

9 L acres of freehold land to be opened for registration

- Revenue minister says registration for 9 lakh acres will be allowed; inquiry underway into irregularities in 4 lakh acres
- 22A cleanup gains pace with 28 lakh acres removed and fresh applications being cleared
- Blockchain reforms and Re-Survey 2.0 aimed at delivering accurate, tamper-proof land records

HANS NEWS SERVICE
AMARAVATI

THE coalition government is committed to finding a permanent solution to long-pending land disputes in Andhra Pradesh and ensuring full ownership rights to landholders, revenue minister Anagani Satya Prasad said.

Addressing the Collectors' Conference at the Secretariat here on Thursday, the minister said registration would be allowed for 9 lakh acres of freehold land that had been found compliant with the prescribed rules under the

previous government. However, a decision on another 4 lakh acres, where irregularities have been identified, would be taken after a detailed inquiry, he said.

The minister said 28 lakh acres had already been removed from the prohibited 22-A list.

The government had issued GO No. 444 to simplify the process of removing land from the 22-A list. Of the 28,790 acres for which applications had been received under the new procedure, 1,100 acres had already been removed from the prohibited list, while decisions on

Revenue minister A Satya Prasad greets Chief Minister N Chandrababu Naidu at the Collectors' Conference on Thursday

the remaining applications would be taken soon. Under GO No. 445, whenever private land is proposed to be included in the 22-A prohibited list, the concerned official would have to establish the nature and status of the land, he said.

The Minister warned that

strict action would be taken against officials who include private lands in the prohibited list in violation of the rules.

He said ownership rights had been restored to thousands of people in several long-pending cases, including Vatticherukuru,

Shettipalli, Pulladigunta, Kangundi, Avulapalli and Gootupalli, besides four areas in Konaseema district. In the Kaikaluru constituency, more than 2,000 acres in four villages had also been removed from the prohibited list following the initiative of the local MLA.

The minister said the government was implementing the 'Mee Bhoomi - Blockchain Technology' project to provide a permanent solution to land-related issues and directed Collectors to continuously monitor its implementation.

He also said Re-Survey 2.0 was being carried out efficiently to avoid the mistakes of the previous government.

While expressing satisfaction over growing public confidence in the Survey Department, he directed officials to ensure that the re-survey was conducted with 100 per cent accuracy.

Naidu's 'silent revolution' in irrigation: Keshav

- Handri-Neeva launch and Polavaram canal water release mark major irrigation gains, says the finance minister
- Drip irrigation cost slashed from Rs 16 to Rs 1.60 per metre, boosting horticulture in Rayalaseema

HANS NEWS SERVICE
AMARAVATI

FINANCE minister Payyavula Kesav said a 'silent revolution' was underway in the state's irrigation sector under the leadership of Chief Minister N Chandrababu Naidu, aimed at ensuring water security for every farmer and every family in the state.

Addressing the Collectors Conference on Thursday, Kesav said the Chief Minister's commitment to the irrigation sector had resulted in the launching of the Handri-Neeva project and the release

of water from the Polavaram Left Main Canal. Ministers and district Collectors gave a standing ovation to Chandrababu Naidu in recognition of his efforts towards strengthening irrigation infrastructure. Kesav said while the completion and launching of major irrigation projects were visible to everyone, the relentless efforts of the Chief Minister, who worked day and night to push forward several projects, often went unnoticed.

He said Chandrababu Naidu was the first to introduce drip irrigation in the State. The cost of drip irrigation, which was earlier around Rs 16 per metre, had now come down to Rs 1.60 per metre. This had made drip

irrigation more accessible to farmers and turned it into a major boon for horticulture in the Rayalaseema region, helping create greater wealth for farmers. The finance minister recalled that several political parties and individuals had initially opposed the Pattiseema Lift Irrigation Project. However, the project was now playing a crucial role in stabilising the Krishna delta ayacut. He said around 500 TMC ft of water had been diverted to the Krishna river through Pattiseema, equivalent to filling the Prakasam Barrage nearly 200 times.

Kesav said the Chief Minister's commitment to irrigation development had also received national recognition, with a leading English daily describing Chandrababu Naidu as a 'CEO CM' and a 'water man'. Thanking the ministers and collectors for the recognition, Chandrababu Naidu said it was the collective responsibility of everyone to ensure water security for all people and all regions of Andhra Pradesh.

State uses GST data for real-time economic tracking

- Manufacturing GVA estimated at ₹1.75 lakh cr, with 19.6% growth till July

HANS NEWS SERVICE
AMARAVATI

ANDHRA Pradesh is leveraging GST and commercial taxes data to develop a real-time mechanism to assess economic activity and estimate Gross Value Added (GVA) across key sectors, commercial taxes department chief commissioner Babu A said. Addressing the 8th Collectors' Conference, Babu said the GST-based assessment of manufacturing activity indicated 19.6 per cent year-on-year growth up to July, compared with about 18 per cent growth recorded up to the first quarter. The estimated manufacturing GVA stood at around Rs 1.75 lakh crore.

He said the GST-based estimate was closely aligned with the planning department's first advance estimates, which are based on sample surveys, with a variation of only about 0.6 percentage points. The close correlation demonstrated the potential of GST data for real-time economic assessment, he said.

The commercial taxes department has developed an AI-based analytical methodology to calculate GVA

Babu A

using GST data generated by manufacturing units. E-way bill data is also incorporated to improve accuracy by tracking the movement of goods into and out of the State.

The platform provides district-wise heat maps of manufacturing activity and enables collectors to drill down to individual manufacturing units, including their declared value and contribution to the sector.

Babu said GST returns, largely filed between the 18th and 20th of every month, could provide an early indication of economic activity in the preceding month, paving the way for monthly "now-casting" of economic growth. A similar methodology has been developed for the construction sector using GST data from around 65 relevant HSN categories, including cement, iron and steel. The estimated construction GVA was around Rs 1.25 lakh crore, against Rs 1.29 lakh crore estimated by the Planning Department, a variation of about 3.2 per cent.

Real-time assessments have

also been undertaken for trade, hotels and restaurants, real estate, communication and broadcasting, while work is underway to cover mining and electricity. Babu said GST and commercial taxes data would also help create a comprehensive database of MSMEs. Data relating to around 20.08 lakh MSMEs has been identified, including about 2.42 lakh in the GSTN system. To cover enterprises outside the GST network, the department is integrating GST information with electricity consumption data and NIC codes. The State Data Lake provides access to around 1.7 crore electricity connections, enabling officials to assess economic activity even among MSMEs not covered by GST turnover data.

He said around 1.21 lakh GST-linked MSMEs were currently inactive, with no reported turnover. District administrations would be able to identify such units and examine the reasons for their inactivity. The system will enable collectors to analyse activity down to the district, mandal and enterprise levels, helping identify businesses and sectors requiring intervention and potential revival. Babu said Andhra Pradesh's GST-based approach had also received appreciation at a national-level MSME coordination meeting in New Delhi.

Focus on infra projects, clear land acquisition

- Collectors told to clear land, legal and local hurdles on priority
- Ports, airports, highways and rail projects reviewed with firm deadlines
- Rs 1.18 lakh crore national highway projects and 42 railway projects in pipeline

HANS NEWS SERVICE
AMARAVATI

THE state government is focusing on completing major infrastructure projects within stipulated timelines to strengthen investment and economic growth, infrastructure and investments department secretary Kona Sasidhar said at the Collectors'

Conference on Thursday.

He directed collectors to prioritise land acquisition, land transfer, legal cases, local clearances and inter-departmental coordination to speed up project execution. Land acquisition and alienation covering 25,662 acres for ports, fishing harbours, fish landing centres and airports are

to be expedited. The government is developing greenfield ports, fishing harbours and shipbuilding facilities. The targeted completion dates are March 2027 for Ramayapatnam Port, May 2027 for Mulapeta, December 2027 for Machilipatnam and September 2028 for Kakinada Gateway.

Fishing harbours at Juvvaladinne, Uppada, Nizampatnam and Machilipatnam are targeted for completion between December 2026 and December 2027. Aviation projects are underway at Bhogapuram, Kurnool, Tirupati, Kadapa, Vijayawada and Rajamahendravaram, while proposals for several greenfield airports are at different stages. Eight water aerodrome sites and nine heliport locations have been identified. Collectors were asked to identify 5-10 acres for heliports in the remaining districts

and expedite acquisition of 670 acres for expansion of the Puttaparthi airstrip. National highway projects worth Rs 1,18,566 crore covering 1,408 km are in the pipeline. The government has also approved repairs covering 10,238 km of roads, while 78 Pushkaram works and 14 incomplete bridges are being taken up.

Sasidhar said 42 railway and multi-line projects covering 2,678 km, costing Rs 46,789 crore, were underway. Another 343 ROB or RUB projects involve Rs 13,305 crore.

Land acquisition remains pending for 91 national highway projects, 37 railway projects and 13 ROB/RUB projects. Collectors were directed to resolve these issues on priority and maintain project-wise records of pending issues, responsible officials and deadlines.

Govt sets Oct deadline to turn MoUs into projects

- 80% of PS-2025 MoUs and 75 per cent of SIPP projects targeted for grounding
- 17,469 acres of govt land pending handover to APIIC
- Data centres, IT, semiconductors and quantum technology get major push

HANS NEWS SERVICE
AMARAVATI

THE state government has set an October deadline to accelerate the conversion of

investment proposals into actual projects, directing collectors to personally monitor land availability, approvals and other bottlenecks.

At the Collectors' Conference, industries and commerce department nodal secretary N Yuvaraj said the government aimed to convert at least 80 per cent of the 463 MoUs signed under PS-2025 by the end of October. So far, 198 have been converted, while 172 are pending. The remaining proposals represent about Rs 5.54 lakh crore investment and 5.4 lakh jobs.

Similarly, the government is targeting 75 per cent grounding of 359 SIPP-

approved projects by October. Of these, 160 have commenced, while 109 are yet to be grounded. The pending projects involve around Rs 6.35 lakh crore investment and nearly two lakh jobs.

Yuvaraj said 88,678 acres had been requisitioned for industrial purposes since June 2024, but only 22,533 acres had been acquired. Of 30,223 acres of government land requisitioned, 17,469 acres were still awaiting handover to APIIC.

He directed collectors to expedite land acquisition, remove eligible lands from the 22-A prohibited list and complete mutations in APIIC's

name. Though 9,933 acres have been removed from 22-A, another 59,080 acres remain pending. Mutation has been completed for only 5,184 of the 49,074 acres for which requests were initiated. Collectors were also told to hold DIEPC meetings every fortnight to resolve pending NOCs, environmental clearances, building approvals and other hurdles.

ITE&C secretary Katamneni Bhaskar said AP is targeting 6.5 GW of data-centre capacity by 2030, requiring faster land and infrastructure support in Visakhapatnam, Anakapalli and Vizianagaram. Around 1,000 acres is

proposed for an IT Park in Visakhapatnam, while 100 acres is sought for IT and GCC parks.

The government is also pushing electronics, semiconductors and quantum technology. A 250-acre Quantum Hardware Park is proposed in or around Amaravati, while the Quantum Computing Centre is being readied to host the IBM machine by October 15. The state has 23.85 lakh MSMEs, with 138 of 175 proposed MSME parks approved and 22 already operational. Collectors were asked to ensure the remaining parks and investment projects are grounded on schedule.

DSC 2025 ROW

Jagan insists on Lokesh's resignation, CBI probe

- Alleges jobs were given to candidates who never wrote exams; demands CBI probe and Lokesh's exit
- Cites fake certificates, non-existent tournaments, and links to associations headed by Lokesh's relatives in jobs under sports quota
- Claims GOs were tweaked post-recruitment and APPSC exams stalled to hide similar irregularities

HANS NEWS SERVICE
AMARAVATI

YSRCP president Y. S. Jagan Mohan Reddy on Thursday renewed his demand for the resignation of education minister Nara Lokesh and a CBI probe into the alleged irregularities in DSC 2025, asserting that the recruitment process was riddled with unprecedented violations and that jobs were handed out to candidates who did not even write the examinations.

Addressing a press conference at the YSRCP central office in Tadepalli,

Jagan questioned the "conspicuous silence" of Chief Minister N. Chandrababu Naidu and Lokesh on the issues repeatedly raised by the opposition. He said fresh irregularities in the teacher recruitment process were surfacing "day after day," indicating a deeper malaise.

Jagan alleged that the government was deliberately weakening the investigation into the DSC scam and asked why the Chief Minister was "trying to protect his son." He accused the administration of "playing with the lives

YSRCP president Y S Jagan Mohan Reddy speaking to the media at party central office in Tadepalli on Thursday

and futures of unemployed youth" by allowing questionable practices to dictate recruitment.

Raising specific concerns, he asked why the preparation and supervision of DSC examination papers were entrusted to a single individual and why the government introduced GO No. 4 and GO No. 47. He questioned the rationale behind altering these GOs after the recruitment process concluded.

Jagan said 372 posts under the sports quota were filled without conducting any examination. According to him, GO No. 4 and GO No. 47 "opened the gates for irregularities," while GO Nos. 23, 25 and 56 were brought in later "to close those gates after the work was done."

He alleged that jobs were given away in violation of norms and claimed that the coalition government stalled APPSC exams

after the DSC controversy erupted, fearing exposure of similar practices. "Jobs were given based on participation certificates for tournaments that never took place," he said, calling DSC 2025 "a gem in Chandrababu's list of scams."

Jagan accused the government of misleading the legislature and said officials were "running out of words" to defend the recruitment process. He cited case-by-case examples, including 39 sports quota appointments allegedly based on fake certificates. He claimed certificates for judo events in Khammam and softball tournaments were fabricated, and that individuals linked to Lokesh's family headed the associations issuing them.

He also pointed to alleged irregularities in Kho-Kho certificates and cited cases from Kurnool and Kadapa districts where candidates reportedly secured jobs despite not meeting TET or reservation criteria.

21 new nutrition centres to boost malnutrition care in AP

- Health minister says new NRCs will add 175 beds, taking the total to 515 across 42 centres
- Six more 10-bed centres sanctioned for 2026-27, adding another 60 beds
- NRCs recorded over 98% recovery among severely malnourished children in recent years

HANS NEWS SERVICE
AMARAVATI

TWENTY-one new nutrition rehabilitation centres (NRCs) will be established across the state to provide specialised treatment and nutritional support to children suffering from severe acute malnutrition (SAM), health minister Y Satya Kumar Yadav said.

In a statement here on Thursday, he said that the new centres will add 175 beds to the existing capacity.

With these facilities becoming operational in phases, the number of NRCs in the State will increase from 21 to 42, while the total bed strength will rise from 340 to 515.

Eight 10-bed NRCs are being established at Araku, Munchingiput and Chintapalli in Alluri Sitarama Raju district, Anakapalli, Bapatla, Nandyal, Sunnipenta and Narasaraopet in Palnadu district. Works have already been completed at Araku and Nandyal and the centres are expected to become operational soon.

Civil works at Munchingiput are under the tender process, while construction and other works are in progress at Chintapalli and Anakapalli.

Seven five-bed Integrated NRCs are also being established in tribal areas at Addateegala and Y. Ramavaram in the Polavaram region, and Salur, Palakonda, Badagiri, Kurupam and Chinamerangi in Parvathipuram Manyam district. Addateegala and Y. Ramavaram centres are

expected to be inaugurated shortly. In addition, six new 10-bed NRCs have been sanctioned for 2026-27 at Madanapalle, Chittoor, Rajamahendravaram, Machilipatnam, Hindupur and Tanuku, adding another 60 beds.

The government has allocated Rs 4.42 crore for NRC infrastructure, staff capacity building, ASHA incentives and maintenance during 2026-27. Another Rs 12.22 crore has been sanctioned annually towards human resources.

NRCs provide specialised medical care and nutritional support to children below five years suffering from SAM and associated medical complications. In 2024-25, 5,961 children were admitted and 5,878 recovered and were discharged, recording a recovery rate of 98.60 per cent. In 2025-26, 6,195 children were admitted and 6,168 recovered. From April to August 2026, 2,492 children were admitted and 2,462 recovered, registering a recovery rate of 98.80 per cent.
