Gehlot honours 2026 Padma recipients

BENGALURU: The Governor of Karnataka Thaaarchand Gehlot felicitated and congratulated the Padma Awardees of 2026 at Lok Bhavan. Congratulating the distinguished recipients of the Padma Awards, among the country's highest civilian honours, he said their exceptional service and achievements in various fields would continue to inspire society and future generations. From Karnataka, Shatavadhani Dr. R. Ganesh was conferred the Padma Bhushan, Padma Shri was conferred on Ankegowda M, Dr. S G Susheelamma, Dr. Prabhakar Kore, Shashi Shekhar Vempati, Dr. Shubha Venkatesha Iyengar, Dr. Suresh Hanagavadi and Late T T Jagannathan. The Governor felicitated the awardees who were present and Latha Jagannath, wife of Late T T Jagannathan, who received the honour on his behalf. Karnataka Legislative Assembly Speaker G S Patil, Legislative Council Chairman Salim Ahmed and other dignitaries were also present.

NEW DELHI

INDIA will seek to put the concerns of the Global South at the heart of the two-day BRICS summit beginning Saturday, with food and energy security, resilient supply chains and inclusive

economic growth taking centre stage amid mounting global trade and geopolitical tensions.

The summit will bring together leaders of major emerging economies. Russian President Vladimir

Putin, Iranian President Masoud Pezeshkian, South African President Cyril Ramaphosa and Indonesian President Prabowo Subianto are also among the leaders expected to attend. Officials said India views

BRICS as a complementary platform for economic growth and greater cooperation among developing economies at a time when the global economy is facing pressures from the Russia-Ukraine war, the West Asia crisis, disruption around the Strait of Hormuz and US trade and tariff policies.

India's BRICS chairship is built around four pillars — resilience, innovation, cooperation and sustainability — with a focus on health, agriculture, food, energy, disaster-risk reduction and supply chains. Trade, investment, connectivity and high technology will also figure

prominently.

However, uncertainty remains over a consensus-based joint statement amid differences between Iran and the UAE over the West Asia crisis. BRICS now comprises 11 emerging economies and accounts for about 49.5 per cent of the world's population, 40 per cent of global GDP and 26 per cent of global trade. Several other countries have joined as BRICS partners.

India assumed its fourth BRICS chairship on January 1, 2026. More than 350 meetings and high-level engagements have since been held across over 25 Indian cities.

Xi to visit India for BRICS summit

BEIJING: Chinese President Xi Jinping will visit India this week to attend the 18th BRICS Summit in New Delhi, the foreign ministry announced on Thursday. This will be Xi's first visit to India in nearly seven years. During his visit, Xi is expected to meet Prime Minister Modi on the sidelines of the summit. The visit is expected to be a high-profile diplomatic engagement with implications for the ongoing efforts to stabilise bilateral ties between the two Asian powers as well as for BRICS cooperation amid a volatile global situation, particularly the West Asia conflict and the Russia-Ukraine war.

Magistrate suspended over Rs 5L notice to CJP protester

HANS NEWS SERVICE
NOIDA

THE Greater Noida executive magistrate who issued a notice requiring 20-year-old student Akshat Tripathi to furnish a personal bond of Rs 5 lakh over his participation in the Jantar Mantar paper leak protest has been suspended with immediate effect, Solicitor General of India Tushar Mehta told the Supreme Court on Thursday.

Tripathi, a second-year BA LLB student and secretary of the Students' Federation of India (SFI) unit at Gautam Buddha University in Noida, had challenged the executive magistrate's notice.

The notice, based on a report by a police sub-inspector, accused Tripathi of spreading "anti-government misleading talks" among the students and encouraging them to join the Cockroach Janta Party (CJP) protest.

The writ petition, filed through advocate-on-record Subhash Chandran KR, said the notice invoked Section 126 of the BNSS, which allows an executive magistrate to seek security for maintaining peace when there is information that a person is likely to cause a breach of peace or disturb public tranquillity.

Tripathi's petition said the notice cited no specific date, statement or act of violence attributable to him, or disclosed material supporting the allegations.

Drug tests mandatory for pilots across all airlines

HANS NEWS SERVICE
NEW DELHI

AVIATION watchdog DGCA has ordered drug tests for pilots across all airlines and the exercise is to be completed by July 2027.

Separately, Civil Aviation Minister K Ram Mohan Naidu on Thursday said the Directorate General of Civil Aviation (DGCA) is expected to finalise the draft on the new norms for drug tests of pilots by the end of this month.

The moves come against the backdrop of the pilot-in-command of an Air India Phuket-Delhi flight, which suddenly lost nearly 300 feet altitude leaving many passengers injured on August 4, testing positive for drug use.

On September 4, Air India terminated the services of the pilot-in-command, hours after probe agency AAI's preliminary report into the Phuket flight incident said the drug use by the pilot was a serious concern

and asked regulator DGCA to take appropriate action.

The sources on Thursday said DGCA ordered drug testing for pilots across all airlines last month and that the carriers have been asked to complete the exercise by July next year.

Naidu, on the sidelines of a conference in the na-

The moves come against the backdrop of the pilot-in-command of an Air India Phuket-Delhi flight, which suddenly lost nearly 300 feet in altitude, injuring many passengers on August 4, testing positive for drug use

tional capital on Thursday, said draft of the revised Civil Aviation Requirements (CAR) regarding testing of pilots for psychoactive substances is expected to be finalised by the end of this month after stakeholders' discussions.

Currently, drug tests for pilots are done on a random

basis. Under DGCA's present Civil Aviation Requirements (CAR), random tests for psychoactive substances have to be done for 10 per cent of pilots and air traffic controllers, among others, annually.

There are more than 12,000 pilots with various commercial airlines.

US racist 'Mr Singh' ad draws fire

Texas: A US Department of Homeland Security (DHS) advertisement asking "Mr Singh" to self-deport has sparked a controversy, with advocacy groups condemning it as "racist", "anti-American" and discriminatory. As part of its campaign against unlicensed commercial drivers, the DHS posted AI-generated imagery on X showing a brown-bearded man with the message: "Get off our roads, you don't know how to drive Mr Singh." A related video used characters from the Transformers franchise. Megatron is shown negotiating the release of "aliens" — a term used by the US administration for foreign nationals — including truck drivers linked to road accidents and other offences.

Modi: India for safe, sustainable space

HANS NEWS SERVICE
NEW DELHI

PRIME Minister Narendra Modi on Thursday said India supports a safe, secure, and sustainable space domain anchored in international law, underlining that scientific data must serve the common good with openness and integrity.

Modi also said that ISRO's technologies and partnerships serve not only India, but the wider world.

The prime minister said for centuries, space inspired people's imagination and now, it shapes life on earth, from climate and crops to oceans and communities. "The promise of space is

infinite. Our responsibility is collective. As orbits become more crowded, technologies more powerful, and actors more numerous, our choices must be clear: cooperation over confrontation; sustainability over short-term gain; and inclusion over exclusion," he said. Modi said India's approach is rooted in

'Vasudhaiva Kutumbakam' -- 'One Earth, One Family, One Future', and this spirit must now travel beyond the planet.

"We support a safe, secure, peaceful and sustainable space domain anchored in international law, dialogue and multilateral cooperation. Scientific data must serve the common good, with openness and integrity," he said.

The prime minister said India's space journey reflects this philosophy and the Indian Space Research Organisation (ISRO), which stands at the heart of this journey, has earned global admiration for its excellence and cost-effective missions.

Wildlife Board member pays Rs 3 L under animal adoption scheme

MYSURU: Sri Chamara-jendra Zoological Gardens, Mysuru, announced on that Vaishali Vinay Kulkarni, Member of Wild Life Board, Bengaluru, has adopted an Asiatic Elephant at Mysuru Zoo under the "Adoption of Animals" scheme after paying the adoption fee of Rs. 3,00,000. The adoption covers the period from 8 September 8 to 7 September 7, 2027. Mysuru Zoo appreciated her gesture and involvement for the cause of wildlife conservation. The details were shared by the Executive Director, Sri Chamara-jendra Zoological Gardens, Mysuru.

20 dead after cargo ship catches fire in China

BEIJING: At least 20 people were killed and five were missing after a cargo ship caught fire while docked in a Chinese port, Chinese state media reported Thursday.

Nilekani, Kamath brothers also flagged in SIR notice list

BENGALURU

INFOSYS co-founder Nandan Nilekani and his family, along with Zerodha founders Nithin Kamath and Nikhil Kamath, are among the prominent names on the notice list for the ongoing SIR of electoral rolls in Karnataka, official sources said.

While Nilekani's family, including his wife and children, has been flagged as "unmapped with last Special

Intensive Revision (2002 rolls)", Nithin Kamath, Nikhil Kamath and their mother Revathi Kamath have reportedly been flagged for a "parents' name mismatch" in the Bengaluru South Assembly constituency.

Authorities said prominent persons and VIPs would not be inconvenienced by the verification process and that officials would visit them to complete the required formalities. Although notices

were generated in several such cases, authorities have not served them on the individuals concerned.

Similarly, notices generated for Bharat Ratna recipient Professor C N R Rao over a name-related mismatch and Kannada actor Shivarajkumar because his name was not mapped with the 2002 rolls were not served, sources said, adding that officials were resolving the issues at their level.

Shivakumar launches slew of schemes to mark 100 days in office

BENGALURU

THE government on Thursday launched a slew of initiatives, including the Seva One digital citizen services platform, Chief Minister Raitha Chaitanya scheme, BMTC 2.0 mobile application and a scheme to distribute five lakh housing sites, marking Chief Minister D K Shivakumar's completion of 100 days in office.

The government also launched the One Karnataka Mobility App — KSRTC Avatara 2.0 — besides introducing a Retrofit Emission Control Device (RECD) initiative for diesel vehicles and announcing the Sainik Samman scheme.

Seva One was launched as the state's "One Government, One Digital" platform, aimed at enabling citizens to access government services and

communicate their requirements through a unified digital interface. The Chief Minister Raitha Chaitanya scheme, aimed at making agriculture more profitable through timely and location-specific farm advice, was launched initially in Mandya, Belagavi, Vijayapura, Hassan and Shivamogga. It is proposed to be expanded to all districts. The BMTC 2.0 mobile application will enable commuters to

track buses live, check arrival times and routes, purchase tickets digitally and use a wallet facility. It will also offer a multimodal journey planner, integrated ticketing for BMTC and Namma Metro, and daily, weekly and monthly passes. The government also announced a scheme to distribute five lakh sites to people without houses or sites, particularly in rural areas.

WINDOWS
VCK criticises CM's 'hand gesture' in Assembly

CHENNAI : VCK founder and president Thol Thirumavalavan on Thursday criticised Tamil Nadu Chief Minister C Joseph Vijay over his “body language” in the state Legislative Assembly towards DMK chief M K Stalin, while also demanding the withdrawal of the State Law Minister Nirmal Kumar’s remarks on the MISA era.

He said severe criticism has surfaced over the Chief Minister’s “body language” mocking Stalin during his reply to the debate on the police grant. “Although the Chief Minister’s side has clarified that there was ‘no ill intent’, we, on behalf of the VCK, point out that such body language is neither a dignified approach nor aligned with human values”, Thirumavalavan said in his social media platform on Wednesday.

Stressing that respecting elders is among the highest of human values, the VCK leader said, “therefore, it would be beneficial for a Chief Minister, who holds such a highly dignified and exalted position, to exercise utmost care regarding his body language in the future”.

Referring to DMK’s request that certain portions of the speech be expunged from the House records, Thirumavalavan said, “the MISA related remarks made by the Law Minister, who intervened during that debate, amounted to a “historical error”.

“The repression during the MISA era is well known to the entire nation,” he alleged adding “making a completely false statement regarding the DMK president, who endured that cruel repression, is strongly condemnable”. “We urge the Minister to declare the withdrawal of his remarks,” he added.

BIS seizes 804 gms of non-hallmarked gold jewellery

NEW DELHI : Bureau of Indian Standards (BIS) on Thursday said it has seized 804 grams of gold jewellery in Chennai as the articles were not hallmarked and displayed for commercial sales. Mandatory hallmarking of gold jewellery and artefacts was launched in June 2021. Hallmarking provides an official indication of the purity or fineness of precious metal articles.

According to an official statement, the BIS’s Chennai Branch Office “seized 803.99 grams of non-hallmarked gold jewellery during an enforcement search and seizure operation at a jewellery shop in Ambattur, Chennai, on September 1, 2026”.

The action was carried out under Section 28 of the Bureau of Indian Standards Act, 2016, after non-hallmarked gold jewellery was found displayed for commercial sale. “The seized jewellery included 175 mangalsutras (thalis) weighing 671.50 grams, 12 children’s bangles weighing 25.02 grams, 40 earrings weighing 86.14 grams and 10 pendants weighing 21.33 grams,” it added.

The BIS officials found the jewellery in different designs and categories being offered for sale without the required hallmarking. The articles were confiscated for detailed investigation and further legal proceedings.

S D Dayanand, Head of the BIS Chennai Branch Office, said, “BIS regularly undertakes market surveillance and enforcement activities to ensure that products covered under mandatory BIS certification and hallmarked requirements comply with the prescribed standards.”

He mentioned that such enforcement actions prevent the sale of substandard products, check misuse of the BIS Standard Mark and hallmark. Hallmarking, the BIS noted, offers an official guarantee of the purity or fineness of precious metal articles. Under the existing system, hallmarked gold jewellery carries the BIS logo, purity/fineness grading, and a six-digit Hallmark Unique Identification (HUID) number. Consumers can verify the HUID of hallmarked jewellery through the BIS CARE app.

Sudhakar Reddy hails party cadre ; BJP’s 175-km ‘Ballari Chalo’ yatra ends

HANS NEWS SERVICE
BALLARI

BJP national co-in-charge for Tamil Nadu and Karnataka and former MLC Ponguleti Sudhakar Reddy on Thursday participated in the concluding programme of the party’s ‘Ballari Chalo’ padayatra in Ballari.

The 10-day foot march, led by Karnataka BJP president B Y Vijayendra, began at Lin-

gasur in Raichur district on September 1 and covered around 175 km before culminating in Ballari.

Reddy congratulated Vijayendra, the Karnataka BJP leadership, district units, morchas, elected representatives, office-bearers and thousands of party workers for successfully completing the march.

He said the disciplined and sustained efforts of party workers, who remained

among the people throughout the 10-day yatra, were commendable.

The ‘Ballari Chalo’ yatra conveyed a strong message about the BJP’s need to maintain continuous engagement with farmers, youth, women, SCs, STs, workers and other sections of society, Reddy said. Reddy said the political momentum generated by the yatra should now be converted into sustained public out-

reach, booth-level strengthening and organisational expansion across Karnataka. He expressed confidence that the enthusiasm generated by the padayatra would further strengthen the BJP in Karnataka and energise its cadre.

Several senior BJP leaders participated in the concluding programme and the final leg of the yatra, including B Y Vijayendra, B S Yediyurappa, Basavaraj Bommai, Jagadish

Shettar, R Ashoka, Chala-vadi Narayanaswamy, Union Ministers Pralhad Joshi and V Somanna, Karnataka BJP in-charge Radha Mohan Das Agarwal, B Sriramulu, G Jannardhana Reddy, C T Ravi and other senior leaders and party functionaries. Reddy once again congratulated Vijayendra, the Karnataka BJP leadership and all party workers for successfully completing the ‘Ballari Chalo’ padayatra.

ECI recognises TVK as state party, reserves ‘whistle’ symbol

CHENNAI

THE Election Commission of India (ECI) has recognised the Tamilaga Vettri Kazhagam (TVK) as a state party in Tamil Nadu and reserved the “whistle” symbol for it, giving the organisation a permanent electoral identity after its successful Assembly debut.

The recognition follows TVK’s performance in the 2026 Tamil Nadu Assembly election, in which it emerged as the single largest party. Contesting its first election, TVK won 108 of the 234 constituencies and secured 34.92 per cent of the valid votes polled across the state.

The ECI’s decision marks an important organisational milestone for the party, founded and led by actor-turned-politician C. Joseph Vijay. It places TVK among Tamil Nadu’s officially recognised state parties and allows its candidates to contest fu-

ture elections under the same reserved symbol.

The whistle had initially been allotted to TVK as a common symbol in January, ahead of the Assembly election. At that stage, the party was registered but unrecognised and had requested a single symbol for its candidates as it prepared for its maiden electoral contest. Following its strong showing at the polls, the symbol has now been formally reserved for the

party.

Under the Election Symbols (Reservation and Allotment) Order, 1968, a political organisation can obtain recognition as a state party by satisfying any one of several conditions linked to its vote share and the number of seats it wins in Assembly or Lok Sabha elections. One route requires a party to secure at least six per cent of the valid votes polled in the state and win a minimum of two As-

sembly seats. A party may also qualify by obtaining at least eight per cent of the valid votes in the state.

TVK’s vote share and tally were well above both benchmarks. Recognition carries practical and political significance. Apart from securing exclusive use of the whistle symbol in Tamil Nadu, it gives TVK a distinct institutional standing in the state’s electoral landscape and ensures greater consistency in its campaign identity. With TVK joining the list, Tamil Nadu now has seven recognised state parties.

The others are the DMK, AIADMK, Communist Party of India, Viduthala Chiruthaigal Katchi, Naam Tamilar Katchi and Desiya Murpokku Dravida Kazhagam. The order formally consolidates TVK’s transition from a newly launched political movement into a major electoral force.

BJP questions ‘secular’ name of TVK-led alliance

CHENNAI

TAMIL Nadu Bharatiya Janata Party (BJP) President Nainar Nagenthran on Thursday questioned the ‘Secular Social Justice Victory Alliance’ name adopted by the Tamilaga Vettri Kazhagam (TVK)-led coalition in the state, while accusing the C. Joseph Vijay-led party of “promoting Tamil and Christianity”.

The decision was taken at the second round of consultations among the alliance partners, held at the TVK headquarters in Panaiyur near Chennai on Wednesday.

Speaking to reporters in Chennai, Nagenthran said: “It’s not social secularism. Tamil Nadu Finance Minister Marie Wilson and Assembly Speaker JCD Prabhakar are only talking about Christianity and Tamil, which is not good.”

“They (TVK) are saying things like ‘Christianity is very good’. How is that social justice secularism? It’s not correct,” he asserted.

LUCKY 13!

East Zone’s captain Ishan Kishan poses after winning the Duleep Trophy 2026-27, in Chennai, on Thursday. East Zone translated their complete dominance over the last 12 sessions into a Duleep Trophy victory after 13 years, overwhelming South Zone on the basis of a massive first innings lead on the fifth and final day of the final here on Thursday

Custodial death of temple guard
Court remands 4 police officials, including DSP

MADURAI

IN a significant legal development, a city court on Thursday ordered the judicial remand of four police officials — a DSP among them — in connection with the 2025 custodial death of temple security guard B Ajith Kumar.

The V Additional District and Sessions Court, Madurai, framed a murder charge under Section 103 of the Bharatiya Nyaya Sanhita against a former DSP of Manamadurai, a former Thiruppuvanam police Inspector, a former SI and a former head constable, in connection with the custodial death of Kumar, a security guard at the Madapuram Kaliaygman temple in Sivaganga district, and directed that they be sent to prison.

The court ordered their immediate remand after observing that they had appeared before it without securing formal bail petitions. The CBI had opposed their release, telling the court that local police elements were still actively trying to influence the case — including an incident flagged before the court on

Thursday, in which a local police inspector arbitrarily withdrew protection from key eyewitnesses.

The section invoked against the four carries a maximum penalty of life imprisonment and is non-bailable, a source said. The High Court had earlier directed the four to appear before the trial court to execute bonds. However, they appeared before the judge on Thursday without filing a bail petition. As a result, the judge exercised the court’s statutory power and ordered them to be taken directly into judicial custody.

Kumar, 27, reportedly died in June 2025 after being subjected to police brutality during a probe into a missing gold chain of 10 sovereigns.

The incident triggered massive public outrage, prompting the CBI to take up the case. The agency’s investigation uncovered brutal torture of Kumar by local police over the theft allegation, which was later found to be entirely baseless.

An autopsy report confirmed 18 distinct injuries on Kumar’s body. Following the CBI crackdown, 10 police personnel have been named as accused in the custodial murder case. Five constables were arrested and remanded in 2025, and a police driver was subsequently taken into custody, police said. A supplementary chargesheet later named the four officials, who were subsequently suspended.

TVK fields two ex-AIADMK MLAs in October 6 bypolls

CHENNAI

THE ruling TVK in Tamil Nadu on Thursday announced former AIADMK legislators K. Maragatham Kumaravel and P. Sathyabama as its candidates for the October 6 Assembly by-elections in Madurantakam and Dharapuram, respectively.

The nominations confirm that both leaders will seek to return to the Assembly from the constituencies they represented before resigning on May 25 and switching allegiance to the TVK.

Their departure from the AIADMK and resignation as legislators created the two vacancies. Madurantakam and Dharapuram are reserved constituencies. The Election Commission has scheduled polling for October 6, while votes will be counted on October 9.

Maragatham Kumaravel, a former Madurantakam MLA, is now the deputy general secretary of the TVK. Sathyabama, who previously represented Dharapuram, serves as the TVK’s Tiruppur South-East district secretary.

Their selection was widely anticipated after party sources

es indicated, soon after their induction, that they would be offered another opportunity to contest.

TVK president and Chief Minister C. Joseph Vijay urged party office-bearers and cadres to work together to ensure a decisive victory for both candidates. He said Maragatham Kumaravel and Sathyabama would enter the contest as nominees of the Secular Social Justice Victory Alliance.

The announcement sets the stage for closely watched contests involving the state’s principal political formations. The DMK has named I. Paranthaman for Madurantakam and S. Suganya

for Dharapuram.

The AIADMK, meanwhile, is preparing to reclaim the two seats it lost following the resignations and has approached its alliance partners, including the BJP, for support.

For the TVK, the by-elections will be an important political test after forming the government. By fielding the two defectors, the party has chosen candidates with prior electoral experience, established local networks and familiarity with the constituencies.

The AIADMK is expected to portray the contests as an opportunity to regain its former strongholds, while the

DMK will seek to capitalise on a multi-cornered fight.

Campaigning is likely to intensify once nominations are completed, with alliance strength, local issues and the candidates’ personal influence expected to shape the outcome.

Both constituencies will therefore draw statewide attention as parties test their organisational machinery and attempt to consolidate support among Scheduled Caste voters within them. The results will also offer an early indication of voter sentiment towards the Vijay government and the changing political alignments in Tamil Nadu.

Auto unions announce September 19 stir

CHENNAI

AUTO-RICKSHAW trade unions in Tamil Nadu have announced a protest in Chennai on September 19, intensifying pressure on the Vijay government to revise fares that have remained unchanged for 13 years.

The Federation of Auto-Rickshaw Trade Unions said drivers would assemble near Rajarathinam Stadium in Egmore, demanding an immediate government order on revised meter fares.

Union representatives said nearly five lakh drivers across the state were struggling with higher fuel, maintenance and insurance costs. The decision follows three rounds of consultations held with the Transport Department since the Vijay

Demand immediate fare revision

government assumed office in May.

At the latest meeting on August 27, unions submitted a fare chart proposing a minimum charge of Rs 60 to Rs 70 for the first 1.5 km and Rs 25 to Rs 30 for every additional kilometre. Passenger representatives who attended the consultations supported the demand, union leaders said.

The federation has now consolidated its demand at Rs 60 for the first 1.5 km and Rs 30 for every subsequent kilometre, along with separate waiting and night charges. It said repeated discussions had produced no firm assurance.

Drivers had expected a decision during the Assembly

debate on the Transport Department’s demand for grants. However, Transport Minister A. Vijay Tamilan Parthiban said that an announcement would be made soon, disappointing the unions.

A government committee had earlier recommended, in 2024, a base fare of Rs 40 and Rs 18 for each additional kilometre. That proposal remained pending. Following the consultations, officials were understood to be considering a higher recommendation of Rs 50 as the base fare and Rs 22 to Rs 25 for every additional kilometre. The State Home (Transport) Department must take the final decision, the unions said. The last revision,

introduced in 2013, fixed the minimum fare at Rs 25 for the first 1.8 km and Rs 12 for each additional kilometre. Unions argue that those rates bear little relation to present operating expenses and have made meter-based services unviable.

Commuters, meanwhile, have complained that airport-based aggregators impose surge pricing, while some driv-

ers demand amounts above displayed estimates.

Transport activists have called for an enforceable fare structure, tighter regulation of aggregators and action on complaints. Officials said the revision would be based on the committee’s recommendations, but the unions maintained that only a time-bound order could avert agitation.

TN to run 5,400 special buses for Vinayaka Chaturthi rush

CHENNAI

TAMIL Nadu’s State Transport Undertakings will operate 5,400 special buses over five days to handle the expected surge in passenger traffic ahead of Vinayaka Chaturthi, auspicious wedding dates and the extended weekend. The additional services will run from Thursday to Monday, connecting Chennai with major towns and cities across Tamil Nadu and neighbouring states.

The transport department has planned the largest share of services from Kilambakkam bus terminus, the principal departure point for south-bound routes. A total of 585 special buses will leave

Kilambakkam on Thursday, followed by 1,255 on Friday, 1,030 on Saturday and 650 on Sunday.

These buses will serve Tiruvannamalai, Tiruchy, Kumbakonam, Madurai, Tirunelveli, Nagercoil, Kaniyakkumari, Thoothukudi, Coimbatore, Salem, Erode and Tirupur. Koyambedu will also handle additional services during the holiday period.

The transport corporations will operate 240 special buses from the terminus on Friday and Saturday, besides 105 services on Sunday. They will connect Chennai with Tiruvannamalai, Nagapattinam, Velankanni, Hosur and Bengaluru.

Cultural fest Onashtami-2026 celebrated

MANGALURU : A captivating Tiruvathira dance from Kerala and a vibrant Radha-Krishna performance featured on Onashtami-2026 on 10 September 2026 at Srinivas University City Campus, Pandeshwar, Mangaluru. The 12th-anniversary celebration of the Srinivas Tigers added special weight to the Cultural Fest, which filled the campus with colour, tradition and enthusiasm.

The Institute of Hotel Management and Tourism, Department of Interior Design, Department of Animation and Department of Mass Communication and Media Studies organised the event for students and faculty and showcased the university's cultural spirit. Hotel Management and Tourism students prepared a sumptuous spread ranging from savoury appetisers and delicious main courses to exquisite desserts. Attractive presentation and flavour impressed attendees and demonstrated culinary skills, creativity and professionalism.

Chancellor Dr. A Srinivas Rao opened the day by breaking the Janmashtami handi. He said such cultural events give students a chance to come together, strengthen their bond and understand the richness of Indian traditions and culture, and that celebrating traditional festivals on campus helps pass cultural knowledge and values on to the younger generation.

Vijayalakshmi R Rao and Prof. Er. Mitra S Rao of the Board of Governors appreciated the students' enthusiastic efforts to create a festive atmosphere. The campus was transformed with representations of tigers, Mahabali and other traditional cultural themes.

Registrar Dr. Ajay Kumar, Dean Prof. B Prashanth Prabhu, Dean Dr. Venkatesh Amin, Dean Dr. Thrishala Noronha, Dean Dr. Padmanabha C H, Dean Dr. Subramanya Bhat and Dean Dr. Pranjali Mathre graced the celebrations, reflecting the university's commitment to academic excellence and cultural values. Bhoomika delivered the welcome. Amna thanked. Alfia gave the vote of thanks.

Space Expo 2026

BENGALURU : Australian space industry delegation at Bengaluru Space Expo 2026 showcases capabilities, explores Indian partnerships and advances collaboration in satellite, propulsion, research, AI and commercial space missions.

Mobility social impact awards

BENGALURU : Hand in Hand India has been named runner-up at Bridgestone India's Mobility Social Impact Awards 2026 for its Hygiene On Go initiative. The project provides mobile sanitation facilities to Bengaluru traffic police personnel, improving hygiene, dignity, safety and operational efficiency across 103 traffic junctions since December 2025.

Jungle tales with Mowgli

College honours 1,325 graduates

BENGALURU : Sona College of Technology celebrated its 25th Graduation Day, conferring BE, BTech, ME, MCA, MBA and PhD degrees on 1,325 students from the Class of 2025. The graduates included 1,039 undergraduates, 271 postgraduates and 15 doctoral scholars. Krishna Balagurunathan „C. Valliappa , Chocko Valliappa and others present.

State limits Vande Mataram to first two stanzas at govt events

HANS NEWS SERVICE BENGALURU

THE government has ordered that only the first two stanzas of 'Vande Mataram' be sung at most state government programmes, instead of all six stanzas, amid a national debate over the rendition of the patriotic song. The order follows the

state Cabinet's decision on the manner in which the song should be performed at official functions. The government has cited the need to maintain uniformity, dignity and appropriate protocol during various government programmes and ceremonies. According to the order issued by the Department of Personnel and Administrative

Reforms, the first two stanzas of 'Vande Mataram' will be sung at state government events, except programmes attended by the President, Vice-President, Prime Minister or Governor.

The government noted that 'Vande Mataram' played an important role during India's freedom movement in fostering nationalism, unity and

patriotic sentiment among people. The order also refers to guidelines issued by the Union Ministry of Home Affairs regarding the official version of the song and its performance at government and public functions. The guidelines distinguish between playing the song and mass singing, depending on the nature of an event.

The Karnataka decision comes amid discussions within political circles over whether the complete version or only selected stanzas should be performed at official functions. Congress leaders at the national level have referred to a 1937 resolution under which the first two stanzas were accepted for public rendition.

Lalbagh spared from proposed tunnel exit ; govt seeks alternative site

HANS NEWS SERVICE BENGALURU

THE proposed tunnel road in Bengaluru will no longer have an exit near Lalbagh, with the Karnataka government deciding to look for another location amid concerns over damage to the city's iconic green space.

The earlier proposal to build a tunnel exit close to Lalbagh had faced resistance from residents and environmental activists. They had warned that the construction could consume or damage a considerable portion of the garden area. Following the objections, the government has decided against proceeding with the Lalbagh site. Chief Minister D.K. Shivakumar has instructed the Greater Bengaluru Authority to identify another location that can accommodate the proposed tunnel exit.

The change in plan is aimed at ensuring that the infrastruc-

ture project does not come at the expense of Lalbagh's valuable green cover and open spaces. The tunnel road is among the major infrastructure proposals being considered to address Bengaluru's persistent traffic congestion. The project envisages underground connectivity as an alternative to adding more surface-level roads in the already congested city. However, the proposal has also triggered concerns about its impact on existing public spaces and the environment. Lalbagh, with its extensive vegetation and heritage significance, has emerged as one of the most sensitive points in the project. Residents and environmentalists had opposed the proposed exit, arguing that construction in the area could have a lasting impact on the garden. Their protests appear to have prompted the government to reconsider the location.

Shivakumar govt moving in the right direction, says Siddaramaiah

HANS NEWS SERVICE BENGALURU

FORMER Chief Minister Siddaramaiah said governments must remain accountable to the people and urged the D K Shivakumar-led government to fulfil all the promises made in the Congress manifesto during the remaining period of its tenure.

Speaking after inaugurating the programme "Drudha Karnataka Sankalpa, Successful Completion of 100 Days" at the Vidhana Soudha Banquet Hall on Wednesday, Siddaramaiah said the completion of 100 days should not be viewed merely as a celebration, but as an opportunity for the government to present its performance before the people and assess whether it was moving in the right direction.

"We are in a democratic system where the people are the masters. What matters is whether the promises made to the people are being implemented. Governments have a responsibility to remain accountable to the people," he said.

Siddaramaiah stressed the

need to eliminate social inequality, poverty and unemployment and work towards creating an egalitarian society. He said elected governments had a responsibility to uphold the ideals of the Constitution and ensure social, economic and political empowerment for all sections of society.

Defends guarantee schemes

Siddaramaiah said the Congress government had fulfilled its commitment to implement the five guarantee schemes despite criticism from the Opposition and the BJP-led Union Government. Congress leaders had an-

nounced the five guarantees before coming to power on May 20, 2023, and Opposition parties had claimed that the schemes could not be implemented and would push the State into financial distress, he said.

"Within the first year of coming to power, we implemented all five guarantee schemes. The government spends around ₹52,000 crore every year on these schemes. Despite the criticism, the government has borne the expenditure and ensured that the benefits reach the people," he said.

He said the schemes were aimed at supporting poor

people belonging to different communities and reducing inequality. Siddaramaiah urged the government to continue the guarantee schemes despite criticism, stating that such programmes were necessary to address social and economic inequalities.

'Fulfill all manifesto promises'

Siddaramaiah said a government was not required to implement every manifesto promise within the first year and had five years to fulfil its commitments. He recalled that the Congress manifesto in 2013 contained 165

promises, of which more than 158 were implemented during his tenure as Chief Minister.

"If there is a government that keeps its word, it is the Congress government. We not only fulfilled our promises but also introduced several programmes, including Krishi Bhagya, Ksheera Bhagya and the five guarantee schemes," he said.

He urged the D K Shivakumar-led government to use the remaining tenure to fulfil all the promises made to the people. Siddaramaiah said the Congress government was working on several new ideas and programmes and expressed confidence that the government was moving in the right direction.

He congratulated Chief Minister D K Shivakumar and all members of his Cabinet and urged them not to be distracted by criticism from the Opposition. "D K Shivakumar has worked as Deputy Chief Minister and understands the problems of the State. Do not worry about the criticism from the Opposition," he told the Chief Minister.

ED raids on Jarkiholi's premises politically motivated, says Hebbalkar

HANS NEWS SERVICE BELAGAVI

FORMER Minister and Belagavi Rural MLA Lakshmi Hebbalkar has strongly condemned the Enforcement Directorate (ED) raids on the residences and offices of Public Works Minister Satish Jarkiholi, terming the action "politically motivated."

In a statement, Hebbalkar alleged that the BJP-led union government was misusing central investigative agencies for political purposes and targeting political opponents. "It is not new for the BJP to misuse investigative agencies under its control instead of confronting political opponents through democratic and fair means. The ED raids on the premises of Satish Jarkiholi are also part of the same po-

litically motivated agenda," she alleged.

Hebbalkar accused the BJP of targeting Congress leaders for political gains as the Congress government in Karnataka continued to implement welfare and development programmes. "Unable to tolerate the people-oriented programmes, development works and achievements of our government, the BJP is targeting Congress leaders politically. Using central

agencies such as the ED and CBI against political opponents is not a healthy development for democracy," she said.

She described Jarkiholi as a senior Congress leader who had made significant contributions to the party and the development of Karnataka. "At a time when attempts are being made to put pressure on him through investigative agencies, the Congress party will stand united and face such attempts," Hebbalkar said.

She asserted that the Congress would extend its full support to Jarkiholi and would not be intimidated by what she described as political manoeuvring.

"The entire Congress party stands with Satish Jarkiholi. There is no question of being afraid of such political

conspiracies. Congress leaders and workers will unitedly face such attempts," she said.

Hebbalkar also urged central investigative agencies to maintain their autonomy and function in an impartial manner. "Political differences should not be settled through investigative agencies. In a democracy, Opposition parties and political opponents should be confronted politically," she said.

She further warned that attempts to intimidate or politically weaken Congress leaders would not succeed.

"If the BJP believes that it can frighten or threaten Congress leaders and weaken them politically, it is mistaken. Congress will always stand with truth and justice and will unitedly face this political conspiracy," Hebbalkar said.

Centre withholds Rs 2,186 crore grant to gram panchayats

State to move Supreme Court: Eshwar Khandre

HANS NEWS SERVICE BENGALURU

THE Karnataka government has decided to approach the Supreme Court against the Centre for withholding ₹2,186.20 crore due to the state's Gram Panchayats under the recommendations of the 15th Finance Commission.

Rural Development and Panchayat Raj Minister Eshwar B. Khandre held a meeting with Advocate General Shashikiran Shetty and senior officials at his office on Thursday to discuss the legal course of action. Khandre expressed displeasure over the Centre's refusal to release the ₹2,186.20 crore allocated to Karnataka's Gram Panchayats for 2025-26.

The minister said the Centre's decision assumes significance at a time when Karnataka is facing drought-like conditions due to inadequate rainfall. Drinking water shortages have been reported in 710 villages, with 149 villages receiving water through tankers. The government has also hired 561 private borewells to meet the water requirements.

Khandre said farmers were already facing difficulties as seeds sown in several areas had failed to germinate. The meeting discussed the legal grounds on which the Centre's decision to withhold the funds meant for the state's Gram Panchayats could be challenged before the Supreme Court.

Preparations for gram panchayat elections

The state government is also preparing to conduct elections to Gram Panchayats, Taluk Panchayats and Zilla Panchayats whose terms have expired. Khandre said the elections had been delayed as government staff were deployed for Special Intensive Revision (SIR) work. He said the government was now fully prepared to conduct the Gram Panchayat elections and that a preliminary notification would be issued shortly.

During the meeting, Khandre sought details from Advocate General Shashikiran Shetty and Panchayat Raj Department Secretary D. Randeep on the legal aspects involved in conducting the elections.

WhatsApp ticket booking facility opens for state buses

The 'One Karnataka Mobility' app has been developed to bring together the services of the four state road transport undertakings

HANS NEWS SERVICE BENGALURU

THE Karnataka State Road Transport Corporation (KSRTC) has been providing an online advance reservation booking facility to make passenger journeys more comfortable and convenient. As part of this initiative, the One Karnataka Mobility App has been developed to bring together the services of the four State Road Transport Undertakings KSRTC, NWKRTC, KKRTC and BMTC on a single digital platform.

With a modern and user-friendly interface, the platform is aimed at providing passengers with a simple, seamless and integrated travel experience. The upgraded Mobile App KSRTC AWA-

TAR 2.0 and WhatsApp ticketing facility was launched by the Hon'ble Chief Minister of Karnataka on 10-09-2026, during the 100-day programme held at Vidhana Soudha, Bengaluru.

Key features of the One Karnataka Mobility App

A secure user login facility will enable passengers to authenticate their identity, access details of previous bookings and conveniently manage their transactions. Passengers will be able to register grievances related to all four transport undertakings on a single platform.

The system will facilitate tracking of grievance status, escalation wherever required and monitoring of the resolution process. A digital monthly pass facility will

be introduced in a phased manner, enabling passengers to book, receive and manage bus passes online. The facility will also provide for QR code-based digital

verification.

Ticket booking through WhatsApp

For the convenience of passengers, Ticket booking through WhatsApp is

now available for bus services operated by KSRTC, NWKRTC and KKRTC. Passengers can initiate the booking process by sending message by WhatsApp to

number +91 6364940880

The interactive WhatsApp booking system will guide passengers through the complete ticket reservation process, similar to the existing KSRTC online booking system.

Ticket cancellation through WhatsApp

Tickets booked through WhatsApp can also be cancelled through the same WhatsApp number. To cancel a ticket, passengers need to send message on WhatsApp and select the "Ticket Cancellation" option. They will then be required to enter their: PNR Number, Mobile Number & Transaction Password received at the time of booking. The cancellation process can then be completed

through WhatsApp.

Towards an integrated mobility ecosystem the One Karnataka Mobility App is intended to provide the foundation for integrating additional public transport and mobility services in the future. The initiative will further strengthen the Government of Karnataka's vision of an integrated, accessible and technology-driven public transport system across the State.

Passengers are encouraged to make use of this facility for advance ticket reservations. For any assistance or reservation-related queries, passengers may contact the KSRTC Call Centre at 080-26252625 (available 24x7) or the AWATAR Cell at 7760990034 / 7760990035 (7:00 AM to 10:00 PM).

Fight to resolve public issues inspired by Ilamma: CPI leader

HANS NEWS SERVICE
WANAPARTHY

THE CPI Wanaparthi constituency secretary Ramesh called for a struggle to resolve public issues, drawing inspiration from Chakali Ilamma, a warrior of the Telangana Armed Peasant Struggle. Her 41st death anniversary was observed with solemnity at the party office here on Thursday. Floral tributes were paid to her portrait.

Ramesh noted Ilamma took up arms to fight for land, livelihood, and liberation from bonded labour on behalf of the people who were suffering under the feudal 'doras'. With the party's support, she rebelled against feudal lord

Ramachandra Reddy and protected her crops and lands. Ramesh highlighted how landlords were driven out of villages and ten lakh acres were redistributed. He urged everyone to carry forward Ilamma's legacy, noting that she never backed down despite facing immense hardships and destruction of her family's livelihood. Farmers

who are struggling due to a lack of electricity and water need people's support to resolve issues related to ration cards and land disputes. District executive committee member Kalavatamma, along with members Ravinder, Chinna Kurumanna, Sekhar, Jayamma, Jyoti, Venkatamma, and Chandu participated in the protest.

District 'Farmers' Advisory Committee' constituted

HANS NEWS SERVICE

WANAPARTHY: The District Farmers' Advisory Committee (DFAC) has been constituted under the aegis of ATMA to directly bring farmers' issues, suggestions and needs to the government's attention. Collector Adarsh Surabhi will serve as the chairman, while Vitta

Suryachandra Reddy—former sarpanch of Chinnamandadi village in Peddamandadi mandal—will serve as the vice-chairman. Local MLA Thudi Megha Reddy expressed happiness that 10 farmers from his constituency secured positions in the 30-member committee. The committee members are: Itikyala Praveen Kumar

Reddy (Peddamandadi); Karpunolla Prabhakar Reddy Raganamoni Mallesh (both Khilla Ghanapuram); Kothakapu Chandrashekhar Reddy, Kotha Samara Simha Reddy (both Wanaparthi); Pulluru Neelav Reddy (Pebbair); Vaddeman Naganna, Ganta Venkat Reddy (both Gopalpet); Katamoni Ramesh (Edula).

Awareness prog held on strengthening seed supply

HANS NEWS SERVICE
KHAMMAM

"STRENGTHENING seed co-operative societies, promoting quality production, and ensuring timely availability of certified seeds to farmers are crucial for developing sustainable agricultural and food systems in Telangana," experts said on Thursday. The observations were made at an awareness programme on "Strengthening Seed Supply System through Seed Cooperative Societies for Sustainable Agri-Food Systems in Telangana", organised jointly by Professor Jayashankar Telangana Agricultural University (JTUAU), the District Cooperative Central Bank (DCCB) and Primary Agricultural Cooperative Societies (PACS), with financial support from NABARD, at the DCCB office here.

PJTUAU Seed Department Director Dr Nagesh Kumar explained the project implementation procedures, guidelines, objectives, and activities. He said PACS should play a key role in seed production and supply, enabling farmers to access quality seeds while improving crop productivity and promoting sustainable agricultural development. DCCB Chief Executive Officer N Venkata Aditya underlined the importance of strengthening cooperative societies and establishing an efficient and sustainable seed supply mechanism for farmers.

Cyber security awareness prog held at Nizamabad DCCB

HANS NEWS SERVICE
NIZAMABAD

A cyber security awareness programme was the Nizamabad District Cooperative Central Bank Ltd (DCCB) on Wednesday. Cyber Crime Department SI Ravi Naidu led the programme and sensitised bank employees about the rising cyber crimes, on-line frauds and precautionary measures to prevent them. He advised employees not to share OTPs, PINs, passwords or banking details with anyone and warned them against clicking suspicious links, messages or emails. He

also stressed the importance of using strong passwords and accessing banking services only through secure networks. SI Ravi Naidu further advised people to immediately report any cyber fraud by contacting the National Cyber Crime Helpline at 1930. On the occasion, Bank CEO Nagabhushanam Vande felicitated SI Ravi Naidu and appreciated the Cyber Crime Department for conducting the awareness programme. Senior officials, branch managers and head office staff participated in the programme.

Bring home eco-friendly clay Ganeshas: DC Satyaprasad

HANS NEWS SERVICE
JAGTIAL

EVERYONE Must Act Responsibly to Prevent Pollution of Water Bodies Public Participation Essential for Environmental Protection 2,000 Clay Ganesha Idols to Be Distributed Free of Cost Jagtial District Collector B. Satyaprasad has urged people to use eco-friendly clay Ganesha idols instead of idols made of Plaster of Paris (PoP) as part of efforts to protect the environment. The Collector on Thursday released wall posters created by the Telangana Pollution Control Board (TGPCB) to create awareness among the public about environmental protection. The posters were released at his chamber in the Integrated District Collectorate. Speaking on the occasion, Collector B Satyaprasad called upon people to use eco-friendly Ganesha idols during the Vinayaka Chavithi celebrations. He said immersion of Plaster of Paris idols could pollute reservoirs, lakes, ponds and other water bodies. He stated that using clay idols would help protect water resources and the envi-

ronment. The Collector emphasised that environmental protection was not the responsibility of government departments alone and called upon everyone to become a stakeholder in protecting the environment. He urged people to celebrate Vinayaka Chavithi with devotion while also ensuring that the festivities remain environmentally friendly. The Collector said that 2,000 clay Ganesha idols would be distributed free of cost to encourage eco-friendly Vinayaka Chavithi celebrations. He urged people to make use of the opportunity and opt for clay idols. He directed the concerned officials to create widespread awareness among the public about the use of clay idols and take necessary measures to ensure that immersion activities are conducted in an eco-friendly manner without causing pollution to water bodies. He said that collective efforts by every individual towards environmental protection would help provide future generations with a clean, healthy and sustainable environment.

Building owner locks tahsildar office over 2 years' unpaid rent

HANS NEWS SERVICE
HUZURNAGAR

A building owner locked the Tahsildar office in Palakeedumandal of Suryapet district on Thursday, alleging that the authorities had failed to pay the rent due to him for the past two years. According to building owner Kasireddy Janardhan Reddy, the government is required to pay a monthly rent of Rs13,800 for the premises. However, he alleged that the rent had not been paid for the past two years. With no resolution despite repeatedly bringing the issue to the notice of officials, he finally locked the Tahsildar office.

Reddy stated two years would be completed on September 19 since the rent payments stopped. He alleged that officials had assured him that the

monthly rent would be paid regularly, but the payments were not made. He also claimed that the authorities had agreed to increase the rent by five per

cent once every two years, but the promised revision had also not been implemented. Expressing frustration over the delay, the build-

ing owner said he had approached several people regarding the pending rent but received no satisfactory response. With no other option left, he said he was compelled to lock the Tahsildar office to draw attention to the issue. Palakeedumandal of Huzurnagar constituency of Suryapet district was newly formed in Suryapet district in 2016. As the newly established mandal did not have a government building to accommodate its offices, the authorities have been operating various government offices from rented premises. The Tahsildar office has also been functioning from a rented building since then.

VEERLAPALLI PAYS TRIBUTES TO CHAKALI ILAMMA ON HER DEATH ANNIVERSARY

HANS NEWS SERVICE
SHADNAGAR

MLA Veerlapalli Shankar stated that the fighting spirit of armed struggle warrior Chakali Ailamma remains unforgettable. On the occasion of Ailamma's 41st death anniversary, he paid floral tributes at her statue near the MPDO office in Shadnagar town on Thursday. Speaking on the occasion, the MLA recalled that Ailamma bravely fought for

land and livelihood, against bonded labour, social discrimination, and exploitation. He emphasized that her struggle for the rights of the poor and marginalised continues to inspire today's generation. He noted that Ailamma stands as a symbol of Telangana's self-respect and women's fighting spirit. Public representatives, leaders of the Rajaka community, senior Congress leaders, and activists participated in the programme.

District collector Adarsh Surabhi visited the PHC in Kadukuntla, Wanaparthi mandal on Thursday, to inspect the services and facilities and inquire about services provided to snake-bite victims

Make adequate arrangements for Ganesh festival: Naini

HANS NEWS SERVICE
WARANGAL

MLA Naini Rajender Reddy suggested that officials of all departments should coordinate for the conduct of Vinayaka Chavithi and immersion celebrations in a peaceful atmosphere and with devotion without any untoward incidents. He instructed them to formulate a special action plan for the immersion programme in the context of low availability of water in tanks this year due to low rainfall. A review meeting was held on the management of Vinayaka Chavithi celebrations at the Collectorate under the chairmanship of Hanumakonda district Collector Chahat Bajpai. Naini discussed various issues such as immersion arrangements, water supply, sanitation, electricity, traffic, police arrangements, etc. He said that there is a need to focus on the immersion

programme in advance as the rainfall has been less this year. Despite the limited time, he suggested that the officials should respond quickly and identify suitable ponds and water sources for immersion. In areas where the water level is low, arrangements should be made to store water specifically for immersion, and immersion ponds should be set up at necessary places to ensure that devotees do not face any difficulties. He asked the officials to keep cranes and other necessary equipment ready in advance during the

immersion of huge idols and to take safety measures to avoid accidents. Since there is a possibility of more Vinayaka mandapas being set up in the city this year than last, he suggested that their details should be collected in advance and coordination between the relevant departments should be increased. Since a large number of devotees are likely to come to the Mandals, he asked that preventive measures be taken to prevent sanitation problems and additional staff should be deployed where necessary.

Robotics workshop at Kshatriya College

HANS NEWS SERVICE
CHEPUR

A one-day robotics workshop was conducted for third-year B.Tech students of Kshatriya College of Engineering under the aegis of Soham Academy on Thursday. Students received hands-on training in Arduino, microcontrollers, sensors, displays, motors and basic electronics. As many as 21 mini projects were taken up during the workshop, providing practical exposure to programming and robotics. College Secretary and Correspondent Alapur Devender said robotics, automation and embedded systems were gaining importance and

urged students to apply classroom learning to practical applications. Principal Dr. Katkam Srinivas stressed the need to acquire emerging technologies and practical skills. TPO Sunil Gatadi said industry-oriented training would help students enhance their technical skills and career prospects. Soham Academy Programme Coordinator Rahul and his team appreciated the students' active participation. Chairman Alapur Srinivas thanked the academy for providing practical training. College officials, department heads, faculty members, Soham Academy representatives and students attended the programme.

9 L acres of freehold land to be opened for registration

- Revenue minister says registration for 9 lakh acres will be allowed; inquiry underway into irregularities in 4 lakh acres
- 22A cleanup gains pace with 28 lakh acres removed and fresh applications being cleared
- Blockchain reforms and Re-Survey 2.0 aimed at delivering accurate, tamper-proof land records

HANS NEWS SERVICE
AMARAVATI

THE coalition government is committed to finding a permanent solution to long-pending land disputes in Andhra Pradesh and ensuring full ownership rights to landholders, revenue minister Anagani Satya Prasad said.

Addressing the Collectors' Conference at the Secretariat here on Thursday, the minister said registration would be allowed for 9 lakh acres of freehold land that had been found compliant with the prescribed rules under the

previous government. However, a decision on another 4 lakh acres, where irregularities have been identified, would be taken after a detailed inquiry, he said.

The minister said 28 lakh acres had already been removed from the prohibited 22-A list.

The government had issued GO No. 444 to simplify the process of removing land from the 22-A list. Of the 28,790 acres for which applications had been received under the new procedure, 1,100 acres had already been removed from the prohibited list, while decisions on

Revenue minister A Satya Prasad greets Chief Minister N Chandrababu Naidu at the Collectors' Conference on Thursday

the remaining applications would be taken soon. Under GO No. 445, whenever private land is proposed to be included in the 22-A prohibited list, the concerned official would have to establish the nature and status of the land, he said.

The Minister warned that

strict action would be taken against officials who include private lands in the prohibited list in violation of the rules.

He said ownership rights had been restored to thousands of people in several long-pending cases, including Vatticherukuru,

Shettipalli, Pulladigunta, Kangundi, Avulapalli and Gootupalli, besides four areas in Konaseema district. In the Kaikaluru constituency, more than 2,000 acres in four villages had also been removed from the prohibited list following the initiative of the local MLA.

The minister said the government was implementing the 'Mee Bhoomi - Blockchain Technology' project to provide a permanent solution to land-related issues and directed Collectors to continuously monitor its implementation.

He also said Re-Survey 2.0 was being carried out efficiently to avoid the mistakes of the previous government. While expressing satisfaction over growing public confidence in the Survey Department, he directed officials to ensure that the re-survey was conducted with 100 per cent accuracy.

Naidu's 'silent revolution' in irrigation: Keshav

- Handri-Neeva launch and Polavaram canal water release mark major irrigation gains, says the finance minister
- Drip irrigation cost slashed from Rs 16 to Rs 1.60 per metre, boosting horticulture in Rayalaseema

HANS NEWS SERVICE
AMARAVATI

FINANCE minister Payyavula Kesav said a 'silent revolution' was underway in the state's irrigation sector under the leadership of Chief Minister N Chandrababu Naidu, aimed at ensuring water security for every farmer and every family in the state.

Addressing the Collectors Conference on Thursday, Kesav said the Chief Minister's commitment to the irrigation sector had resulted in the launching of the Handri-Neeva project and the release

of water from the Polavaram Left Main Canal. Ministers and district Collectors gave a standing ovation to Chandrababu Naidu in recognition of his efforts towards strengthening irrigation infrastructure. Kesav said while the completion and launching of major irrigation projects were visible to everyone, the relentless efforts of the Chief Minister, who worked day and night to push forward several projects, often went unnoticed.

He said Chandrababu Naidu was the first to introduce drip irrigation in the State. The cost of drip irrigation, which was earlier around Rs 16 per metre, had now come down to Rs 1.60 per metre. This had made drip

irrigation more accessible to farmers and turned it into a major boon for horticulture in the Rayalaseema region, helping create greater wealth for farmers. The finance minister recalled that several political parties and individuals had initially opposed the Pattiseema Lift Irrigation Project. However, the project was now playing a crucial role in stabilising the Krishna delta ayacut. He said around 500 TMC ft of water had been diverted to the Krishna river through Pattiseema, equivalent to filling the Prakasam Barrage nearly 200 times.

Kesav said the Chief Minister's commitment to irrigation development had also received national recognition, with a leading English daily describing Chandrababu Naidu as a 'CEO CM' and a 'water man'. Thanking the ministers and collectors for the recognition, Chandrababu Naidu said it was the collective responsibility of everyone to ensure water security for all people and all regions of Andhra Pradesh.

State uses GST data for real-time economic tracking

- Manufacturing GVA estimated at ₹1.75 lakh cr, with 19.6% growth till July

HANS NEWS SERVICE
AMARAVATI

ANDHRA Pradesh is leveraging GST and commercial taxes data to develop a real-time mechanism to assess economic activity and estimate Gross Value Added (GVA) across key sectors, commercial taxes department chief commissioner Babu A said. Addressing the 8th Collectors' Conference, Babu said the GST-based assessment of manufacturing activity indicated 19.6 per cent year-on-year growth up to July, compared with about 18 per cent growth recorded up to the first quarter. The estimated manufacturing GVA stood at around Rs 1.75 lakh crore.

He said the GST-based estimate was closely aligned with the planning department's first advance estimates, which are based on sample surveys, with a variation of only about 0.6 percentage points. The close correlation demonstrated the potential of GST data for real-time economic assessment, he said.

The commercial taxes department has developed an AI-based analytical methodology to calculate GVA

Babu A

using GST data generated by manufacturing units. E-way bill data is also incorporated to improve accuracy by tracking the movement of goods into and out of the State.

The platform provides district-wise heat maps of manufacturing activity and enables collectors to drill down to individual manufacturing units, including their declared value and contribution to the sector.

Babu said GST returns, largely filed between the 18th and 20th of every month, could provide an early indication of economic activity in the preceding month, paving the way for monthly "now-casting" of economic growth. A similar methodology has been developed for the construction sector using GST data from around 65 relevant HSN categories, including cement, iron and steel. The estimated construction GVA was around Rs 1.25 lakh crore, against Rs 1.29 lakh crore estimated by the Planning Department, a variation of about 3.2 per cent.

Real-time assessments have

also been undertaken for trade, hotels and restaurants, real estate, communication and broadcasting, while work is underway to cover mining and electricity. Babu said GST and commercial taxes data would also help create a comprehensive database of MSMEs. Data relating to around 20.08 lakh MSMEs has been identified, including about 2.42 lakh in the GSTN system. To cover enterprises outside the GST network, the department is integrating GST information with electricity consumption data and NIC codes. The State Data Lake provides access to around 1.7 crore electricity connections, enabling officials to assess economic activity even among MSMEs not covered by GST turnover data.

He said around 1.21 lakh GST-linked MSMEs were currently inactive, with no reported turnover. District administrations would be able to identify such units and examine the reasons for their inactivity. The system will enable collectors to analyse activity down to the district, mandal and enterprise levels, helping identify businesses and sectors requiring intervention and potential revival. Babu said Andhra Pradesh's GST-based approach had also received appreciation at a national-level MSME coordination meeting in New Delhi.

Focus on infra projects, clear land acquisition

- Collectors told to clear land, legal and local hurdles on priority
- Ports, airports, highways and rail projects reviewed with firm deadlines
- Rs 1.18 lakh crore national highway projects and 42 railway projects in pipeline

HANS NEWS SERVICE
AMARAVATI

THE state government is focusing on completing major infrastructure projects within stipulated timelines to strengthen investment and economic growth, infrastructure and investments department secretary Kona Sasidhar said at the Collectors'

Conference on Thursday.

He directed collectors to prioritise land acquisition, land transfer, legal cases, local clearances and inter-departmental coordination to speed up project execution. Land acquisition and alienation covering 25,662 acres for ports, fishing harbours, fish landing centres and airports are

to be expedited. The government is developing greenfield ports, fishing harbours and shipbuilding facilities. The targeted completion dates are March 2027 for Ramayapatnam Port, May 2027 for Mulapeta, December 2027 for Machilipatnam and September 2028 for Kakinada Gateway.

Fishing harbours at Juvvaladinne, Uppada, Nizampatnam and Machilipatnam are targeted for completion between December 2026 and December 2027. Aviation projects are underway at Bhogapuram, Kurnool, Tirupati, Kadapa, Vijayawada and Rajamahendravaram, while proposals for several greenfield airports are at different stages. Eight water aerodrome sites and nine heliport locations have been identified. Collectors were asked to identify 5-10 acres for heliports in the remaining districts

and expedite acquisition of 670 acres for expansion of the Puttaparthi airstrip. National highway projects worth Rs 1,18,566 crore covering 1,408 km are in the pipeline. The government has also approved repairs covering 10,238 km of roads, while 78 Pushkaram works and 14 incomplete bridges are being taken up.

Sasidhar said 42 railway and multi-line projects covering 2,678 km, costing Rs 46,789 crore, were underway. Another 343 ROB or RUB projects involve Rs 13,305 crore.

Land acquisition remains pending for 91 national highway projects, 37 railway projects and 13 ROB/RUB projects. Collectors were directed to resolve these issues on priority and maintain project-wise records of pending issues, responsible officials and deadlines.

Govt sets Oct deadline to turn MoUs into projects

- 80% of PS-2025 MoUs and 75 per cent of SIPB projects targeted for grounding
- 17,469 acres of govt land pending handover to APIIC
- Data centres, IT, semiconductors and quantum technology get major push

HANS NEWS SERVICE
AMARAVATI

THE state government has set an October deadline to accelerate the conversion of

investment proposals into actual projects, directing collectors to personally monitor land availability, approvals and other bottlenecks.

At the Collectors' Conference, industries and commerce department nodal secretary N Yuvaraj said the government aimed to convert at least 80 per cent of the 463 MoUs signed under PS-2025 by the end of October. So far, 198 have been converted, while 172 are pending. The remaining proposals represent about Rs 5.54 lakh crore investment and 5.4 lakh jobs.

Similarly, the government is targeting 75 per cent grounding of 359 SIPB-

approved projects by October. Of these, 160 have commenced, while 109 are yet to be grounded. The pending projects involve around Rs 6.35 lakh crore investment and nearly two lakh jobs.

Yuvaraj said 88,678 acres had been requisitioned for industrial purposes since June 2024, but only 22,533 acres had been acquired. Of 30,223 acres of government land requisitioned, 17,469 acres were still awaiting handover to APIIC.

He directed collectors to expedite land acquisition, remove eligible lands from the 22-A prohibited list and complete mutations in APIIC's

name. Though 9,933 acres have been removed from 22-A, another 59,080 acres remain pending. Mutation has been completed for only 5,184 of the 49,074 acres for which requests were initiated. Collectors were also told to hold DIEPC meetings every fortnight to resolve pending NOCs, environmental clearances, building approvals and other hurdles.

ITE&C secretary Katamneni Bhaskar said AP is targeting 6.5 GW of data-centre capacity by 2030, requiring faster land and infrastructure support in Visakhapatnam, Anakapalli and Vizianagaram. Around 1,000 acres is

proposed for an IT Park in Visakhapatnam, while 100 acres is sought for IT and GCC parks.

The government is also pushing electronics, semiconductors and quantum technology. A 250-acre Quantum Hardware Park is proposed in or around Amaravati, while the Quantum Computing Centre is being readied to host the IBM machine by October 15. The state has 23.85 lakh MSMEs, with 138 of 175 proposed MSME parks approved and 22 already operational. Collectors were asked to ensure the remaining parks and investment projects are grounded on schedule.

Jagan insists on Lokesh's resignation, CBI probe

- Alleges jobs were given to candidates who never wrote exams; demands CBI probe and Lokesh's exit
- Cites fake certificates, non-existent tournaments, and links to associations headed by Lokesh's relatives in jobs under sports quota
- Claims GOs were tweaked post-recruitment and APPSC exams stalled to hide similar irregularities

HANS NEWS SERVICE
AMARAVATI

YSRCP president Y. S. Jagan Mohan Reddy on Thursday renewed his demand for the resignation of education minister Nara Lokesh and a CBI probe into the alleged irregularities in DSC 2025, asserting that the recruitment process was riddled with unprecedented violations and that jobs were handed out to candidates who did not even write the examinations.

Addressing a press conference at the YSRCP central office in Tadepalli,

Jagan questioned the "conspicuous silence" of Chief Minister N. Chandrababu Naidu and Lokesh on the issues repeatedly raised by the opposition. He said fresh irregularities in the teacher recruitment process were surfacing "day after day," indicating a deeper malaise.

Jagan alleged that the government was deliberately weakening the investigation into the DSC scam and asked why the Chief Minister was "trying to protect his son." He accused the administration of "playing with the lives

YSRCP president Y S Jagan Mohan Reddy speaking to the media at party central office in Tadepalli on Thursday

and futures of unemployed youth" by allowing questionable practices to dictate recruitment.

Raising specific concerns, he asked why the preparation and supervision of DSC examination papers were entrusted to a single individual and why the government introduced GO No. 4 and GO No. 47. He questioned the rationale behind altering these GOs after the recruitment process concluded.

Jagan said 372 posts under the sports quota were filled without conducting any examination. According to him, GO No. 4 and GO No. 47 "opened the gates for irregularities," while GO Nos. 23, 25 and 56 were brought in later "to close those gates after the work was done."

He alleged that jobs were given away in violation of norms and claimed that the coalition government stalled APPSC exams

after the DSC controversy erupted, fearing exposure of similar practices. "Jobs were given based on participation certificates for tournaments that never took place," he said, calling DSC 2025 "a gem in Chandrababu's list of scams."

Jagan accused the government of misleading the legislature and said officials were "running out of words" to defend the recruitment process. He cited case-by-case examples, including 39 sports quota appointments allegedly based on fake certificates. He claimed certificates for judo events in Khammam and softball tournaments were fabricated, and that individuals linked to Lokesh's family headed the associations issuing them.

He also pointed to alleged irregularities in Kho-Kho certificates and cited cases from Kurnool and Kadapa districts where candidates reportedly secured jobs despite not meeting TET or reservation criteria.

21 new nutrition centres to boost malnutrition care in AP

- Health minister says new NRCs will add 175 beds, taking the total to 515 across 42 centres
- Six more 10-bed centres sanctioned for 2026-27, adding another 60 beds
- NRCs recorded over 98% recovery among severely malnourished children in recent years

HANS NEWS SERVICE
AMARAVATI

TWENTY-one new nutrition rehabilitation centres (NRCs) will be established across the state to provide specialised treatment and nutritional support to children suffering from severe acute malnutrition (SAM), health minister Y Satya Kumar Yadav said.

In a statement here on Thursday, he said that the new centres will add 175 beds to the existing capacity.

With these facilities becoming operational in phases, the number of NRCs in the State will increase from 21 to 42, while the total bed strength will rise from 340 to 515.

Eight 10-bed NRCs are being established at Araku, Munchingiput and Chintapalli in Alluri Sitarama Raju district, Anakapalli, Bapatla, Nandyal, Sunnipenta and Narasaraopet in Palnadu district. Works have already been completed at Araku and Nandyal and the centres are expected to become operational soon.

Civil works at Munchingiput are under the tender process, while construction and other works are in progress at Chintapalli and Anakapalli.

Seven five-bed Integrated NRCs are also being established in tribal areas at Addateegala and Y. Ramavaram in the Polavaram region, and Salur, Palakonda, Badagiri, Kurupam and Chinamerangi in Parvathipuram Manyam district. Addateegala and Y. Ramavaram centres are

expected to be inaugurated shortly. In addition, six new 10-bed NRCs have been sanctioned for 2026-27 at Madanapalle, Chittoor, Rajamahendravaram, Machilipatnam, Hindupur and Tanuku, adding another 60 beds.

The government has allocated Rs 4.42 crore for NRC infrastructure, staff capacity building, ASHA incentives and maintenance during 2026-27. Another Rs 12.22 crore has been sanctioned annually towards human resources.

NRCs provide specialised medical care and nutritional support to children below five years suffering from SAM and associated medical complications. In 2024-25, 5,961 children were admitted and 5,878 recovered and were discharged, recording a recovery rate of 98.60 per cent. In 2025-26, 6,195 children were admitted and 6,168 recovered. From April to August 2026, 2,492 children were admitted and 2,462 recovered, registering a recovery rate of 98.80 per cent.

Anti-Indian sentiment in US can derail trade relationship

A social media post by the US Department of Homeland Security has created a furore among Indian immigrants in the North American country. The social media post on platform X had an AI-generated poster featuring ‘Transformers’ character Optimus Prime and a brown man with a written message of “Self-deport or find out”. Just a few days back, the US Department of Labour has suspended Permanent Labour Certification Filings- widely known as PERM- of Cognizant as the US authorities investigate alleged fraud in the immigration programme. PERM is a key route for employers to get employment-based green cards for the foreign workers, whom they bring in to the US for executing project work.

Notably, Cognizant is a Nas-

daq-listed company though it was founded by people of Indian-origin. Many believe that the investigation may widen its ambit to other large Indian IT firms in coming days. These two developments in the US shows that anti-immigration sentiment in the US is at its peak.

Surprisingly, most of the hate speech and social media posts are directed at Indians as a major section of Indian immigrants are successful professionals. The MAGA supporter base of Donald Trump is actively flaring such anti-India sentiment. Since the first day of Trump as the President of the US, immigration from India has been facing huge issues.

It began with humiliating eviction of illegal Indians staying in the US. The memory is still fresh how

people were deported in planes with their hands and legs tied on chains. Then came a wave of measures restricting movement of professionals through H1B visa route. H1B- the most popular temporary work visa- has seen entry fee raised to around \$100,000.

Moreover, procedural delay has crept in. Visa appointments are being cancelled abruptly. Visa application processing is also facing undue delay. Amid such restrictive measures, the visa applications of Indian IT companies have gone down significantly. These measures by the US administration show that Indians are no longer welcome in the US.

For decades, the bright and wealthy in India aspire to work and settle in the US. Given the current measures, it seems the route

is slowly getting closed with active discouragement from the US government. Against this backdrop, it is worth evaluating the impact of such a development. For more than three decades, India and the US’ tech industry has been very closely integrated.

From unhindered flow of people to capital, India & US relationship has been built on mutual interest. The ongoing anti-India sentiment is likely to impact that relationship. When companies are no longer allowed to send professionals to the US, they have to shift much of the work back home as the US doesn't have the required STEM talent.

Moreover, rising people-to-people relationship is responsible for more Indian students opting for higher studies in the US. As restrictions pile up, slowly Indian

students are opting for other locations than the US. Though the diplomatic relationship remains strong between India and the US despite irritants, the emerging dynamics in the immigration front will show up in the policy making at some point of time. And that will not be pleasant.

Currently, the Indian startup ecosystem has close relationship with their counterparts in the US. Many leading fund houses of America have been investing billions in India. If anti-India rhetoric continues, decoupling to some extent is expected. All-in-all, derailment of relationship between India and the US may create a lose-lose situation for both nations. In this perspective, some sense of wisdom should prevail among policymakers on both sides.

LETTERS

‘Purification’ corrodes democratic culture

THIS refers to “Dalits up in arms over purification of road after dapuu protest at Erravalli” (Sept 10). Purification rituals after political rallies revives the old caste practice of untouchability, now reengineered as a weapon of party rivalry. Though it appears as a theatrical gesture meant to delegitimise opponents, but it drags public life back into the language of discrimination. When parties extend this symbolism into rallies by “cleansing” spaces, they are essentially staging caste-like differentiation in political form’. Moreover, in Parliament and assemblies, even the seating arrangement has become an analogy for it— ruling party on one side, opposition on the other — a physical enactment of separation. While such seating is procedural, the mindset it reinforces is adversarial rather than collaborative. Will purification rituals be enacted there as well? This is not just ritualistic excess; it corrodes democratic culture. Instead of debating ideas, parties are dramatising purity versus pollution, which questions the very notion of equal citizenship.

Dr O Prasada Rao, Hyderabad

Political differences getting uglier

CONSIDERING the report titled “Ministers meet Governor, complain against BRS over ‘purification’ ritual”, I would like to bring to your notice the complaint made by a delegation of Telangana Ministers to the Governor Shiv Pratap Shukla about the purification ritual allegedly performed by the leaders of BRS at Erravalli. According to the ministers, the act which was allegedly performed by the BRS leaders after Dalit leaders held a protest near the farmhouse of KCR indicated a discriminatory attitude. The ministers were also concerned about the remarks allegedly made and the manner in which Dalit leaders were being treated. It is a very serious matter and needs to be investigated. Differences of opinion in politics should not lead to acts or statements which might affect the dignity of any community. It should be investigated by the concerned authorities and necessary action taken if these allegations are found to be true.

Pulpa Architha, Hyderabad

Address Gen Z issues, don’t pose

AFTER the CJP and Gen Z protests, the PM urged ministers to connect more often with Gen Z through Instagram and other social media. Soon, MPs—and now ministers—began borrowing Gen Z lingo. Suddenly, even the Assam Chief Minister and other ministers are sharing AI-generated “1980s retro” images of themselves. Rahul Gandhi, too, has joined the trend. The images may be amusing, but have politicians misunderstood what Gen Z is saying? The EC had already cautioned political parties and candidates in October 2025 to clearly label AI-generated/synthetic content and follow safeguards. Gen Z doesn’t need politicians to look young or speak their language. They want their concerns heard and addressed. The best way to connect with Gen Z is not through retro AI photos, but by responding to the issues they are raising.

N Nagarajan, Hyderabad

‘Hanuman Ansh’ hits a new high!

THE extraordinary box-office success of the modestly budgeted film Hanuman Ansh proves that genuine storytelling and emotional sincerity still resonate deeply with contemporary audiences. Made without mega-star power, aggressive marketing, or high-tech spectacles, this film is on track to become one of the biggest hits of the year. The movie succeeds because it stays true to its roots. By focusing on the life, teachings, and philosophy of the revered mystic Neem Karoli Baba, it offers a clean, values-driven narrative centered on faith, love, and service to humanity. Its triumph sends a clear message to the film industry: clean dramas devoid of excessive violence, gore, and vulgarity can work wonders at the box office. The movie also shows that an intelligent filmmaker who prioritizes the soul of cinema over glitz and glamour will always find an audience. Hanuman Ansh is a refreshing reminder that powerful characterisation, good music, and a novel subject are the true pillars of filmmaking.

BENGALURU ONLINE

WhatsApp ticket booking facility available for KSRTC, NWKRTC and KKRTC

BENGALURU: The Karnataka State Road Transport Corporation (KSRTC) has been providing an online advance reservation booking facility to make passenger journeys more comfortable and convenient. As part of this initiative, the One Karnataka Mobility App has been developed to bring together the services of the four State Road Transport Undertakings KSRTC, NWKRTC, KKRTC and BMTC on a single digital platform. With a modern and user-friendly interface, the platform is aimed at providing passengers with a simple, seamless and integrated travel experience. The upgraded Mobile App KSRTC AWATAR 2.0 and WhatsApp ticketing facility was launched by the Hon’ble Chief Minister of Karnataka on 10-09-2026, during the 100-day programme held at Vidhana Soudha, Bengaluru. A secure user login facility will enable passengers to authenticate their identity, access details of previous bookings and conveniently manage their transactions. Passengers will be able to register grievances related to all four transport undertakings on a single platform. The system will facilitate tracking of grievance status, escalation wherever required and monitoring of the resolution process. A digital monthly pass facility will be introduced in a phased manner, enabling passengers to book, receive and manage bus passes online. The facility will also provide for QR code-based digital verification.

For the convenience of passengers, Ticket booking through WhatsApp is now available for bus services operated by KSRTC, NWKRTC and KKRTC. Passengers can initiate the booking process by sending message by WhatsApp to number +91 6364940880

The interactive WhatsApp booking system will guide passengers through the complete ticket reservation process, similar to the existing KSRTC online booking system.

THE MENTAL HEALTH OF OUR SOCIETY

K KRISHNA SAGAR RAO

THERE is a mental health crisis around us that we rarely acknowledge. When we speak of mental health, we usually think of depression, anxiety, addiction, loneliness or other clinically recognised conditions. These are undoubtedly serious concerns and deserve professional attention. But there is another, less visible crisis unfolding in our homes, workplaces, friendships and communities, a deterioration in the emotional health of society itself.

I call them the social diseases of our times. They are not psychiatric diagnoses. They are patterns of behaviour, attitudes and emotional dysfunction that are becoming so widespread that they are beginning to influence the way we relate to one another. They manifest themselves in broken relationships, toxic workplaces, bitter family disputes, fractured friendships, workplace politics and an extraordinary inability to disagree without becoming disagreeable.

The paradox is striking. We have never been more connected, yet we seem increasingly incapable of connecting with one another. As someone who has spent years observing organisations, leadership and human behaviour through the lens of Emotional Intelligence, I believe that six particular social diseases deserve our urgent attention.

1. The disease of insufficient consideration

Perhaps the most fundamental social disease today is our declining ability to consider the feelings, circumstances and dignity of another person. We are becoming increasingly self-referential. What I want, what I feel, what I deserve and what I think mostly takes precedence over what another person may be experiencing.

Consideration is not weakness. It is not submission. It is the simple ability to pause before acting and ask: “How will this affect the other person?” In families, this disease appears when spouses stop considering each other’s emotional needs. In workplaces, it appears when leaders treat employees as resources rather than

people. In society, it appears when inconvenience to oneself becomes more important than the legitimate needs of others.

The tragedy is that consideration costs very little. A little patience, courtesy, listening and sensitivity can prevent enormous emotional damage. Yet our increasingly hurried, competitive and individualistic lifestyles seem to be eroding precisely these qualities.

2. Chronic jealousy and the comparison syndrome

Jealousy has always existed. What has changed is its scale, visibility and frequency. Social media has transformed life into a continuous comparison exercise. Someone else’s holiday, house, career, children, wealth, marriage, social circle or success becomes a benchmark against which we quietly measure our own lives.

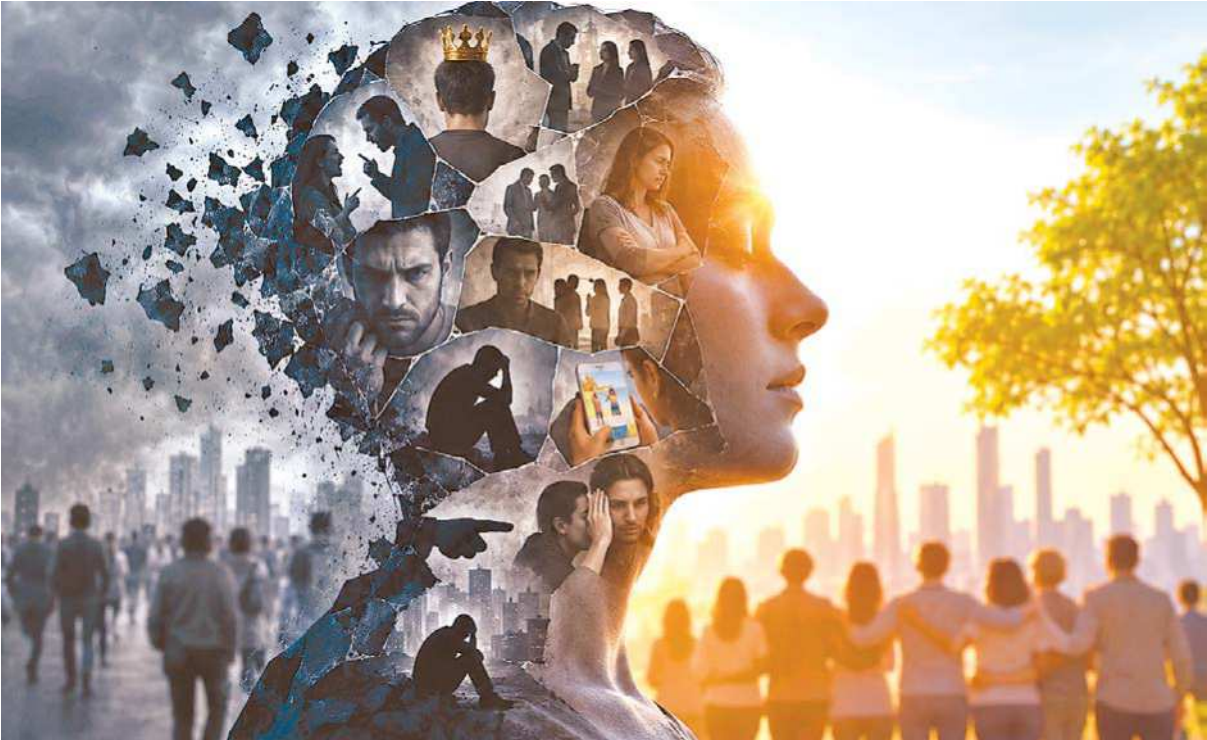

The result is a generation that is increasingly uncomfortable with another person’s success. Healthy competition can inspire us. Chronic jealousy destroys us. It makes us question the motives of successful people, diminish their achievements and sometimes even derive satisfaction from their failures. In organisations, jealousy produces unhealthy politics, withholding of information, sabotage, non-cooperation and resistance to talented colleagues. In families, it can create lifelong resentments between siblings and relatives.

The emotionally intelligent person understands a profound truth: “Another person’s success does not diminish one’s own worth”. We need to move from comparison to self-evaluation, from resentment to genuine appreciation.

3. The trust deficit

Trust is the invisible infrastructure of every healthy relationship. When trust disappears, communication becomes guarded, intentions are questioned, even innocent actions are interpreted suspiciously and relationships become exhausting.

We increasingly live in an environment of suspicion. We doubt what people say. We question motives. We assume hidden agendas. We demand proof where faith and goodwill once existed. The consequences are particularly damaging in families. When trust between spouses deteriorates, every disagreement becomes evidence of betrayal. Financial decisions become sources of suspicion. Friendships become transactional. Even professional relationships suffer when col-

leagues spend more energy protecting themselves than collaborating.

A trust deficit also has an enormous organisational cost. Organisations with low trust require more controls, more approvals, more monitoring and more bureaucracy. Decisions slow down and Innovation suffers. Employees become defensive rather than entrepreneurial. Trust, however, cannot be demanded. It has to be earned through consistency, transparency and integrity.

4. Weaponised communication - the disease of the sharp tongue

Words have always had the power to heal or hurt. Today, however, we seem to be losing our restraint. We speak impulsively, respond instantly and often use words not to communicate but to hurt and caused wounds. The sharp tongue has become a weapon. Sarcasm is mistaken for intelligence and Insults are disguised as honesty. Public humiliation is defined as “telling it like it is”. Arguments quickly become abusive and personal. And once hurtful words are spoken, apologies often arrive too late to repair the damage. Imagine this is happening across all relationships, spouses, colleagues and even between young children and their parents.

Emotional Intelligence demands something very different: the ability to regulate the emotion before expression. Not every thought needs to be spoken. Not every provocation requires a response.

5. Emotional volatility

Another disturbing feature of our times is our declining capacity to regulate emotions. Small disagreements become major confrontations. Frustration quickly becomes anger and a difference of opinion becomes a personal attack.

We increasingly react before we reflect. Emotional volatility is particularly destructive because emotions are contagious. One person’s uncontrolled anger can destabilise an entire family,

I call them the social diseases of our times. They are not psychiatric diagnoses. They are patterns of behaviour, attitudes and emotional dysfunction that are becoming so widespread that they are beginning to influence the way we relate to one another

team or organisation. A volatile leader creates fear. A volatile parent creates insecurity. A volatile spouse creates an environment in which everyone learns to walk on eggshells.

Emotional regulation does not mean suppressing emotions. It means managing them intelligently.

One of the defining characteristics of emotionally intelligent people is their ability to create a small but enormously important space between what they feel and how they respond. That space is where maturity resides.

6. The disease of entitlement

Perhaps the most corrosive disease of all is entitlement, the belief that we are owed attention, respect, success, money, loyalty, recognition or preferential treatment simply because we expect it. Entitlement quietly destroys gratitude.

It makes people focus on what they have not received rather than what they have. It turns relationships into transactions: What have you done for me? What have you given me? What do I get in return?

In marriages, entitlement can turn partnership into scorekeeping. In families, it can create permanent grievances between generations. In organisations, it produces employees who demand rewards without accepting corresponding responsibility and leaders who expect loyalty without demon-

Can We Cure These Social Diseases?

The answer is yes, but there is no medication, app or government programme that can cure them. 5

The cure begins with self-awareness. We must become conscious of our own behaviour before judging the behaviour of others. We must learn to ask ourselves uncomfortable questions:

Am I sufficiently considerate? Do I become jealous of another person’s success? Do people trust me? Do my words heal or hurt? Can I control my emotions when provoked? Am I grateful or perpetually entitled? - These questions belong in our homes, schools and workplaces.

We need to teach Emotional Intelligence as seriously as we teach academic intelligence. Children should learn empathy, listening, conflict resolution, emotional regulation, gratitude and respectful disagreement as fundamental life skills.

Families must create cultures where difficult conversations can take place without humiliation. Couples must learn that winning an argument is often less important than preserving the relationship and parents must model the emotional behaviour they expect from their children.

Organisations, too, must recognise that Emotional Intelligence is not a soft corporate accessory. It is a strategic capability. Leaders who cannot regulate themselves, influenced by rumours, handle disagreement and build trust eventually become liabilities to the organisations they lead.

And perhaps most importantly, we need to rediscover the virtues that modern life is slowly pushing to the margins: kindness, patience, humility, gratitude, restraint, empathy and respect. None of these qualities is old-fashioned.

(Author is a senior BJP leader, Chairman of Nation Building Foundation & a Harvard Business School certified Org.Strategist)

Low water levels in Tungabhadra signal deepening crisis in Kurnool

Villagers allege that indiscriminate sand excavation is rampant at Munagalapadu and Panchalingala

NARENDRA KUMAR
VARIKUNTLA
KURNOOL

THE Tungabhadra River, expected to swell with monsoon waters, instead presents a stark image of crisis in Kurnool district. Large stretches appear deserted amid critically low levels, while large-scale sand excavation continues. Villagers, farmers and nature lovers fear the activity will further deplete groundwater and worsen the already severe water shortage.

Drought-like conditions grip Kurnool and Nandyal districts after a disappointing southwest monsoon. Rainfall data till the first week of September reveal a 55.3 per cent deficit in Nandyal and 46.7 per cent in Kurnool. The prolonged dry spell has left rain-fed and irrigation-dependent farm-

Cracks run through agricultural lands due to lack of water

ers anxious about crop yields and mounting losses.

The shortage has severely affected KC Canal system, which supports nearly three lakh acres directly and another two lakh acres indirectly. Designed to supply 31.90 TMC, the canal is failing to reach lower stretches, causing paddy nurseries to

dry up. Poor inflows into the Tungabhadra and Srisailem reservoirs have forced authorities to prioritise drinking water over irrigation.

Low river levels have also facilitated alleged illegal sand transportation. Villagers claim indiscriminate excavation at Munagalapadu and Panchalingala—neither

identified as authorised reaches—threatens groundwater recharge and local ecology. They demand immediate intervention by the district administration to halt the activity.

Standing crops are under stress. Cotton farmers report poor flowering and boll formation, while delayed sow-

ing of maize and red gram threatens yields. Declining soil moisture and falling borewell levels compound the difficulties. Drinking water supplies in several areas are also under strain as surface and groundwater resources dwindle.

Officials are monitoring stocks closely and prioritising drinking needs. Farmers hope for substantial rain in the coming weeks to boost reservoir inflows and recharge aquifers. Agricultural scientists are promoting drought-tolerant and less water-intensive crops, though farmers say the switch remains hard amid uncertain water availability. With the monsoon continuing to disappoint, the situation demands urgent measures to conserve water, protect groundwater and stop indiscriminate sand excavation.

Commissioner reviews ‘Mana Badi-Mana Bhavishyathu’ works

Inquires about hazardous school buildings

HANS NEWS SERVICE
ANANTAPUR

MUNICIPAL Commissioner Jaswant Rao held a review meeting with headmasters from urban mandal at his office here on Thursday, focusing on the progress of works under the government's initiative ‘Mana Badi - Mana Bhavishyathu’. SE Rajashekar, EE Shakeer Hussain, MEO Venkataswamy, and J Charitha Rani also present.

During the meeting, he inquired about funds utilisation, infrastructure works undertaken, expenditure incurred and remaining balances for each school under ‘Mana Badi’ programme. He gave instructions to the headmasters to complete the works expeditiously. Engineering officials were directed to ensure that engineering assistants prepare cost estimates for any minor repairs needed in schools and complete the work in coordination with the headmasters.

Municipal Commissioner Jaswant Rao speaking at a review meeting in Anantapur on Thursday

The Commissioner specifically noted the dilapidated condition of Arvind Ghosh Municipal School and Chinnai Netaji Municipal School buildings—which were constructed long ago and now developed wall cracks and crumbling roof plaster, posing a risk of imminent collapse—and ordered the officials concerned to take immediate and appropriate action regarding them.

Also, he issued clear instructions regarding minor repairs in other municipal schools across the city, such as issues with toilets, drinking water facilities, classroom flooring, and electrical wiring. Engineering assistants from the respective secretariats were directed to immediately prepare estimates and coordinate with the headmasters to complete these works on a war footing.

Awareness drive on anaemia, child marriages held

RSKS consultant Mallikarjuna and others unveiling posters on anaemia and child marriages in Kurnool on Thursday

HANS NEWS SERVICE
KURNOOL

AN awareness programme on anaemia and child marriages was held on Thursday at Swami Vivekananda Sanskrit High School under Erraburuzu Urban Primary Health Centre. Rashtriya Kishor Swasthya Karyakram (RSKS) consultant Mallikarjuna, participating in the Weekly Iron and Folic Acid Sup-

plementation (WIFS) programme, explained the causes and effects of anaemia to students. He stressed that iron is vital for body and its deficiency lowers haemoglobin levels, causing anaemia. Affected students may face weakness, fatigue and poor concentration, harming academic performance.

Mallikarjuna advised girls to take government-supplied iron and folic acid

tablets regularly after lunch and follow a nutritious diet. He also warned that marriages below 18 are illegal. Early marriage and pregnancy endanger the mother's health and can cause complications in children.

He urged school staff to raise greater awareness of these legal and health risks.

Headmistress Neelaveni, teachers, health worker Sirisha and projectionist Khaleel attended the event.

AI textbook on electrical engineering launched at PVKK

HANS NEWS SERVICE
ANANTAPUR

Dr G Srinivasan and Dr B Hariprasad have authored Artificial Intelligence Applications in Electrical Engineering, a textbook introducing AI technologies to electrical engineering students.

Released at PVKK Institute of Technology on Thursday, the book covers practical uses such as power system monitoring, fault detection, load forecasting, system analysis, automation, and smart grids. The authors designed it to make AI fundamentals and modern applications accessible,

aiming to spark student interest amid the growing role of AI solutions in the power sector.

At the launch, Chairman Dr Krishna Kishore urged students to embrace AI, machine learning, and automation beyond traditional engineering knowledge, noting that such publications foster innovation and research mindsets. Principal Dr B Ramesh Babu highlighted the book's value as a resource aligning technical education with industry needs. College management affirmed its commitment to research-oriented, industry-relevant programmes.

Historian unveils 1509 origins of Tadipatri's historic temple

HANS NEWS SERVICE
TADIPATRI

IN a major breakthrough, historian MyNaa Swamy has revealed that the outer walls, entrance towers and wedding hall of Sri Bugga Ramalingeswara Temple in Tadipatri were commissioned by Vijayanagara Emperor Veera Narasimha Raya.

Announcing the findings on Thursday, he said a rare Telugu-Sanskrit inscription, documented by the ASI in 1923 but never fully deciphered, dates the work to May 4, 1509. The edict, issued in Salivahana Saka 1431, records that Prime Minister Saluva Timmarusu personally initiated construction of the bhoga mandapam, prakaram and gopurams.

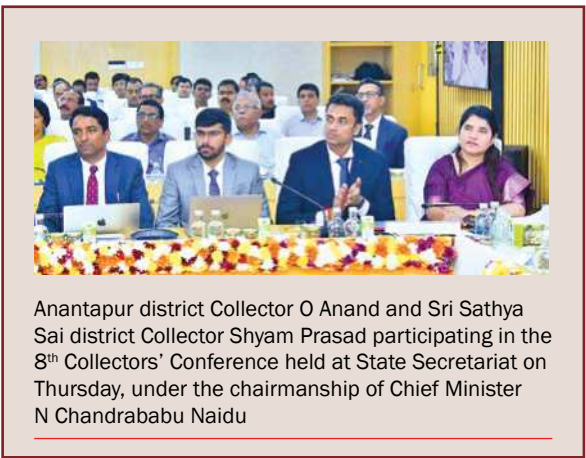

He also renamed a village Veera Narasimhapuram and dedicated its revenue to the temple's rituals.

MyNaa Swamy, who visited the site with former MLA JC Prabhakar Reddy, noted that the emperor died soon after, marking an im-

portant early chapter of the Tuluva dynasty.

Consequently, this discovery serves as a vital milestone in understanding the dawn of Tuluva dynasty's rule and the broader architectural heritage of the Vijayanagara Empire.

Anantapur district Collector O Anand and Sri Sathya Sai district Collector Shyam Prasad participating in the 8th Collectors' Conference held at State Secretariat on Thursday, under the chairmanship of Chief Minister N Chandrababu Naidu

Switch to alternative crops: MLA

HANS NEWS SERVICE
KALYANDURG

MLA Amilineni Surendra Babu has advised farmers to cultivate alternative crops amid El Niño. On Thursday, he held a review meeting at 'Praja Vedika' with agriculture department officials, including Joint Director Salu Reddy, Assistant Directors and Agriculture Officers.

The MLA said the State

government is taking measures to distribute seed balls and is making arrangements to supply seeds for alternative crops. He urged farmers to avoid loss by switching to

less-water-intensive crops. He also instructed officials to record details regarding the number of farmers in the constituency, who have not yet sown their crops.

200 bags of PDS rice seized

HANS NEWS SERVICE
HOLAGUNDA
(KURNOOL DISTRICT)

DISTRICT Civil Supplies Officer (DSO) Rajaraghuvver seized large quantities of PDS rice, illegally stocked in residential premises in EBC Colony, Cinema Road and other areas of Holagunda mandal headquarters late on Wednesday evening.

Acting on credible information, the DSO conducted raids along with CS DTI Deepa, Tahsildar Lakshmiraju and SI Dileep Kumar. While searching a house in EBC Colony, officials found 15 bags containing 6.25 quintals of rice and seized the stock.

Later, they seized 189 bags containing around 77 quintals of rice at another house on Cinema Road.

The house owners and some locals entered into an

argument with the officials, claiming that the seized rice was not PDS stock but had been procured from farmers. However, officials suspected that PDS rice might have been mixed with the stock and decided to send samples to the laboratory in Kurnool for testing.

Tahsildar Lakshmiraju said the laboratory report will come in two days. He said cases would be registered against those responsible, if PDS rice is there in seized stocks. The entire stock has been kept under the custody of revenue officials pending the test results.

Gooty Fort commemorative stamp proposal nears final approval

HANS NEWS SERVICE
ANANTAPUR

ANANTAPUR MP Ambica Lakshminarayana Valmiki's proposal for a commemorative postage stamp on Gooty Fort has advanced to a key stage. After review, the Union Ministry of Communications and Department of Posts have forwarded it to the Union Minister of Communications for final approval. The Department noted that Gooty Fort, one of Andhra Pradesh's largest forts and a centrally protected monument under Archaeological Survey of India since 1921, bears wit-

ness to successive eras under the Chalukyas, Vijayanagara Empire, Mughals, Marathas, and British. Its multi-level ramparts, bastions, ancient pathways, water systems and Sri Raghunathaswamy Temple underscore its historical, architectural, and cultural value. No stamp has been issued for the fort so far. The MP has also sought exemption from the mandatory purchase of one lakh stamps. Approval would grant national recognition to Anantapur's heritage and boost its development as a tourism hub. "Showcasing our rich history is my responsibility," the MP said.

Coles Telugu Baptist Church marks 108th anniversary

HANS NEWS SERVICE
KURNOOL

THE 108th annual celebrations of Coles Telugu Baptist Church in Kurnool will be held from September 11 to 13 with spiritual, cultural and sports programmes. Church president A Solomon and secretary RE Anil Nath announced special prayer services and events.

Founded in 1917 by missionary Dr John Newcombe with support from Dr Ackerman Coles, the Gothic-style church was completed in 1919.

Known for its high arches, rosewood work, tall spire, bells and clock, the nearly 100-foot structure stands as a regional landmark.

Programmes include Bible quizzes, devotional songs, skits, Kolatam and sports. Rev Dr S Sudarshan and Rev B Charles Theodor will deliver messages. Prizes will be awarded on September 13 evening.

Prawn farmers stage protest

HANS NEWS SERVICE
NELLORE

PRAWN farmers from Gudur and Kota mandals under Prawn Farmers United Forum (PFUF) on Thursday staged protests at GMT, GVR and Penver processing plants, alleging that processing units and exporters were forming a syndicate and purchasing prawns at reduced prices.

They said the price of 30-count tiger prawns is Rs 430 per kg at present, which was Rs 580 per kg a month ago. They said the sharp fall in prices had made it difficult for farmers to recover their cultivation costs and that they were uncertain about when traders would purchase their produce or stop procurement.

The farmers also alleged that feed companies had increased feed prices by Rs 26 per kg in violation of APSADA Act, resulting in a steep rise in production costs. They criticised the government and senior officials of Fisheries department for failing to take action to control the rising input costs. Later, they held discussions with processing unit managements. The managements assured the farmers that they would discuss the issue with their association and convene a joint meeting with representatives of prawn farmers within two or three days to discuss and decide on remunerative prices.

State convener of Prawn Farmer Federation D Gopinath, District Prawn Farmers' Federation leaders D Jaganmohan Rao, A Manohar Reddy, J Venka Reddy and Nadendla Ravindra Babu and others participated in the protests.

SVIMS eyes digital governance to streamline patient services

TIRUPATI: Sri Venkateswara Institute of Medical Sciences (SVIMS) is set to embark on a technology-driven governance initiative aimed at making healthcare delivery more transparent, efficient and patient-friendly, with plans to eventually extend the reforms to other medical institutions managed by Tirumala Tirupati Devasthanams (TTD).

The proposed programme on Digital Good Governance and Transparency comes in the wake of a presentation by Dr M Srinivas of AIIMS, New Delhi, on 'Digital Solutions for Good Governance & Transparency in Medical Institutes'. The session showcased technology-based practices followed by AIIMS in patient services, administration, procurement, human resources, medical education, research and institutional management.

The proposed reforms would focus on integrating technology into various stages of a patient's interaction with the hospital. These could include appointment scheduling, registration, outpatient consultations, diagnostic investigations, treatment and feedback mechanisms. Such integration is expected to minimise queues and delays while reducing confusion and limiting the scope for unwanted intermediary intervention.

Womenia

WHAT TODAY'S WOMEN REALLY LOOK FOR

Saree

BEYOND DESIGN

DILEEP KUMAR GOLI

A saree purchase rarely begins and ends with whether the design is attractive. In our conversations with customers, women often ask practical questions first. Will the fabric feel heavy after a few hours? Is it easy to drape? Does it need special care? Can it be worn again after the wedding? These questions reveal what now shapes the purchase. Design may attract attention, but usefulness often decides what a woman takes home.

This is especially clear among women who want to wear sarees beyond major weddings. They are buying them for office celebrations, family lunches, religious occasions, festive dinners and smaller functions.

A beautiful saree that needs constant adjusting will not serve all these settings. Its weight, fall, softness and breathability matter. Even when choosing silk, customers pay attention to how comfortably they can

The consumer is also better informed. Terms such as "pure silk" or "traditional weave" are no longer enough on their own. Shoppers want clear information about the fabric, weaving style, zari, care requirements and price. When considering a Kanchi pattu or Mysore silk saree, they want to understand what distinguishes

guishes it and why that difference matters. This does not weaken the appeal of heritage. It allows women to appreciate the craft while knowing exactly what they are paying for.

Versatility also enters the decision. Many women consider the blouse, jewellery and future occasions before finalising a saree. They want to know whether it can be styled differently for a family wedding, a festival or a formal event. Versatility does not mean choosing something plain. It means selecting a saree that leaves room for personal styling and does not become limited to a single photograph or occasion.

The way women shop has changed as well. A saree may first catch their attention on Instagram, but the decision depends on accurate colours, close-up visuals and useful product details. Inside a store, customers value someone who understands the occasion, explains the options and respects the stated budget. Good service is not about presenting the largest number of sarees. It is about helping the customer make a choice she will remain satisfied with.

Perhaps the most important shift is that more women are choosing sarees for themselves. Family traditions and recommendations still carry meaning, but the final choice is increasingly personal. One woman may choose a classic silk because it reminds her of her mother. Another may pick an unexpected colour simply because it feels right on her. The saree is not being worn only to meet an expectation. It is being used to express individual taste.

For a saree brand, these changes affect everything from product selection to customer service. Visual appeal still opens the conversation, but comfort, authenticity, rewear value, styling freedom and honest guidance complete the purchase.

The new Indian saree consumer is not moving away from tradition. She simply expects it to fit the way she lives now. When a saree feels right, wears well and is explained honestly, she has a reason to return.

(The writer is a CEO, MISSAMMA)

Artistes from Hyderabad present 'Krishnanjali' at ISKCON Dwarka

Artists from Hyderabad, Telangana, presented a soulful Kuchipudi dance programme titled "Krishnanjali – An Offering to Lord Krishna through Kuchipudi Natyam" at ISKCON Dwarka, New Delhi, as part of the Divine Janmashtami celebrations. The presentation featured students of Jyothi Kalakshetra, Hyderabad, under the guidance and choreography of Jyothi Reddy, Natya Guru and Choreographer.

The programme brought together classical dance, devotion and spirituality, with the artists offering their prayers to Lord Sri Krishna through Kuchipudi. The presentation featured four compositions — Pushpanjali, Dashavataram, Swagatham Krishna and Tarangam.

The programme commenced with Pushpanjali, a traditional salutation offered to the Lord of Dance, Guro, musicians and audience. Presented in Ragam Nattai and Talam Adi, the piece was performed by Godi Anagha Devi.

The energetic Dashavataram depicted the ten incarnations of Lord Vishnu — Matsya, Kurma, Varaha, Narasimha, Vamana, Parashurama, Rama, Krishna, Buddha and Kalki. Presented in Ragam Mohana and Misra Chapu Talam, it was performed by P. Sri Vaishno Devi, Lalitha Sri Pinapala, Harshitha Kairamkonda, Yuvasre Phane Surya and Ishanee Khare from Gurgaon.

Swagatham Krishna, the popular Carnatic composition by Oothukkadu Venkata Subbaiyer, brought a joyful devotional mood to the programme. Presented in Ragam Mohana and Talam Adi, the piece was performed by Godi Vijetha Devi Sathish Reddy. The presentation concluded with Tarangam, a distinctive

Kuchipudi item in which dancers perform rhythmic sequences while dancing on the rim of a brass plate. Presented in Ragam Mohana and Talam Adi, Tarangam featured P. Sri Vaishno Devi, Lalitha Sri Pinapala, Harshitha Kairamkonda, Yuvasre Phane Surya and Ishanee Khare. Speaking on the presentation, Jyothi Reddy, Natya Guru and Choreographer, said, "Kuchipudi is not merely

a performing art; it is a path of devotion, discipline and connection with our cultural roots. Every time our dancers perform, it becomes an expression of deep devotion and a way of serving God through our cultural traditions. Presenting Krishnanjali at ISKCON Dwarka was a deeply spiritual experience for our students. We hope that such performances inspire the current generation as well as future generations to understand, respect and carry forward our rich cultural heritage."

Established in Hyderabad in 2018, the school of arts has grown from a small group of students to more than 150 students trained in Kuchipudi to professional standards. Jyothi Reddy has performed at several prestigious cultural and spiritual platforms in India and abroad and has received honours including the Nritya Ratna Award, Mahatma Gandhi Memorial Award and Shri Shakthi Award, among other recognitions.

Godi Vijetha Devi Sathish Reddy, who performed Swagatham Krishna, said, "For me, performing Kuchipudi at ISKCON Dwarka was not simply a performance; it was an offering. The dancers are deeply inspired by the classical dance tradition and the cultural values underlying it. Every performance becomes an expression of our devotion and an opportunity to serve God through our culture."

Through such presentations, we hope to inspire the present generation and future generations to remain connected with our traditions, culture and Sanatana Dharma."

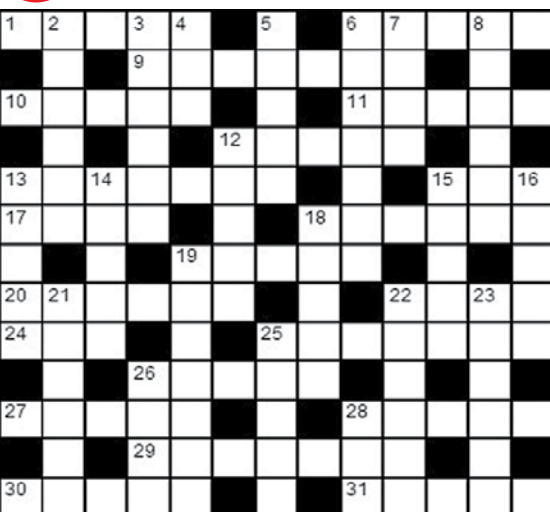

The presentation featured young dancers P. Sri Vaishno Devi, Lalitha Sri Pinapala, Harshitha Kairamkonda, Yuvasre Phane Surya, Ishanee Khare and Godi Anagha Devi, who came together to present their art in New Delhi. P. Sri Vaishno Devi, the great-granddaughter of the inspirational philanthropist G. Pulla Reddy, continues to pursue Kuchipudi with dedication and devotion.

The event reflected the collective efforts of the students, music orchestra, supporting families and dedicated technicians, who strive in their humble way to preserve and promote Sanatana Dharma, Indian traditions and cultural heritage. The performers, inspired by the spiritual foundation and cultural values of classical dance, view every performance as an expression of deep devotion and a meaningful way of serving God through culture.

Through their dedication to Kuchipudi, the young artists seek to keep India's spiritual and artistic traditions alive and make them meaningful for the present generation while inspiring future generations to respect, preserve and carry forward the country's rich cultural heritage.

Scholarships		PART-I
Scholarship Name 1:	LIC Golden Jubilee Scholarship 2026-27	
Description:	The LIC Golden Jubilee Scholarship Scheme 2026 is being offered by the LIC Golden Jubilee Foundation. The scholarship is a financial award designed to support meritorious students belonging to economically weaker sections, providing them with better opportunities for higher education and employment.	
Eligibility:	The application is open to meritorious students who have secured at least 60% marks or an equivalent CGPA in Class 10th or 12th/equivalent examinations during the academic years 2023–24 to 2025–26. For the General Scholarship, applicants must have taken admission in the first year of one of the listed academic programmes in 2026–27. For the Special Scholarship, applicants must have taken admission in the first year of Intermediate/10+2, vocational or diploma courses. The annual family income for both the categories must not exceed ₹4.5 lakh.	
Prizes & Rewards:	An award of up to ₹50,000.	
Last Date to Apply:	30-09-2026	
Application mode:	Online Application Only	
Short Url:	www.b4s.in/hans/LICC1	
QR Code:	https://dle9eg0t055l3.cloudfront.net/static/images/scho-media/lic-golden-jubilee-scholarship-2026-271788792351.png	
Scholarship Name 2:	IDFC FIRST Bank Engineering Scholarship Programme 2026-30	
Description:	A promising engineering career should not be limited by financial constraints. The IDFC FIRST Bank Engineering Scholarship Programme 2026-30, an initiative by IDFC FIRST Bank, supports deserving first-year B.E. and B.Tech. students from modest family backgrounds with financial assistance of up to ₹1 lakh per year for four years. The scholarship aims to ease the cost of engineering education and help students continue their studies and pursue their career aspirations with confidence.	
Eligibility:	• Must be an Indian citizen. • Open to students enrolled in the first year (academic year 2026-27) of their B.Tech or B.E. program. • Must have secured admission to one of the FIRST IMPACT empanelled colleges. • The gross annual family income from all sources must be less than or equal to INR 6 lakh. • Applicants must have a valid mobile number linked to their Aadhaar number. • IDFC FIRST Bank employees and their family members are not eligible to apply.	
Prizes & Rewards:	INR 1,00,000 per year for up to four years.	
Last Date to Apply:	20-09-2026	
Application mode:	Online applications only	
Short Url:	www.b4s.in/hans/IFBES2	
QR Code:	https://dle9eg0t055l3.cloudfront.net/static/images/scho-media/idfc-first-2026-301787580725.png	
Scholarship Name 3:	OakNorth Scholarship and Mentorship Programme 2026-27	
Description:	The OakNorth Scholarship and Mentorship Programme 2026-27 supports underprivileged women pursuing STEM degrees. It is available to female students from Jharkhand and Bihar who have completed Class 12 and are enrolled in a STEM undergraduate program at government institutions.	
Eligibility:	• Open to domiciled students of Jharkhand or Bihar. • Only female students are eligible to apply. • Applicants must be pursuing the 1st-year of a graduation degree in STEM (Science, Technology, Engineering, Mathematics) subjects at a government university or college in India. • Applicants must have scored a minimum of 75% marks in Class 12. • Annual parental income must not exceed INR 3,00,000 from all sources.	
Prizes & Rewards:	INR 30,000 (one-time, fixed amount)	
Last Date to Apply:	20-09-2026	
Application mode:	Online applications only

Scholarship Name 4:	SBI Platinum Jubilee Asha Scholarship 2026	
Description:	The SBI Platinum Jubilee Asha Scholarship 2026-27, an initiative of SBI Foundation, supports meritorious students from economically disadvantaged backgrounds across India. It covers students from Classes 9 to 12 to undergraduate, postgraduate, medical, IIT, IIM and eligible overseas programmes.	
Eligibility:	• Open to Indian nationals studying in Classes 9 to 12, undergraduate, postgraduate, MBBS, IIT or IIM programmes. Overseas Studies is open only to SC/ST Indian nationals. • Applicants must have at least 75% marks or 7.0 CGPA; SC/ST applicants receive a 10% relaxation. Annual family income must not exceed INR 3 lakh for school students and INR 6 lakh for other categories. • General UG/PG institutions must have NAAC Grade 'A' or above or be among the Top 300 in NIRF Overall 2025-26. Medical applicants must study at AIIMS or a Top 50 NIRF medical institution. • Overseas applicants must study at a Top 200 QS/THE-ranked institution and have a valid offer or acceptance letter. Category-specific entrance or proficiency scores may apply.	
Prizes & Rewards:	Scholarships ranging from INR 15,000 to INR 20,00,000 per academic year will be awarded depending on the scholarship category. (*T&C Applied)	
Last Date to Apply:	19-09-2026	
Application mode:	Online applications only

AI and its integration with education: Building a future for students

DR ATUL CHAUHAN

India is entering a period of significant change in education as Artificial Intelligence (AI) becomes increasingly integrated into industries, governance, healthcare and other areas of society. For higher education institutions, this shift brings the responsibility of preparing students to work with AI while also understanding its limitations, ethical implications and impact on society.

According to the 2024 Advancing India's AI Skills: Interventions and Programmes Needed report by NASSCOM and Deloitte India, India's AI talent pool is projected to grow from 600,000–650,000 to more than 1.25 million between 2022 and 2027. The broader AI market, particularly software and services, is also projected to grow at a 25–35 per cent compound annual growth rate through 2027.

For universities, these developments underline the need to integrate AI education into academic programmes. Used thoughtfully, AI can support personalised learning, assist teachers, expand access to educational resources and help students develop skills relevant to emerging careers.

Supporting personalised learning

AI-based systems can analyse aspects of student performance and recommend lessons, exercises or practice material. Students who require additional support can receive further explanations and practice, while those progressing faster can be given more challenging tasks.

However, such systems should complement rather than replace teacher judgement. Educators remain important in understanding students' individual circumstances and providing academic and personal guidance.

Supporting teachers and classrooms

AI can also assist educators with tasks such as lesson planning, organising learning materials and routine assessments. By reducing some

administrative responsibilities, technology could allow teachers to devote more time to mentoring, classroom discussion and creative learning.

The role of teachers remains central because education involves more than the delivery of information. Empathy, encouragement, ethical guidance and an understanding of students' social and emotional needs cannot be reduced to automated systems.

Expanding access to learning

India's linguistic and geographical diversity presents another area where AI could contribute. Digital platforms such as DIKSHA and SWAYAM have expanded access to educational resources. AI-enabled translation, speech recognition and text-to-speech technologies could further support students who learn in regional languages or require accessibility features.

Rural and remote learners could also benefit from AI tutors, digital laboratories and career-guidance tools. However, these possibilities depend on reliable electricity, affordable devices, internet access and systems capable of functioning in low-bandwidth or offline environments.

Preparing students for an AI-enabled workplace

Universities in different parts of the world

are experimenting with interdisciplinary approaches to AI education, combining technical learning with problem-solving, projects and applications across disciplines.

For students, technical knowledge alone may not be sufficient. They will also need to understand how to evaluate AI-generated information, identify limitations, verify outputs and apply human judgement. These skills will be relevant across sectors including healthcare, agriculture, finance, manufacturing, education and public services.

India's education system must therefore approach AI as a tool that works alongside human intelligence. Investment in computing infrastructure, teacher training, regional-language technologies, ethical safeguards and inclusive access will be important to ensure that AI reduces rather than widens educational inequalities.

The future of education will not be secured by AI alone. Its value will depend on how effectively institutions combine technological capabilities with human judgement, responsible use and meaningful learning. By taking this balanced approach, education can help students become capable and ethical participants in an increasingly AI-enabled world.

As Artificial Intelligence becomes part of education and the wider economy, universities face the task of preparing students for an AI-enabled future. Thoughtful integration of AI can support personalised learning, assist teachers and expand access to educational resources. At the same time, students need skills to evaluate AI-generated information, understand its limitations and apply human judgement. The future of education will depend on balancing technology with ethical safeguards, teacher guidance and inclusive access to ensure AI supports meaningful and equitable learning

UoH Professor Rajadurai Chandrasekar elected INSA Fellow

Prof. Rajadurai Chandrasekar of the School of Chemistry, University of Hyderabad (UoH), has been elected as a Fellow of the Indian National Science Academy (INSA), with the fellowship taking effect from January 2027. The recognition acknowledges his contributions to materials science, nanoscience and photonics research.

With the fellowship, Prof. Chandrasekar will become a Fellow of all three National Science Academies of India. He is also a Fellow of the Royal Society of Chemistry (RSC), UK. His research work has received recognition through several awards, including the SERB-STAR Research Award, the Materials Research Society of India (MRSI) Medal and the YIM Boston Young Scientist Award.

Prof. Chandrasekar has also been listed among the top 2% of scientists globally in the field of Nanoscience and Technology in a Stanford University-based global ranking. He has an H-index of 47 and serves on international editorial boards of journals covering materials chemistry and science.

His research group works on miniature, all-organic photonic microsystems designed to guide, modulate, split and process light. The research has potential applica-

tions in areas such as optical communication, sensing, computation, robotics and space technologies.

Prof. Chandrasekar has also contributed to the development of the field of "Mechanophotonics", which combines mechanical micromanipulation with crystal photonics. His work in this area explores the development of all-organic photonic integrated circuits and new approaches to controlling light at the microscale.

His current research includes AI-driven soft materials for programmable optical communication devices, supported by the J. C. Bose Grant. The interdisciplinary research brings together artificial intelligence, soft materials and photonics to explore optical technologies with programmable functions.

The INSA fellowship adds to Prof. Chandrasekar's academic and research recognitions and highlights the role of interdisciplinary research in areas connecting chemistry, materials science, photonics and emerging technologies. His work also reflects the growing use of advanced materials and computational approaches in developing new technologies for communication, sensing and other applications.

Spaces that inspire learning and discovery

Libraries have long been more than quiet places filled with books. They are spaces where people discover information, develop new interests and learn at their own pace. From school libraries to public and university libraries, these spaces continue to play an important role in supporting education and lifelong learning.

For students, a library can provide an environment away from everyday distractions. It offers access to textbooks, reference materials, newspapers, journals and digital resources that can support classroom learning. More importantly, spending time in a library can encourage students to explore subjects beyond their prescribed syllabus. A student researching a science project, reading about history or simply discovering a new author can begin to develop the habit of learning independently.

Libraries also help preserve knowledge. Books, manuscripts, newspapers and other records document ideas, experiences and discoveries across generations. Today, many libraries are combining traditional collections with digital archives, making information accessible in new formats while continuing to protect valuable physical resources.

Another important role of

libraries is bringing people together. Reading groups, workshops, exhibitions, lectures and community programmes can turn libraries into shared learning spaces. Such activities allow people of different ages and backgrounds to exchange ideas and learn from one another.

Technology has also changed the way libraries operate. Students can now use online catalogues, e-books, academic databases and digital archives alongside printed materials. Learning how to find reliable information, evaluate sources and use digital resources responsibly is becoming an important skill in education. Libraries can therefore contribute to more than academic performance. They can encourage curiosity, concentration, critical thinking and independent learning. They also provide an opportunity to slow down, read carefully and engage with ideas without the pressure of constant digital notifications.

AHF Junior Asia Cup 2026

Indian women demolish Pak 19-0, storm into semis

MOQI (CHINA): India produced one of the most emphatic victories of the 2026 Women's Junior Asia Cup, dismantling Pakistan 19-0 in their quarterfinal on Thursday to move within two wins of a third successive continental title.

The defending champions needed only seven minutes to break the deadlock, with Puja Sahoo finding the net. Roshni Aind doubled the advantage two minutes later, and what followed was a relentless Indian assault that left Pakistan struggling to contain the pace and frequency of attacks.

India added four more goals in the next five minutes. Tanushree Dinesh Kadu and Sukhveer Kaur struck in the 11th and 13th minutes respectively, with Sanika Chandrakant Mane also scoring in the 13th minute. Madhu Sidar and Geeta Yadav then extended the advantage before Mane returned to score her second in the 23rd minute. Tanuja Toppo and Pooja Malik completed India's first-half scoring, while Purnima Yadav's 33rd-minute goal ensured the team went into the interval with a staggering

10-0 lead. There was no let-up after the restart. Madhu Sidar scored again in the 39th minute before Supriya opened her account a minute later. Malik then took centre stage, scoring in the 49th and 51st minutes to complete her hat-trick. Krishna Sharma and Binima Dhan added further goals as India continued to pile on the pressure. Supriya struck again in the 54th minute, while Roshni capped the extraordinary performance with her second goal in the final minute of the match.

The 19-goal haul came after India had already demonstrated their strength during the group stage, finishing top after victories over Japan, Malaysia and South Korea.

India will now await the winner of the South Korea-Malay-

sia quarterfinal for their semi-final clash. The result leaves the reigning champions just two victories away from a hat-trick of Junior Women's Asia Cup crowns, having lifted the trophy in 2023 and 2024.

For Pakistan, meanwhile, the quarterfinal turned into a one-sided contest almost from the outset, with India's sustained attacking pressure producing goals across all four quarters.

India's goals: Puja Sahoo (7'), Roshni Aind (9', 60+), Tanushree Dinesh Kadu (11'), Sukhveer Kaur (13'), Sanika Chandrakant Mane (13', 23'), Madhu Sidar (16', 39'), Geeta Yadav (18'), Tanuja Toppo (25'), Pooja Malik (27', 49', 51'), Purnima Yadav (33'), Supriya (40', 54'), Krishna Sharma (48'), Binima Dhan (55').

East Zone clinch Duleep Trophy after 13 years

Kishan, Quraishi shine; East Zone win on first innings as match drawn

CHENNAI: East Zone clinched the Duleep Trophy for the third time on Thursday after overcoming South Zone via first innings at the M.A. Chidambaram Stadium. The triumph ended East Zone's 13-year drought, with its previous title coming in the 2012-13 season.

Resuming their second innings, East Zone rode on a maiden first-class century from Md Kounain Quraishi (116 not out off 190 balls) and Anukul Roy's 64 before declaring at 388/7 in 99.2 overs. Quraishi reached his century in the 96th over, while his seventh-wicket partnership with Roy extended to 150\.

South Zone were also penalised five runs for slow over-rate. East Zone's title was built on a mammoth first-innings 708, featuring captain Is-han Kishan's 270 and Kumar

Kushagra's 101. Kishan added 80 in the second innings to finish with 350 runs in the match. Jharkhand talents Kushagra and Shikhar Mo-han, who scored 85 on debut, also played key roles.

South Zone pacer Mo-hammed Siraj bowled nine consecutive overs despite the result being virtually decided. After Kishan declared, celebrations erupted, with players dancing on the turf. Kishan and Vaibhav Sooryavanshi waved to spectators, with Sooryavanshi also joining the celebrations with a stump in hand.

BRIEF SCORES:

East Zone 708 and 388/7 in 99.2 overs (Md Kounain Quraishi 116, Ishan Kishan 80; MD Nidheesh 2-28, CV Milind 1-27) draw with South Zone 336 (Tilak Varma 99; Mukesh Kumar 3-62).

Services miss QF as Inter-Dept Hockey reaches knockouts

HYDERABAD: After six days and 40 matches, the 6th Hockey India Senior Men Inter-Department National Championships 2026 enters the knockout stage, with the quarterfinals scheduled at Gachibowli Hockey Stadium on Friday. Defending champions

Food Corporation of India and Canara Bank players in action

Petroleum Sports Promotion Board (PSPB), runners-up Comptroller & Auditor General of India (CAG), Food Corporation of India (FCI), Railway Sports Promotion Board (RSPB), Sports Authority of India (SAI), Punjab National Bank (PNB), All India Police Sports Control Board (AIPSCB) and Central Board of Direct Taxes (CBDT) made the last eight. Services Sports Control Board, who had finished third last year, missed out despite winning three of four matches in Pool C, finishing level on nine points with AIPSCB and CBDT. AIPSCB topped with a +7 goal difference, CBDT were second at +6, while Services managed +4. Their 5-2 loss to CBDT proved costly. CBDT, who with two wins and two draws. CAG were unbeaten in Pool B with four wins, although two were narrow 5-4 victories. SAI finished second. RSPB also won all four matches, scoring 27 goals and conceding four. FCI advanced after another strong finish outside the top 10 last year, secured a quarterfinal berth. PSPB topped Pool A with three wins and a draw, while PNB advanced with two wins and two draws. CAG were unbeaten in Pool B with four wins, although two were narrow 5-4 victories. SAI finished second. RSPB also won all four matches, scoring 27 goals and conceding four. FCI advanced after another strong league campaign. The quarterfinals line-up: PSPB vs SA I, RSPB vs CBDT, CAG vs PNB and AIPSCB vs FCI.

World Archery Para Series Stage III

India finish second with 15 medals including 4 gold

AHMEDABAD: Hosts India finished their campaign at the World Archery Para Series Stage III with the highest overall medal tally of 15 — four gold, three silver and eight bronze — but placed second behind the Czech Republic, who topped the standings with five golds. China finished third with two gold, six silver and five bronze medals.

The event served as an important international test for India ahead of the Aichi-Nagoya 2026 Asian Para Games, scheduled from October 18 to 24.

Paralympic champion Harvinder Singh led India's gold rush, winning the para recurve men's doubles with Vijay Sundi and mixed team gold with Bhawna. Shyam Sunder Swami and Toman Kumar won compound men's doubles gold, while world champion Sheetal Devi claimed compound women's individual gold; Sarita took bronze.

India's silvers came through Bhawna-Pooja, Tanvi Ingale and Swati Chaudhary-Adil Mohammed Nazir Ansari. Bronze winners included Yugal Garg, Swati, Sheetal-Toman, Toman, Bhawna, Swati-Vasundhara Teotia and Adil-Vinayak Breed. Swati and Adil each secured two medals, while Bhawna won three.

The W1 discipline is for athletes with severe impairments affecting both upper and lower limbs and the torso.

17th South Zone Shooting C'ship

Future City Police Inspector James wins bronze medal

HYDERABAD

FUTURE City Police Commissionerate Inspector B James Babu won a bronze medal in the Standard Pistol event at the 17th South Zone Shooting Championship – Rifle & Pistol 2026, held in Thiruvananthapuram, Kerala.

His performance brought recognition to the Future City Police Commissionerate and the Police Department, high-

lighting his discipline, sustained practice and commitment to competitive shooting while continuing to discharge his professional responsibilities.

Inspector James Babu thanked Future City Police Commissioner Dr Tarun Joshi, IPS, for his continued encouragement, support and motivation towards sporting excellence among police personnel. He said the Commissioner's encouragement had inspired

him to pursue excellence both in policing and competitive shooting.

"I dedicate this achievement to the blessings of God and to the constant encouragement and support of my senior officers, colleagues, family and fellow shooters," James Babu said. He also expressed gratitude to Dr. Tarun Joshi for encouraging sporting talent and motivating police personnel to excel at national and international levels.

Commissioner of Police Dr. Tarun Joshi, IPS, felicitates Inspector B James Babu at the Future City Police Commissionerate office in Ranga Reddy district here on Thursday.

Suicide of MPSC aspirant

It's a murder by system: Dipke

DHARASHIV: Cockroach Janata Party (CJP) founder Abhijeet Dipke on Thursday termed the suicide of MPSC aspirant Prathamesh Deshmukh as a "murder done by the system," and said the government should ensure that incidents like this do not happen again.

He also said that people were demanding reservation as the government has completely failed in providing quality education and jobs to the youth.

Deshmukh (28), who was preparing for the Maharashtra Public Service Commission (MPSC) examinations allegedly died by suicide in Pune with a note left behind by him mentioning that he had a debt of around Rs 2.5 lakh. He was a native of Paranda in Dharashiv, and was staying in a rented accommodation in Navi Peth area while preparing for competitive exams.

Dipke on Thursday visited Khasapuri village in Dharashiv and met Deshmukh's grieving family members.

Talking to reporters later, Dipke said Deshmukh went to Pune with a dream to get a job and take his family out

of poverty. "He borrowed money from friends to meet his expenses. But due to paper leaks and delayed results, pressure mounted on students. This (Deshmukh's suicide) is system's fault and it is a murder done by the system," he alleged.

Deshmukh took the extreme step as he was fed up with the system, unemployment and financial condition of youth in rural areas, the CJP convenor said.

"Prathamesh stayed in Pune and used to have a meal only once a day due to his financial condition. According to his mother, Prathamesh used to say that he would come home in a government car, but unfortunately he was brought here in an ambulance yesterday. His father has already passed away,"

Dipke said.

The MPSC aspirants from the rural areas face a challenge of meeting their expenses in a city like Pune, he added.

"He (Deshmukh) had borrowed Rs 2 lakh to Rs 2.5 lakh from his friends...A youth had to end his life for this much amount. This is the condition of our youth in rural areas because there is no employment," he said.

"Prathamesh was preparing for MPSC exams and we all know what is happening in the MPSC. Exams are not conducted properly, the results are improper and paper leaks also take place. How will the youth from rural areas survive in a city like Pune? How will they pay the money required for library, food, rent and coaching? This

is a question that haunts the youth from rural areas," he said.

"Prathamesh left the village with a dream to become an officer, then how can he return without cracking the exams? For this, he did everything that he could. He stayed there (in Pune) for four years by curtailing his expenses. There are thousands of youths like him," he said.

Talking about the quota issue, Dipke claimed that since people have lost faith in the government they were asking for a constitutional remedy.

"The government cannot give good facilities. If they get good facilities, good schools and education and opportunities, why would anyone ask for reservation? People are asking for reservation because the government has completely failed in giving quality education and providing jobs. People have lost faith in the government so they are seeking constitutional remedies," he said.

Dipke also said the CJP earlier only supported the agitation by the MPSC aspirants, but now it will also get involved in the agitation.

Keralam minister calls for action to curb organ trade

'Practical decisions needed in transplant cases'

THIRUVANANTHAPURAM: Keralam Minister K Muralaeeharan on Thursday said organ trading must be strictly prevented, but stressed that appeal committees should take practical decisions to protect patients' lives when transplantation applications are rejected.

In a Facebook post, the state Health minister said legal experts on the appeal committees should pay particular attention to the issue while examining applications for organ transplantation.

He was speaking after inaugurating 'Smriti Vandhanam 2026', organised by the Kerala State Organ and Tissue Transplant Organisation to remember deceased organ donors and honour their family members.

The minister honoured the families of 39 deceased donors who donated organs between August 2025 and August 2026.

"Organ trading must be strictly prevented. At the same time, when appeal committees reject applications, legal experts should ensure that the patient's life

is not put at risk and that practical decisions are taken to save the patient's life," he said.

Muralaeeharan described the families of organ donors as an unparalleled example to society, saying they had come forward to help save other lives despite the immense grief caused by the loss of their loved ones.

"The pain of losing a loved one, especially a child, is unbearable. That families come forward to make such a sacrifice for another life even in such moments of intense grief is a noble act that must not go unrecognised by society," the minister added.

'Chhatron Ki Goonj' in Indore on Sept 19

NEW DELHI: Congress leader Rahul Gandhi on Thursday announced that his fifth edition of the Chhatron ki Goonj initiative will be held in Madhya Pradesh's Indore on September 19 and asserted that it is essential to hear the voice of every student in the country to change the system.

Gandhi has held four Chhatron ki Goonj events in Kota, Dehradun, Prayagraj and Pune. The last one in

Pune on August 22 was for girl students.

In a post in Hindi on X, Gandhi said, "My dear students, youth and India's Gen Z, the entire country is watching with you as today a broken education system has extinguished the flame of your hopes and pushed your future into darkness."

"Through Chhatron ki Goonj, I am meeting you in different cities to understand your challenges. As part of

this campaign, on September 19, I will once again be among you in Indore," the leader of opposition (LoP) in the Lok Sabha said.

But to change this system, it is essential to hear the voice of every student in the country, their pain and their opinion, he said.

"Go to the link below and tell us — what is stopping you from achieving your dreams? You can also reach us by making a video.

"Your problems. Your suggestions. Together, we will bring hope back," Gandhi said and shared the link for feedback of students.

In a video along with the post, Gandhi said the idea behind the Chhatron ki Goonj programme is to listen to what the students and the country feel and to allow students to express themselves.

"The objective of the Chhatron ki Goonj programme is to keep before

the country your thoughts, expression and fears. And also raise the issues that our students want raised," he said in the video.

He urged students to convey what needs to be done to restore hope among students in India's education system.

Jailed Hindu leader gets parole for mother's funeral

DHAKA: Bangladesh authorities on Thursday granted five-hour parole to jailed Hindu rights leader Chinmoy Krishna Das to attend his mother's funeral, local media reported.

The Hindu monk was arrested in November 2024 on sedition charges for allegedly disrespecting the national flag, which sparked protests and communal tensions.

Chattogram District Deputy Commissioner (DC) Mohammad Zahidul Islam Mia ordered the Hindu

leader's release on Thursday afternoon following an application from his family, The Daily Star newspaper reported.

Chinmoy's mother, Sandhya Rani Dhar, 70, was undergoing treatment at a hos-

pital in Hathazari and died early morning on Thursday.

"Following an application by his brother over the death of his mother, we have passed an order to release Chinmoy Krishna from jail on parole for five hours in accordance with the law," the newspaper quoted DC Zahidul Islam Mia as saying.

Swatantra Gauranga Das Brahmachari, vice-president of ISKCON's Prabartak Sri Krishna Temple, confirmed the decision, bdnews24.com news portal reported.

"India's energy transition lies in building a diverse, balanced and resilient energy portfolio suited to its geography, resources and development needs. Renewable energy has emerged as a powerful instrument of energy security, economic growth, technological progress and employment generation."
-Shripad Yesso Naik, Union Minister of State for Power (New & Renewable Energy)

BIZ BRIEFS

iQOO unveils Z11xa 5G

iQOO has launched the Z11xa 5G in India, featuring a MediaTek Dimensity 7400-Turbo processor, 7,200mAh battery with 44W Flash-Charge and a 6.76-inch 120Hz FHD+ display. The smartphone offers a 50MP Sony main camera, 32MP selfie camera, IP68/IP69 protection and OriginOS 6 based on Android 16. The device goes on sale from September 14 through Amazon, iQOO's website and retail outlets.

SBI Life's initiative

SBI Life Insurance, in partnership with the Paralympic Committee of India, felicitated India's para-athletes following their seven-medal haul at the Glasgow 2026 Commonwealth Games, comprising three gold, two silver and two bronze medals. Amit Jhingran, MD, SBI Life Insurance, said: "The awe-inspiring stories of our para-athletes need to be told to the world. Every time a para-athlete wins, it is a win for the society, it speaks volumes about the inclusive cultural fabric of this great nation."

NephroPlus opens centre

NephroPlus has launched the NephroPlus International Dialysis Academy (NIDA) to train nursing graduates in India and the Philippines for specialised dialysis care and international careers. Its first nodal centre opened in Banjara Hills, Hyderabad. Rohit Singh, Group CEO, NephroPlus, said: "Skilled renal-care manpower is in short supply globally, and NIDA is built to address that gap. Through a structured curriculum of specialised training, hands-on clinical exposure, and coaching in soft skills and language."

PI Industries unveils product

PI Industries has launched CARVINT (Flometoquin 10% SC), a next-generation insecticide for controlling Thrips and Diamond Back Moth in chilli, cabbage and cauliflower. Saket Bhatnagar, CEO India Brands, PI Ag-Sciences, said: "Farmers today are navigating growing pest resistance, frequent spray requirements, shorter control duration and rising crop-management costs. CARVINT brings a differentiated mode of action that provides farmers with a new tool for effective and sustained pest management."

Amazon Pay expands portfolio

Amazon Pay and Kotak Mahindra Bank have announced the Amazon Pay Kotak Business Credit Card for sole proprietors and small business owners registered with Amazon Business. The card offers up to 5 per cent cashback on eligible Amazon Business purchases for Prime members, up to 48 days of interest-free credit and No Cost EMI options. It also provides cashback on bills, recharges and other spending, alongside AWS-related offers.

Brent crosses \$105 on Iran war, Saudi output slump

PROLONGED CONFLICT RAISES FRESH FEARS OF ENERGY-DRIVEN INFLATION

NEW DELHI

BRENT crude oil prices climbed above \$105 a barrel on Thursday, reaching their highest level since May 25, as renewed fighting between the US and Iran raised concerns over prolonged disruptions to global energy supplies. Strong Chinese buying and a sharp decline in Saudi Arabia's oil output added further momentum to the rally.

Brent crude futures were up 2.63 per cent at \$104 a barrel at 5:55 pm IST, extending a rally that pushed the global benchmark above the \$100 mark in the previous session for the first time since July. The latest surge has renewed fears that a prolonged conflict in the Middle East could fuel energy-driven inflation, with natural gas and diesel prices also rising sharply. The conflict has intensified over the past week after

a period of relative calm, with little indication of an immediate de-escalation. A senior Iranian official said Tehran has no intention of backing down in the face of a US naval blockade and would escalate attacks if Washington continues striking Iranian territory.

US President Donald Trump has also indicated that the conflict could continue until after the November midterm elections, while warning that significant relief in gasoline prices may not come before

then. The comments have reinforced expectations that the conflict, now in its seventh month, could continue to exert pressure on energy markets.

Brent prices have risen about 30 per cent from lows recorded in early August after efforts to secure a permanent agreement between the US and Iran to halt attacks failed to materialise. Fighting resumed later in August, adding to concerns over the security of crude supplies from the Gulf region.

Rupee sinks deeper as oil shock returns

MUMBAI: The rupee depreciated 38 paise to close at 95.46 (provisional) against the US dollar on Thursday, as Brent crude breached the USD 102 threshold, mounting concerns over the country's import cost trajectory.

Forex traders said the currency is currently facing opposing forces, with downside pressure driven by a resumption of foreign portfolio outflows, following positive flows in July and August and crude oil trading above USD 102 per barrel. At the interbank foreign exchange market, the rupee opened at 95.15 against the US dollar, then lost ground to close at 95.46 (provisional) against the

American currency, registering a loss of 38 paise from its previous close. On Wednesday, the rupee slumped 34 paise to close at 95.08 against the American currency.

"The rupee has depreciated back towards 95.45, and it is important to understand that this is an oil-driven move rather than a dollar move, since the dollar itself is at multi-month lows," said Anindya Banerjee, Head of Commodity and Currency Research, Kotak Securities.

Talent shortage, not funding, biggest hurdle for defence startups: Apollyon

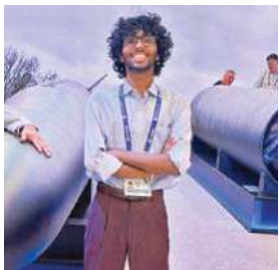

Hyderabad startup says specialised skills are harder to find than capital

SRIKANTH GODAVARTHI
HYDERABAD

INDIA'S rapidly expanding defence tech ecosystem may be attracting more capital and institutional support, but finding people capable of building highly specialised systems is emerging as a bigger challenge for young companies, according to Hyderabad-based defence startup Apollyon Dynamics.

"For us, capital has not been as big a challenge as hiring specialised talent," Apollyon Co-Founder Jayant Khatri said. "Building groundbreaking technology requires people with very specific skills, and finding that talent, especially for the defence space, is difficult because there is still a significant skill gap," he said.

The observation comes as Apollyon, founded in May 2025 by Khatri and Sourya Choudhary while they were completing their degrees at BITS Pilani Hyderabad, has moved rapidly from student

Apollyon Co-Founder Jayant Khatri

built prototypes to systems supporting the Indian Army. The startup says it secured its first deployment in Jammu within seven months of incorporation and its systems now support the Army at eight stations, including Chandimandir, Ranchi, Secunderabad and Arunachal Pradesh.

Its portfolio has also expanded from FPV drones and field support systems to more complex platforms, including the Ahuti electric interceptor and the Nightshade family of jet powered uncrewed aircraft.

That technological pro-

gression, however, has made specialised manpower increasingly critical. "Our biggest competitive edge is our team of young, hungry and ambitious builders who are willing to solve hard problems," Khatri said. But building such a workforce is not straightforward. Training engineers to work on highly specialised defence and aerospace systems takes considerable time, while the pool of people with experience across areas such as high performance propulsion, autonomous systems, embedded electronics and advanced airframes remains limited, he pointed out. "Training people to work on highly specialised systems also takes time, so building and retaining that team has been one of our biggest challenges, but also one of the most important things we have invested in early on," he said.

Khatri is currently in Poland attending MSPO, the International Defence Industry Exhibition in Kielce, one

of Europe's major defence industry events. The exhibition brings together defence companies, armed forces and technology providers from across the world, giving Indian startups an opportunity to engage with global players and study emerging technologies and potential partnerships.

For Apollyon, the international exposure comes as it looks to build capabilities beyond individual products and develop a larger technology and engineering base.

As funding and military demand improve, the ability to find, train and retain specialised engineering talent could determine how quickly startups move from promising prototypes to deployable systems.

For young companies working across drones, autonomous systems, propulsion and advanced aerospace platforms, access to specialised manpower could increasingly become as important as access to capital.

GCCs fuel Hyderabad's next realty wave, says FICCI

City hosts 500-plus centres, with residential sales rising 12%

HANS BUSINESS
HYDERABAD

THE Federation of Indian Chambers of Commerce and Industry (FICCI), in partnership with knowledge partner ANAROCK, hosted the conference "FICCI India Next Growth Frontier: Hyderabad 2035: India's Global Capability Capital" in Hyderabad on Thursday.

Talking about Hyderabad's Real Estate Footprint of GCC Expansion, industry leaders said that the city's rapid emergence as a major hub for GCCs is reshaping its real estate market, talent landscape and urban infrastructure.

VV Rama Raju, Chairman, FICCI Telangana State Council, emphasised the economic multiplier effect that GCCs exert on the region. Highlighting that Hyderabad now hosts over 500 GCCs employing more than 3,00,000 professionals—accounting for 20 per cent of India's GCC workforce—Rama Raju outlined how in-

(L to R) Santhosh Kumar, Group Vice Chairman, Anarock, VV Rama Raju, Chairman, FICCI, Telangana State Council and Founder & MD, Gaja Engineering, SP Reddy, Chairman and MD, Terminus Group and Peush Jain, MD, Anarock at a media briefing in Hyderabad

coming global investments directly fuel commercial leasing, residential demand, and retail growth.

Peush Jain, MD, ANAROCK, said: "That the city offers world-class infrastructure spanning over 1.4 billion square feet of development, positioning it among the top global investment destinations."

The conference also saw the release of the knowledge report "Hyderabad – The Rise of a Global Capability Powerhouse," which examines the city's expanding role

as a destination for GCCs, technology-led investment and cross-sector economic growth.

Speaking at the event, SP Reddy, Chairman, Terminus Group, said: "Hyderabad recorded 5.2 million sq ft of commercial space absorption during the first half of 2026, with GCCs accounting for an estimated 40-45 per cent of the market. The momentum in the commercial sector has also supported residential demand, with sales rising 12 per cent year-on-year to about 23,700 units."

Govt cracks down on fake discounts and search manipulation

NEW DELHI

THE government has amended the Consumer Protection (E-Commerce) Rules, 2020, to tighten norms on price transparency, sponsored listings, search result manipulation and dark patterns, the Department of Consumer Affairs said on Thursday.

The Consumer Protection (E-Commerce) (Amendment) Rules, 2026, will come into force from January 1, 2027. Under the new rules, e-commerce entities must disclose both the reduced price and "prior price" whenever a discount is announced. The prior price will be the lowest price at which the product was offered during the 30 days preceding the discount.

Platforms will be barred from manipulating search results in ways that mislead

consumers or affect the relevance of results. Sponsored listings must carry clear and prominent disclosures.

E-commerce entities will also have to comply with the Guidelines for Prevention and Regulation of Dark Patterns, 2023, conduct an annual self-audit and display a certificate of compliance.

They must become partners in the National Consumer Helpline's convergence process. The NCH received 17,71,622 grievances in 2025, with 5,11,196, or about 29 per cent, related to e-commerce. Every entity must provide complainants a copy of complaints recorded by its grievance officer.

New-age economy poised to hit \$300 bn by FY31

NEW DELHI

INDIA'S new-age economy is projected to triple to USD 300 billion in revenue by financial year 2030-31, closely approaching the scale of the country's IT services sector, according to a report by Redseer Strategy Consultants.

A new-age economy is driven by AI, knowledge capital, and digital innovation. The combined revenue of domestic new-age companies is estimated to rise from USD 33 billion in FY22 to around USD 100 billion in FY26, before growing at 25 per cent annually to touch the USD 300-billion mark by FY31, the report noted.

According to Redseer, consumption-led sectors comprising consumer goods, retail, and leisure will remain the cornerstone of this expansion, growing at 25 per cent annually to reach USD 150 billion by FY31 and accounting for nearly half of the

overall market. Meanwhile, emerging technology sectors such as technology, media, and telecom (TMT), artificial intelligence (AI), and advanced manufacturing are projected to grow at 26 per cent annually.

On operational performance, the report highlighted that the collective profit pool turned positive in FY25, staging a turnaround to USD 1.4 billion. However, profitability remains heavily concentrated. "BFSI alone is 140 per cent of the FY25 pool; take it out and every other sector put together is still loss-making," the report stated, adding that a USD 300-billion top line by FY31 implies a total profit pool of USD 5-10 billion (2 to 3 per cent margin), compared

to 12-18 per cent for listed FMCG firms and 20-25 per cent for IT services. The report also pointed out that the time required for consumer goods brands to achieve scale has significantly compressed. Owing to the rapid expansion of direct-to-consumer (D2C) channels and quick commerce, the average time taken to reach Rs 100 crore in revenue fell from 6.8 years for brands in 2016 to 3.4 years for the 2020 cohort. Similarly, the time to hit Rs 500 crore halved from 7.9 years to 4 years. Redseer expects the number of new-age consumer brands with revenues above Rs 100 crore to surge from roughly 90 in FY22 and 230 in FY26 to approximately 500 by FY31. However, scaling beyond the "Rs 500-crore wall" remains a key hurdle due to the requirement of building deep offline distribution networks, modern trade capabilities, and working capital infrastructure.

Equity MF inflows jump 19% to ₹29,329 crore

NEW DELHI

EQUITY mutual fund schemes attracted Rs 29,329 crore in August, their highest net inflow in four months, as investors continued to favour mid- and small-cap funds despite market volatility.

According to data released by the Association of Mutual Funds in India (AMFI) on Thursday, equity inflows rose nearly 19 per cent from Rs 24,697 crore in July.

Retail participation through systematic investment plans (SIPs) also remained strong, with monthly contributions touching a record Rs 32,297 crore in August, compared with Rs 31,961 crore in July and Rs 28,265 crore in August 2025. Cumulative SIP collections in the first five months of the current financial year stood at around Rs 1.6 lakh crore.

The overall mutual fund industry, however, saw net inflows fall sharply to Rs 41,353 crore in August from Rs 2.36 lakh crore in July,

mainly due to a reversal in debt-oriented schemes.

Debt schemes recorded a net outflow of Rs 8,127 crore in August against an inflow of Rs 1.88 lakh crore in July.

Assets under management of the mutual fund industry rose 1.5 per cent to about Rs 87.08 lakh crore at the end of August from Rs 85.76 lakh crore in July. Small-cap funds attracted the highest equity inflows at Rs 7,973 crore, followed by mid-cap funds at Rs 6,989 crore and flexi-cap funds at Rs 5,059 crore. Large-cap funds, however, saw a net outflow of Rs 1,147 crore. "Since the market bottomed in March, mid- and small-caps have led the rally, while large caps have remained laggards," said Santhosh Joseph, CEO, Gernimate Investor Services.

FATIMA SANA SHAIKH promotes regional cinema at J&K Film Festival

Actress Fatima Sana Shaikh speaks on the importance of regional cinema at the first International Film Festival of Jammu and Kashmir 2026, held in Srinagar. The actress said that regional films are all about portraying the real life of that particular region and not the perception of it by someone else. As her mother is from Kashmir, the actress felt that visiting the Valley was special and that the region could soon become a popular film destination. Fatima also spoke lovingly of Dargal co-star Zaira Wasim.

The actor's September 2026 cover story for Lifestyle Asia India saw her pose in her latest designer outfits while she discussed her plans for the year. Since she has no films this year, fans are now waiting for her next project.

'EYE Bomma' trailer released; promises a gripping social thriller

The trailer of EYE Bomma, an upcoming Telugu film starring Banoth Pawan, Gautham, Narmada and Satish, was unveiled at a grand gathering at Hyderabad today. Directed and produced by Vijay Raghunathabhatla under Sri Mallanna Creations, the film is set for an international theatrical release soon.

The film dwells on a modern-day social issue and narrates the story of a man who goes through various phases in life before taking up a sheath against society. The film also delves deep into his psyche, action and also the reason that leads to his conflict with the system.

Director Vijay revealed that he had finished the script overnight while the entire

film was shot in 15 days. He said the idea struck him while interacting with people about the EYE Bomma piracy website and wanted to probe deep into their activities and the reason behind their initiation.

Making his debut as the lead actor, Banoth Pawan says that the director provided him with a great platform after his tryst with the industry. While Gautham plays the role of DSP Vikram, Satish is also a part of the star cast.

Producer Kuruva Jamanna says that his love for movies motivated him to venture into film-making despite being from an agriculture family. Praising the trailer, guest of honor Rama Satyanarayana and producer Raja appreciated Vijay's work.

'Jai Gowriputra Ganesha' trailer speaks about student mental health

The audio and trailer of Jai Gowriputra Ganesha, the maiden production of Vatsalya Audio and Video Illustrations, were launched at a grand event in Preview Hall of Telugu Film Chamber in Hyderabad. Writer, director and producer Swami Srivatsalya Dharma Veera presided over the event that was attended by a few personalities of the film industry, political leaders and spiritual scholars.

The film speaks about the increasing academic stress among students and the importance of saving them from falling into the trap of suicide. Besides, the movie throws light on how the unhealthy race for exams, marks, home-work and positions will affect an overall growth of the new generation.

My 26 years of deep study and experience on Vedic Dharma Shastras inspired me to use this art form (movie) to preach ethical values and humanity to the younger generation. This movie also explains how Indian culture, traditions and values can be helpful to develop emotional wellbeing and healthy relationships, said Swami Srivatsalya Dharma Veera.

Telugu Film Producers Council Secretary Tummala Prasanna Kumar and Joint Secretary Tummalapalli Ramasatyanarayana appreciated the film's social message, while actor Gharshana Srinivas and Sri Daiwajna Sharma welcomed the initiative of promoting the Vedic values among the young generation. Starring Gharshana Srinivas, Karate Kalyani, Srimani, Maruthi Sakaram, Damaam Abhilash, Kavya Sri, Divyasri, Raja Ramakrishna Varma, Chandramukhi Chandrasekhar, Tiruveedhula Jayaram and others, the movie's team feels the film will help open up dialogues for parents, students and society.

V Vijayendra Prasad unveils title poster of 'First Bench Premakatha'

The title poster of the upcoming Telugu film First Bench Premakatha has been unveiled by V. Vijayendra Prasad. The legendary writer and Rajya Sabha MP congratulated the team and wished them luck.

Presented by Vedula Balakameswari and produced under the banners of Mega Films and Sai Samhita Creations, the film is directed by Venkataramana S, the man behind Mercy Killing.

First Bench Premakatha narrates a love story between two toppers that takes a turn towards their studies, ambitions, and families. This film promises to take the audience through the exciting journey of young love, where the protagonist's romance had an adverse effect on their studies, ambitions, and parents.

The film's story is set in the challenging competitive

exam environment where the protagonist deals with the expectations of their parents, studies, love, and career. It promises to take the audience through the exciting journey of first love, first crush, and the dilem-

mas of Gen Z, dealing with the adverse effect of love on ambitions and parents.

Kollabathina Joshna Rani, Nakka Haribabu, and K. Ramesh Chandra are the producers, while Shrivakoti Bobby, Pathan Waleekhan,

and Kakarapalli Raju are the executive producers.

With an intriguing plot twist, the film aims to recreate the magic of first love while exploring the dilemma of love versus career and family.

'AH' glimpse builds suspense ahead of Oct 9 release

The makers of AH have created more hype over the upcoming thriller by releasing the first glimpse titled as 'Bloody Hunger'. The film stars Rahul Vijay and Archana Iyer and is set to release worldwide on October 9, 2026.

The Bloody Hunger glimpse, which does not have any dialogues, uses atmospheric visuals, rapid editing and a chilling background score to set the tone for the mysterious world. This video contains a lead-up to an investigation into the disappearance of young girls and a sinister force that seems to be operating.

Rahul Vijay is seen as a determined police officer investigating the case while Archana Iyer is seen in

intriguing glimpses that add to the mystery. The words "Ammayi, Adrushyam, Anveshana" provide the central theme of investigation for the film and the final glimpse leaves many questions unanswered.

Sri Charan Pakala's frightening background score enhances the suspense along with Monish Bhupathi Raju's cinematography while Abhinav V. Kunapareddy and Garry BH handle the editing.

Directed by Sai Baali and produced by Kanaka Rao Tonangi, Abhishek K and Garry BH, AH is the production venture of Star Box Stories and Ripple Slide Studios. The latest glimpse has made us more curious about the dark thriller.

'Missing Meghana' promotions gain momentum

The much-anticipated missing Meghana is all set to hit the theatre screens on September 18, and it is all set to release across 150 plus screens. Panchumarthi Naresh Babu is the producer of the film under the banner of First copy movies and KD & Co. The emotional thriller is directed by Vachaspathy.

The film stars Ram Karthik, Ammu Abhirami, Vaidika Senjalia, and Ankit Kooya in the lead roles alongside Goparaju Ramana, Vempa Kasi, Kaushik, Mahipal, Ruchita, Nalini, Srinivas, Azeem, and Pandu in the supporting roles.

The promotions of the film have gained tremendous attention, as the teaser and three songs launched till now garnered decent responses.

The songs are doing well online, and RR Dhruvan's music has received appreciation for the fresh feel. Apart from that, the camera work of Shyam K Naidu has also garnered attention.

The promotions of the film started with the director V.V. Vinayak launching the first look and title poster of the film. Later, the first song Pilla Pilla was unveiled by producer Suresh Babu, and the second song was revealed by Dil Raju, the producer of the film. Third song was unveiled by writer-producer Kona Venkat and Matcha Ravi.

Director Vachaspathy shared that the trailer of the film will be out soon, and Naresh is optimistic about the film's final version and business.

I poured my blood, sweat and tears into it: Udaya Bhanu about 'Panchanama'

The first-episode screening and press meet of the Telugu ZEE5 Original Panchanama took place at Prasad Labs, Hyderabad on September 9. The crime thriller is set to premier on 11 th September. The show promises to keep the audience engaged with its crime, mystery and emotional drama.

The thrilling series is directed by Mohan Srivatsa and stars Bharath Srinivasan as Jai Ram, Medha Reddy, Shivaji Raja, Surya Srinivas, Srija, Radhika Preethi, Charan

Babu and Shiva Karthik Danda. Actress Udaya Bhanu while talking about

the ZEE5 series said that Panchanama is a project which goes beyond a

regular crime thriller. She further added that they have put in so much of their blood and sweat into the project because of the emotional content and her bond with the character.

Post the screening, the cast and crew met the media persons and interacted with them. The team discussed their experience while working on the show and talked about the various challenges of working on such a complex crime based series. Panchanama will stream on ZEE5 from 11 th September.

'Kaagitham Padavulu' trailer promises an unexpected experience

The trailer for the upcoming Telugu love story film "Kaagitham Padavulu," starring Vardhan and Krishnapriya, was released before its theatrical premiere on September 18. This movie was directed by MGR Thukaram and produced by Keerthana Naresh, T.R. Prasad Reddy, Venkatarama Anjanappa under multiple banners.

Director MGR Thukaram expressed confidence in the content of the film and claimed that the spectators would be surprised by the climax. He also stated that they had worked hard and promised that the film would

provide an unexpected experience for the spectators. Vardhan asserted that the entire team had given their best, and he hoped that the viewers would en-

joy it. He also said that the experience of making the Kaagitham Padavulu was an unforgettable one, and he urged them to witness it on the big screen.

Furthermore, Krishnapriya called the film a good family entertainer and acknowledged the director for giving her a meaningful role. Anjanappa said that they remained committed to the story and made the film without any compromise on its quality. Keerthana also thanked the team for the incredible work and dedication, especially the director and Vardhan.

Their previous glimpse attracted the attention of many, which increases the anticipation for the romantic drama's release. Asian Suresh Entertainment has scheduled the release of Kaagitham Padavulu on September 18.
