US debt tops \$40 trn, raises eco concerns

WASHINGTON: The national debt surpassed a record \$40 trillion on Wednesday, a staggering milestone as defense costs, social programs like Social Security and Medicare and interest on the burgeoning deficit to make up an enormous share of federal spending. The milestone figure was recorded just five months after the US hit a record \$39 trillion debt in March. It reached \$38 trillion five months before that, in October. The unprecedented \$40 trillion figure highlights competing administration priorities, from boosting the defense spending that the US relies on to carry out President Donald Trump's almost-6-month-old Iran war to lowering the cost of gas and groceries. Kush Desai, a White House spokesman, said the Trump administration "has been focused on slashing waste, fraud, and abuse in federal spending while accelerating economic growth to get America's debt-to-GDP ratio trending in the right direction."

**MODI'S DEGREE ROW
 Delhi HC sets Sept 29 for hearing appeals**

NEW DELHI: The Delhi High Court has scheduled September 29 to hear appeals requesting the disclosure of Prime Minister Narendra Modi's bachelor's degree details. The date was set after Solicitor General Tushar Mehta, representing Delhi University, requested an expedited hearing. A Division Bench of Chief Justice Devendra Kumar Upadhyaya and Justice Tejas Karia was hearing the appeals, which challenged a single-judge ruling that overturned a Central Information Commission directive to release the degree records.

CUSTOM MILLED RICE FRAUD

ED may probe CMR scam

- Money laundering by defaulting rice millers suspected
- Many rice millers failed to supply rice, clear dues since 2014

HANS NEWS SERVICE
 HYDERABAD

CENTRAL probing agency Enforcement Directorate (ED) is likely to launch an investigation into the multi-crore Custom Milled Rice (CMR) scam in Telangana.

The Telangana Civil Supplies Department has reportedly made an appeal to the central agency to probe the entire episode, following allegations of money laundering by some of the defaulting rice millers, who have indulged in the rice scam since 2014, i.e.

under the erstwhile Bharat Rashtira Samithi regime and in the present Congress dispensation. "The Civil Supplies Department is preparing to act against rice millers who

are accused of defaulting on substantial amounts of government-supplied paddy dues. The Department has already submitted to the ED a list of 20 such millers who owe huge amounts to the government," sources told The Hans India.

Officials suspect that these millers have deliberately withheld the paddy dues owed to the government. Furthermore, official sources said: "The millers engaged in illicit fund-raising and money laundering (hawala) activities linked to their paddy/rice transactions."

J'khand HC stays Soren govt order to cancel JPSC exams

RANCHI: The Jharkhand High Court on Thursday stayed Soren government's order to cancel 11th and 13th JPSC exams and appointments following student protests.

This comes days after the government cancelled the JSSC-CGL examination and all recruitment exams conducted by TSR Data Processing Pvt Ltd (TDPL).

Chief minister Hemant Soren had announced the cancellation of the JSSC-CGL examination and all recruitment tests conducted by TDPL since 2014. The government also decided to cancel the 14th JPSC and backlog examinations and announced measures to reform the recruitment system. An exam reforms committee headed by senior IAS officer Amitabh Kaushal has also been constituted to recommend measures to strengthen and streamline the recruitment process. While the cancellations addressed a major demand of the protesting students, the demand for a CBI probe has remained a point of contention. Continued on Page 5

PM pays tribute to Rajiv Gandhi

NEW DELHI: Prime Minister Narendra Modi on Thursday paid tribute to former Prime Minister Rajiv Gandhi on his birth anniversary, remembering the Congress leader who served as India's prime minister from 1984 to 1989. In a post on X, Modi said, "On his birth anniversary, my tributes to former PM Shri Rajiv Gandhi Ji."

Cops can't probe offences under PCPNDT Act: SC

NEW DELHI: Police cannot commence an independent investigation of the offences under the Pre-Conception and Pre-Natal Diagnostic Techniques (PCPNDT) Act, the Supreme Court said on Thursday. A bench of Justices Sanjay Karol and N Kotiswar Singh held that authorities designated under the law must take action in such cases. The PCPNDT Act was enacted with the intent to prohibit the use of prenatal diagnostic techniques for determination of the sex of the foetus.

SOUTH ZONAL COUNCIL MEET

TG pitches expeditious settlement of state issues

HANS NEWS SERVICE
 HYDERABAD

THE Telangana government made a strong pitch to the Union government for expeditious settlement of all pending issues under the AP Reorganization Act as well as resolution of the Krishna river water disputes, besides seeking central support for the Kaleshwaram and Palamuru Rangareddy lift projects at the 31st Southern Zonal Council meeting chaired by Union Home Minister Amit Shah in Chennai on Thursday.

Participating in the meeting, State Deputy Chief Minister Mallu Bhatti Vikramarkha apprised the Union Home Minister of the pending division of Schedule IX Government companies and corporations due to differences over headquarters and related issues between Andhra Pradesh and Telangana state, which has already submitted its views concerning 23 institutions to the Centre. He pointed out that 12 years after the Andhra Pradesh Reorganisation Act, 2014 took effect several issues between the two Telugu states remain unresolved and appealed to Amit Shah to find a solution amicably. Centre limits SIM cards to 9 per person

NEW DELHI

THE Department of Telecommunications (DoT) has directed telecom operators to decline new connections to subscribers who already have nine mobile SIMs in their name.

According to a circular, telecom operators have been asked to put in place appropriate technical and organisational measures from August 24 onwards to identify each subscriber seeking to obtain a connection beyond the prescribed limit and deny them a new SIM card.

"From August 24, 2026, onward,

**TELECOM DEPARTMENT TIGHTENS ISSUANCE RULES
 USERS EXCEEDING LIMIT MUST SURRENDER EXTRA SIMS**

TSPs (telecom service providers) shall take appropriate technical and organisational measures to identify each subscriber who seeks to obtain mobile connections beyond the prescribed limit and commu-

nicate to him that he already has a maximum number of mobile connections permitted to an individual and accordingly, a new mobile connection cannot be provided to him," the circular said.

The DoT has asked telecom service providers to use the secure and centralised system Digital Intelligence Platform (DIP), established by the department. "Subscribers who have already obtained mobile connections beyond the prescribed limit and the details of such subscribers are available on the DIP," the circular said.

Rajiv Gandhi's 82nd birth anniversary celebrated

Congress leaders pay floral tributes to farmer Prime Minister

HANS NEWS SERVICE
JAYASHANKAR BHUPALPALLY

THE 82nd birth anniversary of former Prime Minister and Bharat Ratna awardee Rajiv Gandhi was celebrated grandly at the Jayashankar Bhupalpally district headquarters under the leadership of District Congress President Battu Karunakara. Bhupalpally MLA Gandra

Satyanarayana Rao attended as the chief guest and paid floral tributes to Rajiv Gandhi's portrait. A cake-cutting ceremony was also held.

Speaking on the occasion, Congress leaders recalled Rajiv Gandhi's contribution to India's modernization, particularly in computers, telecommunications and technology. They also highlighted his decision to reduce

the voting age to 18, encouraging greater youth participation in democracy. As part of the celebrations, forms were distributed and assistance provided to newly eligible 18-year-olds to enroll as voters. Municipal Chairman Burra Komarayya, town Congress president Datla Srinu and several party leaders and workers participated in the programme.

- Says deficit could worsen if September–October rains remain weak as projected
- He says drinking water and irrigation needs must be balanced
- Dondapadu Lift Scheme to provide irrigation to 53,000 acres

HANS NEWS SERVICE
HYDERABAD

IRRIGATION and Civil Supplies Minister N Uttam Kumar Reddy cautioned farmers to exercise care in crop planning as the rainfall deficit continues, warning that the situation could aggravate if rainfall remains deficient during September and October as projected by

the meteorological authorities.

The minister said the State government was closely monitoring rainfall, reservoir levels and inflows before deciding on water release.

The continuing rainfall deficit had affected inflows into major reservoirs, including Nagarjuna Sagar, making prudent management of the available water essential. Referring to the outlook

for the remaining monsoon period, Uttam said indications of deficient rainfall during September and October had to be factored into agricultural and water-management decisions.

He appealed to farmers not to base their crop decisions entirely on the expectation of substantial rainfall or fresh reservoir inflows in the coming weeks. "Farmers must carefully assess assured water availability while selecting crops. We have to support agriculture wherever dependable water is available, but at the same time we must safeguard sufficient water for drinking purposes through the summer and until the next monsoon," he said.

Uttam Kumar Reddy said the government would maintain a judicious balance between irrigation and drinking-water requirements. Reservoir releases would be decided on the basis of actual usable storage and realistic assessments of likely inflows rather than assumptions about future rainfall.

Attempt to murder case against ex-OSD to Konda Surekha

HANS NEWS SERVICE

HYDERABAD: An attempt to murder case has been registered against former OSD to Minister for Environment and Forests Konda Surekha following a complaint by a 36-year-old real estate businessman, Gongidi Harikrishna, who alleged that he was assaulted with iron rods and sticks by a group in Hyderabad. Medipally police initially registered a Zero FIR and later transferred the case to Jubilee Hills Police Station as the incident falls under its jurisdiction. Based on Harikrishna's complaint, police registered a case against Sumanth and five others.

According to the complaint, Harikrishna received a call from Sumanth on July 30 asking him to meet him urgently. Harikrishna reportedly told him that he had returned to his native place and would meet him the following morning.

Warangal Tri-City to get coordinated traffic measures

Warangal Police Commissioner N Swetha, directs departments to coordinate on congestion, accident-prone spots and road safety measures

HANS NEWS SERVICE
HANUMAKONDA

WARANGAL Police Commissioner N. Swetha, IPS, directs government departments to coordinate closely to address traffic problems and prevent road accidents across the Warangal Tri-City.

At a special traffic management meeting, officials identify

accident-prone "black spots" and discuss corrective measures, including new traffic signals, removal of encroachments, road repairs, parking spaces, solar blinkers and designated auto stands.

Officials also review traffic signals and major junctions in Warangal, Hanumakonda and Kazipet. Commissioner Swetha says traffic regulation

must receive equal priority alongside law and order. She notes that 159 locations with inadequate night lighting are identified and urges officials to install streetlights.

Municipal Commissioner Venkanna says joint field visits by police and municipal officials will help assess traffic problems and implement effective solutions.

NTPC Ramagundam distributes 171 bicycles to girl students

HANS NEWS SERVICE
RAMAGUNDAM

NTPC Ramagundam distributed 171 bicycles to Class IX girl students from eight schools in Ramagundam Mandal under its Corporate Social Responsibility (CSR) initiative. The distribution programme was held at ZPHS (Girls), Ashoknagar, Godavarikhani.

Ramagundam MLA Shri Makkan Singh Raj Thakur attended the programme as the Chief Guest. The Mayor and Deputy Mayor of Ramagundam Municipal Corporation, corporators, school teachers and other dignitaries were also present.

The initiative is aimed at supporting girl students by providing convenient and safer transportation

to school. The bicycles are expected to help reduce commuting difficulties, improve regular attendance and encourage girls to continue their education. NTPC officials said such CSR initiatives reflect the

organisation's commitment to supporting education and community development in the region.

Polytechnic students protest against GO 97 in Mancherial

HANS NEWS SERVICE

MANCHERIAL: Polytechnic students of Singareni Polytechnic on Thursday besieged the Collectorate, demanding immediate withdrawal of GO 97 issued by the Telangana government to merge the State Board of Technical Education and Training (SBTET) with the Shakti Scheme.

Leaders of PDSU, USFI, AISB and Navataram Student Federation (NSF) joined the protest and extended solidarity to the students. Addressing the gathering, student leaders criticised the government's decision and alleged that the proposed merger could affect the future of polytechnic students.

TGSPDCL CMD directs timely completion of power works

HANS NEWS SERVICE
KARIMNAGAR

TELANGANA Northern Power Distribution Company Limited (TGSPDCL) CMD Karnati Varun Reddy, IAS, inspected ongoing power infrastructure works in the Karimnagar Circle on Thursday and directed officials to complete them within stipulated timelines

while maintaining quality and safety standards.

Varun Reddy inspected the proposed Huzurabad Divisional Office and directed officials to obtain necessary approvals and begin construction at the earliest. He later reviewed the new indoor substation at Telangana Chowk and instructed officials to complete the project by month-

end. At the Water Works substation, he inspected the ongoing solar power plant and directed officials to expedite the remaining works and complete them within four days. The CMD stressed strengthening power infrastructure, adopting modern technology and renewable energy, and ensuring continuous supervision of all development works.

Strong prosecution leads to 17 convictions in Karimnagar

HANS NEWS SERVICE
KARIMNAGAR

KARIMNAGAR police have secured convictions in 17 major criminal cases so far this year, including life imprisonment in three murder cases, according to Police Commis-

sioner Gauth Alam.

The convictions cover murder, culpable homicide, NDPS, POCSO, assault, theft, cheating and fatal road accidents. Four culpable homicide cases resulted in five to 10 years' imprisonment, while three ganja transportation cases under the

NDPS Act led to five years of rigorous imprisonment and fines of up to Rs 10,000.

A POCSO case resulted in two years' rigorous imprisonment, while a grievous assault case ended with an 18-month sentence. Courts also awarded prison terms in theft, cheating and fatal road accident cases.

Commissioner Gauth Alam appreciated Court Duty Officers, investigating personnel and Public Prosecutors for their coordinated efforts. He said effective investigation and speedy prosecution would continue to ensure justice for victims.

Nirmal schools observe bandh over principal's killing

Teachers wear black ribbons, demand stronger security in schools

HANS NEWS SERVICE
KHANAPUR

THE Nirmal District Telangana Recognised Schools Managements Association (TRSMA) strongly condemned the murder of Rupa Reddy, principal of Nagarjuna Grammar Concept School in Kondamallepally, Nalgonda district, allegedly by two students of the same school. Protesting the incident, TRSMA members wore black ribbons in Khanapur on Thursday.

District president Golla Pelli Srinivas Goud, general secretary Padala Prabha-

kar Rao and other leaders expressed concern over increasing attacks on teachers and private educational institutions. They demanded stringent action against

the accused and justice for Rupa Reddy's family.

The leaders urged the government to strengthen security measures in schools and ensure the

safety of teachers and principals. As a mark of protest, private schools across Nirmal district will observe a bandh on Friday under the aegis of TRSMA.

Police personnel practise at Janakampet firing range

HANS NEWS SERVICE
NIZAMABAD

POLICE personnel underwent target practice at the Janakampet firing range under the supervision of Police Commissioner P. Sai Chaitanya, IPS, on Thursday. The Commissioner said regular firing practice

is vital for improving operational readiness, target accuracy and weapon-handling skills. He urged personnel to strictly follow safety protocols, maintain discipline and continuously sharpen their skills to respond effectively during emergencies and law-and-order duties.

Cong leaders from Parakal slam Konda Sushmita’s remarks

• She is causing political damage to Minister Konda Surekha. The person who is not a member of the Congress party, should know her political status and speak, they assert

HANS NEWS SERVICE
HANUMAKONDA

CONGRESS leaders from Parakala constituency strongly condemned the comments made by Konda Sushmita Patel, daughter of Minister Konda Surekha, on Chief Minister Revanth Reddy and MLA Revuri Prakash Reddy.

Addressing a press conference held at the MLA's camp office in Parakala town of Hanumakonda district on Thursday, former TPCC general secretary and former MPP Bhimagani Soujanya said that it is meaningless for Sushmita to criticise CM Revanth Reddy for asking people to bless Revuri Prakash Reddy again after seeing the development of Parakala in a recent public meeting held in the constituency.

She said that it is prerogative of the Congress party high command to give a ticket to whom he deems fit. Moreover, it is not right for those who are not related

to the Congress to interfere in the internal affairs of the party. She said that Sushmita does not have a Congress party membership and should first know her political status before speaking.

She said that it is Sushmita who is causing political damage to Minister Konda Surekha by commenting that the family that moved away from Parakala out of fear of former MLA Challa Dharmareddy is theirs and by interfering in irrelevant matters. She made it clear that if the Congress party gives a ticket to Revuri Prakash Reddy, all the party ranks will work for his victory.

Sushmita, who says that Parakala is hers, demanded that she must tell the people what development she has done for Parakala. She demanded an immediate public apology for her comments

on CM Revanth Reddy and MLA Revuri Prakash Reddy. Former ZPTC and DCC general secretary Padi Kalpana Devi said, "Parakala Gadda is not anyone's property." She said that it is strange for someone from a family that has been away from Parakala since 2012 to claim that Parakala Gadda is theirs. She suggested that if they want to grow politically, they should first change their language and personality. She warned that if CM Revanth Reddy and MLA Prakash Reddy are criticized, the Congress ranks will not stand moot spectator.

Former Nagaram Sarpanch and DCC secretary Katkuri Sravanthi said, "It is not right to make inappropriate comments on CM Revanth Reddy and MLA Revuri Prakash Reddy, who

prioritises women. She said that Sushmita's comments in the past were forgiven because of her mother and Minister Konda Surekha. She said it was inappropriate to criticize Congress leaders once again.

She stated that Sushmita Patel does not have any membership in the Congress party.

DCC general secretary Padi Kalpana Devi, DCC secretary Katkuri Sravanthi, Municipal Vice Chairman Eku Divya, Councilors Porandla Mounika, Bochu Subhadra, former Councilor Panchgiri Jayamma, Dairy Farm president Kachayala Aruna, Vice President More Kavitha, Mahila Congress leaders Lakshmi Rao, Lakshmi Vasantha, Dasari Padma, Kavitha, MD Rahema, and Adapa Rama participated in this meeting.

Dr Kadiyam Kavya demands special railway division at Kazipet

- MP cites Kazipet's strategic importance as a major passenger and freight hub in Telangana
- Seeks faster railway works, new platforms, escalators and more trains
- Demands local jobs, better facilities and improved connectivity

HANS NEWS SERVICE
HANUMAKONDA

WARANGAL MP Dr Kadiyam Kavya has demanded that Kazipet be made the centre of a special railway division, citing its strategic importance as a major passenger and freight hub in Telangana. At a review meeting of MPs chaired by the South Central Railway General Manager at Rail Nilayam in Secunderabad on Thursday, she raised 19 proposals concerning rail-

way development in the Warangal-Kazipet region. Kavya sought speedy completion of the Kazipet Railway Manufacturing Unit and creation of local employment and skill-training opportunities. She demanded two additional platforms, foot overbridges and escalators at Kazipet Junction, besides modernisation of Kazipet Town station and more originating express trains.

She also sought daily operation of the Padmavati Express, expansion of the railway hospital, improved facilities in railway colonies, and additional infrastructure at loco sheds. Other demands included a new railway station to improve connectivity to Bhupalpally, a second ROB at Fatima Bridge, and shifting of the Vijayawada crew depot to Kazipet or Warangal.

Kavya said she would continue efforts to develop Kazipet as a major railway junction in South India.

Bhoomi puja held for new Agricultural College buildings in Dichpally

A total of Rs 123-crore project aims to provide modern facilities for students

HANS NEWS SERVICE
NIZAMABAD

PROF. Aldas Janaiah, Vice-Chancellor of Acharya Jayashankar Telangana Agricultural University, along with Telangana University Vice-Chancellor Yadagiri Rao, performed the Bhoomi Pooja for the new Agricultural College buildings at Dichpally on Wednesday.

Speaking on the occasion, Prof. Janaiah said the Rs

123-crore project would include four additional blocks and modern facilities for students. The college, the 11th agricultural college in Telangana, currently has an intake of 120 students.

He said efforts were underway to complete the required infrastructure by next year. The initiative is part of the State government's plan to establish an agricultural college in every undivided district.

Congress hails Rajiv Gandhi as pioneer of India’s tech revolution

Leaders pay tributes on his 82nd birth anniversary in Hanumakonda and recall his contribution to building modern India

HANS NEWS SERVICE
HANUMAKONDA

CONGRESS leaders paid rich tributes to former Prime Minister and Bharat Ratna Rajiv Gandhi on his 82nd birth anniversary, hailing him as the pioneer of India's technological revolution. The celebrations were organised at DCC Bhavan and MGM Centre in Hanumakonda on Thursday.

Vardhannapet MLA KR Nagaraju, MLC Baswaraju

Saraiah and DCC President Inagala Venkatram Reddy, along with other leaders, garlanded Rajiv Gandhi's portrait and statue.

Speakers said Rajiv Gandhi's visionary decisions in the IT, telecom and computer sectors laid the foundation for modern India.

They also recalled his efforts to strengthen Panchayati Raj, promote decentralisation, enhance youth participation by lowering the voting age to 18 and

encourage women's representation in local bodies. Leaders said Rajiv Gandhi's

ideals of peace, unity and harmony continue to inspire the nation.

BJP threatens intensified stir over pending student fee dues

HANS NEWS SERVICE
KARIMNAGAR

BJP Telangana president N Ramchander Rao warned that the party would intensify its agitation if the State government failed to clear pending fee reimbursement and scholarship dues. Addressing a 'Fee Bakayi-BJP Ladayi' Maha Dharna organised by the BJYM in Karimnagar, Rao alleged that nearly 20 lakh students were awaiting

payments, putting financial pressure on students, parents and educational insti-

tutions. He claimed around Rs 8,000 crore in dues were pending and alleged that

the government had failed to release even the Rs 2,000 crore it had proposed following High Court concerns. He said delayed payments were affecting colleges and faculty salaries.

BJYM State president Ganesh Kunde said protests would be intensified and warned of possible Collectorate sieges if the demands were not met. BJP leaders and students participated in the dharna.

Ponnam Prabhakar unveils vision to transform Keshavpur into solar model village

- Says clean energy transforms the village into a sustainable community
- Development projects improve roads, housing and local infrastructure
- Water conservation and farming initiatives strengthen rural livelihoods

HANS NEWS SERVICE
HANUMAKONDA

TRANSPORT and BC Welfare Minister Ponnam Prabhakar on Thursday announced that Keshavpur village in Elkathurthi mandal will be developed as

a Solar Model Village, with solar power facilities and solar pumps to be promoted across the village.

Participating in the "Ponnam Anna for Villages - Public Governance in Villages" programme, the Minister received petitions from villagers and farmers and directed officials to resolve problems on

the spot. He said solar systems would be installed in households, enabling residents to meet their electricity needs and sell surplus power. Road works from Gunturpalle to Keshavpur have been sanctioned at a cost of Rs 3.5 crore.

Prabhakar also urged villagers to adopt water conservation measures under the Jala Siri programme and encouraged farmers to take up oil palm cultivation. He assured Rs 10 lakh for village development if oil palm is cultivated on 300 acres. He said a sub-market yard would be established and Keshavpur developed as a key village in the Husnabad constituency. The Minister also reviewed welfare schemes, housing, sanitation, healthcare and pension programmes.

MLA Parnika Reddy's birthday celebrated with welfare activities

HANS NEWS SERVICE
NARAYANPET

SEVERAL welfare and service-oriented programmes were organised across Narayanpet district to mark the birthday of local MLA Chittam Parnika Reddy.

Special prayers were offered at the Shirdi Sai Temple in Sai Vijaya Colony and the Kalamma Devi Temple in Narayanpet town. Sports

kits were distributed to girl students at the KGBV School under the leadership of district RTA member Poshal Rajesh. Pens, books, school bags and first-aid kits were distributed to children at an orphanage in Narayanpet. At the ZPHS school in Jajapur village, fans were distributed and saplings were planted.

Shivakumar Reddy participated in several pro-

grammes held as part of the birthday celebrations. A cake-cutting ceremony was held at CVR Bhavan. A printer was donated to the KGBV school in Dhanwada and saplings were planted. At the ZPHS school in Gunmukla village, plates were distributed to students and a plantation drive was organised. Sarees were distributed to poor women in Eminonipally village.

Bhu Bharati will permanently resolve farmers' land issues, says Ponguleti

Its implementation will be referendum on our government's performance, he asserts

HANS NEWS SERVICE
SATHUPALLI (KHAMMAM)

REVENUE Minister Ponguleti Srinivas Reddy on Thursday said implementation of the State government's Bhu Bharati land legislation would serve as a referendum on its performance in the next elections.

Addressing a meeting of farmers on the sidelines of a land re-survey at Bethupalli revenue village in Sathupalli Assembly constituency, the Minister said the government was committed to providing permanent solutions to land-related problems and preventing irregularities in land records.

"The implementation of Bhu Bharati will be the referendum for our government's performance in the coming elections. We said this when the law was introduced and we stand by the same com-

mitment even today," he said.

He said the Bhu Bharati Act was aimed at providing a permanent solution to land-related problems of farmers and ensuring protection of genuine land rights.

The Minister said nearly 6,000 acres had already been re-surveyed in Bethupalli revenue village, which has a total extent of 12,047 acres.

He said the re-survey was being conducted using modern technology, with precise coordinates and maps being prepared for each land parcel. Farmers would be given 30 days to raise objections after completion of the survey and final rights would be recorded only after resolving the grievances.

Bhudhaar cards, similar to Aadhaar cards, would subsequently be issued to landholders, he said.

Reddy directed officials to protect access roads to agricultural fields and ensure that such roads were not recorded as private land. He also ordered protection of ponds by clearly demarcating their boundaries and taking necessary measures to pre-

vent encroachments.

The government has selected 70 villages in each district in the first phase of the re-survey and aims to complete the survey of agricultural and abadi properties across Telangana within the next 18 months, he said.

The minister warned of strict action against attempts to illegally regularise 22-A lands and said the government would not permit land grabbers to use poor people as a front to regularise illegally acquired properties.

Reddy said land was an emotional issue for farmers and not a political one, adding that protecting the interests of genuine farmers was the government's responsibility. District Collector Divakara TS said the revenue machinery would work at the field level to examine and resolve land-related grievances in accordance with rules.

Congress cracks whip on leaders defying party line

TPCC chief Mahesh Kumar Goud says notices issued over controversial remarks; candidate selection rests with central leadership

HANS NEWS SERVICE
NIZAMABAD

TELANGANA Pradesh Congress Committee (TPCC) president Mahesh Kumar Goud on Thursday warned that strict disciplinary action would be taken against anyone crossing the party line. Addressing the media, he said the remarks made by Konda Susmitha against Chief Minister Revanth Reddy and Minister Ponguleti Srinivasa Reddy had caused concern within the party. A show-cause notice was issued to Minister KondaSurekha, seeking an

explanation, while clarification was also sought from senior leader Chinna Reddy over his recent comments.

On the Parkal constituency issue, Mahesh Kumar Goud said the Congress central leadership, Central

Election Committee and CWC alone have the authority to select candidates. He dismissed claims of internal groups such as "Green Congress", asserting that every member belongs only to the Congress party.

Colonel gives inspirational address to students at JPNCE

HANS NEWS SERVICE
MAHABUBNAGAR

EVERY youngster should aspire to rise from Palamuru to the national level, said renowned Army officer Col. V. Suresh Goud. He emphasised that the right mindset, discipline, determination and consistent hard work can help anyone achieve his goals. He was speaking to students at the "From Palamuru to National Level" programme organised at Jayaprakash Narayan College of Engineering (JPNCE), where he shared his life journey, challenges, important decisions and achievements.

Col. Suresh Goud urged students not to wait for opportunities but to create them. He advised them to as-

pire beyond seeking jobs and strive to become job creators. He encouraged students to closely analyse global developments and make use of emerging opportunities in technology, startups, entrepreneurship and innovation. He said reading, physical fitness, self-confidence and a positive attitude are essential for success.

Stressing that the future of the country lies in the hands of its youth, he called upon students to develop the spirit of asking, "What can we do for our country?" He also explained various opportunities available in the defence sector and wished for greater enthusiasm, determination and patriotism among the youth of Palamuru.

Collector stresses quality education and better facilities

HANS NEWS SERVICE
MANCHERIAL

DISTRICT Collector Kumar Deepak on Thursday said the government was taking special measures to strengthen the education system and improve facilities in government schools. During his visit to Kasipet mandal, he inspected the construction of additional classrooms and a dining hall at Kasturba Gandhi Balika Vidyalaya and directed officials to expedite the works. He stressed quality education, regu-

lar student attendance, timely nutrition and proper health care. The Collector also inspected development works in Pallanguda village, including the Gram Panchayat office, VO buildings, Indiramma houses, school, Angan-

wadi centre and health facilities. He later visited the Tribal Boys' Ashram High School at Rekulaguda and instructed officials to improve infrastructure, increase student enrolment and ensure better educational facilities.

VAI launches Telangana Chapter to strengthen veterinary welfare

New state chapter to unite veterinary professionals and promote scientific knowledge, animal welfare and professional development

HANS NEWS SERVICE
KARIMNAGAR

THE Veterinary Association of India (VAI) has announced the formation of its Telangana State Chapter (VAI-TG), bringing veterinarians, academicians, scientists, administrators, pet practitioners and students onto a common platform. The

chapter will work to strengthen the veterinary profession, promote animal welfare, encourage knowledge exchange and organise scientific and professional programmes across Telangana. Retired IAS officer Dr M.V. Reddy has been appointed State President, with Dr Suresh Potluri as Associate President. Prof. (Dr) M. Kishan Kumar

and Dr K. Simha Rao will serve as Vice-Presidents. Prof. (Dr) D. Sakarama has been named Treasurer and Dr Pulikanti Radhakrishna Secretary.

The chapter also includes an executive committee, advisory council and expert panel, along with dedicated forums for field veterinarians and pet practitioners. VAI expressed confidence that the new chapter would contribute significantly to professional growth and animal welfare in Telangana.

Grandparents carnival celebrates wisdom and family values

Alphores E-Techno School hosts lively event with games, activities and messages on intergenerational learning

HANS NEWS SERVICE
KARIMNAGAR

A colourful Grandparents Carnival was organised at Alphores E-Techno School in Kothapalli, bringing together grandparents, students, parents and teachers. Dr. V. Narender Reddy, Chairman of Alphores Edu-

cational Institutions, attended the inaugural programme as chief guest. He offered prayers at the Goddess Saraswati idol and inaugurated the carnival by lighting the ceremonial lamp.

Addressing the gathering, Dr. Narender Reddy highlighted the valuable experience and wisdom of grand-

parents. He urged students to learn family values, life lessons and ways of handling challenges from their elders. He also encouraged them to consider their grandparents as role models and follow their advice to achieve excellence.

The carnival featured several games and recreational

activities, in which grandparents participated enthusiastically.

The grandparents appreciated the initiative and congratulated Dr. Narender Reddy for organising innovative programmes. The school principal, teachers, parents and students attended the event.

Errabelli leads 10 km protest walk over irrigation crisis

- Former Minister demands immediate release of irrigation water
- A scuffle breaks out during his arrest at Singarajupalli, leaving the former minister with a head injury
- Farmer Kunsothu Venkanna breaks down after his four-acre crop dries up despite drilling 16 borewells

HANS NEWS SERVICE
HANUMAKONDA

FORMER minister and BRS leader Errabelli Dayakar Rao on Thursday led a 10-km walk along a canal in Jangaon district, demanding immediate release of irrigation water to farmers in Devarupula and Kodakandla mandals.

The walk began at Dhara-

vat Thanda and concluded at Banjara village, where Errabelli inspected dried paddy fields and interacted with farmers. He later staged a dharna at Singarajupalli, alleging that despite sufficient water in the Devadula reservoir, canals remained dry.

Questioning claims that 57,000 acres had received irrigation water, Errabelli asked the government to explain where the water had gone. During an attempt to arrest him, a scuffle broke out between BRS workers and police, in which Errabelli sustained a head injury. He continued the protest before being taken into custody. Farmer Kunsothu Venkanna broke down, saying his four-acre crop had dried up despite drilling 16 borewells without finding water. Errabelli demanded Rs 30,000 per acre as compensation and vowed to continue the agitation until farmers receive relief and irrigation water.

Relatives stage protest after man’s death in accident

HANS NEWS SERVICE
KOTHUR

TENSION prevailed at Kothur police station in Rangareddy district on Thursday as relatives of Boggula Sai Goud, who died while undergoing treatment for injuries sustained in a road accident, staged a protest demanding justice.

The accident took place at Thimmapur on the Chegur Road last Saturday night. Following Sai Goud’s death, his family alleged that the details of the person responsible for the accident were not properly reflected in the FIR. They attempted to bring the deceased’s body to the police station and seek justice, resulting in a tense situation.

The family members claimed that police personnel stopped them near Peddamma Thanda Road, leading to a heated exchange. Additional police personnel were deployed to prevent the situation from escalating.

The family further alleged that the vehicle involved in the

accident was being driven by a minor, whom they claimed was the son of a former MPP from Balanagar mandal. They questioned why the minor’s details were allegedly not included in the FIR and suspected political influence behind the handling of the case. Police have not officially responded to the allegations.

The family demanded a detailed probe into the accident, proper registration of the case and strict action against those responsible. They said they would continue their protest until justice was ensured.

The situation reportedly became tense outside the Kothur police station when an argument between protesters and police escalated. Some individuals allegedly resorted to stone-pelting targeting the police personnel.

Two local reporters sustained injuries in the incident, according to reports. Police reportedly took steps to disperse the protesters and bring the situation under control. Officials are continuing to examine the circumstances surrounding the incident, with further details awaited.

KHAMMAM

AGRICULTURE and Marketing Minister Tummala Nageswara Rao on Thursday raised several issues concerning the state at the 31st Southern Zonal Council meeting held at Mahabali-puram and urged the Centre and Andhra Pradesh government to take steps to resolve them. AThe Minister submitted representations to Union Home Minister Amit Shah and Andhra Pradesh Chief Minister N Chandrababu Naidu seeking, among other things, merger of five gram panchayats near Bhadrachalam with Telangana.

Tummala sought the merger of Yatapaka, Kanayigudem, Pitchukalapadu, Purushothapatnam and Gundala gram panchayats, comprising 19 revenue vil-

Southern Zonal Council

Minister Tummala raises issue of restoration of 5 GPs in AP to TG

lages, with Bhadradri Kothagudem district. He said their present location posed administrative difficulties as the Andhra Pradesh district headquarters was around 282 km away, while Bhadradri

Kothagudem headquarters was only about 40 km away. He also urged Naidu to release Andhra Pradesh’s share of funds for permanent restoration of the Peddavagu irrigation project, which was

damaged by heavy rains in July 2024. The restoration cost was estimated at Rs 92.20 crore.

Tummala further sought a minimum assured price of Rs 25,000 per tonne for oil palm fresh fruit bunches and urged Naidu to support the demand before the Centre.

He also requested the AP government to press the Centre to declare the Bhadrachalam-Eluru road, passing through Chintalapudi and Dhammapeta, as a national highway. Deputy Chief Minister Bhatti Vikramarka and senior officials represented Telangana at the meeting chaired by Amit Shah.

Shah favours early resolution of water-related issues thru talks

Continued from P1

The southern states agreed with the Home Minister’s suggestion to resolve these pending water disputes expeditiously through mutual dialogue and constructive solutions. Shah said that since 2014, efforts have been made to transform the Zonal Council into a meaningful platform. Regarding the issues concerning the division of assets and liabilities between Andhra Pradesh and Telangana, both states agreed to resolve these matters in consultation with the Ministry of Home Affairs, Shah said in his address at the meeting.

Tamil Nadu Chief Minister C Joseph Vijay, who serves as the council’s vice-chairman, personally wel-

comed Shah upon his arrival. The two leaders also held a brief interaction before the meeting began. During the proceedings, Vijay was seated alongside Karnataka Chief Minister DK Shivakumar. Representatives from Tamil Nadu, Andhra Pradesh, Karnataka, Kerala and Telangana took part in the meeting.

Andhra Pradesh Chief Minister N Chandrababu Naidu, Kerala Chief Minister VD Satheesan and Telangana Deputy Chief Minister Mallu Bhatti Vikramarka were among those who attended. Puducherry Chief Minister N Rangasamy was absent from the meeting, with Lieutenant Governor K Kailashnathan representing the Union Territory.

TG pitches expeditious settlement of state issues

Continued from P1

Andhra Pradesh has sought division of assets of certain Schedule X institutions. Telangana has maintained that such claims are not supported by the AP Reorganisation Act, except for continuation of facilities under Section 75. The matter was also pending before the High Court of Andhra Pradesh, Bhatti said. Telangana is seeking resolution through the legal process.

Referring to the Krishna water dispute, the Deputy CM said that Telangana was seeking no special privilege in respect of Krishna waters and the state wanted its fair entitlement through legal mechanisms.

Since the allocation of Krishna waters between Telangana and Andhra Pradesh was already under consideration before KWDT-II, the state government was stressing that the matter should be dealt with through the established legal and adjudicatory process, he said.

Bhatti explained the importance of lift irrigation projects and sought central financial support for the Kaleshwaram and Palamuru-Rangareddy Lift Irrigation Schemes. Rehabilitation of Kaleshwaram, revival of the Pranahita-Chevella project at Tummidihetti, and special aid for the Palamuru-Rangareddy Lift scheme was mentioned in the meeting.

The Deputy CM highlighted that Telangana had adopted an approach of seeking fair, time-bound, and legally sustainable resolution of inter-state issues. He emphasised that cooperation among the southern states will become even more important in the coming years. Bhatti identified the following as challenges that increasingly transcend state boundaries: water security, energy, climate resilience, urbanization, logistics, and economic competitiveness. These challenges will require southern states to co-operate even while they compete. “If southern India grows together, India grows faster,” he observed.

HANS NEWS SERVICE
HYDERABAD

BJP State president N Ramchander Rao on Thursday warned the Telangana government that the party would intensify its agitation in support of students until pending fee-reimbursement dues and scholarships were released.

Addressing the “Fee Bakayi—BJP Ladayi” Maha Dharna organised by the Bharatiya Janata Yuva Morcha (BJYM) in Karimnagar, Rao accused the Congress government of failing to fulfil its promises to students and alleged that the delay in releasing funds was pushing students, parents and educational institutions into severe financial distress.

Rao alleged that around Rs 8,000 crore in fee-reimbursement dues were pending from the previous government and criticised the Congress government for failing to clear

them after coming to power. He claimed that the State Cabinet had decided to release Rs 2,000 crore as an advance following the High Court’s intervention, but alleged that the amount had not yet been released.

He said nearly 20 lakh students across Telangana were awaiting fee-reimbursement clearances. The delay, he alleged, had left college managements struggling to pay faculty salaries and threatened the functioning of educational institutions. Rao accused the Congress of failing to honour the promises made under the ‘Youth Declaration’ and warned that the BJP would continue its agitation until the government addressed the issue. “If this government plays with the lives of students without releasing fee reimbursement and scholarships, the BJP will intensify its agitation,” he said. BJYM State president Ganesh Kunde said the youth wing had been campaigning for the past month over students’ issues.

Continued from P1

Other members of the committee include former Punjab and Haryana High Court Chief Justice Ravi Shankar Jha, former Delhi High Court judge Justice Shalinder Kaur, former CBI Director Rishi Kumar Shukla and retired Meghalaya Director General of Police Dr LR Bishnoi.

The committee will examine allegations of excessive use of pellet guns, electric batons, lathi charges and tear gas, along with alleged violence against women protesters. It will also look into police surveillance, the proportionality of crowd-control measures, and the provision of medical assistance and

SC sets up 5-member panel to probe police ‘excesses’ at CJP stir

compensation to victims. The committee will also consider allegations by authorities of violence against police personnel and damage to public property.

This comes as the apex court is hearing a batch of petitions alleging excessive police action against students who participated in protests at Jantar Mantar and other locations across the country over alleged NEET examina-

tion paper leaks and broader concerns relating to the examination system.

The proceedings come against the backdrop of weeks of student demonstrations led by the Cockroach Janata Party (CJP) at Jantar Mantar, including a hunger strike and a subsequent march towards Parliament.

On July 20, thousands of students participated in a Parliament march organ-

ised by the CJP, demanding, among other things, the resignation of Union education minister Dharmendra Pradhan over alleged examination paper leaks and seeking wider reforms in the examination system.

As demonstrators attempted to move towards Parliament and breach police barricades in central Delhi, security personnel used tear gas and lathi-charge to dis-

perse the protesters. Several videos subsequently circulated on social media, purportedly showing protesters being manhandled by police personnel, leading to allegations of excessive use of force.

The Delhi Police, however, defended its action and maintained that force was used only after sections of the protesting crowd allegedly turned violent and engaged in stone-pelting.

South CMs raise delimitation, water disputes at SZC meet

Continued from P1

With his state locked in a dispute with Tamil Nadu over the Mekedatu dam proposal, Karnataka Chief Minister DK Shivakumar told TN that its interests would be protected if the reservoir is constructed. Shivakumar also urged the Southern Zonal Council to adopt a resolution asking the Union government to honour the 1971 census for delimitation, retain 543 Lok Sabha seats for 25 years and fit women’s reservation within the existing seats.

Tamil Nadu CM Vijay conveyed to the Union Home Minister that the existing freeze capping Lok Sabha seats at 543 nationally and 39 in the state should

continue, state minister R Nirmal Kumar said.

Both Andhra Pradesh and Telangana agreed to resolve matters related to the division of assets and liabilities in consultation with the Union Ministry of Home Affairs.

Keralam CM Satheesan raised the Mullaperiyar dam issue at the meeting and stressed the need for cooperative federalism in healthcare, infrastructure, environmental protection and regional security. The Mullaperiyar dam issue was among the key state concerns raised by the CM at the meeting, according to a post on ‘X’.

Satheesan said Keralam was willing to provide Ta-

mil Nadu with its full share of water from a new Mullaperiyar dam.

Tamil Nadu would manage the design, location and construction of the new dam, while Keralam would bear the entire cost.

Telangana Deputy CM Vikramarka sought protection of the state’s rights in Krishna river waters and Central support for major irrigation projects. Puducherry was represented by Lt Governor K Kailashnathan.

The LG sought the Centre and neighbouring states’ support, particularly Tamil Nadu, to develop an integrated surface water system for a reliable year-round water supply.

J’khand HC stays Soren govt order to cancel JPSC exams

Continued from P1

Meanwhile, the government’s decision triggered a separate protest by candidates who had cleared the JSSC-CGL examination and were appointed to government posts. They have opposed the cancellation, arguing that successful candidates should not be punished for alleged irregularities unless wrongdoing is established against them.

Telangana to host next SZC meeting

HYDERABAD: The next meeting of the Southern Zonal Council (SZC) will be held in Telangana. SZC chairman and Union Home Minister Amit Shah accepted the request made by Deputy Chief Minister Mallu Bhatti Vikramarka at the Council’s meeting held in Mahabali-puram on Thursday.

The standing committee of the SZC, comprising five southern States and Union Territory of Puducherry, would meet soon to prepare action taken reports on the issues discussed on Thursday and finalise the agenda for the next meeting that is likely to include the items carried over from Thursday’s meeting.

Centre limits SIM cards to 9 per person

Continued from P1

The DoT has also put in place a mechanism to help telecom operators identify such subscribers. From August 23, a representative image of the photo of each subscriber who has already reached the prescribed limit for mobile connections in their name will be made available on the DIP.

The DIP uses subscriber information submitted by telecom operators. The latest directive requires operators to use the platform to help identify people who have already reached the permitted limit.

The DoT has asked telecom operators to streamline the process with the Digital Intelligence Platform before November 30. “Till the time

such measures are implemented by a TSP on a post-facto basis, as per terms and conditions of the Customer Application Form (CAF), any mobile connection activated beyond the prescribed limit for a day shall be immediately suspended till resolution of the issue in respect of crossing the permitted limit for mobile connections,” the circular said.

The government said the objective is to ensure that each subscriber is able to subscribe to and use mobile connections only within the prescribed limit. Under existing instructions issued on August 9, 2012, an individual customer can have a maximum of nine mobile connections in their name across all telecom service

providers and all licensed service areas in the country. However, the limit is lower in certain regions. Subscribers in Jammu and Kashmir, Assam and the North-East can have a maximum of six mobile connections. The latest development is about enforcement of the existing limit. The instructions also require customers to provide a declaration in the Customer Application Form (CAF) regarding the mobile connections already held in their name across telecom operators and licensed service areas. The DoT said the respective Licensed Service Areas (LSAs) will be the competent authorities to decide issues arising from the implementation of the instructions.

‘I can see papa smiling’

Continued from P1

“Mama, I last saw you and Papa together more than 35 years ago. Since the day Papa left, I have watched you face everything life threw at you with never-ending courage and dignity,” Rahul Gandhi wrote. The Congress leader said that he and his sister Priyanka Gandhi Vadra were perhaps the only ones who could truly understand the difficulties their mother faced in the years following Rajiv Gandhi’s assassination. “Only Priyanka and I really know what you have been through, and how difficult your life after Papa truly was,” he said. Rahul Gandhi also welcomed the publication of Sonia Gandhi’s memoir, Belonging: A Journey of Love, saying he was proud that her story would now be read by millions of people who have followed her public life. He noted that opening up about her personal journey could not have been easy for someone as private as his mother.

attachment to her hometown Geesukonda.

The Minister clarified that the comments made by Sushmita Patel on this occasion were entirely related to her own opinions. It is inappropriate to say that one should be politically responsible for the opinions of another due to family ties and to seek an explanation for it. The Minister said that making her responsible for this is against the spirit of natural justice. He

also asked that democratic values should be taken into account. Konda Surekha said that she has complete respect for the leadership of the Congress party and the party’s disciplinary code. He asked that these facts and democratic values be taken into account and that she should be recognised as not involved in this controversy. He respectfully requested the TPCC Disciplinary Committee to withdraw the notice issued to him.

The so-called “Economic D-Day” is a diversion from America’s own crisis: unprecedented

debt & surging interest costs. “The so-called “Economic D-Day” is a diversion from America’s own crisis: unprecedented debt & surging interest costs. Doubling down on failed policies will only bring further defeat—and enmity of Iranians. US economic terrorism threatens the global economy and sovereignty worldwide,” he said in a post on X.

Tech should empower retail investors to avoid risks

TECHNOLOGY has brought in a paradigm shift in the investors' behaviour in recent years. India has seen a surge in number of participants investing in equities. As per latest available data, the country has more than 21 crore demat accounts by the end of December, 2025. Though multiple demat accounts are being held by individual investor, still the number is higher as compared to a decade back. And such surge in demat account has been possible due to faster and easier demat account opening process.

The whole process has now been undertaken through technology-powered solutions. From eKYC to digital onboarding, now a person can complete the whole process without a physical visit to any financial institution. In addition, fintech startups like Zerodha and Groww have made stock investment extremely easier. The advent of discount brokerage firms has literally moved stock investment into the palms of investors.

Now, crores of investors invest in equities through the mobile apps of brokerage firms. While technology has created a culture of equity investing, it has also prompted lakhs of retail investors to do risky trading. A cursory look at these statistics will make this amply clear. In last financial year (FY26), losses incurred by retail investors in India's equity derivatives market stood at Rs 91,685 crore (around \$9.61 billion). Though it was a decline of around 18 per cent year-on-year basis, close to \$10 billion loss is not a small amount in any measure. These losses could have been

gainfully employed elsewhere by retail investors, which would have helped country's economic growth. In earlier years, losses were higher as compared to FY26.

After the market regulator, Sebi introduced various new norms, discouraging retail investors to trade in future & options (F&O), losses have declined in FY26. And technology-powered trading apps is one of the major factors behind such surge in derivative trading by retail investors.

In future and options trading, which is considered as one of the risky trading instruments in the equities; retail investors are competing against large institutional investors like big banks, NBFCs, pension funds and others. These institutional investors not only have better information sources,

but also are powered by cutting-edge technology tools. For instance, algo trading is a widely known practice by institutional investors, where the computer programme automates the trade based on the parameters given. Here, trades are executed in fraction of seconds. Compare this with the kind of trading undertaken by retail investors. This puts retail investors at a distinct disadvantage. With the increasing adoption of artificial intelligence (AI), the speed and accuracy of trades undertaken by institutional investors have increased manifold. So, though technology-powered brokerage firms' apps enable a retail trader to execute a trade, it can't possibly match with an AI-powered platform used by a big investor. Moreover, AI has increased the chances of market

LETTERS

'Blanket clemency' for CJP

THIS is further to your editorial 'Govt should pronto drop cases against Jantar Mantar protestors'. There are no two views about genuine student protesters at Jantar Mantar who were involved in violent rioting with the police be granted one time pardon, and the police cases against them be quashed. But, there must be genuine remorse on their part, not to repeat the act in future protests, hoping for a similar reprieve. The CJP agitation, if enacted solely on the strength of students, without any out side anti-social elements being part of it would have been a success; in which the general public too would have extended their spontaneous support. But, needless shortcut methods were adopted involving ruffians with criminal elements to be part of the movement in order to intimidate the police. The acts of such characters were amply evident on the ground when the policemen were attacked and the vehicles vandalised. The blanket clemency on accused in the Jantar Mantar incident will further embolden the students who are on a warpath. The government must be tough on those elements involved in the crime; but be considerate of students, whose careers are at stake if a police complaint is filed against them.

S Lakshmi, Hyderabad

RSS members in NCERT panel

WHILE the din over irregularities in the conduct of national examinations, particularly NEET by the National Testing Agency (NTA), and the student protests that followed may be dying down, another matter of serious concern has emerged. It is reported that the NCERT has reconstituted the Textbook Development Team for Classes 11 and 12 Political Science, with at least four members having direct or indirect links with the Rashtriya Swayamsevak Sangh (RSS). There have long been allegations that some CBSE textbooks reflect RSS ideology, distort history, and glorify Hindutva figures who had little or no role in India's Freedom struggle. The new panel is reportedly tasked with reviewing textbooks and integrating themes such as cultural rootedness and Indian Knowledge Systems. Given the availability of eminent scholars and academics in education and political science, why were individuals reportedly associated with the RSS chosen for such an important task? One cannot help wondering whether this is part of a deliberate attempt to reshape the political narrative presented to future generations.

Tharcius S Fernando, Chennai

TN CM should act fast on DMK 'misrule'

THE Tamil Nadu Chief Minister C Joseph Vijay said he had evidence of corruption in the previous DMK Government, and would reveal it when necessary. The people of State have every right to clear the cloud by the CM since the matter is concerning much and involves public money. The Chief Minister has sworn an oath to faithfully and conscientiously discharge his duties and to do right to all people in accordance with the Constitution and the law, without fear or favour. If he possesses credible evidence of corruption committed under the previous government, does that constitutional oath permit him to simply keep the evidence "on his table" and wait indefinitely for a politically convenient time? The oath may not require him to disclose every piece of evidence publicly before due process. But it surely requires him to act upon credible evidence through the lawful constitutional and investigative mechanisms available to the State. Otherwise, allegations of corruption risk being reduced to political rhetoric while potential offences involving public money remain uninvestigated. If the evidence exists, let the appropriate authority investigate it, let those responsible answer it, and let the law take its course.

A P Thiruvadi, Chennai

T N largesse could be contagious

PROPOS, "A car, driver and Rs 1L allowance: TN MLAs' windfall from CM Vijay," (THI, Aug 20). The reported decision of the Vijay-led TVK government to provide cars, ₹75,000 monthly allowance to each of Tamil Nadu's 234 MLAs, and another ₹25,000 for an assistant deserves strong public criticism. Such a generous package raises serious questions about priorities and financial responsibility. At a time when citizens demand better roads, healthcare, education, jobs and basic services, public money should not be spent on expanding political privileges. Elected representatives enter public life to serve people, not to treat politics as a source of comfort and personal benefits. Moreover, such concessions could set a dangerous precedent, with legislators in other States demanding similar facilities. Governments must promote austerity, accountability and responsible spending.

BENGALURU ONLINE

Viral video puts woman police officer in spotlight

BENGALURU: A video allegedly showing a woman police officer engaging in an inappropriate conversation with a jailed inmate through a WhatsApp video call has gone viral on social media, triggering controversy within the police department. The officer featured in the video has now approached the Cubbon Park police, alleging that the footage was recorded and circulated without her consent.

According to the complaint, the officer had been acquainted with a rowdy-sheeter identified as Dharma several years ago. She allegedly spoke to him through a video call, during which he recorded the conversation. The officer has alleged that Dharma subsequently shared the recording with another rowdy-sheeter, Saikumar, who circulated it on social media.

The officer has sought action against Dharma, Saikumar and others allegedly involved in making the video public. She has claimed that the circulation of the footage has damaged her reputation and caused considerable embarrassment. In her complaint, the officer stated that she was working as an officer in charge of security at a Metro station. She also referred to her family and social standing while seeking legal action against those responsible for circulating the video.

Mitigating adverse impacts of Artificial Intelligence

DR P SUBRAMANYACHARY

THE AI for Good Global Commission is a high-level international commission established with the support of the International Telecommunication Union (ITU), a specialized agency of the United Nations. It was officially launched during the AI for Good event held in July 2026. The Commission comprises 44 founding commissioners and members, including heads of state, chief executive officers (CEOs) of leading global companies, technology experts, and representatives of international organizations.

The Commission is co-chaired by Paul Kagame, President of Rwanda, and Marc Benioff, Chairman and CEO of Salesforce. Doreen Bogdan-Martin, Secretary-General of the International Telecommunication Union (ITU), serves as the Vice-Chair. From India, Mukesh Ambani, Sunil Bharti Mittal, and Lakshmi N. Mittal have been appointed as founding members of the Commission.

The inaugural meeting of the AI for Good Global Commission was held on July 8 in Geneva, Switzerland. Although the Commission's first meeting took place on that day, it formed part of the broader AI for Good Global Summit 2026, which was held from July 7-10. The four-day summit featured more than 300 sessions, including conferences, exhibitions, training workshops, demonstrations, and high-level discussions.

The deliberations focused primarily on AI governance, technological innovation, and

the role of artificial intelligence in achieving sustainable development, along with strategies to maximize AI's benefits while mitigating its potential risks and adverse impacts.

More than 40 founding commissioners participated in the inaugural meeting of the AI for Good Global Commission. During the meeting, the Commission adopted several key resolutions. Among the most significant were strengthening trustworthy and ethical AI governance and expanding global access to artificial intelligence, with particular emphasis on the needs of developing countries. The Commission also resolved to promote international collaboration among governments, industries, academic and research institutions, civil society organizations, and international organizations.

It emphasized the effective use of AI to help achieve the United Nations Sustainable Development Goals (SDGs) in critical sectors such as healthcare, education, climate change, and agriculture. Another key priority identified by the Commission was reducing the digital divide by investing in digital infrastructure, skill development, and capacity building.

In addition, the Commission reaffirmed that the development of human-centric artificial intelligence that safeguards human rights, promotes inclusiveness, and enhances public welfare is of paramount importance. It further emphasized that its primary objective is to ensure that the benefits of AI are shared equitably by all countries and all sections of society. However, the AI for Good Global Commission is not a regulatory body. Rather, it serves primarily as an advisory and coordinating platform. Consequently, for its recommendations to have a meaningful and lasting impact, they must be adopted and implemented by national governments and other relevant institutions around the world.

The Commission reaffirmed that the development of human-centric artificial intelligence that safeguards human rights, promotes inclusiveness, and enhances public welfare is of paramount importance. It further emphasized that its primary objective is to ensure that the benefits of AI are shared equitably by all countries and all sections of society

AI: Impact on employment and sustainable development

Artificial Intelligence (AI) is bringing about significant transformations in the global economy. Its impact is particularly evident in the areas of employment and sustainable development. According to the Future of Jobs Report 2025 published by the World Economic Forum (WEF), AI and other emerging technologies are expected to create approximately 170 million new jobs worldwide by 2030.

At the same time, around 92 million jobs are projected to disappear, leading to major changes in the global labour market. Routine and repetitive tasks in sectors such as manufacturing, customer service, administration, and data processing are particularly vulnerable to auto-

mation. As a result, millions of workers will need to undergo re-skilling and upskilling to adapt to the changing nature of work. According to estimates by the International Labour Organization (ILO), nearly one-quarter (25%) of global employment is likely to be affected by generative AI.

Clerical and administrative occupations, in particular, are expected to experience the greatest impact due to the increasing automation of routine office tasks. If the benefits of AI are concentrated primarily among highly skilled workers and technology-driven enterprises, there is a significant risk that income inequality will widen further.

Therefore, governments, industries, and educational institutions must work together to ensure that the gains from AI are distributed more equitably through inclusive policies, workforce development, and access to digital skills.

From the perspective of sustainable development, AI systems require large-scale data centres that consume substantial amounts of electricity and water for their operation and maintenance. If these facilities are not powered by renewable or clean energy sources, they can place additional pressure on the environment and contribute to higher carbon emissions.

Developing countries may also face significant challenges due to limited digital infrastructure and a shortage of AI-related skills, increasing the risk of falling behind in the global digital economy. This could further widen the technological and digital divide between developed and developing nations. At the same time, the responsible and ethical use of AI offers immense opportunities.

AI can improve energy efficiency, enable more accurate climate change forecasting, enhance the accessibility and quality of healthcare services, and increase agricultural productiv-

ity through precision farming and data-driven decision-making.

Therefore, it is essential to implement effective AI governance, strengthen quality education, promote skill development, and invest in reskilling and upskilling initiatives. These measures are crucial to ensuring that the benefits of AI are inclusive, sustainable, and contribute positively to long-term economic and social development.

Significance of AI for Good Global Commission for India

The AI for Good Global Commission is of great significance to India. It supports the development of responsible and ethical artificial intelligence, promotes digital inclusion, and helps the country effectively address the economic and social challenges arising from the rapid adoption of AI.

India's AI ecosystem is expanding rapidly. Recognizing its strategic importance, the Government of India approved the IndiaAI Mission in 2024 with a budget of ₹10,371.92 crore. The mission aims to strengthen AI infrastructure, skill development, innovation, and research, thereby positioning India as a global leader in artificial intelligence. AI has the potential to deliver substantial benefits across several key sectors in India, including healthcare, agriculture, education, disaster management, and public service delivery.

In particular, the Commission can support India by: Promoting ethical and trustworthy AI standards, strengthening international cooperation on AI governance and innovation, enhancing cybersecurity and digital resilience and facilitating access to global best practices in AI development and regulation.

Furthermore, the Commission can help developing countries, including India, bridge the digital divide by encouraging equitable access

to AI technologies and digital infrastructure. It also promotes the extension of AI's benefits to rural areas and socially disadvantaged communities, ensuring that technological progress is more inclusive.

In addition, the Commission can play a crucial role in helping India mitigate the potential adverse impacts of AI on employment, society, and the environment through responsible AI governance, capacity building, and sustainable policy frameworks. This will enable India to harness the transformative potential of AI while ensuring that its benefits are shared broadly across all sections of society.

To achieve its objectives, the AI for Good Global Commission promotes global collaboration among governments, technology companies, researchers, and civil society organizations. By fostering cooperation among these key stakeholders, the Commission seeks to ensure that artificial intelligence is developed and deployed in a responsible, inclusive, and sustainable manner.

The Commission also plays a vital role in maximizing the benefits of AI for individuals and societies worldwide while minimizing its potential risks and adverse impacts. It aims to encourage the adoption of ethical AI practices, strengthen international coordination, and support policies that ensure AI serves the broader public interest. If governments, industry, academia, and civil society work together to implement the Commission's recommendations, the AI for Good Global Commission can make a significant contribution to building a safer, more equitable, and AI-driven global economy that promotes sustainable development and shared prosperity for all.

Why Lenin still remains relevant in modern times

ANJANI KUMAR

WHEN a special show was organised for screening of the new super hit movie of Akkineni Akhil – Lenin - at a private theatre, there was much excitement in the air. A select few were invited to watch the movie. It was an elite gathering of Hyderabad. The Akkinenis played a perfect host.

As the movie started, it was clear that the genes of the legendary Nageswara Rao and the ever-green Nagarajuna was speaking loudly in the outstanding performance of this young hero. The maturity of Akhil's acting skill and his successful effort to live in the role of a rural young man was

appreciated by all. Akhil has graduated from a hero to a fine artist now.

As violence depicted the prevailing mood of the Indian filmdom, earlier epitomised by Dhurandhar, one wonders if cinema represents the thought process of the contemporary society. If it does, then we need to do introspection about our society. The chat with Amla on the subject of violence in society and its impact on movies was interesting. Bhagyashri and Akhil together sparked a good on screen chemistry.

As we watched the movie, something which struck me was the title of the movie – Lenin. Man searches deep meaning in everything. During the interval while conversing with Akhil and Amla (whom age refuses to touch) the title Lenin was discussed. This part of the country has fascination with this name as there are many Lenin Babus here.

It was understandable in the decades of our independence and thereafter, when young

So far as the inequality in any society looms large, so far as few control the vast wealth of the nation depriving the majority to struggle for daily bread and butter, Lenin would remain relevant

boys were named after global leaders like Gandhi, Lenin, Stalin, Bose, Nehru, Patel, and other icons of those periods. But now in the third decade of the 21st century choosing Lenin as title of a movie has perhaps a special significance.

When the name Lenin appeals to us even after 100 years of Vladimir Lenin's death, it conveys many meanings. The irony of history is that Lenin and Mahatma Gandhi were contemporaries. Lenin brought the Bolshevik revolution in 1917, and Gandhi came to India from South Africa in 1915 after spending 21 years there. Both giants in their own way in liberating their respective countries from the then existing decadent systems.

Russia under the Tsar had

stagnated as a country and as a civilization. India under the British exploitative rule had transformed itself from being the richest country in the world to one of the poorest country in just 200 years. Inequality was the hallmark of both the countries when Lenin and Gandhi took the reins of leadership.

The closest Gandhi came to Russia was through Leo Tolstoy in whose name he had developed a farm in South Africa. Tolstoy's quote: "There is only one thing in this world which is worth dedicating all your life is creating more love and breaking barriers between people" impacted Gandhi all throughout.

Lenin and Gandhi with their diametrically opposite pathways of Ahimsa versus

the Communist violent revolution, brought an end to an exploitative system. India and Russia threw away their respective existing yokes. The Tsarist Russia and the British India primarily represented an unequal society where the few were exploiting the toiling masses. Lenin like Gandhi had kindled a ray of hope with an underlining principle of equality.

When Lenin carried forward the slogan "workers of the world, unite", it was a global message for unity and struggle against oppression and inequality. Has this slogan lost its relevance now? The Gen Z have to find an answer to this.

While Gandhi remains father of our nation, Russia threw away the communist path in the early 1990s. Gandhi too is facing difficulties as many scholars of WhatsApp University find it fashionable to criticise the Mahatma before whom the world leaders still bow with utmost reverence. India still has to discover a better export than Gandhi.

The misdeeds and purges

Scholarships	
Scholarship Name 1:	Reliance Foundation Postgraduate Scholarships 2026-27
Description:	The Reliance Foundation Postgraduate Scholarships aim to enable and propel India's future leaders who can think big, think green, and think digital for the benefit of society.
Eligibility:	- Students who are enrolled in the first-year full-time regular postgraduation programmes pursuing select future-ready courses from Engineering, Technology, Energy and Life Sciences - Must have secured 550 to 1,000 in the GATE examination, OR must have a CGPA of 7.5 or above in their undergraduate studies (or equivalent percentage normalised to CGPA) if the student has not attempted GATE - Open to resident Indian citizens only
Prizes & Rewards:	Up to INR 6,00,000 over the duration of the degree
Last Date to Apply:	05-10-2026
Application mode:	Online applications only
Short Url:	www.b4s.in/hans/RFS15
QR Code:	https://dle9eg0t055l3.cloudfront.net/static/images/scho-media/2026-271787032072.png
Scholarship Name 2:	Reliance Foundation Undergraduate Scholarships 2026-27
Description:	The Reliance Foundation Undergraduate Scholarships support meritorious students from all corners of the country in pursuing their undergraduate education. This empowers them to continue their studies, become successful professionals, and realise their dreams, unlocking their potential to uplift themselves and their communities and contribute towards India's future socio-economic development.
Eligibility:	- Students must be enrolled in the first year of a full-time regular undergraduate (UG) degree in any stream at a recognised Indian institute - Must have passed Class 12 with a minimum of 60% marks - The annual household income should be up to INR 15,00,000 per year (preference will be given to those students whose family income is less than INR 2,50,000) - Open to resident Indian citizens only. An aptitude test is mandatory
Prizes & Rewards:	Up to INR 2,00,000 over the duration of the degree
Last Date to Apply:	05-10-2026
Application mode:	Online applications only
Short Url:	www.b4s.in/hans/RFS14

Scholarship Name 3:	Luxury Connect Business School Scholarship Program 2026-27
Description:	The Luxury Connect Business School Scholarship Program 2026-27 is an initiative by Luxury Connect Business School (LCBS) to support aspiring professionals planning to pursue careers in the luxury industry. Students admitted to the MBA in Luxury Brand Management or the Advanced Diploma in Luxury Retail Management & Client Experience can receive tuition fee waivers for their studies at LCBS, making specialised luxury education more accessible.
Eligibility:	For an MBA in Luxury Brand Management - ust have completed a bachelor's degree from a recognised university/institution. - Final-year UG students may also apply, subject to LCBS admission norms and submission of final academic documents before enrolment. - Annual parental income from all sources must not exceed INR 8,00,000. For the Advanced Diploma in Luxury Retail Management & Client Experience - Must have passed Class 12 or equivalent from a recognised board. - Must be a second-year/final-year UG student or a graduate. - Candidates with prior exposure to retail, hospitality, fashion, lifestyle, beauty, luxury sales, customer service, or related sectors are encouraged to apply. - Annual parental income from all sources must not exceed INR 8,00,000.
Prizes & Rewards:	Tuition fee waiver up to INR 2,00,000 for MBA or up to INR 25,000 for Advanced Diploma, based on graduation percentage.
Note:	- Scholarships apply only to students who secure admission to the eligible LCBS program and fulfil all applicable eligibility criteria. - The maximum tuition fee waiver of up to INR 2,00,000 is applicable only for the Offline (Campus) MBA in Luxury Brand Management program, where the course fee is INR 9.5 lakh.
Last Date to Apply:	26-08-2026
Application mode:	Online applications only

How AI is redefining executive education

RANJITA RAMAN

Artificial Intelligence is changing not only how professionals work, but also what they expect from learning. Across industries, AI is influencing decision-making, customer engagement, productivity, research and business strategy. Yet, discussions around executive education often remain limited to whether institutions should introduce more AI-focused courses.

That is no longer the most important question

The real question is whether executive education itself is evolving fast enough for a workplace where professionals are expected to continuously learn, adapt and make decisions alongside intelligent technologies. For years, executive education was largely viewed as a pathway to leadership roles, career progression or specialised expertise. Today, its purpose is becoming more fundamental. Professionals are not returning to learning simply to earn another qualification. They are doing so because the relevance of their existing knowledge is being tested more frequently than ever before.

This shift demands more than adding another AI module or introducing a course on Generative AI

The biggest mistake institutions can make is to treat AI only as a subject to be taught. AI must also influence how professionals learn, practise, receive feedback and apply

knowledge. Working professionals enter executive education with different experiences, responsibilities and career aspirations. A finance leader, healthcare administrator, marketing professional and technology manager may enrol in the same programme, but their learning requirements will rarely be identical. AI can help institutions create more contextual and adaptive learning journeys. It can identify knowledge gaps, recommend relevant content, provide timely feedback and allow learners to progress according to their individual needs. For professionals balancing demanding careers, this level of personalisation can significantly improve the relevance and practical value of learning.

Generative AI is expanding these possibilities further

Learning no longer needs to remain confined to lectures, scheduled discussions or static course material. Professionals can use AI-powered tools to clarify concepts, test ideas, simulate business situations and explore alternative approaches to real-world problems.

This can transform executive education from periodic classroom engagement into continuous knowledge support. However, greater use of AI should not be confused with reduced dependence on educators.

Executive education derives much of its value from faculty expertise, peer discussion, mentorship, debate and the exchange of real-world experiences. These interactions help professionals challenge assumptions, understand different perspectives and develop judgement. Technology can strengthen this process, but it cannot replace it. AI can generate information, but leadership requires interpretation. It can suggest options, but decision-making still requires accountability. It can personalise content, but meaningful learning depends on reflection, experience and human context.

In the years ahead, institutional success will increasingly depend on how effectively academic excellence, faculty expertise and intelligent learning technologies are combined

- AI is changing the purpose of executive education, as professionals increasingly return to learning to keep their knowledge and skills relevant.
- Institutions need to move beyond standalone AI courses and integrate intelligent technologies into how professionals learn, practise and receive feedback.
- AI can enable personalised learning by identifying knowledge gaps, recommending relevant content and adapting learning journeys to individual professional needs.
- Human capabilities remain central, with critical thinking, ethical judgement, communication, leadership and reflection continuing to require strong human involvement.
- The future of executive education will depend on balance, combining faculty expertise, peer learning and mentorship with AI-driven tools to improve workplace relevance

Grade 8 student secures global rank in LogiQids Olympiad

Grade 8 student Ansh Kumar of Birla Open Minds International School, secured International Rank 118 and School Rank 1 in the LogiQids Olympiad 2025-26, competing against students from across the globe.

The Olympiad was conducted in two stages, beginning with a school-level round followed by an online round. According to the school, nearly 3,100 schools participated in this year's competition. The result marked Ansh's first participation in an international-level Olympiad.

Ansh said the scale of the competition initially made him nervous, but regular practice helped him approach the subsequent rounds with greater confidence. He prepared using LogiQids worksheets and worked on developing his logical reasoning and problem-solving abilities with support from his teachers.

His performance highlights the role of sustained practice and analytical thinking in competitive academic platforms. The Olympiad focuses on logical reasoning and encourages students to approach problems through observation, analysis and structured thinking.

The school introduced computational thinking as part of its academic curriculum this session, with activities designed to encourage

students to examine problems from different perspectives and develop solutions. Such skills are increasingly relevant across academic disciplines and areas of future study.

Mr Anurag Upadhyay, Principal, Birla Open Minds International School, Daltonganj, said Ansh's achievement demonstrated the importance of dedication, perseverance and willingness to take on challenges.

"Ansh's achievement is a proud milestone for our school and a wonderful example of what dedication and a passion for learning can accomplish. Competing at an international level and securing such an impressive

rank in his first attempt is truly commendable," he said.

He added that the achievement demonstrated how consistent effort and guidance could help students approach challenging academic opportunities with confidence.

For Ansh, the result represents a significant academic milestone and an experience that helped him develop greater confidence in tackling unfamiliar problems. His performance also provides an example of how participation in Olympiads can expose school students to competitive environments while encouraging them to strengthen reasoning and problem-solving skills.

Healthier habits: A guide to digital self-care

The internet is increasingly becoming a useful space for people to learn about self-care, develop healthy routines and access support for personal well-being. When used thoughtfully, digital platforms can complement everyday practices such as mindfulness, meditation, reflection and emotional support. Meditation and mindfulness apps, for instance, offer guided exercises that can help users build regular moments of calm into busy schedules. Short breathing sessions, relaxation exercises and sleep-focused programmes can make self-care more accessible, particularly for students and working professionals managing demanding routines.

Virtual support groups are another important resource. Online communities allow people with shared experiences and interests to connect, exchange practical suggestions and feel less isolated. Such spaces can encourage empathy and create opportunities to learn from others while

maintaining flexibility about when and how people participate.

Educational websites, podcasts and videos can also introduce users to techniques related to stress management, sleep, physical activity and mindful living. The advantage of digital resources is that many can be accessed from home and incorporated into an individual's daily routine.

For students especially, learning to use technology not only for entertainment and academic work but also for reflection, relaxation and healthy habits can contribute to a more balanced digital lifestyle. Used responsibly, the internet can become a supportive tool for building awareness, resilience and everyday well-being.

When Kathak becomes a dialogue with the divine

ANNA RAO GANGAVALLI

At Ethnic Hall, Shilparamam, Madhapur, a Kathak recital took an unconventional approach to the familiar idea of devotion. Aavahan: Some Dialogues with the Divine, presented by Aangan and Nadee School of Movement, explored prayer not as ritual or surrender, but as an intimate conversation between the seeker and the divine. The 40-minute solo production was performed by Niral Uprit, an Indore-based dancer who has trained in Kathak since the age of five and is a senior disciple of Guru Damayanti Miradwal. Uprit is also the founder of Technrityam, a digital riyaz companion for Indian classical arts, and works as a public speaker and writer while studying management science. The performance created an intimate setting for its central idea. A line of flowers bordered the dance space, while Uprit appeared in a flowing, silvery-white costume that complemented the movement. A telephone placed on a table became

Niral Uprit's solo production Aavahan: Some Dialogues with the Divine brings classical Kathak into conversation with contemporary theatre, poetry and Advaita philosophy

an unusual theatrical device through which the Gods were "summoned" one after another. A carved wooden screen provided transitions between sections. Ganesha, Shiva, Devi and Krishna were each approached through a distinct musical and

choreographic language. Rather than retelling their familiar stories, however, the production questioned how people inherit forms of devotion. The dancer-seeker encounters the silence or ambiguity that can follow conventional prayers and begins to question whether inherited ways of asking and accepting can remain meaningful.

The production therefore sought a more personal path to the divine. Traditional Kathak compositions and Sanskrit shlokas shared the stage with spoken word, English voiceover and original Hindi poetry. Ancient and contemporary elements were placed side by side, turning mythology into a

subject of enquiry rather than simply narration. The prerecorded music, composed by Savni Bhatt, combined singing, instrumental passages, recitation and voiceover. Tabla and pakhawaj formed the rhythmic foundation, while harmonium provided melodic support. The bansuri was particularly prominent in the Krishna section, adding a distinct melodic character to the movement.

Kathak's rhythmic vocabulary remained central to the production. Teental featured in the invocatory and celebratory sections, including Ganesha and Devi, as well as the final movement. The Shiva bandish used Roopak, whose uneven cycle brought urgency to the section. Ektaal appeared during faster passages, allowing Uprit's swift movements and chakkar to heighten the performance's intensity. Kavitts, parans and bandishes were woven into the choreography alongside Sanskrit verses from the Upanishads and the Bhagavad Gita. These textual elements operated as another layer of meaning

beneath the dance, connecting the physical vocabulary of Kathak with the philosophical questions at the heart of the production. Uprit differentiated the four deities through rhythm, expression and movement. Her portrayal of Shiva, in particular, combined poetic composition with a striking interpretation of the Lord of Dance. The Krishna section drew on the interplay between flute, voice and choreography. Across the recital, clean footwork, controlled angika patterns and fleet chakkar demonstrated her command of the classical form. The performance gradually moved towards its central philosophical insight. As the dancer addresses the deities and finds that their answers repeatedly return the questions to her, the

search turns inward. The ultimate realisation echoes the Advaita understanding that what one seeks outside may ultimately be discovered within the self. Aavahan thus emerged as an exploration of seeking, questioning and self-discovery through Kathak. Its distinctive quality lay in bringing a traditional Indian classical form into dialogue with contemporary theatrical devices, original poetry, technology and philosophical enquiry. The programme was organised and introduced by Aditi Rao Ashtaputre, founder of Nadee School of Movement. The performance was received with appreciation, particularly for the way it retained the discipline of Kathak while creating space for a contemporary interpretation of devotion.

Niral Uprit

Meenakshi Seshadri questions cinema's in-law stereotypes

Veteran actress Meenakshi Seshadri has reflected on the way the relationship between a mother-in-law and daughter-in-law has traditionally been portrayed in Indian cinema. She noted that the dynamic has often been presented in a negative light. Talking about the same, the 'Damini' actress recalled her 1990 film 'Ghar Ho To Aisa,' in which she played a daughter-in-law opposite veteran actress Bindu. She shared that her character stood up to her on-screen mother-in-law and taught her some hard lessons, with the film using comedy, melodrama and even karate sequences to highlight the conflict. Meenakshi Seshadri shared a video recreating the song 'January February' from her 1990 film Ghar Ho To Aisa. Dressed in a stylish co-ord outfit, the actress showcased her dance moves and expressive performance, giving a nostalgic glimpse of the popular track. The song was originally sung by Asha Bhosle and Mohammed Aziz, with music composed by Bappi Lahiri and lyrics penned by Majrooh Sultanpuri. For the caption, she wrote, "The relationship between a mother-in-law

and her daughter-in-law has often been portrayed with a negative flavor in Indian cinema. In my movie Ghar ho to aisa I pretend to be a daughter-in-law to the character played by famous actress Bindu. My character teaches some hard lessons to the mother-in-law, using exaggerated comedy, melodramatic components, and some keen karate moves!" "I personally wish that after marriage, mother-in-law and daughter-in-law develop a beautiful relationship, just

like a real-life mother and daughter." In Ghar Ho To Aisa, Meenakshi Seshadri played Seema Kumar, the strong-willed wife of Amar, portrayed by Anil Kapoor. Her character was portrayed as a fearless daughter-in-law who stood up to her cruel in-laws and challenged the domestic mistreatment she faced. Bindu portrayed the film's quintessential negative mother-in-law, a role that became one of her memorable characters. The film was later remade in Telugu as "Attintlo Adde Mogudu."

Sonam Kapoor returns to spotlight after postpartum sabbatical

Actress and fashion icon Sonam Kapoor made a striking appearance at a luxury jewellery showcase in Mumbai. The actress was seen turning heads in an elegant black saree paired with statement jewellery. The actress, through her post on social media, stated that she is 'coming out of postpartum sabbatical' as she stepped out for the event. For the event, Sonam opted for a black saree featuring detailed metallic-gold along the border and 'pallu'. The saree also featured traditional embroidered motifs in shades of gold and brown. She paired it with a black blouse with gold-stripped detailing on the sleeves.

The actress accessorised the look with an elaborate diamond and gemstone-studded necklace, matching earrings and statement rings. For the hair, she chose to neatly pull it back into a sleek bun, with a dewy makeup look. Talking about Sonam, over the years, she has built a distinct style identity in the world of fashion.

Her relationship with fashion has been closely intertwined with her sister Rhea Kapoor, who has frequently styled her for major public appearances. Rhea, for the uninitiated, is a film producer and fashion designer, stylist.

The sisters' creative partnership also extends to production. Rhea began her film-production career with Aisha in 2010, which starred Sonam alongside Abhay Deol. The sisters subsequently collaborated on films including Khoobsurat and Veere Di Wedding. Aisha, in particular, became an important part of Sonam's fashion and film journey. Released in 2010, the romantic comedy saw her play the title character, a young woman deeply interested in fashion and social life. The film also became closely associated with Sonam's evolving fashion image during her initial days in Bollywood.

On the acting front, Sonam began her career with Sanjay Leela Bhansali's Saawariya in 2007. She went on to feature in films including Delhi-6, I Hate Luv Storys, Aisha, Raanjhanaa, Bhaag Milkha Bhaag, Khoobsurat, Neerja, Prem Ratan Dhan Payo, Veere Di Wedding, Sanju, Ek Ladki Ko Dekha Toh Aisa Laga, The Zoya Factor and AK vs AK. Her performance in Neerja earned her a National Film Award. On the personal front, Sonam married businessman Anand Ahuja in May 2018. The couple welcomed their first son, Vayu, in August 2022. In March 2026, they welcomed their second son, Rudralokh.

“We expect consumption demand to remain healthy. The company remains confident of sustaining double-digit topline growth while improving profitability through premiumisation, innovation and scale benefits.” **-Sunil D'Souza, MD & CEO, Tata Consumer Products Ltd (TCPL)**

BIZ BRIEFS

Tech Survey by Amazon

Amazon.in's inaugural Best in Tech Survey, found AI features are now expected by 82 per cent of smartphone buyers. Performance and speed remain the strongest purchase drivers at 87 per cent, followed by battery life at 79 per cent and camera quality at 77 per cent. About 42 per cent are considering phones priced Rs25,000-Rs50,000, while 48 per cent plan upgrades within three months. Reviews and ratings influence 47 per cent of buyers.

Declassified on Discovery+

Discovery has announced the availability of Declassified: Operation Sindoor on this Independence Day to stream on Discovery+. The two-part docuseries was broadcasted on August 15, where Ajit Doval, National Security Advisor of India gave insights on Operation Sindoor. According to Doval: "We had decided the objective of the operation was destruction of the enemy camps particularly those who had been responsible for the Pahalgam attack."

Milestone in robotic surgeries

Dr. Mohit Bhandari and Team Mohak marked the national milestone with an extraordinary achievement: 51 robotic bariatric and metabolic surgeries completed in just 14 hours on August 15. The unprecedented initiative brought together six robotic systems, one designated console surgeon and one highly coordinated Indian clinical team. A total of 51 patients underwent robotic bariatric and metabolic surgery, comprising 30 men and 21 women. The patients ranged in age from 21 to 77 years, with an average age of 43.6 years.

AWS opens Builder Lofts

AWS has announced the opening of AWS Builder Lofts in Berlin, Hyderabad, and São Paulo, the permanent community spaces give students and developers a place to learn, connect, and contribute through hands-on experiences, community-led sharing, and technical collaboration. David Nalley, Director, AWS, said: "Twenty years ago, AWS launched its first services, and it was the builder community that believed in us from the very beginning. These spaces are our way of investing back in that community."

VAYU forays into India

VAYU, an air compressor brand created for manufacturers and growing businesses, announced its launch in India with a portfolio of compressed air solutions. At launch, VAYU offers a 5-45 kW range of air compressors, available in fixed- and variable-speed configurations and designed for operating pressures ranging from 7 to 12.5 bar. The portfolio is supported by a range of accessories, genuine spare parts, comprehensive warranty coverage and nationwide service support.

Bulls charge after 7-day rout

US TREASURY INTERVENTION SPARKS BROAD-BASED RELIEF RALLY

MUMBAI

BENCHMARK equity indices bounced back on Thursday, with the Sensex climbing 628 points and the Nifty snapping its seven-day losing streak as easing global bond yields fueled a stock rally worldwide.

The 30-share BSE Sensex jumped 628.04 points, or 0.82 per cent, to settle at 77,537.72 after four days of decline. During the day, it surged 701.43 points, or 0.91 per cent, to 77,611.11. Snapping its seven-day falling streak, the 50-share NSE Nifty rose by 153.55 points, or 0.64 per cent, to close at 24,231.85.

"Markets found much-needed relief after the US Treasury stepped in to contain the surge in global bond yields, triggering a strong broad-based rebound and ending the domestic market's week-long losing streak. The intervention has dragged down the dollar, which, along with a firmer rupee and easing yield pressures, boosted attractiveness to EMs," Vinod Nair, Head of Research, Geojit Investments Ltd, said. The recovery was

widespread across sectors, driven primarily by strength in IT and financial stocks, as a cooling yield environment supports spending, he said. "Yet, the market's optimism remains guarded as stubbornly high crude oil prices, driven by unresolved US-Iran tensions, continue to cast a shadow over inflation and corporate profitability," Nair added. Among the Sensex firms, Eternal, Kotak Mahindra Bank, ITC, Bajaj Finance, Axis Bank and UltraTech Cement were the biggest winners. Tata Steel, InterGlobe Aviation, HCL Tech and Titan were the laggards. "Indian equity markets ended higher on Thursday, snapping a sev-

en-session losing streak—the longest in nearly 11 months—as easing global bond yields revived risk appetite and encouraged investors back into equities. "The recovery marked a decisive shift from the cautious tone that had dominated recent sessions, with benchmark indices holding on to their early gains throughout the day," Hariselman Radhakrishnan, Founder & CEO of HST Wealth, a SEBI-registered Research Analyst firm, said. Foreign Institutional Investors (FIIs) bought equities worth Rs 407.99 crore on Wednesday, according to exchange data. The BSE SmallCap Select index climbed 0.83

Bullion fires up: Gold hits ₹1.62 lakh, silver jumps ₹10,000

NEW DELHI

GOLD staged a sharp comeback in the national capital on Thursday, rising by Rs 4,300 to a three-month high of Rs 1.62 lakh per 10 grams, and silver surged by Rs 10,000 as investors turned to precious metals amid a weak US dollar. The yellow metal of 99.9 per cent purity appreciated by Rs 4,300 to Rs 1,62,300 per 10 grams (inclusive of all taxes), according to local traders. It had closed at Rs 1,58,000 per 10 grams on Wednesday.

The precious metal was last seen at comparable levels on May 26, when it was quoted at Rs 1,62,400 per 10 grams.

Silver mirrored the rally, soaring to a seven-week high of Rs 2,45,000 per kilogram (inclusive of all taxes) from Rs 2,35,000 per kg. The white metal had traded near these levels on July 3, when it was quoted at Rs 2,45,000 per kg. "Gold hovered near its highest level in more than two months on Thursday, supported by a sharp decline in the US dollar and Treasury yields," Saumil Gandhi, Senior Analyst - Commodities at HDFC Securities, said.

The dollar index slid to a three-month low, while lower Treasury bond yields improved the appeal of assets such as gold, he added. The rally in spot bullion prices came despite a retreat in the overseas markets. Gold dipped USD 66.31, or 1.47 per cent, to USD 4,456.72 per ounce, and silver dropped nearly 2 per cent to USD 65.82 per ounce. Spot gold was trading lower at USD 4,450 per ounce as crude oil prices surged over 2 per cent after the US President Donald Trump announced new economic sanctions on Iran, Praveen Singh, Head of Commodities at Mirae Asset ShareKhan, said.

per cent and MidCap Select index was up 0.56 per cent. Among sectoral indices, Realty jumped the most by

1.87 per cent. FMCG (1.03 per cent), Focused IT (1.02 per cent), IT (0.94 per cent), Financial Services (0.85 per

cent), Consumer Discretionary (0.75 per cent) and Top 10 Banks (0.69 per cent) also advanced.

Sebi allows IFSCA-regulated entities to access KYC records

NEW DELHI: Markets regulator Sebi on Thursday allowed entities regulated by the IFSCA to access the systems of registered KYC registration agencies, facilitating seamless sharing of client information for financial services. The markets watchdog said the step will enable interoperability and facilitate sharing of information between Sebi-registered KRAs and entities regulated by IFSCA. Under the move, the International Financial Services Centres Authority (IFSCA) regulated entities can access KYC Registration Agencies (KRAs) records for carrying out KYC of clients who engage them for financial services, Sebi said. A KYC Registration Agency (KRA) is an agency that maintains investors' KYC (Know Your Customer) records.

Cement sector powers core industries' 5.4% rise in July

NEW DELHI: India's Index of Core Industries (ICI) recorded a 5.4 per cent growth in July this year compared to the same month of the previous year, driven by the strong performance of the iron ore, cement, and electricity sectors, according to figures released by the Ministry of Commerce and Industry on Thursday.

The cement sector clocked a robust growth of 13.1 per cent during the month as demand stayed buoyant due to large government investments in big-ticket infrastructure projects such as highways, ports, and railways.

The production of iron ore surged by as much as 29.5 per cent in July. Owing to intensive use of iron ore in the production process, and its contribution to in-

dustrial development, it has been included in the list of core industries as a new item in the revised series of ICI. Accordingly, the number of core industries has increased from eight to nine in the new series, which kicked in for the first time from last month.

Electricity generation grew by 9 per cent during July while coal production went up by 7.6 per cent. The output of steel and refinery products during the month increased by 2.9 per cent and 2.7 per cent respectively, the data showed.

Centre tightens sugar stock norms amid price surge

NEW DELHI: THE Centre on Thursday imposed a stockholding limit on bulk consumers of sugar, amid concerns over rising prices due to tight supplies ahead of the festival season.

Food Minister Pralhad Joshi, in a social media, announced that bulk consumers using more than 10 tonnes of sugar a month will not be allowed to hold stock beyond what they would consume in 15 days. The food ministry has notified the Sugar (Stockholding Limit of Bulk Consumers) Order, 2026, which covers confectioners, soft drink manufacturers, food processing units, sweetmeat sellers and other institutional buyers. The order will come into force from September 1 and remain

in effect till November 30.

This follows an earlier order, effective August 1 to November 30, capping stock with sugar dealers at 4,000 quintals for 30 days.

The curbs come against the backdrop of a sharp rise in sugar prices, with ex-mill rates hitting record levels on account of a lower opening stock ahead of the 2026-27 season.

The all-India average ex-mill price rose to Rs 5,400-5,500 a quintal on Tuesday,

up from Rs 3,900 a year earlier, according to an industry body. Retail sugar prices have climbed about 13 per cent year-on-year to Rs 52.30 a kg as on August 18, from Rs 46.34 a year ago, as per consumer affairs ministry data. Demand for sugar typically rises between August and November, as the country celebrates major festivals, such as Ganesh Chaturthi, Dussehra, and Diwali. Under the new order, the monthly quantity of sugar sold by each mill to a bulk consumer -- whether directly or through dealers -- will be verified, and consumption will be determined with reference to GST returns filed by sellers and/or buyers, using the relevant HSN code applicable to sugar.

Local currencies can cut trade costs: RBI deputy governor

MUMBAI: Local currencies will play an ever-increasing role in cross-border trade and payments as they lower transaction costs, reduce currency mismatches, and improve settlement efficiency, RBI Deputy Governor Rohit Jain has said.

Speaking at the Annual Day of the Foreign Exchange Dealers' Association of India (FEDA) last week on 'India's Foreign Exchange Markets: Getting ready for the next Decade', Jain said that by their very

nature, markets are continuously evolving and parameters of their readiness are being regularly renewed according to the needs of the time. "Our market would be ready for the next decade if it can help facilitate India's ever-increasing engagement with other countries, absorb shocks in a non-disruptive manner, serve the smallest user as efficiently as the biggest, and embrace new technology without vitiating the trust it has earned," he said.

DGFT opens door wider for rupee-settled exports

NEW DELHI: THE government on Thursday amended certain provisions of the Foreign Trade Policy to make it easier for exporters to invoice overseas sales and receive payments in Indian rupees.

The amendments cover exports to all countries, although the rules vary by destination. Two paragraphs of the Foreign Trade Policy (FTP) 2023 have been amended "to align the provisions relating to denomina-

tion of export contracts and eligibility for FTP benefits in respect of export realisation in Indian Rupees with the Foreign Exchange Management (Manner of Receipt and Payment) Regulations 2023", the Directorate General of Foreign Trade (DGFT) said in a notification.

For countries outside the Asian Clearing Union (ACU), export contracts and invoices may now be denominated in any foreign currency or Indian rupees.

Earlier, export earnings generally had to be received in a freely convertible currency. Commenting on the notification, economic think tank GTRI said eligible rupee payments for exports to any country other than Nepal and Bhutan will now qualify for FTP benefits and count towards fulfilment of export obligations. Rupee earnings received through approved banking channels will there-

fore be treated on par with export payments received in foreign currency, it said, adding that exports financed through EXIM Bank or Government of India lines of credit may also be invoiced in Indian rupees. The ACU is a regional payment arrangement established in 1974 to facilitate trade settlements and reduce repeated transfers of foreign exchange by periodically settling the net obligations of its members.

KARAN ADANI ON WATCHING HIS FATHER THROUGH STORM

‘Sometimes the strongest answer is to keep building’

NEW DELHI

FOR Karan Adani, the past three years have been less about watching a business leader navigate a crisis and more about watching a father carry a burden.

In a deeply personal note, the managing director of Adani Ports reflected on what it was like to watch his father, billionaire Gautam Adani, navigate the turbulence that followed the Hindenburg Research report and subsequent US Department of Justice proceedings.

"Over the last three years, through the Hindenburg at-

tack on the Adani Group and the US DOJ proceedings, I was asked one question more than any other: What is it like, as a son, to watch your father endure all of this?" Karan wrote in a post on LinkedIn.

Karan said he struggled to answer the question while the events were unfolding.

"Now that it is behind us, I can."

There were mornings when another headline, accusation or judgment greeted him, he said.

"I felt anger. I felt concerned. And, as a son, I often wondered, how much should

one man have to absorb?" But what stayed with him, he said, was not the noise. It was watching his father go to work. "My Father Kept Going to Work." "It sounds like such an or-

dinary statement. It was anything but ordinary," Karan wrote.

He said resilience was often imagined as something dramatic - a speech, a show of defiance or a promise to prove critics wrong. What he saw instead was his father simply returning to the work in front of him every morning.

"Projects still had to be built. People still depended on us. Ports had to run. Power had to reach homes and businesses. Airports had to serve passengers. Investments whose results would be seen only decades later

still had to be made."

"India had not paused because our family was living through a storm. And neither did he."

For Karan, the experience also changed his understanding of the man he had always known simply as "Papa".

"Papa always had an extraordinary ability to focus on the task in front of him," he wrote.

"Work speaks for itself" has always been his instinct, Karan said.

The experience, he added, made him understand more deeply why his father had devoted his life to infrastruc-

ture and what he describes as nation-building.

"For him, these were never slogans," he wrote.

Gautam Adani has built the group around infrastructure and energy businesses ranging from ports and airports to power and other sectors, with investments often requiring a long-term view.

His ports-to-energy group never slowed during the three years of turbulence. It invested more than Rs 2.08 lakh crore in the second half of FY25 and FY26, including record capital expenditure of Rs 1,52,967 crore in FY26

AWS rolls out advanced OpenAI models in India

HANS BUSINESS
HYDERABAD

AMAZON Web Services (AWS), announced the general availability of OpenAI GPT-5.6 Terra and Luna models on Amazon Bedrock in India with in-country inferencing. With this capability, OpenAI model inference on Amazon Bedrock is processed on AWS infrastructure, giving organizations the ability to leverage frontier models locally.

Nitin Bawankule, Head-Enterprise Sales, India, OpenAI, said: "What we're seeing in India is a shift from AI as experimentation to AI as operating leverage. Businesses want models that can help teams write better software, work through complex information, and make higher-quality decisions in the flow of work. For many organizations in India, especially in regulated sectors, local inferencing is a key part of adopting AI with confidence. Making our models available through Amazon Bedrock gives more organizations a practical way to bring that capability into production."

Satinder Pal Singh, Director, AWS India, said: "India's enterprises are moving rapidly from AI experimentation to production-scale deployment, and they need frontier intelligence that runs where their data already lives.

JawaYezdi expands digital reach campaign

HANS BUSINESS
HYDERABAD

JAWAYEZDI Motorcycles launched the Yezdi Roadster Red Wolf campaign on e-commerce platforms Amazon.in and Flipkart.

For online purchase, the customer has to pay the ex-showroom booking amount on the e-commerce sites. After which an authorised local dealer confirms the order and guides the customer for the remaining on-road payment. Registration and insurance are completed at the dealership, followed by the final handover. Accessories and add-ons remain dealership purchases.

Anupam Thareja, Co-founder, JawaYezdi Motorcycles, said: "The Yezdi Roadster has resonated with riders because of its distinctive styling and refined engineering, when the Red Wolf came along, it called out to its pack like nothing before. With its availability on India's leading e-commerce platforms, the Red Wolf can bring its bold individuality across multiple Indian cities."

Thareja, further added: "Online presence for riders to discover and start their ownership journey seamlessly has become indispensable for us, and we will continue to endeavour to make our range of performance classics widely available."

BWF World Championships

Sindhu, Ayush bow out; Treesa-Gayatri into last 8

NEW DELHI: India suffered a big blow at the World Championships as PV Sindhu and Ayush Shetty faced contrasting defeats in the pre-quarterfinals, bringing the country's singles campaign to an end here on Thursday.

Two-time Olympic medalist Sindhu's hopes of winning an unprecedented sixth World Championships medal ended with a gruelling 11-21 21-15 17-21 loss to China's world No. 3 Wang Zhi Yi, who battled severe cramps in both legs to advance to the quarterfinals.

Earlier, Shetty suffered a tame 19-21 11-21 defeat against Indonesian nemesis Alwi Farhan in the men's singles pre-quarterfinals.

The 21-year-old Shetty, who had created a flutter by stunning defending champion and world No. 1 Shi Yu Qi in the opening round, went down to world No. 12 Farhan. It was his

fifth defeat in eight meetings against the 11th-seeded Indonesian, bringing the curtains down on India's men's singles campaign.

Lakshya Sen had bowed out of the premier tournament on Wednesday.

Earlier in the day, India's women's doubles pair of Treesa Jolly and Gayatri Gopichand moved a step closer to a medal by reaching the quarterfinals with a straight-game win over Japanese seventh seeds

Rin Iwanaga and Kie Nakaniishi.

The unseeded Indian pair, on a comeback trail after Treesa recovered from an injury, produced a dominant performance to outwit the world No. 7 Japanese pair 21-16 21-12 in a one-sided contest.

It was the first quarterfinal appearance by an Indian women's doubles pair at the World Championships since Jwala Gutta and Ashwini Ponnappa achieved the feat in 2015.

FIH Women's World Cup

India enter round 2 after goalless draw with England

AMSTELVEEN: The Indian women's hockey team advanced to the second round of the FIH World Cup after being held to a goalless draw by England in their final Pool D match here on Thursday, surviving a dozen penalty corners and late pressure.

India, who needed only a draw to progress, finished second in the pool with one win and two draws from three matches. China topped the group after beating South Africa 5-1 earlier in the day.

The result, however, masked a below-par performance from India, who struggled with passing, ball control and penalty-corner execution. They earned six

penalty corners but failed to convert any, with Deepika and Navneet Kaur unable to make their opportunities count.

India's goalkeepers Savita Punia and Bichhu Devi stood out, particularly as England earned as many as 11 penalty

corners during the match. Bichhu produced the crucial save with just 30 seconds remaining, diving to her left to deny England and preserve India's qualification.

India and China will carry one point each in the second round. India started aggres-

Sinquefield Cup

PRAGG LOSES TO WESLEY SO IN ARMAGEDDON, ENDS SECOND

ST. LOUIS (USA): Indian Grandmaster R Praggnanandhaa lost the finals in the Armageddon game against eventual champion American Wesley So to finish second in the Sinquefield Cup here.

After drawing with Anish Giri of the Netherlands in the final Classical game, Praggnanandhaa forced a tiebreaker against Wesley So who was leading the tournament for most of the rounds.

Wesley So was able to play out a draw with black pieces to win the tournament, which is a part of the Grand Chess Tour. The rules clearly stipulated that the tied players would play two rapid games.

If the tie is still unresolved, one final Armageddon game, five minutes for white and four for black will be played,

wherein black wins the match if he draws. As it happened both the rapid games ended in draws, leaving the score tied at 1-1. In the final Armageddon, Praggnanandhaa had the more difficult chance of winning with white while the Indian could not do and the game ended in a draw.

However, the silver lining for Praggnanandhaa was that he stood first at the end of the last event and has now qualified for the grand finale later this year.

For the records, Praggnanandhaa scored 35.5 in the total tour which was a full point clear of Wesley So.

D Varshith lifts bronze at Jr National Swimming C'ships

Telangana swimmer Dhulipudi Varshith won the bronze medal in the 200m Medley (Male) at the 52nd Junior National Swimming Championship 2026, being held in Bhubaneswar, Odisha, from August 18 to 23, 2026. Varshith clocked 2:10.97 seconds to finish third, behind Mongam Theerdhu Samadev (SSCB), who won gold in 2:09.36, and Daniel Paul J (Karnataka), who secured silver in 2:10.60. Varshith has continued his medal-winning run since 2024, when he won silver in the 400m Individual Medley at the Junior Nationals in Bhubaneswar. In 2025, he added gold in the 400m Individual Medley at the 7th Khelo India Youth Games in Bihar. Varshith has trained at Zionsportz Swimming Academy under Chief Coach John Siddiqui since the age of eight.

Chakraborty starts with win, Vignesh held to draw

MUMBAI: Top seed Mayank Chakraborty began his campaign with an impressive win while two leading contenders -- Vignesh Advait Vemula and Akhilbay Imangali -- were held to a draw by lower-rated opponents in the Asian Junior Classical Championship here on Thursday.

Vignesh was forced to share the point with Neemay Bhanushali, while Imangali of Kazakhstan was held by Rishaan Jain.

The opening round in the girls' section, however, produced a couple of notable upsets. Swara Lakshmi S. Nair

was held to a draw by Vakcheri Mohitha despite enjoying a significant rating advantage, while Aadya Gowda scored an impressive victory over the higher-rated WFM Mrittika Mallick.

Another surprise result saw Liliya Belaya of Uzbekistan defeat the higher-rated Archita Agrawal of India. The Open Championship has attracted a strong field of 85 players representing nine federations.

The tournament features six International Masters and eleven FIDE Masters, making it one of the strongest junior events in Asia. Leading the field

is top seed International Master Mayank Chakraborty of India, rated 2500.

The girls' championship has attracted players from seven federations. The top three seeds, WFM Pratitree Bordoloi of India, WFM Mariya Kholyavko of Kazakhstan and WFM Shohradova Lala of Turkmenistan, opened their campaigns with convincing victories to move into the lead group after the first round.

The championship was inaugurated by Grandmaster Vidit Gujrathi, who has been named a recipient of the prestigious Arjuna Award.

RSS has decided it knows truth of 1.5 bn people: Rahul

NEW DELHI

LAUNCHING a sharp ideological attack on the Rashtriya Swayamsevak Sangh (RSS), Leader of Opposition in the Lok Sabha Rahul Gandhi on Thursday accused the organisation of attempting to impose its version of the "truth" on 1.5 billion Indians, stating that only individuals have the right to define their own paths.

Speaking at the "Hara Bharat Swaraj: A Tribute to Rajiv Gandhi's Vision" programme in the national capital, Gandhi contrasted the RSS's philosophy with Mahatma Gandhi's concept of "Swaraj" (self-rule).

"What Gandhiji was saying was that every living being is a unique entity with their own path towards the truth. I cannot tell you what your truth is. Today, the ideological battle in India is precisely that. It is not fundamentally about environment, politics, or free media--those are symptoms. The real fight is that a small group of people have decided, because they control the system, that

they know the truth of everyone in this country. That is my problem with the RSS: the RSS has decided that they know the truth of 1.5 billion people. And I say, no. Only 1.5 billion people can know their own truth," Rahul Gandhi asserted.

"And I say, no. Only 1.5 billion people can know their own truth. Even I cannot do that. If I begin to believe that I know your truth, I would be a madman. Because I am not you. I haven't faced what you've faced; I haven't seen what you've seen; I haven't dealt with what you've dealt with. I don't have the same parents, the same friends, or the same life. So how can I

say that I know your truth?" he added.

Noting how Mahatma Gandhi's autobiography was titled 'My Experiments with Truth', and not 'The Truth', he further said, "Please notice, Gandhiji's book was not called 'The Truth' or 'My Understanding of the Truth'. It was titled 'My Experiments with Truth'. I have experiments with my truth; you have experiments with your truth."

Rahul Gandhi further accused the BJP and RSS of creating a sense of exclusion among various communities, stating that such actions are harming "Bharat Mata." (ANI)

Ministers' dogs get better facilities: Dipke on govt schools

LATUR: Cockroach Janta Party (CJP) convener Abhijeet Dipke on Thursday said Maharashtra School Education Minister Dada Bhuse should resign, claiming government schools are in a pitiable condition and that even "ministers' dogs get better facilities" than students.

Dipke, whose group launched the 'School Thik Karo' (improve government schools) campaign last week, visited a Zilla Parishad school at Ujani village in Latu's Ausa tehsil. Later, talking to reporters, he said elected representatives and ministers must be held accountable for the condition of schools, many of which continue to lack basic facilities such as proper classrooms, benches, toilets and safe access roads.

Students in some schools

were being treated "worse than animals," he alleged.

"It is a question of students' lives. When political leaders are not doing anything for students, why should people vote for them? Do people vote for them so that they can only travel in helicopters? People should see in what conditions their children are studying. The dogs of these ministers get better facilities than this," he said.

Dipke also asked people to force the leaders of political parties to work for education first and then come to seek votes.

China destroys residential quarters of monks in Tibet

Serta (Tibet) : China has intensified security restrictions at Larung Gar in Serta, with large numbers of troops deployed inside the religious encampment as authorities continue demolishing residential quarters used by monks, nuns and lay practitioners, Tibet Times reported.

According to Tibet Times, access to Larung Gar has been sharply restricted since the demolition drive began, with a checkpoint on the main access road allowing only a limited number of local residents and tourists to enter under strict supervision. Visitors are reportedly required to use public transport arranged through the checkpoint and are prevented from moving freely around the encampment.

A source cited by Tibet Times said tourists and pilgrims travelling from within

Tibet and other parts of China are now being barred from entering the settlement. Those permitted to enter are confined to designated areas, while troops and security personnel monitor the movements of visitors, residents, and monastics.

The report further said drone photography and filming, previously permitted for those holding authorisation, have been prohibited since the demolitions began last month. Military personnel and plainclothes officers have

Ganga nears danger mark in Varanasi, boat services suspended

VARANASI: The water level of the Ganga river has been rising steadily in Varanasi, prompting the administration to suspend boat operations as a precautionary measure, officials said on Thursday. ACP Atul Anjan Tripathi said the water level of the river stood at 68.35 metres on Thursday and was steadily moving towards the danger mark of 71.26 metres.

"Lakhs of devotees are visiting Varanasi during the month of Sawan. Keeping their safety in mind, boat operations have been suspended as a precautionary measure," Tripathi said.

He said a decision on resuming boat operations would be taken once the water level and the flow of the river return to normal.

RTOs quiz taxi, auto drivers in Marathi, notices sent

MUMBAI: Taxi and autorickshaw drivers in Maharashtra are being put through a 16-question test after the transport department launched a statewide drive on Thursday to check their working knowledge of Marathi.

Teams from Regional Transport Offices (RTOs) are issuing one-month notices to those unable to answer satisfactorily and warning that their badges would be suspended if they fail a subsequent test, officials said. "Mala CNG bharayche aahe. Thode thambave lage!" (I need to fill up with CNG, we'll have to stop for a while); "majhi rickshaw/taxi sharingchi aahe" (my auto/taxi is a shared one); and "meter chalu kele aahe" (have started the meter) are among the routine responses that officials expect from the drivers.

The exercise, announced by

Maharashtra Transport Minister Pratap Sarnaik on Wednesday, is being conducted as part of the state government's move to make working knowledge of Marathi mandatory for drivers of taxis, autorickshaws and app-based cabs.

A senior RTO official said a 16-question questionnaire was received from the Transport Commissioner's office and was based on the Marathi language training imparted to taxi and autorickshaw drivers by the Konkani Sahitya Parishad, which ended on Independence Day. (PTI)

Domicile row

MP HC ends women's 13-yr wait for MBBS degree

JABALPUR: Thirteen years after a woman completed her MBBS, the Madhya Pradesh High Court has cleared the way for her to obtain her degree and pursue medical practice, stalled after her admission was cancelled over a domicile issue.

Treating the petition as a special case, a division bench of Acting Chief Justice Vivek Rana and Justice Pradeep Mittal on Wednesday set aside the June 13, 2013 order cancelling Shailja Pandey's admission and directed Rani Durgavati University, Jabalpur, to issue her marksheet and degree.

Pandey had fairly disclosed all facts about her residence in Madhya Pradesh, the court observed, adding that action could have been taken at the time of her admission rather than after she completed her studies.

"On the basis of this degree, the petitioner will be

entitled to practice in the medical field, but the fact remains that she completed her studies in the year 2013, and now more than 13 years have passed," the court said in its order.

Pandey could not practice during this period because she did not have her degree or registration with the medical regulator, the HC noted.

In her petition, Pandey said the college raised the objection over her domicile midway through the MBBS course, although she had secured admission after furnishing a domicile certificate issued by the competent authority.

Council passes 10 Bills amid YSRCP uproar

- Oppn seeks debate on Mega DSC, sports quota
- Chairman adjourns House twice as YSRCP members stage protest
- Bills on municipal laws, higher education and ease of doing business cleared

HANS NEWS SERVICE
VIJAYAWADA

AMID an uproar and protest by the Opposition YSRCP, the Andhra Pradesh Legislative Council on Thursday passed 10 key Bills, including amendments to municipal laws, higher education regulations and measures aimed at promoting ease of doing business.

The Bills, which had already been passed by the Assembly, were taken up by the Council on the last day of its monsoon session and were passed unanimously without opposition. As many

as 10 Ministers attended the Council proceedings on the final day of the session.

The proceedings began at 10 am on a stormy note, with YSRCP members led by Leader of the Opposition Botcha Satyanarayana entering the House wearing scarves around their necks. YSRCP members Varudu Kalyani, Ramesh Yadav and Isak Basha submitted an adjournment motion seeking a discussion on the Mega DSC-2025 issue and implementation of the sports quota. Council Chairman Koyye Moshen Raju rejected the motion.

The Opposition members rushed into the well and

raised slogans demanding a discussion on the Mega DSC issue and the resignation of Education Minister Nara Lokesh. They later moved towards the podium and continued their protest.

Despite the pandemonium, the Chairman continued the Question Hour and other listed business. Ministers replied to five questions raised by members, while papers received from the Legislative Assembly were also laid before the House.

As the protests continued, the Chairman adjourned the House for 10 minutes at 10.21 am. When it reconvened at 11.45 am, YSRCP members resumed their agi-

tation.

Meanwhile, the Chairman administered the oath to the newly nominated MLC under the Governor's quota, Vadde Dalavayi Rama Devi. With the Opposition continuing its protest, the Chairman adjourned the House for a second time at 11.50 am.

Even after the House was adjourned, the YSRCP members continued their agitation by sitting on the floor of the well, demanding a discussion on Mega DSC-2025, implementation of the sports quota and the resignation of Education Minister Nara Lokesh.

The Council resumed at 12.44 pm, after which the Chairman asked Ministers to introduce the 10 Bills passed by the Assembly. The Council passed the Andhra Pradesh Municipal Laws (Fourth Amendment) Bill, 2026 and the Andhra Pradesh Municipal Laws (Third Amendment) Bill, 2026, introduced by Municipal Administration and Urban Development Minister P Narayana. It also passed the Andhra Pradesh Public

Libraries (Amendment) Bill, 2026, the Andhra Pradesh Higher Education Regulatory and Monitoring Commission (Amendment) Bill, 2026, the Andhra Pradesh Private Universities (Establishment and Regulation) (Amendment) Bill, 2026, the Andhra Pradesh State Educational Institutions (Reservation in Teachers' Cadre) (Amendment) Bill, 2026, and the Andhra Pradesh Skills Universities (Establishment and Regulation) Bill, 2026, introduced by HRD minister Nara Lokesh.

The Council further passed the Andhra Pradesh Omnibus (Speed of Doing Business) Bill, 2026, introduced by Law and Justice and Minority Welfare Minister NMD Farooq.

The other two Bills were the Andhra Pradesh Transplantation of Human Organs (Amendment) Bill, 2026 and the Andhra Pradesh Payment of Salaries and Pension and Removal of Disqualifications (Amendment) Bill, 2026. After completing the listed business, Chairman Koyye Moshen Raju adjourned the Council sine die.

Health centres' buildings on fast-track, says Satya Kumar

- Only 57 doctor posts vacant in PHCs; 1,143 centres already in own buildings
- 4,500 village health centre buildings under construction; 41 tests offered through Sanjeevani Digital Health

HANS NEWS SERVICE
AMARAVATI

ANDHRA Pradesh is accelerating construction of dedicated buildings for Primary Health Centres (PHCs), Urban PHCs and Village Health Clinics to strengthen primary healthcare, health minister Y Satya Kumar Yadav told the Assembly on Thursday.

He said 1,143 of the state's 1,231 PHCs are already functioning from their own buildings. Of 88 newly sanctioned buildings, 13 have been completed. Of 140 dilapidated PHCs identified for replacement, 118 have been rebuilt and 22 are under construction. Another 948 PHC infrastructure projects have been completed, while 100 more buildings are proposed with 15th Finance Commission funds.

Of 43 buildings being constructed through the Roads and Buildings Department, 14 are complete and 29 are under construction. Another 57 are at the tender stage.

The minister said more than 600 appointments had been made in PHCs over the past two years. Only 57 doctor posts remain vacant, and these would be filled soon.

Of the 560 Urban Primary Health Centres, 175 are functioning from government buildings. The government has sanctioned buildings for the remaining 385 centres. Of these,

327 have been completed and handed over, while 55 are under construction. Three cases are pending in court. With this, 502 UPHCs have dedicated buildings, while 55 continue to function from rented premises.

Satya Kumar said the previous government had built only 3,105 dedicated buildings for Village Health Clinics, Ayushman Arogya Mandirs and Health and Wellness Centres under schemes including the 15th Finance Commission, NHM and PM-ABHIM.

Since the coalition government took office, construction of more than 4,500 buildings has been taken up with Central support. The Panchayat Raj Department is executing the works. He said Community Health Officers would also be recruited wherever required.

The minister said the government had launched Sanjeevani Digital Health to provide patient-centric services. The platform will facilitate 41 types of tests at patients' doorsteps, along with health profiling, follow-up care, appointments, medicines and digital health records.

URBAN INFRA UPGRADE GETS Rs 7,469 cr BOOST

HANS NEWS SERVICE
AMARAVATI

THE state government has sanctioned Rs 7,469.46 crore for an urban infrastructure programme covering roads, drainage, parks, street lighting and central medians across the state's 123 Urban Local Bodies (ULBs).

The sanction includes Rs 5,500 crore for capital works and Rs 1,969.46 crore towards interest over 10 years under the Hybrid Annuity Model (HAM). The latest programme is aimed primarily at closing the state's remaining 4,388-km urban road gap.

The road works will be taken up along with drainage and other civic infrastructure rather than as standalone projects.

The government said the wider urban infrastructure pipeline now stands at about Rs 40,743.67 crore across 123 ULBs. Of this, 514 projects worth Rs 15,274.21 crore are under implementation through

- Rs 5,500 cr earmarked for roads, drainage, parks, streetlights and medians across 123 ULBs
- Programme targets the remaining 4,388-km urban road gap through integrated civic works

AMRUT 2.0, AIIB and UIDF, while another Rs 25,469.46 crore is being taken up through UIDF, the Urban Challenge Fund and HAM.

The programme excludes nearly Rs 80,000 crore of infrastructure projects under implementation in the CRDA region, officials said.

Of the Rs 5,500 crore capital component, Rs 4,655.82 crore will go towards roads with drains, Rs 509.12 crore for parks, Rs 247.28 crore for street lighting and Rs 87.78 crore for central medians.

The state has assessed its urban road network at 25,626 km. Of this, 21,238

km, or 82.9 per cent, has already been improved, leaving 4,388 km for the latest intervention. Detailed project reports cover 4,388 km of roads, 541 parks, 20,340 street-lighting points and 1,186.56 km of central medians.

Under the financing model, Rs 2,200 crore will be provided upfront through LRS/BPS funds, while the concessionaire will finance Rs 3,300 crore. The latter will be repaid over 10 years in 40 quarterly instalments through an escrow mechanism linked to identified urban revenues. The concessionaire will also maintain the assets for 10 years.

The government has prepared Gap Assessment Reports and Infrastructure Investment Plans for all 123 ULBs, identifying requirements up to 2029. The assessment found gaps of 724 MLD in water-treatment capacity, 9,608 km in water-distribution networks, 1,443 MLD in

sewage treatment, 19,081 km in underground drainage, 23,612 km in storm-water drainage and 4,388 km in roads.

Minister P Narayana said the government was moving away from piecemeal works towards integrated urban planning. "Roads cannot be planned separately from drainage, drinking water, sanitation, lighting and public spaces," he said.

Principal secretary S Suresh Kumar said the urban programme also includes a major push on greenery and sanitation. Officials said 58 new parks have been developed and 110 existing parks refurbished, with another 45 under development. About 4.43 lakh saplings have been planted along

2,165 km of urban roads under the Harithandhra programme.

The government is also expanding scientific waste processing. Work orders have been issued for 108 integrated solid-waste facilities with a combined capacity of 5,385 tonnes a day.

Eight facilities were inaugurated in July, with 66 targeted to become operational by October. Four Waste-to-Energy projects are under implementation at Kakinada, Kadapa, Kurnool and Nellore. Six Compressed Bio-Gas plants are also being developed. Officials said 143 lakh metric tonnes of legacy waste has been cleared against an estimated 157 lakh tonnes.

Kapu Corpn benefits 51.56 lakh in two years

- BC and EWS welfare Minister Savitha informs Council that alliance govt spent Rs 11,285.72 cr on Kapu welfare in two years
- Over 21.37 lakh people benefited from schemes in 2026-27 so far

HANS NEWS SERVICE
AMARAVATI

THE alliance government has benefited 51,56,172 people through various schemes of the Kapu Corporation, spending Rs 11,285.72 crore during its first two years in office, BC, EWS welfare, handlooms and textiles minister S Savitha said. The minister gave this information in the Legislative Council on Thursday in response to a question raised by MLC Thota Trimurthulu on the funds allocated to the Kapu

Corporation and the number of beneficiaries since the alliance government came to power.

Savitha said a chairperson had been appointed to the Kapu Corporation and funds were being allocated every year for the development of the Kapu community. She also detailed the expenditure under different budgets.

In 2024-25, the govern-

ment allocated Rs 4,646.99 crore and spent Rs 4,440.25 crore, benefiting 9,55,144 people. In 2025-26, Rs 4,924.28 crore was allocated, of which Rs 4,360.28 crore was spent, benefiting 20,63,907 people. For 2026-27, Rs 5,012.10 crore was allocated. So far, Rs 2,485.19 crore has been spent, benefiting 21,37,121 people, the minister said.

Pawan signals bigger Jana Sena share in local polls

- Party cadre seek larger political space after 2024 alliance sacrifices
- Seat-sharing proposals to be discussed with TDP and BJP

HANS NEWS SERVICE
AMARAVATI

JANA Sena Party (JSP) chief and Deputy Chief Minister Pawan Kalyan has signalled that his party will seek a significantly larger share of seats in the forthcoming urban local body elections, responding to growing demands from the cadre for greater political space within the NDA alliance. At a meeting of the Jana Sena legislative wing on Assembly premises on Thursday, Pawan Kalyan discussed the party's performance during the recent Assembly session before turning to preparations for the municipal and municipal corporation elections.

Party MLAs and MLCs conveyed the strong sentiment among Jana Sainiks that the party should contest substantially more seats this time. During the 2024 elections, Jana Sena contested only 21

Jana Sena Party president Pawan Kalyan chairs a meeting of party legislators at Assembly on Thursday

Assembly and two Lok Sabha seats as part of the NDA alliance, making what Pawan has repeatedly described as strategic sacrifices to defeat the then YSRCP government. The cadre now want that contribution to be reflected in the distribution of local body seats. Pawan acknowledged the sentiments of the party workers and indicated that Jana Sena would prepare an action plan to field candidates in a significant number of seats. He said the party would move forward while preserving the self-respect and fighting spirit of its cadre. Pawan later shared the details of the meeting on X, saying the party was preparing to contest a larger number of seats. The exact number or

percentage of seats Jana Sena will seek has not yet been finalised. Preliminary discussions on the party's demands were held during the legislative wing meeting. The final allocation will be decided only after consultations with the NDA alliance partners. Jana Sena will now formulate its proposals for negotiations with the BJP and TDP. Chief Minister N Chandrababu Naidu, BJP State president PVN Madhav and Pawan Kalyan are expected to hold discussions soon to finalise the seat-sharing formula. The local body elections are set to provide the first major test of the NDA's internal seat-sharing balance after the alliance came to power in the State.

Jagan dares Naidu to order CBI probe into DSC, Group-I exams

- Says he is ready for Group-I scrutiny if government agrees to probe DSC 2025
- Alleges DSC question-paper leak, sports-quota manipulation; seeks Lokesh's resignation

HANS NEWS SERVICE
AMARAVATI

YSRCP president Y S Jagan Mohan Reddy on Thursday challenged Chief Minister N Chandrababu Naidu to order a CBI inquiry into both the alleged irregularities in DSC-2025 and the APPSC Group-I examinations, turning the recruitment controversy into a direct political confrontation.

Addressing the media at party central office, Jagan said YSRCP was prepared to face a probe into the Group-I examinations but asked whether the Chandrababu Naidu government was equally willing to subject the DSC-2025 recruitment process to a CBI investigation.

He rejected the allegations against the APPSC Group-I examination conducted during the previous government, saying the 2018 recruitment process was conducted transparently and in accordance with court directions.

Jagan alleged that the DSC-2025 process was questionable from question-paper setting to recruitment. He claimed the same institution was entrusted with setting and conducting the examination, creating scope for leakage and manipulation. He cited the case of outsourcing employee Naveen, alleging that he gained access to the question paper and topped the merit list. Jagan said Naveen's name was subsequently removed from the second merit list, after which he approached the court. Jagan also alleged irregularities in recruitment under the sports quota. He claimed the government issued two G.O.s exempting job aspirants from taking the DSC examination, followed by two more G.O.s withdraw-

YSRCP president Y S Jagan Mohan Reddy speaking to the media at party central office in Tadepalli on Thursday

ing those concessions after the favoured candidates had been accommodated.

According to Jagan, 372 people were recruited under the process. He questioned the government's defence that the same benefit extended to others because badminton player P V Sindhu had been given a government job.

He claimed none of the 372 recruits had participated in international tournaments, while an archer who won a gold medal at the

National Games was denied a job. Jagan also referred to audio recordings that allegedly circulated in connection with job trading and questioned why no action had been taken. "This is why DSC needs a CBI probe and the Education Minister should resign," he said.

Jagan accused the NDA coalition government of raising the Group-I issue to divert attention from the alleged DSC irregularities and "save" Education Minister Nara Lokesh. He said

the preliminary Group-I examination was conducted when Chandrababu Naidu was Chief Minister, while the YSRCP government conducted the final examination for candidates who had cleared the preliminary stage. Jagan said the allegations had put the future of 163 candidates selected for senior government positions at risk. He defended the evaluation process, saying digital evaluation was initially planned because of the Covid situation but was switched to manual evaluation following court directions. According to Jagan, the answer scripts were evaluated under CCTV surveillance at APPSC offices and educational institutions. He said the papers were shuffled and bar-coded, preventing evaluators from identifying candidates.

The YSRCP chief demanded that the proposed CBI inquiry be expanded to cover both the Group-I examinations and DSC-2025, saying an independent investigation was necessary to establish the facts.

Viswanath & Sons: Venky Atluri speaks about Suriya's belief and movie's Rs 150 cr success

Viswanath & Sons, the family entertainer starring Tamil hero Suriya and Mamitha Baiju, saw a spectacular opening after its release on August 14, 2026. The film directed by Venky Atluri has earned over Rs. 150 crore at the worldwide box office in four days. It has seen great response from the audience for its humor, sentiment, and family-centric theme.

doing a family entertainer at this stage in his career, said Atluri. Plus, he pushed the team to keep the narration straightforward and avoid commercialism.

The Tholiprema director stated that his idea for this project, which was conceived in 2022, was to create a film about a man turning 40 without getting married. He also noted that the film's purpose is to explain why the protagonist behaves the way he does rather than cast him as a villain.

Furthermore, Venky Atluri stated that constructing a big house set for the film was challenging. He added that it had to be something extraordinary, and he complimented production designer Banglan and cinematographer Nimesh for their excellent work on the film.

Moreover, Atluri stated that Trivikram Srinivas saw the film and enjoyed it. He further stated that the filmmaker suggested no changes to the project after seeing it, and it was

surprising because Trivikram and Mani Ratnam were Atluri's boyhood heroes. In addition to Suriya, Venky Atluri signed Mamitha Baiju after seeing the actress in Premalu. Atluri revealed watching her perform comedy in Tamil was a treat for him. Her Tamil skills and great sense of humor made him decide to cast her in the film. In addition, it is reported that "Viswanath & Sons" have been produced by Suryadevara Naga Vamsi and Sai Soujanya under Srikara Studios banner in association with Sithara Entertainments and Fortune Four Cinemas.

Audience of every age group will enjoy 'Rambha Urvashi Menaka': Director Chandra Mohan Chintada

Allari Naresh's much anticipated comedy entertainer, Rambha Urvashi Menaka, is all set to hit the screens this September 4 globally. The director, Chandra Mohan Chintada, said that the movie is the total entertainment package for all age groups.

Reportedly, the film, which has released its first lookers including teaser and song Naa Kanti Maa Kanule, is produced by Rajesh Danda along with Nimmakayala Prasad banner under Annapurna Studios and Hasya Movies. While talking about the movie, the director said, "Rambha Urvashi Menaka is an interesting story of an aspiring hero who wishes to establish himself in his village and stumbles upon a mysterious book belonging to Rambha, Urvashi and Menaka and lands up in a hilarious fantasy world. The film has Allari Naresh's comedy and has a massive 25 minutes embedded as a surprise episode. But there is no vulgarity and adult humor in it," he added. Moreover, Chandra Mohan stated that the movie is a total family entertainer. The film also stars Vennela Kishore, Senior Naresh and Srinivas Reddy apart from the heroines Surabhi, Raashi Singh, Prisha and Vishnupriya. With 35 minutes of CG, the massive fantasy comedy is said to be a treat for the audiences as they would witness Allari Naresh's comic talent in full swing. The music is composed by Chetan Bharadwaj, and the makers are confident that the film will see Allari Naresh coming back in full-fledged entertaining avatar.

'Manasa Vacha' from 'EPIC' is a soulful melody

The makers of the upcoming youth romance entertainer EPIC - FIRST SEMESTER have released the third single from the film titled Manasa Vacha, a beautiful soulful melody that delves deep into the emotions of love, longing and relationships.

Rendered in a melodious voice by legendary singers KS Chithra & SP Charan, the song is composed by Hesham Abdul Wahab while Sri Harsha Emani has penned down the beautiful lyrics that reflect the emotions of the lead pair played by Anand Deverakonda and Vaishnavi Chaitanya.

The beautiful pictorial narration of the song revolves around the emotions of the lead pair while also reflecting the onscreen relationship between them. The composition by Hesham Abdul Wahab along with the enchanting voices of KS Chithra and S. P. Charan create a unique soulful blend.

EPIC - FIRST SEMESTER, a youthful romance entertainer, directed by Aditya Haasan and produced by Suryadevara Naga Vamsi, Sai Soujanya, under Sithara Entertainments, Fortune Four Cinemas presents Srikara Studios.

With a beautiful romantic theme, the film has been creating waves with the audience and we expect that the latest single Manasa Vacha will contribute to it. The makers are rolling out the promotions for the film in gradual manner which will eventually reach its peak on the release day.

EPIC - FIRST SEMESTER slated to release globally on September 11, 2026.

similarity with Kerala. She has a particular fondness for the song "Yalo Yalo".

With Ravi Teja, Priya Bhavani Shankar and baby star Nakshatra at the helm of the emotional family drama, Irumudi promises to deliver a compelling tale of family, action and drama.

'Irumudi' baby star Nakshatra shares her excitement over playing Ravi Teja's daughter

Baby Nakshatra makes her Telugu debut with the much-anticipated Irumudi. The young girl has expressed her delight to play the daughter of Mass Maharaja Ravi Teja in Shiva Nirvana's directorial venture and she is confident that the audience will connect to this emotional family entertainer.

Starring Ravi Teja in a lead role, the film also marks the debut of Priya Bhavani Shankar in Telugu cinema. This family genre movie produced by Mythri Movie Makers is all set to release on August 21 st.

Speaking about her role in the film, Nakshatra said, "I play the daughter of Ravi Teja in the film while Priya Bhavani Shankar plays my mother. Both Ravi Teja and Priya were extremely supportive and helped me a lot during the shoot. Interestingly, I have dubbed my own songs for the movie."

The thirteen years old actress who was from Kerala, has starred in 6 films in kannada, Malayalam and Tamil and studied 7th standard said that she got signed by the director Shiva Nirvana who saw her Instagram reel. She also added that working with legend Ravi Teja was an incredible experience and Vikramarkudu is his favorite film. Nakshatra thanked the parents and teachers for encouraging her and made her pursue studies and acting career.

Nakshatra also said that shooting in sileru, which is the shooting location of Irumudi was nostalgic for her as it had

'Killer/KillR' release date creates buzz

The makers of the sci-fi thriller Killer/KillR have announced October 17 as the worldwide theatrical release date of the film which will witness the grand opening on the auspicious occasion of Vijayadashami. Starring Jyothi Poorvaj, Poorvaaj in lead roles, the movie has been creating a lot of speculations in the media and social circles with some interesting glimpses.

Presented by Urveesh Poorvaj, with blessings of Dhyanam Nannagaru, this Poorvaaj directorial venture produced by Poorvaaj and Padmanabha Reddy A. under Think Cinema and AU & I Studios banners is all set for its release soon. The film features Manish Gilada, Chandrakanth Kollu, Vishal Raj, Archana Ananth and Gautham Chakradhar Koppishetti in pivotal roles. The latest released glimpse of Killer/KillR on the occasion of Vijayadashami hints at Dr. Poorvaaj, the greatest genius scientist of India to whom an alien from the different dimension communicates on the day of the film's release informing him about sending a space-ship to save the mankind.

With the line "Our future is that alien's past", the glimpse leaves lot of questions about the movie's story-line regarding what is actually coming for humans to be saved

and what exactly the alien has up his sleeve for them. As it wraps up, the intriguing statement of "On October 17, we will decide your destiny" leaves the audience wanting more of the film.

Apart from the theatrical release, Killer/KillR is also gearing up for an overseas release with OMG Pictures entertaining the international distribution rights to this sci-fi thriller across US, Europe, Canada, Arab, Malaysia, New Zealand and Russia.

'Kingdom' fame Venkatesh VP turns hero with Ruudransh Celluloids new film

Following the blockbuster success of K-Ramp, Ruudransh Celluloids is all set to release their third production, with working title D.G.P., starring Kingdom fame Venkatesh V.P. The movie will be produced by successful producer Bommak Shiva and directed by Suresh Tej under the guidance of Dheeraj Nyathi.

The makers celebrated the actor's birthday by announcing big news regarding the film as they shared hilarious video with the caption "Meet the hero

of our project".

In the video, producer bomaak shiva and director sushreth tej approach the actor at his restaurant in Thiruvananthapuram while he is busy taking orders. When the producer asks him to join their film, the

actor is surprised to hear that they wanted him for a villain's role but as they proceed to inform him that they actually want him to play the lead, the actor's confusion turns out to be amusement.

The actor is thrilled to

know that he is offered the lead role and gets more excited as he listens to the plot of the film. The announcement video manages to capture all these developments in the form of a funny video, giving a sneak peek into the project's trailer. Venkatesh VP is a well-known face in the malayalam television and film industry. He had gained immense popularity for his role as Murugan in Vijay Deverakonda starrer Kingdom. Additionally, the actor is also the co-founder of a restaurant start-up called Suda Suda Idly.

'Ameer Log' team looks confident ahead of release

The team of Ameer Log has been riding high on the waves of positivity after the film's premieres. The Telugu film, marking Madhavi Reddy Soma's first production venture under Awwal Number Production, is all set for a grand release on August 21 via Rana Daggubati's Spirit Media. Directed by Ramana Reddy Soma, the film stars MC Hari, Manoj and Sashidhar along with Vedha Jalandhar, Ravan Nittoor, Vishwender Reddy and Sai Yogi. At the event, the cast and crew expressed their confidence that the "Telangana-ness", sentiment and unique presentation of the film would strike a chord

with the viewers.

They said that positive response to the film's premieres has emboldened them in their belief. Ramana Reddy Soma said that Ameer Log was a "unique exercise" and that the film captured the spirit of Hyderabad. MC Hari lauded the work put in by technicians, specially

editor Rohith and music director Snaran while Manoj felt that the movie encapsulated the spirit and culture of Telangana. Vedha Jalandhar said that the film had innocence, simplicity and emotions.

Manohar Reddy and Sai Yogi also spoke about the overwhelming response

that the film has been getting post premieres in the neighbouring states of Andhra Pradesh and Telangana. With the word of mouth for the film being very positive, makers of Ameer Log are expecting similar kind of positive reaction from the audience on August 21.
