced works in April 2025. The project is scheduled for completion by October 2027. Officials said works worth nearly Rs 90 crore have already been completed and construction activity is expected to pick up pace in the coming months. The first phase will provide drinking water to Rayachoti, Pileru and Thamballapalle Assembly constituencies.

For Phase-II, tenders worth Rs 2,886 crore have been invited. Online bids are being accepted from June 12 to June 27. Rural Water Supply Chief Engineer Hareram Naik issued

Gandikota reservoir in YSR Kadapa district

orders related to the tender process on June 5. After completion, the second phase will extend drinking water supply to Madanapalle, Punganur, Palamaner and Kuppam constituencies.

As part of the project, a balancing reservoir will be constructed at Gandikota. Water will then be conveyed through transmission pipelines to treatment facilities proposed in Gurrakonda mandal of Annamaya district. Separate water treatment plants are being established for the two phases.

The Phase-I water treatment plant, estimated to cost around Rs 300 crore, is already under construction. A second treatment facility will be taken up after the Phase-II contract is finalised. Each plant will have a treatment capacity of 75 million litres per day (MLD), taking the total capacity to 150 MLD. Officials said the project is expected to meet the drinking water needs of several lakh people across the beneficiary constituencies. The scheme is considered crucial for the western Chittoor region, which has long struggled with low rainfall, recurring droughts and excessive dependence on groundwater sources.

Jagan asks YSRCP cadre to guard votes during SIR

- ▶ Directs party constituency-coordinators to closely monitor and immediately report irregularities to election authorities

HANS NEWS SERVICE
VIJAYAWADA

YSRCP president Y S Jagan Mohan Reddy has directed party constituency coordinators and regional in-charges to remain on high alert during the ongoing Special Intensive Revision (SIR) of electoral rolls, describing the next four weeks as crucial for protecting genuine voters from deletion.

At a review meeting with senior party leaders at the YSRCP central office in Tadepalli, Jagan instructed coordinators to closely monitor the electoral roll revision process on a daily basis, immediately report irregularities to election authorities, and escalate unresolved issues to the party headquarters.

He said the deletion of a genuine voter during the SIR process could be difficult to reverse and stressed the need for continuous vigilance at the grassroots level.

Jagan alleged that the ruling government

was attempting to remove YSRCP supporters from electoral rolls through administrative means and claimed that efforts were being made to alter voter lists ahead of future elections. He urged constituency coordinators, Booth Level Agents and party workers to ensure that no genuine voter is removed from the rolls.

Calling voter protection the party's top organisational priority, Jagan directed the cadre to treat the electoral revision exercise as a mission to safeguard democratic rights and maintain constant field-level monitoring until the process is completed.

Naidu releases book on his visionary decisions

HANS NEWS SERVICE

CHIEF Minister N Chandrababu Naidu released a book CBN@361 Degrees-Polymath at a special event organised by the Kakatiya Cultural Association in Singapore on Tuesday. The Chief Minister presented the first copies of the book to Shilpak Ambule, High Commissioner of India to Singapore. The book was written by Shakamuri Srinivasa Prasad, chief editor of Repatikosam daily and translated into English by retired IAS officer K V Satyanarayana. The publication offers an in-depth analysis of the decisions taken by Chandrababu Naidu as a visionary leader across different phases of his public life and governance.

Speaking on the occasion, author Shakamuri Srinivasa Prasad said that Naidu's leadership style and decision-making reflect the vision-driven approach demonstrated by globally acclaimed leaders such as former Singapore Prime Minister Lee Kuan Yew and former

Chief Minister N Chandrababu Naidu along with others releases 'CBN@361 Degrees-Polymath' in Singapore on Tuesday

New Zealand Prime Minister Jacinda Ardern.

He noted that Naidu's commitment to long-term planning, economic development and construction of Amaravati as a world-class capital city exemplifies this approach. Former AP RERA chairman Ramanath stated that the book brings to light several lesser-known aspects of Chandrababu Naidu's leadership and governance philosophy, drawing from observations and insights that are not widely known to the public.

During the event, the Kakatiya Cultural Association honoured Chief Minister Chandrababu Naidu with the Global Polymath Award. The

Association also presented him with a commemorative silver coin released to mark the birth centenary of Singapore's founding leader, Lee Kuan Yew.

Representatives of the association announced that the book will soon be published in Telugu, Hindi and several other Indian languages. They also noted that the digital version of the earlier publication, Chandrababu X.0, had recorded over 8 million downloads.

Former AP RERA chairman Ramanath, K V Satyanarayana, Shankara Prasad and prominent members of Telugu community in Singapore participated.

APTRANSCO TO COMMISSION 24 PROJECTS WORTH Rs 3,507 Cr BY DEC

- ▶ Projects to add major capacity and strengthen state's power infrastructure
- ▶ Vijayanand directs officials to expedite ongoing and upcoming transmission works

HANS NEWS SERVICE
VIJAYAWADA

SPECIAL chief secretary to the Chief Minister K Vijayanand on Tuesday directed officials to ensure the timely completion and commissioning of 24 transmission projects being executed by APTransco at an estimated cost of Rs 3,507 crore between June and December.

Reviewing the progress of various transmission projects at a meeting held at Viduyt Soudha in Vijayawada, Vijayanand said the government and APTransco are committed to providing quality, reliable and uninterrupted power supply to agriculture, industries, com-

Special chief secretary to the Chief Minister K Vijayanand reviews the progress of APTransco transmission projects during a meeting at Viduyt Soudha in Vijayawada on Tuesday

mercial establishments and domestic consumers.

He stressed the need to expedite the implementation of 400 kV, 220 kV and 132 kV transmission projects to meet the State's growing power demand and strengthen its transmission infrastructure.

During the meeting, officials informed him that APTransco has already commissioned three 400 kV substations, eight 220 kV

substations and 21 substations of 132 kV capacity. Additionally, 1,465 MVA of transformation capacity and 571 circuit kilometres of transmission lines added to the State grid, they said.

Also, they said a total of 68 transmission projects, involving an investment of Rs.5,279 crore, are currently under various stages of execution. Once completed, these projects would add 15,224.50 MVA of trans-

formation capacity and 1,828 circuit kilometres of transmission lines, they explained.

Vijayanand directed officials to closely monitor the works and complete them within the stipulated timelines while maintaining high-quality standards.

He also noted that tenders have been floated for 29 new transmission projects, which are expected to create an additional transformation

capacity of 4,520 MVA and establish 700 circuit kilometres of transmission lines. Besides, 72 more projects are in the planning stage and tenders for these works are expected to be floated within the next three months.

Reviewing the action plan for the inauguration of the 24 completed transmission projects, Vijayanand said these projects would significantly improve grid stability, reduce transmission losses and support the industrial, agricultural and socio-economic development of the state. Reiterating APTransco's commitment to meeting the state's future energy requirements, he said the utility is focused on building a robust, modern and future-ready transmission network capable of supporting Andhra Pradesh's long-term growth and development.

The meeting was attended by directors A K V Bhaskar, J V Rao, and Venkata Ramanamurthy, along with chief engineers and superintending engineers.
